## College Catalog 2021-2022

Reynolds Community College  
Post Office Box 85622  
Richmond, Virginia 23285-5622

Reynolds Community College provides its website, catalog, handbooks, and any other printed materials or electronic media for your general guidance. Reynolds does not guarantee that the information contained within them, including, but not limited to, the contents of any page that resides under the DNS registrations of reynolds.edu is up-to-date, complete and accurate, and individuals assume any risks associated with relying upon such information without checking other credible sources, such as a student's academic advisor. In addition, a student's or prospective student's reliance upon information contained within these sources, or individual program catalogs or handbooks, when making academic decisions does not constitute, and should not be construed as, a contract with Reynolds. Further, Reynolds reserves the right to make changes to any provision or requirement within these sources, as well as changes to any curriculum or program, whether during a student's enrollment or otherwise.

Links or references to other materials and websites provided in the above-referenced sources are also for information purposes only and do not constitute the Reynolds endorsement of products or services referenced.

J. Sargeant Reynolds Community College is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award associate degrees and certificates. Questions about the accreditation of Reynolds may be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097, by calling (404) 679-4500, or by using information available on SACSCOC's website ([www.sacscoc.org](http://www.sacscoc.org)).

## MESSAGE FROM THE PRESIDENT

I am delighted to welcome you to Reynolds Community College! Think of this catalog as a roadmap. It provides you with valuable information about our programs, along with the steps, resources, and services available to help you reach your educational and career goals, on time. Reynolds offers an exciting, challenging, and supportive learning environment that will prepare you for careers of the future. We offer nearly 80 academic programs of study as well as customized and workforce training programs. Approximately 13,000 students each year call Reynolds home.

I encourage you to take advantage of all of the great opportunities the college has to offer you. Reynolds is a special place – the diversity of cultures, ethnicities, and traditions in our students, faculty, and staff make our learning environment an incredibly rich one. Get involved in co-curricular activities – it will make your experience here much more enjoyable and memorable. Whether you are pursuing an associates degree, taking courses to transfer to a four-year institution, or upgrading your job skills, the dedicated faculty and staff at Reynolds are committed to helping you achieve success.

I wish you a rewarding time at Reynolds, so that when you look back you can say this is where you got your start – and it was a great one!

Thank you so much for joining our college community.

Sincerely,

A handwritten signature in black ink that reads "Paula P. Pando". The signature is written in a cursive style.

Paula P. Pando, Ed.D.  
College President

Responding to the recommendation of a legislative study committee that “every citizen of the Commonwealth be given an opportunity to attend an institution of higher learning offering academic, occupational/technical, and community service programs at a nominal cost,” in 1966 the General Assembly of Virginia established a state-wide system of community colleges. A newly established State Board for Community Colleges prepared a master plan for a system of 23 institutions.

The Lieutenant Governor, J. Sargeant Reynolds, heralded the creation of the community college system by the General Assembly as “one of its finest acts and finest hours in this century.”

Reynolds Community College, the last of these colleges, is named in honor of the late Lieutenant Governor of the State, who championed legislation creating the state-supported community colleges. Opened in 1972 in temporary headquarters, Reynolds is now a four-location (Parham Road, Downtown, Goochland, The Kitchens at Reynolds) institution. It is one of the largest in the Virginia Community College System, serving the City of Richmond and the counties of Goochland, Hanover, Henrico, Powhatan, and Louisa.

From its inception, Reynolds has recognized its strategic role in the metropolitan Richmond area’s economic development. In 1977, Reynolds established its nationally recognized Center for Office Development, a statewide pilot project with the Virginia Community College System and State of Virginia, to provide training in office and supervisory skills for employees of the Commonwealth. Within several years the Center opened this training opportunity to all individuals and businesses.

By Spring 1989, Reynolds offered short-term training and seminars at three strategic locations in the metropolitan Richmond area.

Demand for these services from the business community continued to escalate. As a result, Reynolds reorganized its outreach efforts in 1994 by creating the Institute for Economic Development & Extended Studies. In response to the evolving needs of the business community, the unit reorganized in the fall of 2000, changing its name to the Institute for Workforce Development. The Institute was comprised of six Centers including the Center for Corporate Training, the Center for Organizational Effectiveness, the Center for Lifelong Learning, the Center for Apprenticeship Programs, the Center for Entrepreneurial Development, and the Center for Professional Development and Renewal.

Reynolds and John Tyler Community College collaborated in 2003 to create a new workforce development entity that provides business, industry, and government in the region with a single source for workforce development. The new organization is named the Community College Workforce Alliance (CCWA). The alliance is a cooperative partnership dedicated to supporting economic development and providing world-class workforce training and services to both the public and private sectors. The vision behind the new organization is to maximize the talents and resources of both institutions’ current workforce development centers in an effort to provide Richmond, Tri-cities, and surrounding counties with a world-class regional workforce development organization.

Reynolds currently offers two-year college transfer and occupational-technical degrees, one-year occupational-technical certificates, and career studies certificates requiring less than one year of full-time study. Having enrolled more than 352,000 persons in credit courses since its opening, Reynolds continues to strive to meet the aspirations of its namesake to provide “a practical and economic answer to the future educational needs of thousands of Virginians.”

### **Mission**

J. Sargeant Reynolds Community College (Reynolds) provides an accessible, quality education that develops students for success in the workplace, prepares students for successful transfer to colleges and universities, builds a skilled workforce that contributes to regional economic development, and promotes personal enrichment and lifelong learning.

### **Vision**

Reynolds will be the preeminent pathway to the workforce and degree attainment for the greater Richmond region.

### **We Value**

#### **Our Students**

We promote high academic standards and innovative programs that enable our students to go further and faster in pursuit of their goals.

#### **Our People**

We promote a culture of collaboration, hire talented individuals, and invest in their professional and personal growth.

#### **Our Community**

We enrich our community through education, leadership, partnerships, and volunteerism.

#### **Our Environment**

We create and foster safe, healthy, and inclusive places for learning, teaching, and working.

*As of publication, the college is in the midst of a new strategic planning process that will launch in Fall 2021 and revisions are underway in the language for our vision, mission and values.*

### **Accreditation Statement**

# REYNOLDS COMMUNITY COLLEGE

---

J. Sargeant Reynolds Community College is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award associate degrees and certificates. Questions about the accreditation of Reynolds may be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097, by calling (404) 679-4500, or by using information available on SACSCOC's website ([www.sacscoc.org](http://www.sacscoc.org)).

## Nondiscrimination Policy and Contact Information

### Notice of Nondiscrimination

As a recipient of federal funds, J. Sargeant Reynolds Community College is required to comply with Title IX of the Higher Education Amendments of 1972, 20 U.S.C. § 1681 et seq. ("Title IX"), which prohibits discrimination on the basis of sex in educational programs or activities, admission and employment. Under certain circumstances, sexual misconduct, sexual harassment, and similar conduct constitute sexual discrimination prohibited by Title IX.

Inquiries concerning the application of Title IX may be referred to the College's Title IX Coordinator or to the U.S. Department of Education's Office for Civil Rights at:

## Annual Public Notice

J. Sargeant Reynolds Community College is committed to providing an environment that is free from harassment and discrimination based on any status protected by law. This supplements the following general policy statement set forth by the Virginia Community College System: This institution promotes and maintains educational opportunities without regard to race, color, sex, ethnicity, religion, gender, age (except when age is a bona fide occupational qualification), disability, national origin, or other non-merit factors. Reynolds offers programs in many vocational areas under its open admissions policy. Specifically, Reynolds offers admissions based on selective criteria in Medical Laboratory Technology AAS, Nursing AAS, Practical Nursing Certificate, Respiratory Therapy AAS, and PAVE career studies certificates in Child Care Assistant, Clerical Assistant, Food Service Assistant, and Health Care Assistant through a separate applications process that is nondiscriminatory. For more information about the application process, contact the admissions office known as Enrollment Services at (804) 523-6464.

Inquiries related to Reynolds nondiscrimination policies should be directed to:

Dean of Students  
College Title IX Coordinator and ADA/Section 504  
Compliance Officer  
J. Sargeant Reynolds Community College  
P.O. Box 85622  
Richmond, VA 23285-5622

Telephone: (804) 523-5296  
Fax: (804) 523-5714  
Email: [TIX@reynolds.edu](mailto:TIX@reynolds.edu)

Physical Location: Parham Road Campus, Georgiadis Hall, Room 101

## GI Bill Statement

This institution is approved to offer GI Bill® educational benefits by the Virginia State Approving Agency.

## Locations

---

### Downtown Campus (DTC)

700 East Jackson Street, Richmond

The Downtown Campus is located near the Richmond Coliseum and adjacent to the VA Bio+Tech Park. DTC provides six floors of one- and two-year occupational/technical programs in a number of allied health, business, and community service areas, as well as college transfer programs in business, computer science, liberal arts, and science. A free student shuttle service connects the DTC with a new location one mile away in Richmond's East End known as The Kitchens at Reynolds.

---

### Goochland Campus (GC)

1851 Dickinson Road, Goochland

Located on the same campus as the Goochland Family YMCA near routes 6 and 632, this campus offers a range of hands-on programs. These career paths range from automotive, diesel mechanics, and welding, to floral design, horticulture, and sustainable agriculture. Select general education and transfer courses are also available at GC. This campus contains beautiful gardens, and multiple greenhouses, for student learning.

---

### Parham Road Campus (PRC)

1651 East Parham Road, Richmond

The Parham Road Campus, located one mile west of I-95 in Henrico County, offers college-transfer programs in computer science, education, engineering, liberal arts, and science, as well as a broad range of programs in the areas of business and public service. There are four main buildings at PRC and a free student shuttle service connects this campus to DTC, expanding academic offerings for students.

# REYNOLDS COMMUNITY COLLEGE

---

## **The Kitchens at Reynolds**

2500 Nine Mile Road, Richmond

Classes began August 2020 at this new location about one mile from the Downtown Campus. The Kitchens at Reynolds was designed to feature four world-class culinary kitchens, a state-of-the-art greenhouse, and an eatery with affordable food options to dine in or take home. More than a culinary school, The Kitchens at Reynolds provides a new front door to college in the East End. A free student shuttle service connects students with the nearby DTC and expanded program offerings and workforce training opportunities.

Admission Requirements	18
Direct Enrollment	18
Placement Survey Waivers	19
International Student Admissions	20
Student Identification	20
Community College Workforce Alliance	20

## Admission Requirements

Reynolds Community College is an equal opportunity institution providing educational and employment opportunities, programs, services, and activities. Reynolds does not discriminate on the basis of age, color, disability, family medical history or genetic information, military service, national origin, parental status, political affiliation, race, religion, sex (including pregnancy and gender identity), sexual orientation, or any other non-merit based factor. See the full Nondiscrimination Policy and Contact Information section in this catalog.

Consistent with its mission of providing educational access and development in its region, Reynolds admits as either a curricular student or non-curricular student, anyone with a recognized high school diploma, a GED, or certificate of completion of home schooling, or who is 18 years of age and has demonstrated college readiness.

Curricular applicants are persons who plan to enroll in credit courses in order to earn a degree or certificate. An applicant applying as a curricular student must have received a recognized high school diploma or GED. Admission into selected programs, as specified in the Program Information section of this catalog, may require applicants to satisfy additional program-level entrance requirements.

Non-curricular applicants are persons who plan to enroll in credit courses without earning a degree or certificate at Reynolds.

New students, students returning from an absence of at least three years, or students who submitted an application and did not attend within one year must apply/re-apply for admission by completing the Reynolds Application for Admission. Official high school transcripts that include graduation date or official GED exam results are required of applicants who are in the process of completing secondary studies. Applicants to the Nursing or Practical Nursing programs must submit official high school transcripts that document graduation or a GED. For reinstatement from suspension or dismissal refer to the Classroom and Instructional Policies and Procedures section in this catalog.

Newly admitted curricular students should participate in Student Orientation, Advising & Registration (SOAR) by visiting the SOAR website, calling (804) 523-5155, or by email [SOAR@reynolds.edu](mailto:SOAR@reynolds.edu) to be connected with an Advisor. The Advisor will administer a welcome session to evaluate the student's career goals, create or affirm academic plan selection, connect students to college resources, and assess wraparound supportive options. Students whose primary language is not English must also complete the Language Proficiency Battery before taking the Advising Questionnaire.

The Office of the Registrar will evaluate requested advanced standing and transfer credit for curricular students, preferably prior to the student's first registration at Reynolds (see the Advanced Standing section of Classroom Policies and Procedures in this catalog).

Reynolds reserves the right to evaluate special cases and, when considered in the best interest of Reynolds, refuse admission to

applicants. Furthermore, when enrollments must be limited for any curriculum, priority shall be given to all qualified applicants who are residents of the geographical subdivisions supporting Reynolds and to Virginia residents not having access to a given program at their local community college, provided such students apply for admission to the program prior to registration or by a deadline established by Reynolds. In addition, residents of localities with which Reynolds has a clinical-site or other agreements may receive equal consideration for admission.

Applications may be submitted through the Reynolds website ([reynolds.edu](http://reynolds.edu)), in person, by mail, or by fax. Send or mail to:

### Office of Admissions

Reynolds Community College  
P. O. Box 85622  
Richmond, Virginia 23285-5622  
Telephone: (804) 523-5029  
FAX: (804) 371-3650

## Direct Enrollment

At Reynolds, the goal of Direct Enrollment is to enroll students in courses that maximize their opportunity for success. Studies show that direct enrollment into college-level English and mathematics removes potential roadblocks to student success, assisting students in completing their college studies in less time and resulting in financial savings.

Multiple placement measures, such as high school GPA, SAT/ACT scores, and/or GED scores, will determine which English and mathematics courses students need to take. Based upon such criteria, students may be placed directly into the gateway college-level English or mathematics course required in their program of study. In some cases, direct placement into a college-level English or mathematics course may be accompanied by a requirement to enroll in a co-requisite course. Co-requisite courses are designed to increase student success in the accompanying college-level class. Students who are not fully prepared for direct placement into a college-level English or mathematics course, with or without the co-requisite course requirement, will be placed into a developmental course designed to elevate the student's preparedness for the gateway college-level English or mathematics course required in the student's chosen program of study.

Students who graduated from high school or received a GED more than five years ago will be placed into the appropriate English and math courses using the college's informed self-placement process.

### English Direct Enrollment

After completing the college application and the advising questionnaire, students will receive one of the following placements:

- Direct enrollment into ENGI11
- Direct enrollment into ENGI11 with the co-requisite EDE 11
- Enrollment in EDE 10

## Mathematics Direct Enrollment

The gateway college-level mathematics course required in a student's program of study varies depending upon the program chosen. After completing the college application and the advising questionnaire, students will receive one of the following placements:

- Direct enrollment into the proper college-level mathematics (MTH) course
- Direct enrollment into the proper college-level mathematics (MTH) course with the corresponding co-requisite mathematics (MDE) course
- Enrollment in the proper developmental mathematics (MDE) course

After completing the advising questionnaire, students should meet with an advisor or counselor to create an academic plan and enroll in appropriate courses.

## Informed Self-Placement

Students who graduated from high school or received a GED more than five years prior to applying to the college may self-place into English and mathematics courses based upon completion of the advising questionnaire and the student's own self-assessment of familiarity with basic concepts that are essential to success in the college-level English or mathematics course required in their chosen program of study.

After completing the advising questionnaire and reviewing the English and mathematics questions to evaluate readiness for college-level courses, students should meet with an advisor or counselor to create an academic plan and enroll in the appropriate courses.

## Placement Survey Waiver

Students may use informed self-advising if they meet one of the following:

- Hold a degree from an accredited college
- Successfully completed an appropriate developmental course at another Virginia community college
- AP scores of 3 or higher on the English language test
- Received a writing placement recommendation above the developmental level from another college
- Transient students who submit an appropriately completed Transient Student Form
- Have successfully completed a transferable course at another college

High school GPA (HSGPA) is valid for five years after the date of high school graduation. SAT, ACT and GED Test scores are valid for five years after the date of the test. Virginia Placement Test-English scores are valid for five years after the date of the

test. Previously taken developmental courses will be valid for five years after term taken.

## High School Students Enrolled at Reynolds

Students may be permitted to enroll in college-level courses at Reynolds prior to graduating from high school. Students enrolled in local school systems may enroll as dual-enrollment students. Reynolds has dual enrollment agreements with local school systems to offer college-level courses at Reynolds or high school locations. Dual enrollment is initiated through the students' high school and is approved by the Reynolds dual enrollment coordinator. Other students, including home school students, may enroll via concurrent enrollment. High school students approved to take courses at Reynolds may receive both high school and college credit.

High school juniors and seniors may be permitted to enroll in college-level courses as special admission students. As a requirement for special admission, high school students must demonstrate college readiness as determined by Reynolds. Exceptions for enrolling freshman and sophomore students are considered by the Reynolds President or her designee. Requests for exceptions for high school freshman and sophomores are collected through the Office of Admissions.

Reynolds must receive written permission from the student's high school principal for each semester or term the student would like to enroll. The parent of home school students will be recognized as the high school principal. High school students cannot register for developmental, health, or physical education courses. High school students are not eligible to apply for financial aid.

## Visiting Transfer Students

Students indicating that they are enrolling at Reynolds in order to satisfy program requirements at their home institution (college or university) will be admitted as non-curricular transient students. Such students should submit a completed Reynolds Transient Student Approval Form signed by the student's home institution advisor for each semester of enrollment at Reynolds. This form ensures transfer of the courses to the home institution program. Based on the certification of readiness by the home institution, Reynolds may not require college transcripts or proof of the completion of certain course prerequisites.

## College Readiness for Non-High School Graduates

Students who are at least 18 years of age seeking admission into one of Reynolds' curricular programs and who lack a recognized high school diploma or the recognized equivalent (General Equivalency Diploma or Home School Completion Certificate) will be required to meet the college readiness standards.

Students who meet the college readiness standards may be admitted to Reynolds in either non-curricular or curricular programs, provided they have also satisfied other admission requirements. The college readiness assessment cannot be used to gain admission into the Nursing and Practical Nursing programs; these programs require completion of a high school diploma or GED.

Students who do not meet the college readiness standard and wish to enroll will be admitted as non-curricular students only. They will remain non-curricular students until such time as they

obtain a high school diploma or GED certificate. Students may be allowed to retake the test for mitigating circumstances or after a minimum of four months.

## International Student Admissions

Reynolds is authorized under Federal law to enroll non-immigrant students. The deadline for submission of international student applications with accompanying documentation is:

June 1 for the fall semester  
September 28 for the spring semester

Contact the international student advisor for more information and to request an International Student packet for admission. F-1 applicants will be considered for admission to an associate degree program or to the ESL program depending on placement test scores. Admission is not guaranteed and is particularly selective for A.A. and A.S. (university transfer) degree programs. Reynolds does not admit F-1 applicants to any allied health program.

Contact the international student advisor in the Office of Admissions at (804) 523-5029 or email [international@reynolds.edu](mailto:international@reynolds.edu), for the International Student packet which explains the admission process and the eligibility requirements for a student visa.

## Student Identification

### Social Security Number

It is highly recommended that individuals provide their social security number at the time of application (per Section 6050S of the Restructuring and Reform Act of 1998). An individual's social security number will be used in accordance with federal/state reporting requirements and/or identification and research purposes within the VCCS.

Applicants for financial aid are required to submit their Social Security numbers. Pell Grant program applicants should note that the U. S. Department of Education requires Social Security numbers when processing applications. The Internal Revenue Service also requires valid Social Security numbers.

### Student Identification Number (EMPL ID)

Reynolds assigns a student identification number at the time of application. Students must use this number to access various services at the college. When requested through the Reynolds application, students new to Reynolds who have attended another VCCS college should supply the EMPL ID assigned by the other college. Students who have records that exist at Reynolds and another VCCS college should contact the Office of Admissions at (804) 523-5029 for guidance on the student identification number to select.

## Community College Workforce Alliance

[ccwatraining.org](http://ccwatraining.org)

Community College Workforce Alliance (CCWA), the workforce development partnership between Reynolds and John Tyler Community Colleges, serves the training needs of the region with a comprehensive suite of programs, courses, and services. The partnership combines the strengths of the two colleges in order to provide the highest quality of training in four cities and 12 counties throughout Central Virginia.

CCWA provides workforce credentials training to get regional residents prepared for full-time, skilled jobs. This training, called FastForward, comes with financial assistance for all Virginians – at low to no cost. Additionally, CCWA offers individual and custom-designed instruction, business consulting, skills assessments and career coaching. CCWA provides online course registration with in-person, online and hybrid (combining classroom-based and online) instruction delivered by faculty with related industry experience and technical expertise. Instructors and CCWA career coaches have the skills and certifications to assist job seekers and companies to achieve their professional and strategic business goals.

### Open Enrollment

CCWA provides hundreds of short-term professional development courses and certification programs in technology, business administration and management, manufacturing and trades, health care and other occupational areas. Classes can be completed in weeks, days or even hours, in-class or online. Visit [ccwatraining.org/catalog](http://ccwatraining.org/catalog) to view the most recent course schedule.

### Business Solutions

CCWA works with large and small, new and expanding businesses to build tailor-made workforce training programs to increase employee performance and engagement and streamline work flow. Programs (including industry certification training) and services are offered at CCWA's two workforce centers and two additional instructional spaces on four campuses of Reynolds and John Tyler community colleges. For more information, visit [ccwatraining.org/training-for-businesses](http://ccwatraining.org/training-for-businesses).

### FastForward Certifications

CCWA has prepared thousands of individuals for regionally available jobs through its FastForward workforce credentials program which provides any Virginian eligible to work in the Commonwealth with industry certification training. FastForward programs are available at one-third the normal cost of tuition for all residents of Virginia, and Virginians with financial need may also be eligible for additional tuition support including a grant covering all tuition, fees, books and supplies. Careers with great pay are readily available in the region in manufacturing, transportation and logistics, construction and trades, health care and information technology. There are multiple, new CCWA FastForward programs in each of these fields. Participants in FastForward programs also benefit from career coaching, job connections, and a shortened schedule of instruction designed to get participants certified and working as soon as possible.

CCWA can also provide financial support for incumbent worker training on the worksite or at CCWA's training centers through

the FastForward program. Those interested can register by phone, fax, visiting a CCWA office, or on-line.

Visit [ccwatraining.org/certifications](http://ccwatraining.org/certifications) for more information.

### **Financial Aid for Unemployed and Underemployed Workers**

Thanks to new statewide workforce programs such as Virginia Ready and Re-Employing Virginians, CCWA now has financial aid to pay 100% of tuition, books, and supplies for job and certification training for occupations and industries in which there is a strong regional demand for skilled workers. For more information, contact a CCWA career coach at (804) 523-2292 or [careercoach@ccwa.vccs.edu](mailto:careercoach@ccwa.vccs.edu).

CCWA is also directly connecting all students seeking a new job or their first job with employers in the industry sectors relevant to CCWA's FastForward and other workforce training programs. Through new technologies, career coaches, and CCWA's instructional coordinators, CCWA is helping manufacturing, logistics, health care, trades, transportation, and IT employers find a credentialed and job ready workforce.

### **Facilities Rentals**

For organizations seeking meeting services, facility rentals are available for business meetings, conferences, and events. Visit [ccwatraining.org/meetings](http://ccwatraining.org/meetings) or call 804-523-2292.

CCWA locations include:

#### **Henrico: Workforce Development and Conference Center**

*(on the campus of Reynolds Community College)*  
1651 Parham Road, Richmond  
(804) 523-CCWA (2292)

#### **Chester: William H. Talley III Center for Workforce Development**

## Domicile Determination for In-State Tuition Eligibility

Reynolds makes an initial determination of a student's eligibility for in-state tuition rates (domiciliary status) based on the information the applicant and/or the applicant's parent, legal guardian, or spouse supplies on the Application for Admission. Applicants certify that they have provided accurate information on behalf of parents, legal guardians, and spouses. The determination is made under the provisions of section 23-7.4 of the Code of Virginia (on file in Office of the Registrar). Non-U.S. citizens seeking eligibility for in-state tuition rates must provide immigration and other required documents. Occasionally Reynolds may require clarification or additional information from the applicant before making the determination.

Students requesting to appeal out-of-state status must submit a completed Application for Re-Classification Of Student's Domicile Status. This form is available at [www.reynolds.edu](http://www.reynolds.edu) or the Admissions Office. The completed form, with needed supporting documentation, must be submitted at least two weeks prior to the first day of classes of the semester the student is attempting to enroll. The determination will be issued in writing prior to the first official day of classes. Requests for review of domicile and domicile appeals that are received after the first day of classes will be considered for subsequent semesters only. Residency status must be determined prior to the start of the term. Appeals and domicile status changes are not retroactive.

### Title 38 United States Code Section 3679(c)

The following individuals shall be charged the in-state rate, or otherwise considered a resident, for tuition purposes:

- A Veteran using educational assistance under either chapter 30 (Montgomery G.I. Bill® – Active Duty Program) or chapter 33 (Post-9/11 G.I. Bill®), of title 38, United States Code, who lives in the Commonwealth of Virginia while attending a school located in the Commonwealth of Virginia (regardless of his/her formal State of residence) and enrolls in the school within three years of discharge from a period of active duty service of 90 days or more.
- Anyone using transferred Post-9/11 GI Bill® benefits (38 U.S.C. § 3319) who lives in the Commonwealth of Virginia while attending a school located in the Commonwealth of Virginia (regardless of his/her formal State of residence) and enrolls in the school within three years of the transferor's discharge from a period of active duty service of 90 days or more.
- A spouse or child using benefits under the Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. § 3311(b) (9)) who lives in the Commonwealth of Virginia while attending a school located in the Commonwealth of Virginia (regardless of his/her formal State of residence) and enrolls in the school within three years of the Service member's death in the line of duty following a period of active duty service of 90 days or more.
- An individual using educational assistance under chapter 31, Vocational Rehabilitation and Employment (VR&E) who lives in the Commonwealth of Virginia while attending a school located in the Commonwealth of Virginia (regardless

of his/her formal State of residence) effective for courses, semesters, or terms beginning after March 1, 2019.

- Anyone described above while he or she remains continuously enrolled (other than during regularly scheduled breaks between courses, semesters, or terms) at the same institution. The person so described must have enrolled in the institution prior to the expiration of the three-year period following discharge or release as described above and must be using educational benefits under either chapter 30, chapter 33, or chapter 31 of title 38, United States Code.

## Financial Aid

Financial aid is money provided to students to help pay college expenses, including direct educational expenses such as tuition, fees, books, and supplies, as well as cost of living expenses like food, housing, and transportation. Reynolds processes over 13,000 financial aid applications each year. Each year more than 8,000 curricular- and certificate-seeking students receive over \$25 million in loans, grants, and work-study.

This section contains a brief overview of selected financial aid information and is subject to revision without notice. Current details on aid programs, policies, and procedures are available on the Reynolds website at [www.reynolds.edu/financialaid](http://www.reynolds.edu/financialaid). Students needing assistance should contact the Office of Financial Aid. The staff within the Office of Financial Aid can assist students with completing applications, reviewing verification documents and worksheets, obtaining financial aid information, understanding financial aid policies, and will work with students to collect requested documents to ensure timely processing of their financial aid. To receive printed information about financial aid programs and regulations, submit a written request to the Office of Financial Aid at P.O. Box 85622, Richmond, VA 23285-5622 or email [finaid@reynolds.edu](mailto:finaid@reynolds.edu).

## Application Process

1. If new to Reynolds, apply for admission to Reynolds as a degree/certificate candidate. Students must be admitted into an approved curricular program in order to be eligible for financial aid.

2. Complete a Free Application for Federal Student Aid (FAFSA) at the US Department of Education's free website: [fafsa.ed.gov](http://fafsa.ed.gov). FAFSA on the web is the best way to apply for aid.

Students do not need to receive an admissions decision before applying for financial aid. Students must complete a new or renewal FAFSA that coincides with the new academic year to reapply for financial aid. For more information on the process, please visit our website at: [www.reynolds.edu/financialaid](http://www.reynolds.edu/financialaid) and select "Applying for Financial Aid." It is important that students list Reynolds (federal code #003759) as an institution that will receive their completed FAFSA.

3. Renewal applicants may access their renewal FAFSA at [fafsa.ed.gov](http://fafsa.ed.gov) by selecting "Returning User."

# REYNOLDS COMMUNITY COLLEGE

**NOTE:** Reynolds encourages applicants to apply electronically using FAFSA on the web. The web application will automatically prompt the student to enter all required fields and will question any erroneous data. In addition, the results of a FAFSA completed electronically are received in approximately three to five business days, whereby a paper FAFSA takes approximately four to six weeks.

4. After completing the 2021-2022 FAFSA, applicants will receive a Student Aid Report (SAR) from the US Department of Education. If any corrections are necessary, students should correct the information on the web, or on the signed SAR and mail it back to the Central Processor at the address listed on the SAR. **Students are randomly selected by the federal government to verify the information that is listed on the FAFSA. Students who are selected for verification will receive a request in their SIS Message Center for additional information from the Reynolds Office of Financial Aid. This information should be returned to the Office of Financial Aid; students will not be awarded financial aid until all requested information has been submitted.**

5. Students should promptly respond to any financial aid or admissions inquiries sent by Reynolds. The student should be sure to complete and return other financial aid materials, such as loan applications, if applying for an educational loan. Students must have applied and have ALL requested documents on file, to include Verification materials and SAR corrections, in the Office of Financial Aid on or before the posted deadline for each semester. FAFSAs and incoming documents received on or before the posted deadline will receive priority processing. FAFSAs and incoming documents received after the posted deadline will be processed after the priority applications are completed. (Refer to the Financial Aid Deadlines section.)

6. After a completed FAFSA is received by the federal processor, the results will be sent to the student and to Reynolds. The Office of Financial Aid will use the information from the FAFSA to determine a student's eligibility, develop an award package and notify the student of the award by email to the VCCS email account and SIS Message Center. It is anticipated that award notifications will be sent beginning in April. All financial aid is awarded assuming full-time enrollment (i.e. 12 or more credit hours) for each of two semesters (fall and spring). If a student enrolls less than full-time, the award amount will be prorated accordingly.

## General Eligibility Criteria

A student's eligibility for financial aid is determined using the following formula:

Estimated Cost of Attendance  
– Expected Family Contribution

---

### = Demonstrated Financial Need

The federal government, using information reported on the Free Application for Federal Student Aid (FAFSA), computes the Expected Family Contribution (EFC).

The Office of Financial Aid at Reynolds develops a financial aid package that attempts to meet students' demonstrated financial need. However, because the various funding sources are limited, the amount of financial aid funds awarded may not meet full need. Students should contact the Office of Financial Aid if they believe that there are changes in their financial circumstances not covered by information provided on the FAFSA that could have an impact on their financial aid eligibility.

Students admitted as non-curricular, transient, dual-enrolled or concurrent are ineligible to receive financial aid. Students enrolled in career studies certificate programs that require less than 16 credits to complete are ineligible to receive financial aid. Certain other career studies certificate programs are also ineligible for financial aid. If you have any questions regarding a specific program's eligibility for financial aid, contact the Office of Financial Aid or see our website at [www.reynolds.edu/financialaid](http://www.reynolds.edu/financialaid).

## Eligibility Criteria

### Program Eligibility

Students may be eligible for financial aid assistance in the form of a grant, loan, scholarship, and/or work-study award.

To be eligible for most federal and state aid programs, a student must:

- Be a U.S. citizen or an eligible non-citizen;
- Be admitted to, and pursuing, an eligible degree or certificate program;
- Have a high school diploma, a General Education Development (GED), or a certificate of completion of homeschooling.
- Have a valid Social Security number;
- Make satisfactory academic progress;
- Certify on the Free Application for Federal Student Aid (FAFSA) that federal student aid will be used only for educational purposes;
- Not be in default on a federal student student or owe money on a federal grant;
- Register with the Selective Service if required (males only); and
- Be enrolled in eligible credit courses. No financial aid is available for non-credit or audited courses.

**NOTE:** To be considered for Virginia state financial aid programs, applicants must qualify for the in-state tuition rate and submit the FAFSA.

## Deadlines

To ensure the timely processing of financial aid applications (FAFSA), students should complete and submit the FAFSA to the federal processor by no later than April 15 for the fall semester; September 15 for the spring semester; and March 15 for the summer semester. The chart below lists deadlines for the FAFSA and for other information related to the financial aid application process.

Document	Fall 2021 Priority	Spring 2022 Priority	Summer 2022 Priority
----------	-----------------------	-------------------------	-------------------------

	<b>Deadline</b>	<b>Deadline</b>	<b>Deadline</b>
<b>FAFSA</b>	April 15, 2021	Sept 15, 2021	March 15, 2022
<b>Loan Request</b>	July 1, 2021	Oct 15, 2021	April 1, 2022
<b>Admission and Program Placed</b>	June 15, 2021	Nov 15, 2021	April 15, 2022
<b>Verification and SAR Corrections</b>	June 15, 2021	Nov 15, 2021	April 15, 2022
<b>Other Missing Information</b>	July 15, 2021	Nov 15, 2021	April 15, 2022

## Loan Applications

Students interested in applying for federal student loans must complete the FAFSA and submit a loan request form to the Office of Financial Aid by July 1 if applying for a loan for the fall, October 15 for the spring, and April 1 for the summer. The last day a loan application may be submitted for processing is October 15 for the fall semester; April 1 for the spring semester; and July 1 for the summer semester. Students must also complete an entrance counseling session and master promissory note at [studentloans.gov](http://studentloans.gov) before their loan can be disbursed. In addition, **students must maintain enrollment in at least six semester hours in order to remain eligible for a loan.**

## Federal and State Financial Aid Programs Offered at Reynolds

Program	Who is Eligible	Value	Application Procedure
<b>Children of Law Enforcement Officers</b>	Children, ages 16 to 25, of Virginia law enforcement officers, firefighters, or rescue squad members who have been killed in the line of duty.	May be eligible for full tuition and fees.	Contact the Office of the Registrar.
<b>Federal Pell Grant</b>	Undergraduate students, who prove exceptional financial need.	\$1 to \$6,495 per year (Subject to yearly change)	Complete the FAFSA.
<b>Federal Direct Stafford Loan Subsidized</b>	Students enrolled at least half-time (six credits), who prove financial need.	Up to \$3,500 for the 1st year of undergraduate education. Up to \$4,500 for each subsequent year of undergraduate education. (Subject to change)	Complete the FAFSA. Obtain a Federal Stafford Loan request from the Office of Financial Aid or Reynolds Financial Aid website. Complete the Master Promissory Note (MPN) and Entrance Counseling (EC) at <a href="http://studentloans.gov">studentloans.gov</a> .
<b>Federal Direct Stafford Loan Unsubsidized</b>	Students enrolled at least half-time (six credits). Financial need is not a factor.	Up to \$6,000 for each year of Undergraduate Education. (Subject to change)	Complete the FAFSA. Obtain a Federal Stafford Loan request from the Office of Financial Aid or Reynolds Financial Aid website.
<b>Federal Supplemental Educational Opportunity Grant Program(FSEOG)</b>	Undergraduate students who prove exceptional financial need, and who qualify for a Federal Pell Grant.	\$100 to \$1,000 per year. (Subject to change)	Complete the FAFSA.
<b>Federal Work-Study Program(FWS)</b>	Undergraduate students enrolled at least half-time (six credits), who prove financial need.	Varies with the hourly wage and hours worked. The hourly rate is \$10.	Complete the FAFSA. Complete FWS Application found on the Reynolds Financial Aid website. Interview and be selected for a job.
<b>Senior Citizen Program</b>	Senior citizens, age 60 or older, who have been legally domiciled in Virginia for a year. For credit courses, senior citizens must meet Virginia taxable income guidelines.	May take advantage of tuition-free courses, on a space available basis, after paying students have been enrolled.	Contact the Office of the Registrar at (804) 523-5826.
<b>Veteran's Administration Educational Assistance</b>	Veterans; active duty, Reserve & National Guard personnel; and certain spouses and children of veterans.	Varies according to the program. Usually a monthly benefit check.	Contact the Veterans Services at Reynolds, or the VA Regional Office in Roanoke, Virginia.
<b>Virginia Commonwealth Grant</b>	Undergraduates, enrolled at least half-time (six credits), who prove financial need. Virginia domicile required.	Based on SCHEV-approved award schedule, up to the cost of tuition and fees.	Complete the FAFSA.
<b>Virginia Guaranteed Assistance Program Grant (VGAP)</b>	Initial awards made to first-time students enrolled full-time, who graduated from a Virginia high school with a cumulative grade point average of 2.5 or higher. Must prove financial need, be a dependent student for federal	Based on SCHEV-approved award schedule, up to the cost of tuition, fees, and a book allowance.	Complete the FAFSA and submit a copy of high school transcript to the Financial Aid Office.

	financial aid purposes, and Virginia domicile required.		
<b>Virginia Military Survivors and Dependents Education Program(VMSDEP)</b>	Children, ages 16 to 29, and Spouses of certain wounded, disabled, or deceased Virginia veterans or armed service personnel may be eligible for educational assistance.	The amount of the student's tuition and required fees. Book stipend.	Contact the Veterans Services at Reynolds.
<b>Virginia Part-Time Tuition Assistance Program Grant (PTAP)</b>	Undergraduate students, enrolled for 1-8 credit hours, who prove financial need. Virginia domicile required.	Up to the amount of tuition and fees, or proven need, whichever is less.	Complete the FAFSA.
<b>Vocational Rehabilitation</b>	Students with disabilities.	Determined by the Virginia Department Rehabilitative Services.	Contact your local Rehabilitative Service Office.

## Disbursement

Students who are receiving financial aid will have their aid applied directly to tuition and fees. Financial aid recipients may use a portion of their award to purchase books and supplies at a campus bookstore if the amount of their financial aid award exceeds the cost of tuition and fees. Typically, students may begin charging books to their financial aid at least five days prior to the first day of classes. The last day to drop a class with a refund for the second 7-week session is also the last day students may charge books and supplies to their financial aid, if their financial aid award has not disbursed.

A student's financial aid funds will be disbursed to student financials after the census date has passed for all the classes in which they are enrolled. Refunds will be sent to the student by way of either direct deposit or a paper check via U.S. Mail. Refunds represent the amount of the student's semester award, minus any funds used to pay tuition and fees or to purchase books and supplies.

All services will be withheld from a student who owes money to Reynolds or who has books and materials outstanding from the Reynolds libraries. This means no transcripts will be issued, the student will not be permitted to re-register, and no other college services will be provided.

Students must pay tuition and fees, or have sufficient anticipated aid by the published payment deadlines or they will be dropped from all or some courses for non-payment. Anticipated financial aid will hold a student's registered classes if that aid is greater than or equal to the total tuition and fees. Students who want to use financial aid to pay bookstore charges must first register for classes. Students who are not certain if their aid is sufficient to cover their tuition and fees can review the information in the Student Information System (SIS), or contact Office of Financial Aid or a campus Business Office.

## Students Attending Two Colleges at the Same Time

Students who are enrolled at two different colleges or universities are not able to receive financial aid at both institutions. A student

who is enrolled concurrently at Reynolds and another college must decide which college financial aid will be received and communicate that decision to the financial aid office of that institution.

Students who receive financial aid from two different institutions as a result of concurrent enrollment will lose eligibility for further financial assistance and may be required to repay financial aid funds received at one of the institutions.

For students who attend two schools at the same time, a consortium agreement might be an option. The purpose of a consortium agreement is to allow a student to take courses at one college (host institution) and have those courses count toward their financial aid eligibility at another college (home institution). If approved for a consortium agreement, all courses taken at another college MUST count towards your degree at Reynolds and be approved before any aid at Reynolds can be disbursed. Consortium agreements are done on a semester-by-semester basis for each student.

## Impact of Drops/Withdrawals from Course(s)

Students are eligible for a refund of tuition and fees paid for those credit hours dropped during the published drop period. After the published drop period has passed, there will be no refunds. In all cases of dropped courses, any financial aid the student received based on those credits will be canceled, and the student will owe funds to Reynolds and/or federal government.

To obtain a refund during the published drop period, a student must complete an official Drop form and submit it to the Office of the Registrar or complete the drop process in SIS.

Federal and state financial aid regulations state that a student's financial aid must be recalculated based on the number of calendar days they attended classes if they officially or unofficially withdraws from all classes on or before completing 60% of the semester or does not complete the entire semester. The calculated unearned portion of the total of Title IV funds awarded a student (Pell Grant, SEOG, Federal Direct Stafford Loan, Federal Direct PLUS Loan, COMA, and VGAP) must be

# REYNOLDS COMMUNITY COLLEGE

returned, according to the provisions of the Higher Education Amendments of 1998. The calculation of the return of these funds will likely result in the student owing a balance to Reynolds and/or the federal government.

## Satisfactory Academic Progress

Federal and state guidelines require that institutions monitor students' academic progress towards the completion of a degree or certificate. Students must make Satisfactory Academic Progress (SAP) from both qualitative and quantitative measures. SAP is measured by cumulative GPA, completion rate and maximum time frame. In order to be in compliance with SAP, a student must meet all three criteria. Failure to make satisfactory academic progress results in the loss of financial aid eligibility.

Cumulative grade point average (GPA): A student must achieve a minimum grade point average which is listed below. Only non-remedial courses with grades of A, B, C, D, and F are included in this calculation. Transfer credits are not included in this calculation.

Credit Hours Attempted	Minimum Expected GPA
1 - 15	1.5
16 - 30	1.75
31+	2.0

### Completion Rate:

(Total number of credit hours earned in relation to the number of credit hours attempted) Students must successfully complete two thirds (67%) of the credit hours attempted at the time satisfactory progress is assessed. By law, Reynolds must count developmental, ESL, and all credit courses. Successful completion is considered earned grades of A, B, C, D, P, or S. Courses are not considered successfully completed when grades of F, I, U, W, or R or missing grades are earned. Accepted transfer credits will be counted as both attempted and completed.

### Maximum Time Frame:

(Total number of credit hours attempted in relation to number of credit hours necessary to complete the degree or certification program, including transfer credits). Students must complete their program within 150% of the program's total credit requirements. Developmental credits are not included in this calculation. All non-developmental and transfer credits are included, regardless of whether or not financial aid was received.

## Veterans Benefits

[reynolds.edu/veterans](http://reynolds.edu/veterans)

Eligible veterans are entitled to receive certain educational benefits. The educational benefits for which an eligible veteran may qualify can only be used for courses taken towards the completion of a degree or certificate program.

To receive these benefits, eligible veterans must:

1. Apply to use their Montgomery GI Bill® benefits via the GI Bill® website [gibill.va.gov](http://gibill.va.gov).

2. Apply to Reynolds and be accepted into a degree or certificate program.

3. Register for classes and request certification each semester from the veterans certifying officer at a campus Enrollment Services.

4. Notify the certifying officer if repeating a course or taking a course for no credits.

5. Ensure college transcripts from any institutions previously attended are submitted to the Central Admissions and Records office.

6. Notify the certifying officer if he/she drops or withdraws from classes, or stops attending Reynolds.

For more information on veterans benefits for educational assistance, contact the veterans certifying officer at [veterans@reynolds.edu](mailto:veterans@reynolds.edu) or any campus Enrollment Services at (804) 523-6464.

The Virginia State Approving Agency (SSA) is the approving authority of education and training programs for Virginia. Our office investigates complaints of GI Bill® beneficiaries. While most complaints should initially follow the school grievance policy, if the situation cannot be resolved at the school, the beneficiary should contact our office via email at [saa@dvs.virginia.gov](mailto:saa@dvs.virginia.gov).

## VA Delayed Payment Compliance

Any student receiving Chapters 31 or 33 benefits will be allowed to register and attend class, without being dropped for non-payment, while waiting for payment from the VA. Exceptions to this would include students who are not covered at 100% by the VA. Those students with a balance not covered by the VA will need to pay that balance by the published payment deadline after registering for classes in order to attend those classes.

## Veterans Grievance Procedures Statement

The Virginia State Approving Agency (SAA), is the approving authority of education and training programs for Virginia. Our office investigates complaints of GI Bill beneficiaries. While most complaints should initially follow the school grievance policy, if the situation cannot be resolved at the school, the beneficiary should contact our office via email [saa@dvs.virginia.gov](mailto:saa@dvs.virginia.gov).

## State Educational Assistance Programs

Information about benefits and eligibility for the programs listed below is available in the Admissions Office:

### Senior Citizens Program (Policy 1-33):

Senior citizens 60 years of age or older and legally domiciled in Virginia for one year, as determined by the Application for In-state Tuition of the college application, may take advantage of tuition-free classes. For credit courses, senior citizens must also provide documentation indicating a taxable individual income not exceeding \$23,850 for the year preceding the year in which enrollment is sought. Under this provision senior citizens

may also register for and audit courses offered for academic credit regardless of income level. In any one term, regardless of income, senior citizens may take up to three courses for audit or enroll in non-credit courses. Requests from senior citizens to register for tuition-free classes will be considered beginning the first day of scheduled classes for each course for which they wish to register. All classes, credit and non-credit, must achieve a minimum enrollment of tuition-paying students, who will be accommodated before senior citizens participating in this program are enrolled. Senior citizens interested in utilizing this benefit should visit any campus Enrollment Services. Requests for tuition refunds will not be granted for senior citizens who enroll and pay for courses prior to the first day of class, in order to utilize the Senior Citizens Program. Additional information about this policy can be found at [www.reynolds.edu/student\\_services/policies.aspx](http://www.reynolds.edu/student_services/policies.aspx)

#### **Virginia Military Survivors and Dependents Education Program (VMSDEP):**

This program provides education to spouses and children of military members killed, missing in action, taken prisoner, or who became at least 90 percent disabled as a result of military service in an armed conflict. The Virginia Department of Veterans Services (DVS) is responsible for managing the program and collaborates with the State Council of Higher Education for Virginia (SCHEV) and Virginia's public colleges and universities to assist spouses and children of qualified military service members and Veterans in attaining their educational goals.

This institution is approved to offer GI Bill educational benefits by the Virginia State Approving Agency.

#### **Children of Law Enforcement Officers:**

Through this program, children, ages 16 to 25, of Virginia law enforcement officers, firefighters, or rescue squad members killed in the line of duty, may be eligible to receive payment for full tuition and fees.

## Scholarships

### **[reynolds.edu/scholarships](http://reynolds.edu/scholarships)**

Through the kind generosity of individuals, businesses, and organizations, Reynolds offers scholarships to full-time and part-time students. Specific application criteria apply to each scholarship; however, students may apply for any or all scholarships by completing a Reynolds Scholarship application. The online application is available between December 1 and March 1. The deadline for submission is March 1. All scholarship awards are subject to availability of funds during the year of award.

To apply for scholarships a student must:

1. Complete and submit an Application for Admission to Reynolds, if not currently attending.
2. Complete and submit a Reynolds Scholarship Application online between December 1 and March 1. ([reynolds.edu/scholarships](http://reynolds.edu/scholarships))
3. Be enrolled in a curricular/degree or certificate program.

4. Have a minimum 2.0 cumulative grade point average.

5. Incoming students and current students with less than 12 credit hours completed at Reynolds, should submit transcripts from their most recent school (college or high school).

In order for your application to be considered, all parts of the application must be submitted on time. Supporting documents required to complete the application packet should be submitted through the Scholarship Application online. Please contact the Scholarship Office at 804-523-5084 or [scholarships@reynolds.edu](mailto:scholarships@reynolds.edu) with questions.

## Scholarship List

This list is subject to change each year. For the most current listing of available scholarships, visit [reynolds.edu/scholarships](http://reynolds.edu/scholarships).

# ADVISING

---

Academic Advising	31
Transfer Services	31

## Academic Advising

Reynolds subscribes to proactive and holistic advising services to students that are a highly collaborative system of shared responsibilities between students, faculty advisors, professional advisors, wrap-around student supports, Administrators, and community partners. The goal of academic advising is to assist students from the point of application to graduation in developing career plans to secure employment opportunities, educational plans that provide opportunities for enhancing academic skills, providing accurate information regarding academic program progression, understanding, and applying academic policies and procedures to access campus and community resources.

The advising program focuses on the development of a continuous culture of care for all of our students. Students should meet with their assigned advisor to obtain information and assistance at any time to receive support and or guidance to achieve their educational goals. For more information, contact [advising@reynolds.edu](mailto:advising@reynolds.edu) or call (804) 523-6464.

## Transfer Services

**[reynolds.edu/transfer](https://reynolds.edu/transfer)**

Highly qualified advisors assist students in discovering four-year colleges and universities, academic programs, and admissions requirements. Transfer Services sponsors multiple awareness events to help students make connections with transfer counselors, admissions officers, and numerous academic representatives in Virginia and at various colleges nationwide.

Students who plan to transfer to a four-year college or university should become acquainted with the senior institution's requirements in the intended major and be guided by those in selecting their curriculum and electives.

For further information see the Transfer Agreements section of this catalog.

## Academic Advising for Students with Academic Concerns

[reynolds.edu/retention](https://reynolds.edu/retention)

Students whose academic standing is "academic warning" or "academic probation" must meet with an advisor before registering. Students with 15 or fewer graded credit hours and students who have not declared a program will meet with an advisor in Advising Services. Students can make an appointment with their Advising Services Advisor through Navigate.

Students with 16 or more graded credit hours who have declared a program (major) should meet with an advisor in their school. Students whose academic standing is "academic suspension" or students who wish to be readmitted after dismissal from Reynolds must meet with an academic advisor through the Office of Retention Services. Referral to Retention Services can be made through Advising Services on any campus.

The **EARLY ALERTS** program is designed to help students who may be struggling in classes. Students are contacted in an effort to avoid long-term academic and financial aid issues. Students receiving a college email from a professor through this initiative (currently from gradesfirst.com) may also be contacted by Tutoring Services or an advisor who can provide additional resources and assistance.

## Advising Services

[reynolds.edu/advising](https://reynolds.edu/advising)

Reynolds subscribes to proactive and holistic advising services to students that are a highly collaborative system of shared responsibilities between students, faculty advisors, professional advisors, wrap-around student supports, Administrators, and community partners. The goal of academic advising is to assist students from the point of application to graduation in developing career plans to secure employment opportunities, educational plans that provide opportunities for enhancing academic skills, providing accurate information regarding academic program progression, understanding, and applying academic policies and procedures to access campus and community resources.

The advising program focuses on the development of a continuous culture of care for all of our students. Students should meet with their assigned advisor to obtain information and assistance at any time to receive support and or guidance to achieve their educational goals. For more information, contact [advising@reynolds.edu](mailto:advising@reynolds.edu) or call (804) 523-6464.

## Campus Store

[reynolds.edu/campus\\_store](https://reynolds.edu/campus_store)

A campus store is located on the Downtown and Parham Road Campuses.

Students have the option to purchase new textbooks, used textbooks, rental textbooks, digital textbooks, supplies, Reynolds logo clothing and gifts, and more. The campus stores accept personal checks, major credit cards and Follett gift cards, in addition to cash.

Students receiving financial aid may only charge textbooks and supplies to their financial aid awards. Authorized agency charge accounts may be maintained for students who are financially supported by recognized state, federal, or private institutions. Students may charge to their financial aid or third party account during specific charge dates during each semester. Check with your local store for dates pertaining to a specific semester.

Textbooks are stocked by course identification and section number, i.e., BUS 100 81PR. A full refund will be given in the original form of payment if textbooks are returned during the first week of classes with original receipt. With proof of schedule change and original receipt, a full refund will be given in the original form of payment up until the last day to drop with refund (with the exception of the summer semester). No refunds on unwrapped loose leaf books or access codes. Textbooks must be in original condition. No refunds or exchanges without original receipt.

Students have the opportunity to sell textbooks back to the campus stores if they are in good condition. In order to sell back textbooks to the campus store, the student must present a valid Reynolds student ID. Students can sell their books back year round and can receive up to 50% back of the original purchasing price until our limits are reached during the week of finals.

For general questions or additional information regarding the hours of operation for a specific campus, please contact: Downtown Campus - (804) 786-8580 or [jsrdowntownshop.com](https://jsrdowntownshop.com) Parham Road Campus - (804) 371-3266 or [jsrparhamshop.com](https://jsrparhamshop.com) For information about the Goochland Campus, contact the Parham Road Campus Store.

## Career Services

[reynolds.edu/career](https://reynolds.edu/career)

Through Career Services, Reynolds provides help for students and alumni in the process of career exploration, career development, and employment preparation. The Career Counselor and Career Advisor guide students in establishing career goals, planning and preparing for a chosen occupation. Workshops on resume assistance, interview preparation, and other career topics are regularly scheduled. Individual appointments are also available.

Reynolds maintains an online job board, College Central Network. Students interested in full time, part time, summer positions, or internships should visit [collegecentral.com/reynolds](https://collegecentral.com/reynolds) to view job announcements.

## Center for the Deaf

[reynolds.edu/accommodations](https://reynolds.edu/accommodations)

The Center for the Deaf, which is a part of the Office of Student Accommodations (OSA) coordinates support services for

# REYNOLDS COMMUNITY COLLEGE

students with documented disabilities on all campuses enrolled in college programs. The center also provides interpreters for the Deaf and hard of hearing students.

For additional information, contact the Office of Student Accommodations:

**Downtown Campus:** (804)523-5628, First Floor Lobby, Room 105

**Parham Road Campus and Goochland Campus:** (804) 523-5290, Parham Road Campus, Georgiadis Hall, suite 101

**VA Relay 711** for any number at Reynolds

**Email:** OSA@reynolds.edu

## College Success Skills Classes

[reynolds.edu/sdv](http://reynolds.edu/sdv)

Designed to be taken in the first 15 credit hours, student development courses (SDV 100 and 101) provide students with information and experiences which help them succeed in college. Career development, study skills, academic advising, financial literacy, and college policies and procedures are covered in this class. Instructors provide individual assistance and referrals to students as needed. Completion of an SDV course is required for all students enrolled in associate, applied associate, and certificate programs, and is a general education requirement within the Virginia Community College System. SDV 101 classes are required for students in several majors such as Teacher Preparation, Culinary, Science, and American Sign Language & Interpreter Education (ASL&IE).

## Computer Access

[reynolds.edu/labs](http://reynolds.edu/labs)

Reynolds provides students access to a wide range of software applications in support of academic programs at the college. Computers and mobile devices are available in the three campus Libraries. Support for the computers is provided by the Department of Technology. These computers have much of the necessary software to complete coursework. If the software needed for a class is not available, please contact your instructor for additional access information. Hours of operation for computer access are based on the scheduled hours that the Libraries are open. Visit [library.reynolds.edu](http://library.reynolds.edu).

### Downtown Campus – Library

Room 230 (804) 523-5211

### Goochland Campus – Library

Main Building, Room 200 (804) 523-5419

### Parham Road Campus – Library

LTC, Room 103 (804) 523-5220

## Counseling

Students experiencing non-academic difficulties should contact the Office of Student Affairs at (804) 523-5025. Staff is able to help students connect with appropriate community resources. Reynolds does not provide personal or mental health counseling.

## Finish Line Assist

[reynolds.edu/finishline](http://reynolds.edu/finishline)

We all run our own race at our own pace. And along the way, we all encounter hurdles. Whether you need assistance getting through the week, the month, or the semester, these services can help you cross the finish line. Stop by any of our locations or call (804) 523-5005.

### Downtown Campus

The 105

### Parham Road Campus

Georgiadis Hall, Room 200

### Goochland Campus

Room 238

Single Stop provides a short, easy-to-use benefits screener and referral database to engage students about their potential eligibility for benefits and to refer them to organizations that can help them apply for those benefits. Students are able to complete this quick screening online and then meet with trained Reynolds staff for assistance finding local money and help.

Reynolds food pantries address emergency food service needs and are located on the Downtown, Goochland, and Parham Road campuses. Any currently enrolled student having challenges with securing meals can stop by one of our pantries and staff will assist them. The food pantries are supported by donations from the Reynolds community. For location hours, drop-off instructions, and a list of those items in critical need, visit the [reynolds.edu/finishline](http://reynolds.edu/finishline) or email us at [foodpantry@reynolds.edu](mailto:foodpantry@reynolds.edu).

In instances where students may need assistance with bills due to extenuating circumstances, additional funds may be available in the form of an emergency loan. Students interested in emergency loans may receive up to \$1,500 to help with costs that may include rent, transportation, food, and other expenses associated with attending Reynolds during the academic year. Foundation funds are provided and students can repay these funds through expected financial aid refunds, provided authorization is given.

## Libraries

[library.reynolds.edu](http://library.reynolds.edu)

The mission of Reynolds Libraries is to provide an inclusive environment where students, faculty, staff, and the public can attain their learning and teaching needs, develop strong lifelong information literacy skills, and provide access to information to encourage free inquiry. Consistent with the Reynolds mission, we are committed to providing innovative and quality resources and services to students to ensure their academic success.

Reynolds Libraries offer:

- 81,000+ print books, 270,000+ eBooks, 6,000+ DVDs & 56,000+ online films
- 165+ research databases that provide access to millions of full-text articles
- Remote access to research databases 24/7 with MyREYNOLDS login
- Interlibrary Loan or Universal Borrowing

- Premium computers with MS Office Suite and specialized software
- Laptops for 4-hour loans
- Research consultation in person, by phone, email, and via 24/7 live chat
- Group Study Rooms for collaborative projects
- Workshops and Library Instruction

## Math Central+

[www.reynolds.edu/MathCentral](http://www.reynolds.edu/MathCentral)

Helping students in math, engineering, physics and more!

Math Central+ provides coaching and support for students at Reynolds. Qualified faculty and peer coaches offer a variety of techniques to support students through developmental and credit level math as well as physics and engineering courses. Whether you need help with a single homework assignment or ongoing support through the completion of your courses, Math Central+ coaches provide important tools for success and are there to offer encouragement along the way. We also assist with registration for mathematics courses and registration and usage of software required in many courses. Students are encouraged to come to Math Central+ to do their math homework knowing help is always nearby.

#### About our coaches

Math Central+ coaches are not only knowledgeable, they are great mentors who lead by example. Math Central+ offers walk-in and one-on-one appointments, both virtual and in person, along with group help sessions. Many of our seasoned coaches are qualified instructors. Peer coaches are students who have completed college level courses and have been recommended by our instructors to work in Math Central+. Our coaches work directly with students by helping them with course content and mentoring them to become better prepared mathematics students.

**Parham Road Campus** (804) 523-5525

## New Student Orientation

[reynolds.edu/orientation](http://reynolds.edu/orientation)

The Office of First-Year Initiatives supports efforts to provide a successful start for new students at Reynolds by offering New Student Orientation known as “SOAR” (Student Orientation, Advising, and Registration). SOAR sessions are offered in a

variety of formats to meet students where they are and assist with the following:

- Learning how to navigate MyREYNOLDS and Navigate accounts
- Opportunities to speak with a financial aid representative
- Talking with an advisor about possible programs and receive a set of recommended classes for registration
- Creating a class schedule for the upcoming term
- Discovering student success resources like free services including tutoring, student accommodations, and how to get involved in campus activities

Research has shown that students who participate in SOAR before their first semester have an easier transition into college, higher first-semester grade point averages, are more likely to continue in their education. SOAR sessions require advanced registration and information can be found at [www.reynolds.edu/orientation](http://www.reynolds.edu/orientation). Please contact [soar@reynolds.edu](mailto:soar@reynolds.edu) or 804-523-5155 for more information.

## Program for Adults in Vocational Education (PAVE)

[reynolds.edu/pave](http://reynolds.edu/pave)

The Program for Adults in Vocational Education (PAVE) is a two-year career studies certificate program that provides vocational and technical training for adults with intellectual disabilities, severe learning disabilities, and emotional disabilities.

The overall purpose of PAVE is to provide post-secondary training programs that incorporate functional academic instruction, job skills training, and community-based internships, which prepares the student to apply for employment in the competitive job market. Successful completion of a Career Studies Certificate through PAVE can lead to the development of effective work skills and increased confidence in the work place.

Applicants must meet Reynolds general admission requirements and the program’s specific requirements. These requirements include: completion of a high school program with a diploma recognized by the Virginia Community College System (VCCS), or GED; and possession of social skills necessary to function independently among peers in the college environment.

For additional information regarding the PAVE program, call (804) 523-5572, email [PAVE@reynolds.edu](mailto:PAVE@reynolds.edu), or use the 711 Relay system for any number at Reynolds. PAVE is located on the Downtown Campus, Room 444.

## Office of Student Accommodations

[reynolds.edu/accommodations](http://reynolds.edu/accommodations)

Reynolds complies with both the letter and the spirit of Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, and the ADA Amendments Act of 2008 (ADA AA) and other laws protecting the rights of individuals with disabilities. The Office of Student Accommodations

# REYNOLDS COMMUNITY COLLEGE

---

(OSA) seeks to provide access to educational opportunities for individuals with disabilities by removing barriers and providing programmatic and physical access to participate.

Students with documented disabilities may request reasonable accommodations through the OSA office. In order to be eligible for accommodation, students must comply with the institution's established process. Reynolds does not exclude any otherwise qualified individuals, solely by reason of their disability, from participation in any programs or services offered by Reynolds.

Services and accommodations are provided to students with a variety of disabilities including and not limited to Attention Deficit Hyperactivity Disorders, blindness/low vision, deafness/hard of hearing, learning disabilities, mobility and chronic health, psychological disorders (including Autism Spectrum Disorders), and other impairments.

The OSA staff encourages and assists students in their understanding of the nature of their disability and its impact on their learning and participation at Reynolds. Students are provided with opportunities to learn about their rights and responsibilities, procedures for requesting accommodations and about the wide range of programs and opportunities available at Reynolds and the surrounding community.

Students planning to request accommodations services from OSA are encouraged to contact the OSA at least three weeks from the start of the semester they plan to enroll.

For additional information, contact the Office of Student Accommodations:

**Downtown Campus:** (804) 523-5628

**Parham Road Campus and Goochland Campus:** (804) 523-5290

**VA Relay 711** for any number at Reynolds

**Email:** [OSA@reynolds.edu](mailto:OSA@reynolds.edu)

## Student Life

[reynolds.edu/studentlife](http://reynolds.edu/studentlife)

The Office of Student Life is dedicated to providing social, educational, leadership, recreational and service activities that promote student engagement and learning, cultural awareness, and social responsibility. The office emphasizes the importance of respect by creating an environment where students can freely express their opinions and beliefs with good intentions of achieving a common goal.

Reynolds has many active student clubs. Getting involved in student clubs and organizations is an exciting way for students to meet fellow students, develop leadership skills, and enhance their classroom experiences. By planning or participating in student activities, students can help make a positive impact. Students who do not find an on-campus club that meets their interests are welcome to work with the Office of Student Life to start a new club.

The Office of Student Life coordinates trips to sporting events, theaters, and four-year colleges and universities. It also plans a variety of student activities, fairs, speakers, community service activities, free fitness classes and sports tournaments for students. In addition, Student Life oversees the Student Life

Centers located at the Parham Road and Downtown Campuses and the Student Lounge at the Goochland Campus.

For more information, call (804) 523-5983, (804) 523-5082, or email [studentlife@reynolds.edu](mailto:studentlife@reynolds.edu).

## The Writing Studio

[reynolds.edu/writing-studio/](http://reynolds.edu/writing-studio/)

*Helping students cultivate confidence and awareness in their writing skills!*

At The Writing Studio, we know that writing assignments often create stress and frustration for students. We're here to help! We offer opportunities for collaboration and connection to support students and help them grow as writers. Students can attend a workshop or drop by studio hours to receive low key, flexible support at all stages of the writing assignment. They can also visit the Studio to write independently. No appointment necessary!

The Studio provides individual and group tutoring as well as Studio and in-class workshops. As an ecocomposition-focused writing center, the emphasis is awareness and place as it relates to the writing process. As such, there are private and public study areas with access to writing consultants and laptops for in-studio work. We want to provide a calm space for students to work on writing assignments. Visit our mindfulness rooms where students can take a moment to center themselves and relax in order to be able to clearly focus on the writing tasks in front of them or to just deal with the stress of being a college student.

The Writing Studio is staffed by teaching faculty from the college. We are happy to help with any writing-related task and at any point in the writing process. If students need help understanding a prompt, planning a paper, getting started or revising, we are dedicated to working with them to meet their goals, while helping students gain confidence as a writer, thinker, and critical reader.

## Tutoring Services

[reynolds.edu/tutoring](http://reynolds.edu/tutoring)

Tutoring Services offers free academic support to students currently enrolled at Reynolds. Students can schedule tutoring appointments in a wide variety of subjects using Navigate in MyReynolds. In addition to assisting with course content, tutors model critical thinking and problem solving and help students develop skills such as managing time effectively, creating study plans, organizing course material, and reducing test anxiety. Our faculty and peer tutors are guided by the philosophy that an open exchange of ideas in a non-judgmental environment facilitates students' discovery and long-term learning. Visit Tutoring Services in person or online for more information.

## Reynolds Online

[reynolds.edu/reynoldsonline](http://reynolds.edu/reynoldsonline)

The Center for Excellence in Teaching & Learning supports online education options in a variety of degree and certificate programs. These options increase access to education and provide opportunities to complete programs of study in an interactive, online environment. Within a given semester, students often integrate online courses with their on-campus classes; such scheduling allows students to achieve their education goals while also maintaining work, family, and personal responsibilities. Additionally, some degree and certificate programs are fully online. Students who pursue their programs entirely online also have access to important online support resources such as digital library research materials, academic tutoring, and online support staff.

For some online courses, students may be required to make a limited number of visits to a campus location for labs, presentations, and/or other class activities; some courses may require visits to a community site for clinicals or internships. Many courses require proctored testing that can be completed at Reynolds testing centers, testing sites at other VCCS institutions, or at an approved site outside of the state of Virginia. Students should carefully review course schedule notes to determine if any campus or other site visits are required.

Students considering enrolling in online courses should plan to have reliable internet access, as well as regular access to a computer. Students planning to access online course materials through technology services available at Reynolds libraries or at a public library should carefully evaluate their work and personal schedules to ensure that they are able to accommodate sufficient time to complete the work required for an online course.

The successful online student is typically a strong independent learner who has well-developed reading, writing, research, and technology skills. Online students should plan to commit to a consistent, weekly schedule that may include 6 to 8 hours of academic work each week, for each course. Prior to registration in an online course, students may need to complete necessary placement exams and/or course prerequisites. Students new to online learning at Reynolds should plan to complete Go2Orientation's **Orientation to Learning Online** available at [www.go2reynolds.com](http://www.go2reynolds.com).

To learn more about online learning at Reynolds, visit [www.reynolds.edu/reynoldsonline](http://www.reynolds.edu/reynoldsonline), contact the Center for Excellence in Teaching & Learning at [online@reynolds.edu](mailto:online@reynolds.edu), or call (804) 523-5612 or (800) 711-1628 (Virginia only).

## Fully Online Degree and Certificate Programs

For the most current list of 100% online programs go to [reynolds.edu/reynoldsonline](http://reynolds.edu/reynoldsonline).

Some courses may require campus labs, seminars, demonstrations, community clinical, and/or proctored exams.

## Teacher Preparation

Students can complete their first two years of teacher preparation courses in the Pre-Teacher Education Program (P-TEP), receive an associate degree from Reynolds, and then transfer to a four-year college or university. Several Virginia four-year institutions offer transfer opportunities for P-TEP students.

Reynolds offers Teacher Preparation Specialization associate degrees in Science, Social Sciences, and Liberal Arts for prospective teachers who transfer to Virginia's four-year colleges

# REYNOLDS COMMUNITY COLLEGE

---

and universities. Reynolds advisors work closely with students to ensure seamless transferability. Reynolds also has transfer centers with catalogs and transfer guides from many four-year colleges.

It is highly recommended that P-TEP students determine what content area and/or grade level they would like to teach, as well as the school to which they wish to transfer. The transfer process for P-TEP students can be complicated. It is very important for you to meet with your advisor and a counselor from Transfer Services. Additionally, you should communicate directly with your transfer school. This will help to ensure that you maximize your time at Reynolds.

## **PROGRAM NOTE:**

The Virginia Department of Education has the authority to deny licensure to any applicant as described in 8VAC20-22-720 of the Licensure Regulations for School Personnel. Any student entering the Pre-Teacher Education Program (P-TEP) who has committed any illegal offense other than minor traffic violations should discuss these matters with the Program Head for Teacher Preparation prior to enrolling in SDV 101 Orientation to Teacher Preparation and/or EDU 200 Introduction to Teaching as a Profession for clarification. Reynolds requires a criminal history records check of all entering P-TEP students. Inability to obtain field experience site placement due to a negative background check will result in removal from the program.

## **Teacher Licensure Requirements Information for the Community College Student**

The Virginia Board of Education has established general requirements for initial teacher licensure. The candidate must be at least 18 years of age; have earned a baccalaureate degree from an accredited institution of higher education with a Board-approved teacher education program; possess good moral character; have satisfied requirements for a teaching endorsement area; have met general and professional studies requirements (including student teaching), and have obtained passing scores on the RVE: Reading for Virginia Educators (for certain endorsement areas), the VCLA: Virginia Communication and Literacy Assessment, and the appropriate Specialty Area test (Praxis™ II).

Additionally, transfer institutions require students to successfully complete the Praxis™ Core Academic Skills for Educators (Reading, Writing and Mathematics) prior to enrollment in their teacher preparation programs. More information regarding these requirements can be obtained from the Program Head for Teacher Preparation.

The teaching license provides the prospective teacher with a credential to serve as a teacher in Virginia while the endorsement describes the subject area or grade levels to which the prospective teacher may be appropriately assigned to teach.

Students seeking licensure at the elementary level (grades PreK-3 or PreK-6) may major in a wide range of disciplines. Most transfer institutions have a specific degree that is required for students pursuing elementary education licensure. Contact your transfer

institution or the Program Head for Teacher Preparation at (804) 523-5263 for additional information.

Students seeking licensure at the middle school level (grades 6-8), should select one of the four basic content areas mathematics, a science, history/social science or English—as a major. To increase your employability you may choose to pursue a second content area if possible during your course of studies.

Students seeking licensure to teach at the secondary level (grades 6-12) major in the area in which they will seek endorsement. Possible majors include, but are not limited to, biology, chemistry, computer science, English, French, German, history, mathematics, physics, political science, and Spanish. Students who are interested in majoring in special education may choose a major from the humanities, social sciences, or sciences.

Students who have decided on their teacher licensure endorsement area and selected their four-year transfer institution should contact their advisor to explore whether a Teacher Education Admission Agreement exists between the Virginia Community College System and that institution. The advisor can provide further information about the requirements and benefits of the agreement.

## **Virginia Teaching Scholarship Loan Program**

The Virginia Teaching Scholarship Loan Program is an incentive to students interested in pursuing a teaching career in a critical shortage teaching area. These scholarships begin in the junior year. The critical shortage teaching areas are determined annually, but usually include fields such as special education, mathematics, earth science, career and technical education, foreign language, English as a second language, middle grades, library media, art, and reading specialist.

More information is available from the Virginia Department of Education at [doe.virginia.gov](http://doe.virginia.gov).

## **Professional Development for School Personnel**

Reynolds Community College provides credit-based coursework for teachers and school divisions. We offer a variety of courses that may qualify for licensure renewal and can develop customized courses for cohorts, schools and/or divisions.

Contact the Program Head for Teacher Preparation at (804) 523-5263 for additional information.

## **EducateVA Career Switcher Program**

[educateva.com](http://educateva.com)

The Community College Workforce Alliance (CCWA) offers an alternative teacher licensure program - EducateVA. This is a statewide initiative to address critical shortages in the teaching profession. EducateVA is certified by the Virginia Department of Education and provides a pathway for professionals seeking an

entrance into the field of education. Community colleges across the state serve as instructional sites for EducateVA, thus ensuring a program accessible to any student regardless of that student's location. The list of teaching endorsements for which a student can prepare for certification can be found at [educateva.com](http://educateva.com).

## Do You Qualify?

- Bachelor's degree from an accredited institution
- Three (3) or more years of full time professional, post-baccalaureate work experience
- Content area expertise
- GPA of 2.5 or better
- Required assessments (Praxis Subject Assessment and VCLA)
- Must be willing to undergo a criminal background check prior to field placement or employment in the classroom
- May not currently hold a Provisional License or expired Provisional License issued by the Virginia Department of Education or a full professional teaching license in Virginia or another state

## What is Required?

- Complete the 18-week Level 1 program, which includes 40 hours of classroom field experience
- Upon successful completion of Level 1, a one-year Career Switcher Provisional License is issued
- During Level II, candidates must teach successfully for one full year while completing additional online training and instructor-led sessions in order to be recommended for a full 10-year renewable teaching license

## Reynolds College Academies

Reynolds College Academies provide outstanding high school students the opportunity to earn an associate degree while completing the requirements for their high school diploma. Reynolds has carefully selected and sequenced the college coursework in the program in order to satisfy the requirements of the high school diploma and associate degree at the same time.

### [reynolds.edu/aca](http://reynolds.edu/aca)

In the Reynolds Advance College Academies (ACA) serving Goochland, Hanover, Henrico, and Powhatan County Public Schools, students typically apply in the 8th grade through their local school division, enroll in advanced high school courses in the 9th and 10th grade, and take the required college coursework for the associate degree during the 11th and 12th grade.

### [reynolds.edu/eca](http://reynolds.edu/eca)

In the Reynolds Early College Academy (ECA) serving Richmond Public Schools, students take the required college coursework for the associate degree on the Reynolds Downtown Campus.

## High School Dual Enrollment

### [reynolds.edu/dual\\_enrollment](http://reynolds.edu/dual_enrollment)

The Dual Enrollment Program at Reynolds is offered to high school juniors and seniors enrolled in one of the local participating schools. This program allows students to take

college-level courses that fulfill both high school and college graduation requirements. Currently, Reynolds has agreements to offer the Dual Enrollment program with the following schools or school systems: Charlottesville Albemarle Technical Education Center, Culpeper County, Goochland County, Hanover County, Henrico County, Powhatan County, and Richmond City. Interested high school students should speak with their school counselor.

## Home School/Concurrent Enrollment

Dual enrollment is not the only way for a high school student to earn college credit. Reynolds offers high school students not participating in Dual Enrollment the opportunity to enroll and start earning college credit prior to graduating from high school. Students who are rising high school freshmen to seniors in the upcoming school year are eligible to apply. High school students below the junior level require additional approval before enrolling. For more information regarding requirements, visit the Reynolds webpage [reynolds.edu/HomeSchool](http://reynolds.edu/HomeSchool).

## CareerStart

### [ccwatraining.org/careerstart](http://ccwatraining.org/careerstart)

CareerStart (formerly known as Middle College), is a Community College Workforce Alliance (CCWA) short-term workforce training program. This grant-funded program is designed for individuals who are ready to start a career, but may lack the required skills or experience to advance. The program offers low or no-cost industry credential training classes for individuals who would benefit from a training environment that includes academic support and career coaching services. GED completion classes are available through community partners for participants who need to complete a high school credential to increase employability.

Training classes are available for credentials in Customer Service, Healthcare, Construction/Trades, Warehousing/Logistics, Information Technology, Transportation/Manufacturing.

CareerStart training programs are typically less than three months in length and include academic assistance, credential training, exam preparation, employability skills, industry exposure, financial and digital literacy and career coaching. Classes are grant-funded and offered in collaboration with community partnerships, resulting in low to no-cost training classes for qualified students.

Contact the CareerStart program at (804) 523-5345 or [ccwatraining.org/careerstart](http://ccwatraining.org/careerstart) for more information.

## Great Expectations

### [reynolds.edu/GreatExpectations](http://reynolds.edu/GreatExpectations)

The Great Expectations Program assists youth and young adults, who are currently or were formerly affiliated with the Virginia Foster Care System, gain access to a community college education. Eligible individuals include foster youth between the ages of 17 and 24, youth adopted after the age of 13, or special needs adoptions. Services include guidance with the admission

# REYNOLDS COMMUNITY COLLEGE

---

and FAFSA application processes, accessing college resources and supports, and referrals to and collaboration with community resources and services. Contact the Great Expectations Program at (804) 523-5294 or [greatexpectations@reynolds.edu](mailto:greatexpectations@reynolds.edu) for more information.

## English as a Second Language

[reynolds.edu/get\\_started/esl](http://reynolds.edu/get_started/esl)

Reynolds offers classes for students whose first language is not English. Classes are designed to help students successfully speak, read, and write English outside of the classroom and to prepare them for academic coursework. Day and evening classes meet on the Parham Road Campus and follow the Reynolds academic calendar.

## Reynolds Honors Program

[www.reynolds.edu/honors](http://www.reynolds.edu/honors)

The Reynolds Honors Program offers high-achieving students an opportunity to participate in more advanced academic coursework based on four foundational pillars: critical thinking, reading, and writing; independent research; interdisciplinary approaches; and student engagement. These foundations help create a community of highly motivated and intellectually curious students who, through collaboration with dedicated faculty, will be prepared for the challenges of university degree programs and beyond. Among other benefits, Honors students receive additional scholarship funds.

To be eligible for the Honors Program, students must:

- Be enrolled in a transfer degree program (AA/AS degree)
- Have a GPA of 3.5 or above
- Have successfully completed all developmental coursework before being accepted
- High school students applying before their first semester of college coursework should submit their most recent transcript. Students who have not yet completed 12 credit hours of transferable college coursework at the time of application may submit transcripts from a previous institution for consideration. Submit unofficial transcripts via email to [honors@reynolds.edu](mailto:honors@reynolds.edu).

Any student may apply to enroll in a designated Honors course section by completing the Honors Course Permission form at [www.reynolds.edu/honors](http://www.reynolds.edu/honors).

For questions about the Honors Program, please see the Honors Program Coordinator or email [honors@reynolds.edu](mailto:honors@reynolds.edu) for more information.

# **Enrollment Policies & Procedures**

## Classification of Students

### Curricular

Curricular students are students who have satisfied general college curricular and any additional program admission requirements and are enrolled in credit or developmental courses for the purpose of earning a degree, certificate, or career studies certificate.

### Non-Curricular

Non-curricular students are students who are enrolled in credit and/or developmental courses without curricular admission and who do not currently intend to earn a degree, certificate, or career studies certificate at Reynolds. The Virginia Community College System recognizes the following types of non-curricular enrollments:

High School Student

(Dual/Concurrent enrollment/Home School enrollment)

Non-Curricular General Knowledge

### Freshman

Students are classified as freshmen until they have earned 30 semester credits.

### Sophomore

Students are classified as sophomores after they have earned more than 30 semester credits.

## Registration Periods

Open registration periods are available to students to register in person or online. Students that have academic or financial holds must come to campus for registration.

Schedule adjustment periods are available each semester or term to permit adjustment of class schedules.

## Self-Registration

Students who are in good academic standing (2.0 GPA or higher) and who are either non-curricular or curricular may generally register (without approval) online. All other students are required to meet with their advisors before registering in person.

## Academic Course Load

A full-time course load is 12 or more credit hours. Any student wishing to carry an academic load of more than 18 credits should have a 3.0 GPA or higher and should have the recommendation of a faculty advisor prior to seeking the approval of the school dean. A student who has received academic warning or academic probation may be required to take less than the normal load for the next semester.

## Prerequisites and Course Sequencing

If any prerequisites are required before enrolling in a course, they will be identified in the course description or by an indication of course sequence (please refer to the Course Information section

of this catalog). Courses listed ACC 211-212 and ENG 111-112, for example, must be taken in sequence unless otherwise noted in the course description. Courses in special sequences (usually identified by the numerals I-II) must also be taken in sequence, unless otherwise noted in the course description. Prerequisites must be satisfactorily completed before enrolling in a course unless special permission is obtained from the school dean, or designee. Co-requisite courses are to be taken simultaneously.

## Repeating a Course

Students are normally limited to two (2) enrollments in the same course. Prior to registering to take a course for a third time, students must submit a completed Request to Repeat Course Form with all required approvals, and documentation of extenuating circumstances to a campus Enrollment Services. Repeat approval is not required for certain exempted courses, and all attempted hours and grade points for these courses will be calculated in the GPA. (Also see Repeated Grade.)

**PLEASE NOTE:** Repeating courses may negatively affect financial aid eligibility.

## Withdrawal from Courses

Students are strongly encouraged to meet with the instructor of the course to discuss their academic standing in the course prior to withdrawing from the course. Withdrawal transactions are final and will not be rescinded or modified unless an administrative error by Reynolds has taken place.

### On-Time Withdrawals

After the add/drop period and within the first 60% of a semester or term, a student may withdraw from a course without academic penalty and receive a grade of "W" for each withdrawn course. After that time, students shall receive a grade of "F," except under documented mitigating circumstances.

The student must submit a completed "Request to Withdraw from Course" form to one of the Enrollment Services prior to the college's published withdrawal deadline. The form must be submitted prior to the completion of 60% of the class. Students should consult their instructor for withdrawal deadlines for classes that are not the standard semester length.

### Late Withdrawals

Withdrawal requests received after 60% of the semester or term will not be granted except under mitigating circumstances. To request a withdrawal after the appropriate withdrawal deadline or after the term has ended, the student must submit a "Late Request for Withdrawal from Course" Form with a narrative and documentation to support a claim of mitigating circumstances. This form should be submitted in person to Advising Services or via email to enroll@reynolds.edu. Requests for late withdrawals are forwarded to the Academic Standing Committee for determination.

Official withdrawal for a student, if approved, will become effective on the date the withdrawal form is received by the Advising Services. Course withdrawals (on time and late)

# REYNOLDS COMMUNITY COLLEGE

---

should be presented in person, by the student's authorized representative, or handled through enroll@reynolds.edu.

## **Deadlines for Late Withdrawal Requests**

Fall Semester - January 30

Spring Semester - June 30

Summer Semester - September 30

For more information about late withdrawals, contact Enrollment Services at (804) 523-6464.

## **Auditing a Course**

Students who enroll in a course with audit status are exempt from course examinations or other course achievement measures. Registrations for audit will not be accepted before the first day of the class and will require approval of the instructor and school dean. The regular tuition rates will be charged. Requests for credit enrollment in a class will be given priority over audit enrollment.

Audited courses carry no credit and do not count as part of the student's course load. Students who wish to change the status of a course from audit to credit or from credit to audit must do so within the schedule adjustment period for the semester or session.

## **Military Students During National Emergency**

Reserves/National Guard who are called to active duty and active military that are mobilized during a National Emergency should contact a Veterans Services for special assistance with their enrollment needs at (804) 523-5656.

## **Non-Native Speakers of English (English Proficiency)**

Admitted curricular and non-curricular students from countries other than Australia, English speaking Canadian provinces, English speaking Caribbean island nations, the Republic of Ireland, the United Kingdom, New Zealand, or the United States will be required to demonstrate their proficiency in English prior to enrollment. To document English proficiency, applicants may forward TOEFL (Test of English as a Foreign Language) scores or appropriate substitute documents to the Office of the Registrar. A minimum score of 80 is required on the iBT TOEFL. Appropriate substitute documents would include completion of a post-secondary degree or the equivalent of ENG 111 (English Composition) with a grade of 'C' or better at an institution located in one of the countries listed above. Non-native speaking applicants who cannot present the minimum required TOEFL score or a substitute document must schedule an English as a Second Language (ESL) test with the ESL office. Reynolds ESL assessment will also involve a personal interview and submission of a written assignment. Questions about ESL test waivers should be directed to the ESL Department. The ESL assessment will result in one of the following:

- Clearance to take the Reynolds VPT placement tests with native speakers of English (no ESL classes required);
- Initial placement into intensive ESL classes only (no academic classes permitted until ESL department documents preparedness); or,
- Initial placement into certain ESL classes with permission to enroll in a limited area of academic subjects.

**NOTE:** Admitted students with ESL requirements will be required to satisfactorily complete the requirements prior to progressing in certain curricular programs, such as Nursing. Please refer to the Program Information section in this Catalog. F-1 Visa applicants should refer to the International Student Admission section in this catalog.

# **Classroom & Instructional Policies & Procedures**

## Grading — Developmental Studies

A grade of “S” (Satisfactory) shall be assigned for satisfactory completion of each course in developmental studies or English as a Second Language (ESL) courses numbered 1 - 99. “S” grades are not included in grade point average calculations.

Students making satisfactory progress but not completing all of the instructional objectives for courses in developmental studies or ESL courses shall be graded with an “R” (Re-enroll). A student who has earned an “R” must enroll again and successfully complete the course.

Students not making satisfactory progress in developmental studies or ESL courses shall be given a “U” grade. Students on financial aid should check each semester on their grade requirements for making satisfactory progress.

The “I” and “W” grades may be utilized, as appropriate, for developmental studies and ESL courses.

## Grade Point Average

The term and cumulative grade point average (GPA) is determined by dividing the total number of grade points earned in courses by the total number of credits attempted. Courses which do not generate grade points are not included in credits attempted (audits, developmental courses, ESL courses, courses taken with pass/unsatisfactory option). The GPA is carried out to three digits past the decimal point (i.e. there is no rounding). See Repeated Grade and Academic Renewal sections below.

## Repeated Grade

When students repeat a course (see Repeating A Course on page 47) taken Fall 1996 or later that was repeated Summer 1988 or later, only the most recent attempt is used to calculate the cumulative GPA. Courses completed and repeated during the initial period of the repeat policy (Summer 1994 - Summer 1996) for which GPA adjustments have already been made, are not affected. Additionally, adjustments made as a part of “academic renewal” are not affected. Only the latest attempt is used in determining if graduation requirements are met.

Certain courses are exempt from consideration as repeats and an adjustment to the GPA is not made, including but not limited to courses with course numbers 090, 190, 290, 095, 195, 295, 096, 196, 296, 097, 197, 297, 098, 198, 298, 099, 199, and 299.

Periodically the VCCS will rename or renumber courses but they remain equivalent to the previous named and numbered courses. In such cases, completion of a renumbered/renamed course may be determined to be a repeat of a course completed previously under a different department and/or course number. These determinations are made on a college-wide basis, and exceptions cannot be made for an individual student.

Implementation of this policy does not revise any GPA calculations for prior terms or any academic, financial, or

administrative events that have occurred in the past. Any questions should be directed to the Registrar.

\*See Repeating A Course on page 47

## Final Grades

Final grades for each semester can be viewed and printed using MyREYNOLDS. Students must have their Reynolds username and password to obtain their grades. The grades of A, B, C, D, P, and S are passing grades. Grades of F and U are failing grades. R and I are interim grades. Grades of W and X are final grades carrying no credit.

## Academic Renewal

Students who re-enroll at Reynolds after a separation of at least 60 consecutive months may submit the “Petition for Academic Renewal” form to the Office of the Registrar or Advising Services on the Downtown and Goochland campuses. If the student is found eligible, an Academic Renewal notation will be placed on the student’s permanent record and transcript. All “D” and “F” grades earned prior to the re-enrollment will appear on the record, but they will be deleted from the cumulative grade point average, subject to the following conditions:

Prior to petitioning, the student must earn at least a 2.500 grade point average (using grades of “A,” “B,” “C,” “D,” and “F”) in the first twelve hours after re-enrollment.

Any course credit with a grade of “D” earned prior to the re-enrollment will not count toward graduation requirements. Previous diplomas, certificates, or degrees will not be rescinded in order to qualify the student.

Academic Renewal adjustment will be granted only once and cannot be revoked. The granting of Academic Renewal does not affect any previous academic, financial, or administrative decisions made by Reynolds.

## Academic Standing

### President’s Honor Roll

The President’s Honor Roll is awarded to curricular and non-curricular students who demonstrate the highest level of academic achievement at Reynolds. In order to receive this recognition, students must have:

- Earned a cumulative GPA of 3.800 or higher
- Earned a semester GPA of 3.500 or higher
- Carried at least 6 non-developmental credit hours for the semester
- Earned 20 or more credit hours at Reynolds
- Earned no grades of D, F, I, or U for the semester
- Earned no more than one W for the semester

Students who earn this distinction will receive an email notification and instructions on how to access the certificate during the first month of the subsequent semester.

### Dean’s List

The Dean's List is awarded to curricular and non-curricular students who demonstrate a high level of academic achievement at Reynolds. In order to receive this recognition, students must have:

- Earned a semester GPA of 3.200 or higher
- Carried at least 6 non developmental credit hours for the semester
- Earned no grades of D, F, I or U for the semester
- Earned no more than one W for the semester

Students who earn this distinction will receive an email notification and instructions on how to access the certificate during the first month of the subsequent semester.

### **Good Standing**

Students are considered to be "in good academic standing" if they maintain a minimum GPA of 2.000 each semester and are not on academic suspension or dismissal. They are eligible to reenroll at Reynolds.

### **Academic Warning**

Students who fail to attain a minimum GPA of 2.000 for any semester shall be placed on academic warning.

### **Academic Probation**

Students who fail to maintain a cumulative GPA of 1.500 will be on academic probation until such time as their cumulative average is 1.750 or better. The statement "Academic Probation" will be placed on the permanent record. Students on academic probation are ineligible for appointed or elected office in student organizations unless the Dean of Students or another appropriate administrator grants them special permission. Students usually will be required to carry less than a normal course load the following semester. Students on academic probation are required to consult with their academic advisor prior to enrollment. Students shall be placed on probation only after they have attempted 12 semester credits.

### **Academic Suspension**

Students on academic probation who fail to attain a semester GPA of 1.500 will be placed on suspension only after they have attempted 24 semester credit. Academic suspension shall be for one semester. The statement "Academic Suspension" will be placed on the student's permanent record. Students who are placed on academic suspension and wish to appeal should submit an appeal form to Advising Services or the Office of the Registrar. Suspended students may be readmitted after termination of the suspension period without appealing for reinstatement. Upon reinstatement the student will be required to meet with an academic advisor and develop an educational plan. Students who have been reinstated from academic suspension must achieve a 2.00 GPA for the semester of their reinstatement and must earn at least a 1.750 GPA in each subsequent semester of attendance. The statement "Subject to Dismissal" shall be placed on the students' permanent record. Students who have been reinstated from academic suspension will remain subject to dismissal until their cumulative GPA is raised to a minimum of 1.750.

### **Academic Dismissal**

Students who do not attain at least a 2.000 GPA for the semester of reinstatement following academic suspension will

be academically dismissed. Students who achieve at least a 2.000 GPA for the semester of their reinstatement following academic suspension must earn at least a cumulative 1.750 GPA in each subsequent semester of enrollment. Failure to earn a 1.750 GPA in each subsequent semester until the cumulative GPA reaches 1.750 will result in academic dismissal. The statement "Academic Dismissal" will be placed on the student's permanent record. Academic dismissal is normally permanent. In exceptional circumstances, students submit an appeal form to Advising Services or to the Office of the Registrar. (see Reinstatement from Suspension or Dismissal). Students who have been reinstated after academic dismissal will remain subject to dismissal until their cumulative GPA is raised to a minimum of 1.750.

## **Reinstatement from Suspension or Dismissal**

To be considered for immediate reinstatement, a suspended student must submit a Reinstatement Form or written appeal along with any documentation that helps support the request for reinstatement prior to the late registration period for the semester they wish to attend.

Consideration for reinstatement must be submitted using the Reinstatement Form along with supporting documentation by the deadlines published on Reynolds' website.

The Reinstatement Form or written appeal is forwarded to the Academic Standing Committee for consideration. Reynolds will ensure consideration of all appeals for reinstatement received by the deadline, including a review of the student's academic history at Reynolds and documentation of mitigating circumstances. Once the appeal is received, students will be contacted regarding the appeal meeting. Students are strongly encouraged to attend the appeal meeting with the Academic Standing Committee.

Decisions to reinstate may be accompanied by conditions designed to ensure the student's improved performance. Decisions to deny reinstatement will result in the continued enforcement of suspension or dismissal terms. Students who are not granted reinstatement will be dropped from any courses for which they may have pre-registered, and their tuition will be refunded automatically.

## **Advanced Standing and Transfer Credit from Other Colleges**

Advanced standing is defined as the application of awarded credit, earned by means other than instruction at this institution, toward satisfying program requirements. No more than 75 percent of a degree or certificate may be earned through advanced standing credit. Transcripts are evaluated for curricular students only. Courses from a student's official transcript that are equivalent and relevant to the curriculum in which he or she is enrolled will be applied towards credit in his or her program. Awarded credit is added to the student's permanent record, but is not used for computation of the grade point average and does not carry a letter grade.

# REYNOLDS COMMUNITY COLLEGE

---

The Office of the Registrar evaluates requested advanced standing and places advanced standing, by type, on the permanent record and transcript. It is the student's responsibility to ensure that all relevant and official documents have been forwarded to the Office of the Registrar. Transcripts are considered official if they are in a sealed envelope and carry the seal of the institution, are printed on official college letterhead, or delivered through a transcribing service.

Credit evaluation for courses taken at other VCCS colleges can be requested by completing the appropriate form; official transcripts from other VCCS colleges are not necessary.

Transfer credit awarded is available to view on the Student Information System. Official transcripts received four weeks prior to the beginning of the desired semester or term will be placed on the Student Information System prior to the final registration period. Transcripts received after that point will be evaluated as time permits and in date priority. Students should address questions regarding advanced standing with the Office of the Registrar.

Credit will be awarded only for courses earning a grade of "C" or better or the equivalent. When the course contains equivalent content and credit, the course may transfer to satisfy a program requirement at this institution. This college evaluates credit for transfer from other colleges and universities, using the guidance of the American Association of Collegiate Registrars and Admission Officers or the National Association for Foreign Student Affairs, and the Southern Association of Colleges and Schools.

## Transfer Credit from International Institutions

Credit from international post-secondary institutions may be awarded upon evaluation by a private evaluation agency that is a member of the National Association of Credential Evaluation Services ([naces.org](http://naces.org)). This process pertains to both international students seeking Reynolds transfer credit and Reynolds students earning credits at foreign institutions during study-abroad experiences. The student will send official transcripts to an approved agency to obtain a course-by-course evaluation. All fees must be paid by the students directly to the evaluation agency. This evaluation is provided to the Office of the Registrar so that credit can be assigned based on the student's chosen curriculum in accordance with established college policies.

## Credit by Assessment by Local Exam (ABLE)

Credit by ABLE is available at the discretion of the academic program and is not available for all courses taught at Reynolds. Academic deans and program heads have the discretion to deny requests for credit by ABLE. In programs where CLEP/AP/IB credit are not available as a means to test to receive academic credit, credit by ABLE may be a means of earning college credit for prior learning by demonstrating satisfactory academic competency in a particular subject.

Students interested in pursuing credit by ABLE should contact the appropriate academic program head of the curriculum. Credit by Able scores do not transfer to other institutions, they are only applicable to coursework taken at Reynolds.

## Prior Learning Activity for Credit Evaluation

This process is designed for adults who have gained college-level learning through work, volunteer activities, participation in civic and community assignments and similar life experiences. The process allows for students to develop portfolios, based on their experiences, to demonstrate learning equivalency to one or more college courses. Credit can only be applied if it is accepted by the faculty and after the student has successfully completed at least one course at Reynolds. Portfolio-based credit for prior experiential learning may be awarded for no more than 25 percent of the credit hours applied toward a degree. The determination of such credit must be determined by the program head and approved by the school dean.

## Military Credit

Credit will be granted for military service school courses and skills if the awarding of credit is recommended in the current edition of the American Council on Education publication, a Guide to the Evaluation of Educational Experiences in the Armed Services, and approved by the division dean of the student's chosen curriculum.

## Credit for Occupational Experience

Credit for occupational experience may be granted for courses or programs offered by employers, professional organizations and other agencies only if those courses or programs have been evaluated by the American Council on Education (ACE). Non-traditional sources of college-equivalent learning may include a combination of formal and/or informal workplace training programs as evaluated by ACE and military training programs.

## Credit by Advanced Placement

Students may receive advanced standing through the administration of the College Level Examination Program (CLEP), the College Entrance Examination Board (CEEB), advanced placement (AP) program, or the International Baccalaureate (IB) program, provided the examination scores are acceptable for credit. The required scores and appropriate credit hours awarded are listed on the following pages:

<b>CLEP Exam Title</b>	<b>Written Test Minimum Score for credit prior to 7/1/01</b>	<b>Computer Test Minimum Score for credit as of 7/1/01</b>	<b>Number of Credits Awarded</b>	<b>Reynolds/VCCS Course Equivalent</b>

All Virginia community colleges shall accept a score of three (3) and higher for Advanced Placement (AP) courses, however, students are encouraged to check required scores for transferability to four-year institutions. The amount of credit awarded for each examination will be consistent with the Reynolds College Board recommendation.

For information on **International Baccalaureate Exams**, visit <https://go.boarddocs.com/va/vccs/Board.nsf/Public#>.

## Graduation and Program Requirements

### Graduation Honors

Students who have fulfilled the requirements of degree or certificate programs (with the exception of career studies certificates) are eligible for graduation honors. The honors based upon scholastic achievement are as follows:

- \*Graduating GPA Honor
- 3.200 Cum laude (with honor)
- 3.500 Magna cum laude (with high honor)

3.800 Summa cum laude (with highest honor)

**NOTE:** *The cumulative GPA is used to determine graduation honors.*

### Graduation Requirements and Procedures

1. A curricular student eligible for graduation is required to complete the graduation application through the Student Information System for each degree and certificate they are completing by the deadline for that semester or term. Deadlines are posted on the Reynolds website.

2. If a student files for graduation but does not graduate, he or she must submit another graduation application for a subsequent term. Students may graduate after fall, spring, or summer terms. See section on “Commencement.”

3. The student must complete all program requirements as specified in their catalog, including curricular admission requirements.

4. The student must earn a grade point average of at least 2.000 in the curriculum.

5. The student must fulfill all of the course and credit-hour requirements of the curriculum with at least 25 percent of credit semester hours earned at Reynolds Community College.

6. The student must submit all documentation of training, education, or tests from organizations outside of Reynolds to the Office of the Registrar by the last day of classes in their final semester. All Reynolds courses must also be completed by the last day of classes in their final semester. Incomplete “I” grades must be completed by this time in order to be used for graduation.

7. The school dean for the curriculum must recommend the student for graduation, and the registrar must certify completion of all graduation requirements.

8. The student must resolve all financial obligations with Reynolds and must return all library and college materials.

## **Commencement**

Reynolds has one formal commencement ceremony each year, which occurs after the spring semester for students completing certificate or associate degree curricula throughout the academic year. A student is not permitted to participate in a commencement ceremony prior to the completion of the program of study. Students who graduate in the summer or fall will be invited to participate in the next spring commencement ceremony.

## **Program Requirements**

The catalog that will be used to review a student’s progress toward completion of program requirements and certification for graduation will be the catalog in effect at the time of the student’s initial matriculation into the program or any subsequent catalog in effect during the time of the student’s enrollment in the program, to be chosen by the student, provided that:

A. The student has not been discontinued, as a result of breaks in enrollment. Otherwise the catalog in effect at the time of their return will become the effective catalog; and,

B. The catalog is no more than seven years old at the time of graduation. Otherwise either the current catalog or any catalog that is no more than seven years old becomes the effective catalog. The catalog year to be used should be chosen by the student in consultation with the program head/curricular advisor, with the program head having the final determination of appropriate catalog year. Wherever possible, substitutions will be utilized to maximize the usage of previously-taken courses while maintaining the integrity of the degree.

## **Associate Degree**

To be awarded an associate degree from Reynolds, a student must have fulfilled all course requirements of the curriculum as outlined in the Reynolds Catalog with a minimum of 25 percent of the credits earned at Reynolds.

## **Certificate**

To be eligible for graduation with a certificate or career studies certificate from Reynolds, a student must have fulfilled all course requirements of the curriculum as outlined in the Reynolds Catalog with a minimum of 25 percent of the credits earned at Reynolds.

## **Second Degree Or Certificate**

Reynolds may grant credit for all completed applicable courses which are requirements of the additional degree, diploma, certificate, or career studies certificate. However, the awards must differ from one another by at least 25 percent of the credits.

## **Change of Curriculum (Program/Plan)**

Students who desire to change programs must consult with a faculty advisor or advising specialist in Advising Services. The Office of the Registrar will process the request, provided all applicable admission requirements for the new program have been satisfied. Program/plan changes are effective for subsequent semesters in most cases.

Students should be aware that program/plan changes effect the catalog year of their respective program. Students will follow the curricular requirements based upon the effective date of the plan change. Program changes may also effect Financial Aid Award status.

## **Waiver and Substitution of Course Requirements**

Students may petition the appropriate school dean for the waiver of required courses in the curriculum. If required courses are waived, other courses must be substituted in the curriculum to meet the specified credit hour requirement.

No credit is granted for the waived courses.

## **Student Records**

### **Mailing Address**

It is the student’s responsibility to keep this information up-to-date with the Office of the Registrar. Timely reporting of name and address changes will assist Reynolds in ensuring proper delivery of important notices and announcements. Students can submit address changes through the Student Information System (SIS) or by visiting a campus Advising Services on the Downtown and Goochland campuses or the Office of the Registrar on the Parham Road Campus.

### **Email Communication**

Electronic mail or “email” is an official method for communication at Reynolds. All official email communication will be distributed to VCCS email accounts only for students enrolled in at least one course. Reynolds will utilize the VCCS email to communicate

important information to enrolled students. Students should check their student email regularly.

## Transcripts

A transcript is a copy of the student's permanent academic record at Reynolds. An official transcript carries the Reynolds seal and is sent to other educational institutions and agencies. Effective July 1, 2019, Reynolds began using the Parchment transcript ordering and delivery service. (On the Reynolds.edu website, the student navigates to Transcripts and Grades for information and the link to the Reynolds Parchment Storefront to place an order.) There are associated fees based upon type of delivery (electronic, U.S. Postal Service). Transcripts will not be released until all obligations to the business office, bookstore, or library have been paid in full. Students may produce an unofficial transcript from their student center via MyREYNOLDS.

NOTE: If you are transferring to another college in the Virginia Community College System, you do not need to submit a transcript to that college. You should let that college know that you were previously enrolled at Reynolds (there should be a release you can provide to allow transfer of courses). Similarly, Reynolds does not require transcripts from other VCCS schools. You should complete and submit Request for Evaluation of a VCCS Transcript and Reynolds will transfer needed courses.

## Enrollment Verification and Certifications for Loan Deferment

At the written request of the student, the Office of the Registrar, will produce official verification of enrollment. These are typically required as documentation to continue the student's eligibility for dependent services, benefits, and insurance external to Reynolds.

Students wishing to defer repayment of certain loans should submit the appropriate forms from the lending agency to Advising Services at Downtown or Goochland campuses or to the Office of the Registrar and Parham Road Campus. Reynolds will transmit the student's enrollment data to the National Student Loan Clearinghouse for distribution to the appropriate lending agency. Official and final enrollment verification as well as loan deferment certifications will be processed after the deadline to drop with a refund for any particular semester or term.

## Family Educational Rights and Privacy Act

The Family Educational Rights and Privacy Act (FERPA) offers students certain rights with respect of their education records. They are:

1. The right to inspect and review the student's education records within 45 days of the day Reynolds receives a request for access. Students should submit written requests to the Office of the Registrar, Parham Road Campus, Georgiadis Hall, Room 207. The request must identify the record(s) they wish to inspect. The Registrar office staff will make arrangements for access and notify the student of the time and place where the records may be inspected.

2. The right to request the amendment of the student's education records that the student believes to be inaccurate or misleading. Students may ask Reynolds to amend a record that they believe is inaccurate or misleading. They should write the Reynolds

official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading.

If Reynolds decides not to amend the record as requested by the student, Reynolds will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by Reynolds or the Virginia Community College System (VCCS) in an administrative, supervisory, academic, research, or support staff position (including law enforcement unit personnel and health staff). Other typical exceptions include:

- Other schools to which a student is transferring;
- High schools of dual or concurrent enrollment students;
- Specified officials for audit or evaluation purposes;
- Appropriate parties in connection with financial aid to a student;
- Organizations conducting certain studies for or on behalf of the school;
- Accrediting organizations;
- To comply with a judicial order or lawfully issued subpoena;
- Appropriate officials in cases of health and safety emergencies;
- State and local authorities, within a juvenile justice system, and pursuant to specific State law;
- A person or company with whom Reynolds or VCCS has contracted (such as an attorney, auditor, or collection agent);
- A person serving on the Reynolds College Board or Foundation Board;
- A student serving on an official college committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks, excluding student government/leadership organization tasks; and
- A school official with a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

The right to file a complaint with the U.S. Department of Education concerning alleged failures by Reynolds to comply with the requirements of FERPA.

The name and address of the Office that administers FERPA are:

### Family Policy Compliance Office

U.S. Department of Education  
600 Independence Avenue, SW  
Washington, DC 20202-4605

## Notice Regarding Directory Information

# REYNOLDS COMMUNITY COLLEGE

---

FERPA designates certain information as “directory information,” which may be released upon request without the student’s expressed written consent. It is the policy of Reynolds Community College not to publish a student directory. However, name, address, telephone number, major field of study, dates of attendance, degrees and awards received, and term course load can be released upon request unless a student notifies the Office of the Registrar either in writing or through the Student Information System.

# **Student Policies & Procedures**

Visit [reynolds.edu/student\\_services/policies](https://reynolds.edu/student_services/policies) for the most recent version of each policy.

## Student Rights and Responsibilities

This statement of rights and responsibilities is designed to clarify those rights, which the student may expect to enjoy as a member of the student body of a community college and the obligations which admission to Reynolds places upon the student.

The submission of an application for admission to a community college represents a voluntary decision on the part of the prospective student to participate in the programs offered by the institution pursuant to the policies, rules, and regulations of the community colleges and rules and regulations of the State Board of Community Colleges. In turn, college approval of that application represents the extension of a privilege to join the college community and to remain a part of it so long as the student meets the required academic and behavior standards of the college system.

Each individual student is guaranteed the privileges of exercising his/her rights without fear or prejudice. Such rights include the following:

- Students are free to pursue their educational goals; appropriate opportunities for learning in the classroom and on the campus shall be provided by Reynolds or curricula offered by Reynolds.
- No disciplinary sanctions may be imposed upon any student without due process.
- Free inquiry, expression, and assembly are guaranteed to all students provided their actions do not interfere with the rights of others or the effective operation of the institution.
- Academic evaluation of student performance shall be neither arbitrary nor capricious.
- Reynolds and members of the college community have the right to expect safety, protection of property and the continuity of the educational process.
- Upon written request to the College Registrar, a student will be permitted to inspect and review his/her permanent educational record within forty-five (45) days following the date on which the request.

## Student Complaints

Reynolds is committed to providing an exceptional educational experience through the delivery of high-quality programs and services. As such, Reynolds strives to create an open environment where students may provide feedback regarding the quality of services or the environment. In instances where a student may be dissatisfied with services or conditions of the environment, he or she has the right to lodge concerns related to service, instruction, or the environment at Reynolds. This written complaint (by way of an email to [studentcomplaints@reynolds.edu](mailto:studentcomplaints@reynolds.edu)) must be submitted to the Office of Student Affairs where it will be sent to the manager of the area of concern for follow up with the student.

Policy 1-4 (Student Complaint Policy) in its entirety can be found in the Office of Student Affairs and online at [reynolds.edu/student\\_services/policies](https://reynolds.edu/student_services/policies).

## Student Grievances

Students have the right and opportunity to initiate grievances (academic and non-academic) they may have with a faculty or staff member. Students are first encouraged to speak directly with the faculty or staff member to determine an appropriate resolution.

If the problem is not resolved between the student and the individual, the student is encouraged to contact the Office of Student Affairs room 200, Georgiadis Hall, Parham Road Campus, (804) 523-5025, who will review Policy 1-12 (Student Appeal of Academic and/or Administrative Decisions) with the student.

Policy 1-12 (Student Appeal of Academic and/or Administrative Decisions) in its entirety can be found in the Office of Student Affairs and online at [reynolds.edu/student\\_services/policies](https://reynolds.edu/student_services/policies).

## Student Advocacy

In the design and improvement of programs, courses and services, Reynolds constantly focuses upon student needs. Students and staff members are encouraged to advocate student interest pertaining to any issue or problem confronting the college community. Students may voice their interest through the Office of Student Life and through participation on various college-wide standing committees. Particular responsibility for identifying and supporting student needs and interests, with respect to college operations and procedures, lies with the Office of Student Affairs.

For more information, visit the Office of Student Affairs, Georgiadis Hall (room 200), Parham Road Campus or call (804) 523-5025.

## Student Conduct

Reynolds holds its students to the highest standards of academic and social behavior. In the instance where a student commits a disruptive act either inside or outside of the classroom, that student may be subject to disciplinary action by the Office of Student Affairs. Faculty, staff, or other students may file a report against a student if he or she has witnessed an offense. The Office of Student Affairs will oversee the administration of all conduct cases in accordance with the Student Conduct Policy 1-35.

Jurisdiction of the student conduct policy extends to any student who is enrolled in a course sponsored by the institution, as well as any incident involving a Reynolds student that occurs off campus at college leased or owned facilities, or attending activities that are sponsored, initiated, authorized, or supervised by Reynolds. Depending on the nature of the incident, students may be processed by the Reynolds Department of Police for violation of local, state or federal laws.

Policy 1-35 in its entirety can be found in the Office of Student Affairs and online at [reynolds.edu/student\\_services/policies](https://reynolds.edu/student_services/policies).

## Academic Honesty

Reynolds subscribes to the notion of academic honesty and integrity as it relates to students' behavior within the classroom or with assignments and examinations. Reynolds Policy 2-7, Academic Honesty, outlines those behaviors that are unacceptable at the institution, as well as procedures used to address those behaviors. Any student who is found to have violated the policy will be subject to disciplinary action which could result in sanctions from a failing grade on the assignment to expulsion from the institution. Policy 2-7 in its entirety can be found in the Office of Student Affairs and online at [reynolds.edu/student\\_services/policies](https://reynolds.edu/student_services/policies).

## Sexual Misconduct

Reynolds is an educational institution that strives to provide students and other members of the community with an academic learning environment that is free from sexual misconduct or gender-based discrimination. In compliance with this commitment, Reynolds has established Policy 4-17 (Title IX - Sexual Misconduct). Policy 4-17 states Reynolds will not tolerate sexual misconduct which may be inclusive of sexual harassment, nonconsensual sexual intercourse, nonconsensual sexual contact, or sexual exploitation. Reynolds considers these types of behaviors serious threats to the integrity of the community and will pursue all charges. Moreover, certain acts may be criminal, and as such, subject to both criminal and civil legal actions. Students who violate this policy will have college charges processed against them in the normal manner of due process provided by college rules. A person who believes that he/she may have experienced sexual misconduct, but are uncertain as to whether a complaint is justified or whether they wish to initiate a formal complaint, may find it helpful to discuss their concerns confidentially and informally with the Dean of Students, or designee in the Office of Student Affairs, Georgiadis Hall (room 200), Parham Road Campus, (804) 523-5025.

Policy 4-17 in its entirety can be found in the Office of Student Affairs and online at [reynolds.edu/student\\_services/policies](https://reynolds.edu/student_services/policies).

## Substance Abuse

Reynolds maintains an environment that aims to protect the health, safety and welfare of its students, faculty and staff by enforcing a drug-free environment. In accordance with the spirit and intent of the Drug-Free Schools and Communities Act of 1989, J. Sargeant Reynolds Community College (Reynolds) prohibits the illegal use, manufacture, and/or distribution of drugs and alcohol on campus by its students. Policy 1-17, Alcohol & Other Drugs outlines those actions that Reynolds will take to educate students about the negative impact of drugs and alcohol use. Students who violate this policy may be subject to disciplinary actions that may include expulsion from the college, referral for prosecution, and/or referral for participation in appropriate evaluation and/or rehabilitation. Violations of this

policy will be handled in accordance with Reynolds Policy No. 1-35, Student Conduct.

Policies 1-17 and 1-35 in their entirety can be found in the Office of Student Affairs or online at [reynolds.edu/student\\_services/policies](https://reynolds.edu/student_services/policies).

## Student Assessment

Reynolds systematically evaluates the effectiveness of teaching and learning, academic and administrative support services, and co-curricular activities in meeting student needs.

Students may be requested to participate in one or more assessment activities appropriate to their fields of study during their academic course work at Reynolds. The results of such assessment activities shall be confidential and shall be used by Reynolds for the purpose of evaluating and improving the effectiveness of Reynolds academic programs and services to maximize student success.

## Reynolds Community College, Virginia Community College System, Information Technology Student/Patron Acceptable Use Agreement

Thousands of users share the VCCS and Reynolds computing resources. Everyone must use these resources responsibly since misuse by even a few individuals has the potential to disrupt business or the educational work of others. Therefore students, faculty and staff must exercise ethical behavior when using these information resources, and agree to abide by information technology acceptable use.

As a user of the Virginia Community College System's local and shared computer systems, I understand and agree to abide by the following acceptable use agreement terms. These terms govern my access to and use of the information technology applications, services, and resources of the VCCS and the information they generate.

The VCCS has granted access to me as a necessary privilege in order to perform authorized functions at the college where I am currently enrolled. I will not knowingly permit use of my entrusted access control mechanism for any purposes other than those required to perform authorized functions related to my status as a student. These include logon identification, password, workstation identification, user identification, digital certificates, or two-factor authentication mechanisms.

I will not disclose information concerning any access control mechanism unless properly authorized to do so by my enrolling college. I will not use any access mechanism that the VCCS has not expressly assigned to me. I will treat all information maintained on the college computer systems as strictly confidential and will not release information to any unauthorized person.

I agree to abide by all applicable state, federal, VCCS, and college policies, procedures and standards that relate to the VCCS Information Security Standard, the VCCS Information

# REYNOLDS COMMUNITY COLLEGE

---

Technology Student/Patron Acceptable Use Agreement, and JSRCC Policy No: 4-32, Use of Computer and Information Technology Resources. Inappropriate use of college computer resources includes, but is not limited to the following:

- Attempting to gain access to information owned by the college or by its authorized users without the permission of the owners of that information;
- Accessing, downloading, printing, or storing information with sexually explicit content as prohibited by law or policy;
- Downloading or transmitting fraudulent, threatening, obscene, intimidating, defamatory, harassing, discriminatory, or otherwise unlawful messages or images;
- Installing or downloading computer software, programs, or executable files contrary to policy;
- Uploading or downloading copyrighted materials or proprietary agency information contrary to policy;
- Sending e-mail using another's identity, an assumed name, or anonymously;
- Attempting to intercept or read messages not intended for them;
- Intentionally developing or experimenting with malicious programs (viruses, worms, spy-ware, keystroke loggers, phishing software, Trojan horses, etc.) on any college-owned computer;
- Knowingly propagating malicious programs;
- Changing administrator rights on any college-owned computer, or the equivalent on non-Microsoft Windows based systems;
- Using college computing resources to support any commercial venture or for personal financial gain.

Students must follow any special rules that are posted or communicated to them by responsible staff members, whenever they use college computing laboratories, classrooms, and computers in the Library. They shall do nothing intentionally that degrades or disrupts the computer systems or interferes with systems and equipment that support the work of others. Problems with college computing resources should be reported to the staff in charge or the Information Technology Help Desk.

If I observe any incidents of non-compliance with the terms of this agreement, I am responsible for reporting them to the Information Security Officer and/or management of my college.

I understand that I must use only those computer resources that I have the authority to use. I must not provide false or misleading information to gain access to computing resources. The VCCS may regard these actions as criminal acts and may treat them accordingly. I must not use VCCS IT resources to gain unauthorized access to computing resources of other institutions, organizations, individuals, etc.

The System Office and colleges reserve the right (with or without cause) to monitor, access and disclose all data created, sent, received, processed, or stored on VCCS systems to ensure compliance with VCCS policies and federal, state, or local regulations. College or System Office officials will have the right to review and/or confiscate (as needed) any equipment (COV owned or personal) connected to a COV owned device or network.

Computer software, databases, and electronic documents are protected by copyright law. A copyright is a work of authorship in a tangible medium. Copyright owners have the sole right to reproduce their work, prepare derivatives or adaptations of it, distribute it by sale, rent, license lease, or lending and/or to perform or display it. A student must either have an express or implied license to use copyrighted material or data, or be able to prove fair use. Students and other users of college computers are responsible for understanding how copyright law applies to their electronic transactions. They may not violate the copyright protection of any information, software, or data with which they come into contact through the college computing resources. Downloading or distributing copyrighted materials such as documents, movies, music, etc. without the permission of the rightful owner may be considered copyright infringement, which is illegal under federal and state copyright law. Use of the college's network resources to commit acts of copyright infringement may be subject to prosecution and disciplinary action.

The penalties for infringing copyright law can be found under the U.S. Copyright Act, 17 U.S.C. §§ 501-518 (<http://www.copyright.gov/title17/92chap5.html>) and in the U.S. Copyright Office's summary of the Digital Millennium Copyright Act (<http://www.copyright.gov/legislation/dmca.pdf>).

I understand that it is my responsibility to read and abide by this agreement, even if I do not agree with it. If I have any questions about the VCCS Information Technology Acceptable Use Agreement, I understand that I need to contact the college Information Security Officer or appropriate college official.

By acknowledging this agreement, I hereby certify that I understand the preceding terms and provisions and that I accept the responsibility of adhering to the same. I further acknowledge that should I violate this agreement, I will be subject to disciplinary action.

## College Transfer Programs

### **Award — Associate of Science (AS) Associate of Arts (AA)**

Reynolds transfer programs include freshman- and sophomore-level courses in arts and sciences and pre-professional education, meeting standards acceptable for transfer to bachelor's degree programs in four-year colleges and universities. These programs are specifically designed for transfer at the junior level.

## University Parallel Study

Reynolds offers programs leading to the Associate of Arts (AA) degree or the Associate of Science (AS) degree. Commonly referred to as college transfer or university parallel study, these programs are designed for students who plan to complete the freshman and sophomore years of college work at Reynolds and then transfer to universities and four-year colleges of their choice. Each university has different requirements for baccalaureate programs. Reynolds advisors and specialists in the Career Services and Transfer Services Centers will assist students in the selection of the curriculum of study most applicable to their baccalaureate plans. Earned credits in the program are generally transferable to the senior college or university and applicable toward a bachelor's degree. Students should work with their academic advisors and transfer specialists to select their courses to match the requirements of the transfer institution.

Reynolds has articulation agreements for specific academic programs with several Virginia universities and colleges. Such agreements guarantee that the student with the associate degree has complete transferability of all credits. A student transferring prior to the receipt of the associate of arts or associate of science degree is not assured of such status. Advisors and transfer specialists can provide information about articulation agreements.

Reynolds also offers two-year programs that lead to the Associate of Applied Science (AAS) degree. These occupational/technical programs are specifically designed to prepare students for immediate employment. Some four-year colleges and universities have accepted courses into their program counterparts from AAS degree programs that are not designed for transfer purposes. It is the responsibility of the four-year institution to determine and publish its policies on the admission of transfer students and the criteria for determining the acceptability of transfer credits completed at another institution. Additional general education courses may be required to transfer with junior status from AAS degree programs. Students should work closely with their academic advisors and the transfer specialists to select courses that match requirements of the transfer institution.

## State Policy on Transfer from Community Colleges to Senior Institutions

Virginia's system of public colleges and universities has extended higher education throughout the Commonwealth from Eastern

Shore to Big Stone Gap and from Fairfax to Southside. The system gives students ready access to college and enables them to choose from among many two- and four-year institutions. Ideally, students should be able to move through Virginia's public education system as if it were a continuum, rather than a system of distinct levels or separate stages. The State Board for Community Colleges and the Council of Higher Education for Virginia have endorsed a coherent statewide policy to facilitate transfer between state-supported community colleges and senior colleges and universities. This policy requires commitment by both community colleges and senior institutions to common goals on behalf of students and education.

## Transfer Agreements

Reynolds has agreements with many senior institutions covering the conditions for student transfer from Reynolds to a baccalaureate program at the four-year college or university. Many of the agreements guarantee admission. These formal arrangements are referred to as transfer agreements. The arrangements fall into two categories—the master transfer agreement, which provides general guarantees to transferring students, and the program-specific articulation agreement covering the conditions for the transfer into a particular curriculum. Students transferring prior to the receipt of the associate of arts or associate of science degree are not covered under these articulation agreements. Advisors and transfer specialists can provide information about these agreements.

Reynolds has current agreements, as a result of either direct negotiations between Reynolds and the transfer institution or the creation of a system-wide agreement between the Virginia Community College System and the transfer institution.

For the most current list of transfer agreements, visit [reynolds.edu/gta](http://reynolds.edu/gta).

## Occupational and Technical Programs

### **Award — Associate of Applied Science (AAS) Certificate**

The occupational and technical education programs are designed to prepare students for employment as technicians, paraprofessionals, and skilled craftpersons.

The associate of applied science degree is awarded for completion of two-year programs.

The certificate is awarded for completion of a program less than two years in length, generally two or three semesters.

## Career Studies Programs

### **Award — Certificate**

Career studies certificates can be completed in a shorter period of time than other certificate programs. These programs provide opportunities for upgrading occupational or technical skills, retraining for a career change, and investigating new career possibilities.

## Computer Competency Requirement for Students

Reynolds emphasizes the importance of computer competency for all students who are enrolled in a college program that requires a minimum of 30 credits for graduation. Programs with 30 or more credits provide for the computer competency of students in one of three ways:

1. including a computer competency course - ITE 115 or CSC 155 in the curriculum,
2. requiring that students in the curriculum pass the Reynolds computer competency exam, or
3. including a course or courses that meet or exceed the computer competency requirements as a part of the curriculum. Students should consult the catalog description of their program to determine the computer competency requirement.

Students in programs that require ITE 115 or CSC 155 can satisfy the computer competency course requirement in the curriculum by passing the Reynolds computer competency exam administered in the testing centers on each campus. Because CSC 155 includes content that is not covered in ITE 115, students seeking college credit for CSC 155 will take a different version of the computer competency exam. Those students who successfully pass the computer competency exam will receive college credit for either ITE 115 or CSC 155, without enrolling in the course, depending on the version of the exam taken.

Any student not passing the computer competency exam will do one of the following based on the results of the test:

1. successfully complete ITE 115 or CSC 155 or
2. learn the competencies the student is lacking through self-study or any other method that will enable the student to learn the competencies and then retake the computer competency exam. Students will be allowed to retake the computer competency exam only once. Upon retaking the computer competency exam, students who do not pass the exam must complete either ITE 115 or CSC 155.

# REYNOLDS COMMUNITY COLLEGE

## Academic Majors Directory A-Z

The following table shows the respective plan's contact number for each campus location as appropriate. In the campus location columns, **COMPLETE** indicates that the plan's certificate or degree can be completed at that campus. **COURSES** indicates that one or more courses for the plan are offered at that campus.

The **ONLINE** campus location indicates online courses. These are typically administered online, but some courses may require proctored exams, on-campus labs, clinicals, or other special on-campus meetings. For information on Online Learning, call the Center for Excellence in Teaching and Learning at (804) 523-5612 or (800) 711-1628.

*Certificates or degrees shown with an asterisk ( \* ) indicates transfer degree and certificate programs.*

General Information Pertaining to Curricular Offerings	71
General Education Definition	72
General Education Goals and Objectives/ Outcomes	72
General Education Electives	73

## General Information Pertaining to Curricular Offerings

In the following section, descriptions of all associate degree and certificate curriculums offered by the college are presented. Each curriculum description (1) provides a statement of purpose or intent of the curricular program, (2) states the occupational or transfer objectives for the program, (3) specifies curriculum admission requirements for entry into the program, (4) states the required courses and minimum number of credit hours for completion, and (5) provides an outline for sequencing the courses of study. Each curriculum is structured in accordance with policies established by the State Board for Community Colleges in Virginia. Additionally, the curriculums for all associate degree programs meet criteria set forth by the Commission on Colleges of the Southern Association of Colleges and Schools.

Curriculums for which the associate of applied science degree and certificate are awarded are all structured to ensure that graduates of these programs have a significant general education foundation, in addition to the necessary skill development training. For the AAS degree, general education comprises approximately 25 percent of the total credit hours; for certificate programs (not career studies certificates), this figure is a minimum of 15 percent.

The associate of arts and associate of science degree programs are designed for transfer to baccalaureate programs offered at four-year colleges and universities. **To avoid transfer problems, students should carefully select courses to fulfill elective requirements with the assistance of their advisors and upon an investigation of the transfer requirements of the institution to which transfer is considered.** Not all curriculums of study are available on all campuses due to the specialized nature of the human and physical resources required to offer the instructional program. General education courses in the curriculums, however, may be taken at any of the three campus locations at which they are offered.

The following table presents the requirements for associate degrees at Reynolds:

### Minimum Requirements for Associate Degrees in the VCCS

General Education	Minimum Number Of Semester Hour Credits		
	AA	AS	AAS
Communication	<sup>a</sup> 6	<sup>a</sup> 6	3-6
Humanities/Fine Arts/Literature	<sup>b</sup> 6	<sup>b</sup> 6	3-6
Social/Behavioral Sciences	<sup>c</sup> 6	<sup>c</sup> 6	3-6
Natural Sciences	4	4-8	See footnote d
Mathematics	3	3-6	See footnote d
Institutional Specific General Education Courses	5-6	5-6	0
<b>Total for General Education</b>	<b>30-31</b>	<b>30-38</b>	<b>15</b>

As specified above, degree programs must contain a minimum of 15 semester hours of general education as defined by SACSCOC.

Other Requirements for Associate Degrees			
Student Development	1-2	1-2	1-2
Transfer Core	27-32	20-32	0
Career/technical courses	0	0	43-53
<b>Total for Degree</b>	<b>60-63</b>	<b>60-63</b>	<b>60-69</b>

<sup>a</sup> Each of the courses in communication must be in written communication.

<sup>b</sup> Each of the two courses cannot be from the same discipline area (e.g. humanities).

<sup>c</sup> One course in social/behavioral sciences must be a history course and the second required course cannot be history.

<sup>d</sup> A total of 3-6 semester hours is required in either natural sciences and/or mathematics for the AAA and AAS.

<sup>e</sup> Transfer core includes additional general education and/or major courses.

## General Education Definition

Associate degree programs provide a coherent, shared experience for students to develop the general education core competencies expected of them as college-educated individuals. General education, as an integrated and cohesive whole, provides the educational foundation necessary to promote intellectual and personal development. Upon completion of the associate degree, graduates of Virginia's Community Colleges will demonstrate competency in student learning outcomes (SLOs) determined and assessed by each college in 1) civic engagement, 2) critical thinking, 3) professional readiness, 4) quantitative literacy, 5) scientific literacy, and 6) written communication.

Collectively, these general education core competencies distinguish graduates of Virginia's Community Colleges as individuals with a breadth of knowledge, skills, and abilities needed to pursue further education and their careers, continue to develop as learners, and contribute to the well-being of their communities. The six competencies are defined in policy with aspirational statements of learning goals for graduates. Each community college will determine and assess specific learning outcomes based on the definitions and aspirational statements.

## General Education Goals and Objectives/Outcomes

Reynolds Community College degree graduates will demonstrate competency in the following general education areas:

**Civic Engagement** is the ability to contribute to the civic life and well-being of local, national, and global communities as both a social responsibility and a life-long learning process. Degree graduates will demonstrate the knowledge and civic values necessary to become informed and contributing participants in a democratic society.

**Civic Knowledge:** Summarize fundamental principles and debates about democracy and citizenship, both within the United States and in other countries

**Civic Identity:** Reflect on personal social/civic identity and how that identity differs from others in their communities

**Civic Discourse:** Deliberate on issues and problems to advance or achieve a civic aim

**Diversity in Civic Life:** Compare and contrast diverse feelings, perspectives, and life experiences; Analyze the strength that such diversity of opinions brings to civic life

**Ethical Reasoning:** Examine the ethical implications of community and civic actions and decisions

**Civic Responsibility:** Assess and respond to civic, social, environmental, or economic challenges at local, national, or global levels

**Social Justice:** Identify personal and collective actions that could be taken to address injustices in society

**Critical Thinking** is the ability to use information, ideas and arguments from relevant perspectives to make sense of complex issues and solve problems. Degree graduates will locate, evaluate, interpret, and combine information to reach well-reasoned conclusions or solutions.

**Points of View:** identify and evaluate relevant and diverse points of view

**Evidence:** utilize effective search strategies and research methods to gather sufficient, relevant, authoritative, and reliable information from divergent perspectives

**Interpretations/Inferences:** evaluate and analyze ideas, arguments, assumptions, and evidence

**Implications/Conclusions:** formulate logical and informed conclusions or solve problems based on the analysis and interpretation of information

**Written Communication** is the ability to develop, convey, and exchange ideas in writing, as appropriate to a given context and audience. Degree graduates will express themselves effectively in a variety of written forms.

**Purpose and Focus:** clearly identifies the purpose of the message and focuses the delivery to the audience

**Content:** Uses appropriate and relevant content to illustrate main ideas

**Organization:** Organizes and presents a main idea clearly and concisely with a basic structure

**Language and Style:** uses standard American English, and accepted, conventional grammar and mechanics

**Quantitative Reasoning** is the ability to perform accurate calculations, interpret quantitative information, apply and analyze relevant numerical data, and use results to support conclusions. Degree graduates will calculate, interpret, and use numerical and quantitative information in a variety of settings.

**Identify and Evaluate:** determine whether the source of the information is authentic, valid, and reliable.

**Interpret:** explain numerical information presented in mathematical forms (e.g., equations, graphs, diagrams, tables, words)

**Represent:** convert relevant information into various mathematical forms (e.g., equations, graphs, diagrams, tables, words)

**Calculate:** accurately solve mathematical problems

**Apply and Analyze:** make judgments and draw relevant conclusions from quantitative analysis of data and predict future trends when appropriate

**Communicate:** use quantitative evidence to support a position or clarify a purpose orally or in writing using appropriate language, symbolism, data, and graphs

**Professional Readiness** is the ability to work well with others and display situationally and culturally appropriate demeanor and behavior. Degree graduates will demonstrate skills important for successful transition into the workplace and pursuit of further education.

**Interpersonal Communication:** ability to maintain open, effective, and professional communications

**Workplace Demeanor:** ability to demonstrate appropriate workplace and classroom demeanor and behavior;

**Teamwork:** ability to work effectively with others on a task in a group or a team to achieve a common goal while maintaining constructive interpersonal relationships

**Creative Problem-Solving:** ability to solve a challenge or program through innovative ways

**Ethical Reasoning:** Ethical Reasoning is reasoning about right and wrong human conduct. It requires students to be able to assess their own ethical values and the social context of problems, recognize ethical issues in a variety of settings, think about how different ethical perspectives might be applied to ethical dilemmas, and consider the ramifications of alternative actions. Students' ethical self-identity evolves as they practice ethical decision-making skills and learn how to describe and analyze positions on ethical issues. (AAC&U definition)

**Leadership:** Discern and describe their personal leadership style, strengths, and limitations

**Cultural awareness, sensitivity:** Recognize their own multiple identities, experiences and biases and how these affect their ability to lead

**Scientific Literacy** is the ability to apply the scientific method and related concepts and principles to make informed decisions and engage with issues related to the natural, physical, and social world. Degree graduates will recognize and know how to use the scientific method, and to evaluate empirical information.

**Explain:** Map the steps of the scientific method of inquiry leading to evidenced-based knowledge.

**Identify:** Recognize the elements of research design.

**Interpret:** Determine if a research design is correlational, descriptive, experimental, and/or a review.

**Synthesize:** Plan, design, and conduct scientific investigations, demonstrating an understanding of discipline-related concepts, the scientific method, and research design in the collection of empirical evidence.

**Apply:** Use empirical information to draw an evidence-based conclusion.

**Communicate:** Share results and/or conclusions, drawn from empirical information, to the intended audience.

**Recognize:** Identify how the independent variable (or the cause) impacts the dependent variable (or the effect) to explain cause and effect relationships.

**Describe:** Demonstrate an understanding of what experimental controls are and why they are important.

**Evaluate:** Distinguish a scientific argument from a non-scientific argument.

**Communicate:** Describe the impact that technology has had on science, and vice-versa.

**Differentiate:** Define and compare inductive, deductive, and causal forms of reasoning.

**Distinguish:** Differentiate between the concepts of hypothesis, theory, and paradigm.

**Clarify:** Communicate the limitations of science, and how this may impact public perception and acceptance of empirical evidence.

**Integrate:** Create a product, based on the knowledge and skills learned in {discipline-related} science and/or technology.

## General Education Electives

General Education Electives fall into the following areas: humanities/fine arts/literature, mathematics, personal wellness, science, social/behavioral sciences, and world languages. A list of approved electives is available on the Reynolds website. Prior to enrolling in these courses, students should consult their program advisor, as well as check the course descriptions to ensure that they meet any pre- or co-requisites. To avoid transfer problems, students should carefully select courses to fulfill elective requirements with the assistance of their advisors and upon an investigation of the transfer requirements of the institution to which transfer is contemplated.

### Humanities/Fine Arts/Literature

# EXPLANATORY NOTES

---

Explanatory Notes

80

## Explanatory Notes

### **COURSE NUMBERS**

#### **NUMBERS 1-9 INDICATE DEVELOPMENTAL STUDIES COURSES.**

Credits earned in these courses are not applicable toward certificate or associate degree programs.

#### **NUMBERS 10-99 INDICATE BASIC OCCUPATIONAL COURSES (EXCEPT FOR ESL COURSES).**

Credits earned for these courses are applicable toward certificate programs. These credits are not applicable toward an associate degree.

#### **NUMBERS 100-199 INDICATE FRESHMAN-LEVEL COURSES.**

Credits earned for these courses are applicable toward associate degree and certificate programs.

#### **NUMBERS 200-299 INDICATE SOPHOMORE-LEVEL COURSES.**

Credits earned for these courses are applicable toward associate degree and certificate programs.

### **COURSE CREDITS**

The credit for each course is indicated after the title in the course description. One credit is equivalent to one collegiate semester-hour credit.

### **COURSE HOURS**

The number of lecture hours in class each week (including lecture, seminar, and discussion hours) and/or the number of laboratory hours in each week (including laboratory, shop, supervised practice, and cooperative work experiences) are indicated for each course in the course description. In addition to the lecture and laboratory hours in class each week, students must spend time on out-of-class assignments under their own direction.

### **PREREQUISITES AND CO-REQUISITES**

If any prerequisites are required before enrolling in a course, they will be identified in the course description or by an indication of course sequence. Courses listed as ACC 111-112 and ENG 111-112, for example, must be taken in sequence unless otherwise noted in the course description. Courses in special sequences (usually identified by the numerals I-II or I-II-III) must also be taken in sequence unless otherwise noted in the course description. The prerequisites must be completed satisfactorily before enrolling in a course unless special permission is obtained from the school dean or designee. Co-requisite courses are to be taken simultaneously.

### **GENERAL USAGE COURSES**

The following "General Usage Courses" apply to multiple curricula and may carry a variety of prefix designations. The descriptions of the courses are normally identical for each different prefix and are as follows:

#### **90-190-290 COORDINATED INTERNSHIP**

Provides supervised on-the-job training in selected health agencies, business, industrial, or service firms coordinated by the college. Credit/practice ratio not to exceed 1:5 hours. May be repeated for credit. Variable hours.

#### **93-193-293 STUDIES IN**

Covers new content not covered in existing courses in the discipline. Allows instructor to explore content and instructional methods to assess the course's viability as a permanent offering. Variable hours.

#### **95-195-295 TOPICS IN**

Provides an opportunity to explore topical areas of interest to or needed by students. May be used also for special honors courses. May be repeated for credit. Variable hours.

#### **96-196-296 ON-SITE TRAINING**

Specializes in career orientation and training program without pay in selected businesses and industry, supervised and coordinated by the college. Credit/work ratio not to exceed 1:5 hours. May be repeated for credit. Variable hours.

#### **97-197-297 COOPERATIVE EDUCATION**

Provides on-the-job training for pay in approved businesses, industrial, and service firms. Is applicable to all occupational/technical curricula at the discretion of the college. Credit/work ratio not to exceed 1:5 hours. May be repeated for credit. Variable hours.

#### **98-198-298 SEMINAR AND PROJECT**

Requires completion of a project or research report related to the student's occupational objective and a study of approaches to the selection and pursuit of career opportunities in the field. May be repeated for credit. Variable hours.

#### **99-199-299 SUPERVISED STUDY**

Assigns problems for independent study incorporating previous instruction and supervised by the instructor. May be repeated for credit. Variable hours.

# ACADEMIC MAJORS A to Z

---

## Accounting AAS

### Associate of Applied Science

**PURPOSE:** The rapid expansion of business and industry in Virginia has created a large, steady demand for qualified personnel to assist in the preparation and interpretation of accounting and financial information. The AAS degree in Accounting is designed for persons who are seeking their first full-time employment in the accounting field immediately upon completion of the curriculum. In addition, the program is designed for persons presently employed in accounting who desire to increase their knowledge and update their skills.

**OCCUPATIONAL OBJECTIVES:** The AAS degree in Accounting prepares graduates to function in responsible paraprofessional positions in the current employment market. Occupational objectives include Accounting Assistant, Senior Accounting Clerk, Full Charge Bookkeeper, Junior Staff Accountant, Tax Preparer, and Payroll Specialist.

**ADMISSION REQUIREMENTS:** General college curricular admission

**TRANSFER INFORMATION:** Four-year college and university transfer opportunities for AAS degrees, if existing, are usually very specific in nature. A transfer opportunity in Accounting at Mary Baldwin University - Online Program permits students to transfer 84 credit hours from Reynolds' Accounting Associate of Applied Science program. Students interested in this transfer opportunity or transferring, in general, should consult their faculty advisor upon program entry for further guidance. Please see [https://www.reynolds.edu/get\\_started/gta/agreements/Mary\\_baldwin.pdf](https://www.reynolds.edu/get_started/gta/agreements/Mary_baldwin.pdf).

The purpose of the associate of applied science (AAS) degree curriculum is to prepare students for immediate employment upon graduation.

**COMPUTER COMPETENCY REQUIREMENT:** Students in this program will meet the college's computer competency requirement by successfully completing ITE 115. Students can also meet this requirement by successfully passing the college's computer competency exam, administered in the testing centers on each campus, in which case they will receive college credit for ITE 115. Students not passing the computer competency exam may retake the exam only once.

## Accounting C Certificate

**PURPOSE:** The rapid expansion of business and industry in Virginia has created a large, steady demand for qualified personnel to assist in the preparation and interpretation of accounting and financial information. The certificate in Accounting is designed for persons who are seeking their first full-time employment in the accounting field immediately

upon completion of the curriculum. In addition, the program is designed for persons presently employed in accounting who desire to increase their knowledge and update their skills.

**OCCUPATIONAL OBJECTIVES:** The Certificate in Accounting prepares graduates for employment in any of the following occupations: Accounts Receivable Clerk, Accounts Payable Clerk, Payroll Clerk, Inventory Clerk, and other clerical positions in accounting.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** Students should consult with their faculty advisor in choosing electives or course substitutions. All program electives and course substitutions must be approved in writing by the Accounting program head.

The Accounting Certificate may transfer at the student's option directly into the Accounting AAS degree.

**COMPUTER COMPETENCY REQUIREMENT:** Students in this program will meet the college's computer competency requirement by successfully completing ITE 115. Students can also meet this requirement by passing the college's computer competency exam, administered in the testing centers on each campus, in which case they will receive college credit for ITE 115. Students not passing the computer competency exam may retake the exam only once.

3.09.20

## Accounting CSC Career Studies Certificate

**PURPOSE:** This program will provide students with the accounting courses needed to meet the requirements of the Virginia Board of Accountancy to sit for the Certified Public Accountancy (CPA) examination.

**OCCUPATIONAL OBJECTIVES:** These accounting courses may also meet accounting requirements of various government and private sector positions.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** Students entering this program must have successfully completed Principles of Accounting I and II (ACC 211-212). Since the CPA exam is computer-based, students should be proficient with computers, including the ability to work with Windows, Word, and Excel. Students should speak with their Accounting faculty advisor prior to enrolling in courses. To meet the educational requirements to sit for the Virginia CPA exam, a candidate must obtain the following from one or more accredited institutions:

- At least 120 semester hours of college courses;
- Baccalaureate or higher degree; and
- Accounting concentration or equivalent.

Virginia Board of Accountancy (VBOA) requires the following:

- A minimum of 24 semester hours of accounting courses, to include courses in auditing, financial accounting, management accounting, and taxation; and
- A minimum of 24 semester hours of business courses. As many as six hours of accounting courses (not included in the 24 hours of accounting courses) may be considered for the business course requirement.

Although they are in addition to the CSC, if needed, students can complete the 24 business credit hours required by the Virginia Board of Accountancy (VBOA). Please see your faculty advisor for recommended courses.

*\*Principles of Accounting courses (ACC 211-212) or introductory accounting courses cannot be considered in determining whether a person has obtained the minimum of 48 semester hours or equivalent required for an accounting concentration.*

#### CURRICULUM:

Order	Course	Title	Credits
1	ACC 221 <sup>1</sup>	Intermediate Accounting I	3
2	ACC 231 <sup>2</sup>	Cost Accounting I	3
3	ACC 261	Principles of Federal Taxation I	3

<b>6</b>	3	Accounting Elective	3
<b>7</b>	3	Accounting Elective	3
<b>8</b>	3	Accounting Elective	3
<b>TOTAL</b>	<b>Accounting Career Studies Certificate</b>		<b>24</b>

01.28.2020

<sup>1</sup> Prerequisite is ACC 211 with a grade of "B" or higher.

<sup>2</sup> Prerequisite is ACC 212 with a grade of "C" or higher.

<sup>3</sup> Students will take 3 of the following 4 classes: ACC 217, ACC 219, ACC 215, ACC 240.

## Administration of Justice AAS Associate of Applied Science

**PURPOSE:** The Administration of Justice program is for students anticipating a career in the justice system, as well as for persons already employed in the justice system who want to enhance their professional standing and update their skills.

**OCCUPATIONAL OBJECTIVES:** The Administration of Justice program is designed for students who are planning careers in law enforcement, corrections (juvenile and adult), or employment in related agencies.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** The following high school units are strongly recommended for the Administration of Justice program: four units of English, three units of college preparatory mathematics, one unit of laboratory science, and two units of foreign language. There are no physical requirements such as height, weight, eyesight, and physical dexterity; however, the student should understand that there may be such requirements for employment in criminal justice agencies.

The purpose of the Associate of Applied Science (AAS) degree curriculum is to prepare students for immediate employment upon graduation. Four-year college and university transfer opportunities for AAS degrees, if existing, are usually very specific in nature. Reynolds has formal transfer articulation agreements with four-year institutions that enable graduates who qualify to transfer courses completed in the AAS degree. These transfer articulation agreements are subject to change or expiration.

In addition, students may substitute some courses in the AAS degree curriculum with courses that typically transfer to senior institutions. Students interested in transferring in general or transferring under a formal transfer articulation agreement should consult with their faculty advisor upon program entry for further guidance.

Certain illegal activities and/or convictions may prohibit employment in law enforcement. Employing agencies may require additional training such as completion of a police academy for some positions. Employing agencies may have minimum age requirements for some positions and may require a physical examination.

**COMPUTER COMPETENCY REQUIREMENT:** Students in this program will meet the college's computer competency requirement by successfully completing ITE 115. Students can also meet this requirement by passing the college's computer competency exam administered in the testing centers on each campus, in which case they will receive college credit for ITE 115. Students not passing the computer competency exam may retake the exam only once.

## Advanced Medical Coder (Health Information Management) CSC Career Studies Certificate

**PURPOSE:** This program is designed to provide the technical knowledge and skills needed for employment as an advanced medical coder. The coursework for the advanced level will equip students to work in medical records and offer an opportunity for existing coders to further their management, supervisory, auditing, or alternative coding skills.

**OCCUPATIONAL OBJECTIVES:** Advanced medical coders work in hospitals, doctors' offices, insurance companies, and government agencies.

**ADMISSION REQUIREMENTS:** General college curricular admission and program-specific criteria

**PROGRAM NOTES:** In addition to the general college curricular admission requirements, students must meet with the program faculty for advising prior to enrollment. To be accepted into the Advanced Medical Coder program, students must have a professional certification from either the AHIMA (CCA or CCS) or AAPC (CPC).

**COMPUTER COMPETENCY REQUIREMENT:** Students in this program must meet the college's computer competency requirement by successfully completing ITE 115. Students can also meet this requirement by passing the college's computer competency exam administered in the testing centers on each campus, in which they will receive college credit for ITE 115. Students not passing the computer competency exam may retake the exam.

5	HIM 249	Supervision and Management Practices	3
<b>TOTAL</b>	<b>Advanced Medical Records Coder Career Studies Certificate</b>		<b>16</b>

01.22.20

<sup>1</sup> To enroll in HIM 220, competency in introductory Algebra MDE 10 must be shown as demonstrated through placement or by satisfactorily completing MDE 10.

## American Sign Language CSC Career Studies Certificate

**PURPOSE:** This curriculum prepares individuals to communicate in American Sign Language (ASL), primarily with persons who are deaf or hard of hearing. Students also study the U.S. Deaf community from a cultural perspective.

**OCCUPATIONAL OBJECTIVES:** The American Sign Language Career Studies Certificate (CSC) leads to employment opportunities primarily as a classroom aide or teacher assistant in "Deaf and Hard of Hearing" or "Hearing Impaired" K-12 programs. The content learned and skills attained may also form a foundation for further study in numerous careers, including the following: sign language interpretation, teacher of "Deaf and Hard of Hearing" children, American Sign Language instructor, linguistics, and Deaf studies.

Preparation to become a sign language interpreter, as opposed to engaging in direct communication using ASL, is facilitated through completion of the American Sign Language - English Interpretation AAS degree. Completion of the ASL CSC by May along with placement in ENG 111 satisfies the prerequisites to begin the ASL - English Interpretation AAS in spring/summer annually.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** Students must take SDV 101 - Orientation to American Sign Language and Interpreter Education during the first semester of study. Students must also begin language study with ASL 101 (ASL I), unless placed into a more appropriate level by the ASL and IE coordinator via the ASL placement test. Students must attain a grade of "C" or better as a final grade in a prerequisite ASL course before enrolling in a more advanced ASL course. The ASL CSC is a five-semester program of part-time study designed to develop intermediate fluency in conversational ASL and a working understanding of Deaf people as a cultural group. Designed to begin in fall with SDV 101 and ASL 101, the first four semesters are each comprised of two courses (6-7 credits) leading to completion in 21 months during the spring semester when successful students may begin Interpreter Education coursework, while completing the final ASL/INT elective (2 credits).

### CURRICULUM:

2	ASL 101	American Sign Language I	4
3	ASL 102	American Sign Language II	4
4	ASL 115	Fingerspelling and Number Use in ASL	2
5	ASL 201	American Sign Language III	3
6	ASL 220	Comparative Linguistics: ASL and English	3
7	ASL 202	American Sign Language IV	3
8	ASL 225	Literature in the Deaf Community	4
9	ASL 125 or ASL 208 or ASL 261 or ASL 262 or INT 106	ASL Elective or INT Elective	2
<b>TOTAL</b>	<b>American Sign Language Career Studies Certificate</b>		<b>28</b>

3.09.20

## American Sign Language-English Interpretation AAS

### Associate of Applied Science

**PURPOSE:** The degree in American Sign Language (ASL)-English Interpretation is designed to prepare individuals for a career in sign language interpretation.

**OCCUPATIONAL OBJECTIVES:** A majority of full-time ASL-English Interpretation positions in the Commonwealth are found in the K-12 public school setting. The minimum requirement to work as an ASL-English Interpreter in the K-12 setting in Virginia is a VQAS Level III, an EIPA of 3.5 or higher, or National Interpreting Certificate (NIC) certification. Interpreters may also consider freelance and contract interpreting opportunities, including the expanding fields of video relay service (VRS) and video remote interpreting (VRI), which both utilize interactive video technology via the Internet.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** ASL-English Interpretation is a two-year, full-time course of study that enrolls new students annually to begin coursework during the spring or summer semester with programmatic content provided year-round until completion. Candidates for admission to the program must provide evidence of fluency in both English and ASL. Fluency in English is demonstrated by placement into ENG 111. Fluency in ASL is

demonstrated by completion of the American Sign Language IV with a "B" or higher. Fluency in ASL may also be demonstrated through a diagnostic interview with the American Sign Language and Interpreter Education (ASL&IE) program head.

Successful completion of the 3-step NIC process results in national certification as an ASL-English Interpreter, which may be maintained through the Registry of Interpreters for the Deaf (RID) via continuing education. As of July 1, 2012, individuals are required to have a bachelor's degree, or equivalent, as determined by the National Council on Interpreting (NCI), in order to sit for the NIC evaluation. For more information, please contact the ASL&IE coordinator regarding alternative pathways to certification (i.e., without a bachelor's degree). For more information on the NIC, please visit [www.casli.org](http://www.casli.org).

As part of the ASL-English Interpretation AAS curriculum, the student must receive a passing score on the VQAS written assessment and "B" or higher in INT 130 prior to initiating INT 280, Interpreter Assessment Preparation. It is typical for students to sit for the VQAS or EIPA performance exam during the fall semester of year 2. Initiation of INT 290, ASL-English Interpretation Internship, during the spring of year 2 is typical. The Virginia Quality Assurance Screening (VQAS) is a state screening, valid for three years, by which time the interpreter must be screened again or the credential is no longer valid. For more information on the VQAS, please visit <http://www.vddhh.org> or contact the Virginia Department for the Deaf and Hard of Hearing (VDDHH) at 1-800-552-7917 [V]. The Educational Interpreter Performance Assessment (EIPA) is administered by Boys Town National Research Hospital. For more information on the EIPA, please visit [www.classroominterpreting.org](http://www.classroominterpreting.org).

**CONTINUATION IN THE PROGRAM:** To continue in the program, students must achieve a minimum course grade of "B" (80) in each INT course.

#### FINANCIAL REQUIREMENTS:

Books and Supplies	\$400 first semester; \$200 for all other semesters
Certification/Testing Fees	Contact CASLI for NIC fees; contact VDDHH for VQAS fees; contact Boys' Town for EIPA fees

**COMPUTER COMPETENCY REQUIREMENT:** Students in this program will meet the college's computer competency requirement by successfully completing ITE 115. Students can also meet this requirement by passing the college's computer competency exam administered in the testing centers on each campus, in which they will receive college credit for ITE 115. Students not passing the computer competency exam may retake the exam only once.

<b>TOTAL</b>	<b>American Sign Language-English Interpretation Associate of Applied Science</b>		<b>68-69</b>

01.25.21

<sup>1</sup> Some classes offered via hybrid class. Check specific schedule for further information.

<sup>2</sup> INT 133-134 and INT 233-234 are course tandems that are designed to be taken concurrently.

<sup>3</sup> A list of approved mathematics and science electives is provided in the General Education section of the catalog under Curriculum Planning and Design. In addition to the Reynolds list of approved electives, in order to satisfy this requirement, the ASL&IE coordinator may also approve either: 1) a combination

of mathematics and/or science credits transferred from another post-secondary institution and received by Reynolds; or 2) the selection of a different course which is identified in supporting documentation generated by a representative of receiving institution that will satisfy the mathematics or science requirement for a bachelor degree.

<sup>4</sup> Successful completion of INT 130 with "B" or higher **and** successful completion of the VQAS written test typically as part of INT 130 are required prior to enrolling in INT 280 - Interpreter Assessment Preparation.

<sup>5</sup> In order to be placed in an internship (INT 290), the student must sit for and be awarded an interpreting credential (e.g., VQAS level, EIPA award, or NIC certification) or demonstrate acceptable proficiency on a mock ASL-English Interpreter assessment approved by the ASL&IE program head.

## Architectural and Engineering Technology AAS

### Associate of Applied Science

#### SPECIALIZATIONS:

Contemporary Technology for Design  
Building Construction Management

**PURPOSE:** The Architectural and Engineering Technology degree is designed to develop qualified technicians for the field of engineering. The technician serves as an important link between the engineering professional and the skilled tradesperson in the design, construction, and operation of engineering projects.

**OCCUPATIONAL OBJECTIVES:** This program will provide graduates with the skills and specialized knowledge for employment as highly-trained architectural draftspersons; managers for the construction industry; technicians for construction projects, such as highway, bridge, dam, commercial, and residential construction; and other related occupations in a highly active industry. Employment opportunities are numerous from the planning stage through project completion and inspection in the following areas: construction industry in private enterprise, government-related business, consulting, and other engineering-related activities.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** In addition to general college admission, applicants shall have (1) completed placement testing and (2) met with their advisor to establish a planned course of study prior to being allowed to register for courses.

Satisfactory completion of the following high school units or their equivalent, at a minimum, is strongly recommended: four units of English, one unit of laboratory science (preferably physical science), one unit of social studies, and two units of mathematics (one unit of algebra and one unit of geometry).

# REYNOLDS COMMUNITY COLLEGE

**COMPUTER COMPETENCY REQUIREMENT:** Students in this program will meet the Reynolds computer competency requirement by successfully completing CSC 155 or ITE 115. Students can also meet this requirement by passing the Reynolds computer competency exam, administered in the testing centers on each campus, in which case they will receive college credit for CSC 155 or ITE 115. Students not passing the computer competency exam may retake the exam only once.

## Automotive Maintenance and Light Repair CSC Career Studies Certificate

**PURPOSE:** This career studies certificate is designed to train individuals for employment in express service light repair and maintenance positions at dealerships and independent repair shops. The curriculum covers both theory and shop training with an emphasis on service and minor repair. As a result of instruction, students will be able to describe the purpose and function of each vehicle system and identify the parts involved and how they work. Additionally, students will learn how to perform basic diagnosis with the end goal of determining if a system is working as designed or if further service is required.

**OCCUPATIONAL OBJECTIVES:** Auto Mechanic, Service Advisor, Maintenance Technician, Parts Clerk, and Service Writer

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** Students are required to meet with the program head either before registering for their first semester or early in their first semester of study.

### CURRICULUM:

Order	Course	Title	Credits
1	AUT 101	Introduction to Automotive Systems	3
2	AUT 241	Automotive Electricity I	3
3	AUT 265	Automotive Braking Systems	3

4	AUT 266	Automotive Alignment, Suspension and Steering	3
5	AUT 111	Automotive Engines I	4
<b>TOTAL</b>	<b>Automotive Maintenance and Light Repair Career Studies Certificate</b>		<b>16</b>

3.09.20

## Automotive Technology C Certificate

**PURPOSE:** The Automotive Certificate curriculum trains future technicians to help meet the community's transportation needs.

An automotive technician ensures that automobiles and trucks are safe to operate on roads and highways and is responsible for educating vehicle owners regarding the status of their vehicle.

The curriculum covers both theory and shop training with an emphasis on service and minor repair. As a result of instruction, students should be able to describe the purpose and function of each vehicle system and identify the parts involved and how they work. The program will provide students with experience and sufficient hands-on experience in the maintenance and repair of a wide variety of automobiles, as well as light to medium duty trucks.

**OCCUPATIONAL OBJECTIVES:** Automotive technicians are typically employed at automotive repair shops or dealerships where they collaborate to meet the needs of customers. They may work in a wide variety of positions, such as quick lube technicians, maintenance technicians, diagnostic experts, parts department workers, service advisors, shop foremen, or service managers.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** Students are required to meet with the program head either before registering for their first semester or early in their first semester of study.

**COMPUTER COMPETENCY REQUIREMENT:** Students in this program will meet the college's computer competency requirement by successfully completing ITE 115. Students can also meet this requirement by successfully passing the college's computer competency exam, administered in the testing centers on each campus, in which case they will receive college credit for ITE 115. Students not passing the computer competency exam may retake the exam only once.

**GAINFUL EMPLOYMENT DISCLOSURE INFORMATION:** Please see [www.reynolds.edu/curriculum/gainful-employment-html/ge\\_info\\_902.html](http://www.reynolds.edu/curriculum/gainful-employment-html/ge_info_902.html) to access gainful employment disclosure information for this program.

## Business - Entrepreneurship in Small Business CSC Career Studies Certificate

**PURPOSE:** This program is designed for persons who wish to acquire the knowledge and skills necessary to organize and manage a small business. This program addresses management concerns unique to small businesses, including organizational structure, marketing plans, financial analysis, tax requirements, legal issues, and computer applications.

**OCCUPATIONAL OBJECTIVES:** This program trains students to own, operate, and manage a small business with 100 or fewer employees.

**ADMISSION REQUIREMENTS:** General college curricular admission

## Business Administration AS (Transfer) Associate of Science

**PURPOSE:** With the rapid development of business and industry in Virginia, there is a great demand for qualified personnel in business administration to provide leadership for this economic growth. The Associate of Science degree with a major in Business Administration is designed for persons who plan to transfer to a four-year college or university to complete a baccalaureate degree in business administration.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** The following high school units are strongly recommended: four units of English, three units of college preparatory mathematics, and one unit of laboratory science. This curriculum requires courses in mathematics, natural sciences, social sciences, and health and physical education, in addition to principles of economics and accounting, which are usually required in the first two years of a baccalaureate business administration curriculum. With the assistance of their advisor, students are urged to acquaint themselves with the requirements of the major department in the institution to which transfer is contemplated. Students are advised to complete the AS degree at the community college, choosing courses that satisfy the mathematics, laboratory science and elective requirements of the four-year college as well as the AS degree. If students contemplate transferring to an out-of-state college, they should also make contact with the four-year college and consult that college's catalog before deciding which courses to take.

**COMPUTER COMPETENCY REQUIREMENT:** Students in this program will meet the college's computer competency requirement by successfully completing ITE 115. Students can also meet this requirement by passing the college's computer

competency exam, administered in the testing centers on each campus, in which case they will receive college credit for ITE 115. Students not passing the computer competency exam may retake the exam only once.

## FOUR-YEAR COLLEGE/UNIVERSITY TRANSFER

**INFORMATION:** Additional information regarding transfer requirements for JMU, VSU, ODU, UVA Continuing and Professional Studies, MBC Adult Degree Program in Richmond, Longwood University, and UR SPCS is available at reynolds.edu/curriculum/business\_administrations.

## CURRICULUM:

Order	Course	Title	Credits
1	SDV 100	College Success Skills	1
2	ENG 111	College Composition I	3
3	BUS 100	Introduction to Business	3
4	ITE 115	Introduction to Computer Applications and Concepts	3

20	_____ <sup>1</sup>	Laboratory Science Elective: BIO 102 - General Biology II	4

or BIO 107 - Biology of the Environment

21	_____ <sup>1,2,4</sup>	Approved Elective
<b>TOTAL</b>	<b>Business Administration Associate of Science</b>	<b>61</b>

01.25.21

<sup>1</sup> A list of approved general education electives (humanities/fine arts/literature, social/behavioral sciences, mathematics, natural sciences, and personal wellness) is provided in the General Education section of the catalog under Curriculum Planning and Design. Students planning to transfer must take two semesters of laboratory sciences.

<sup>2</sup> Personal wellness courses and non-transfer math courses **may not be used** to satisfy this approved elective. Students planning to transfer to institutions other than VCU may also select from the list of approved general education electives (humanities/fine arts, social/behavioral sciences, mathematics, and science) that is provided in the General Education section of the catalog under Curriculum Planning and Design.

<sup>3</sup> In addition to the Reynolds Business Administration program's MTH 161 and MTH 261 requirements, the business programs of the following senior institutions require MTH 245: College of William and Mary, Radford University, JMU, University of Richmond, and University of Virginia. If majoring in Information Systems at VCU, students should take an additional math course at Reynolds: MTH 288. MTH 263 is a prerequisite for MTH 288.

<sup>4</sup> Students planning to transfer to Virginia State University (VSU) as 3rd year business school majors must complete the following courses at Reynolds rather than the ones listed in the table above: World History or World Geography elective, BUS 240, BUS 220, CST 229, MTH 162, and FIN 107.

<sup>5</sup> Students transferring to Virginia Commonwealth University are required to complete a semester of precalculus and a semester of calculus. If transferring to another university, students should see the program head for substitution of an appropriate math course.

<sup>6</sup> Students are reminded that AS degrees are required to have 6 credits of humanities and fine arts courses and should consult an advisor to make sure the appropriate elective is taken to fulfill this requirement. A literature course is recommended.

## Central Sterile Technician CSC Career Studies Certificate

**PURPOSE:** This program provides the technical knowledge and skills, along with the four-hundred (400) hours of clinical practical experience, needed for employment as a central sterile technician. Graduates of this program are educated and trained in central sterile technology under the guidelines of the International Association of Healthcare Central Service Materiel Management (IAHCSMM) and the Reynolds CSP Advisory Committee. Upon completion, students are eligible to take the IAHCSMM **Certified Registered Central Service Technician (CRCST)** certification exam.

The curriculum consists of basic science, infection control, sterilization, human relations, and the necessary job skills, combined with clinical experiences required for eligibility for the IAHCSMM CRCST examination. There is an emphasis on care and preparation of surgical instruments. Classroom instruction and clinical experiences prepare the student to assume the role of a central service technician in a variety of health care delivery settings.

**Program Length:** This program is a combination of classroom, laboratory, and clinical learning experiences. The program can be completed in three semesters full-time. Program progress is based on whether the student is a part-time or full-time student.

**OCCUPATIONAL OBJECTIVES:** Certified central sterile technicians work in hospitals, doctors' and dental offices, and outpatient surgical centers. Essential functions include cognitive, physical, and behavioral abilities necessary to perform the duties of a professional central sterile technician. Central service technicians can be trained on the job, depending on the employer, but employers may favor applicants who have formal training and certification, which requires 400 hours of clinical experience.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** In addition to the general college curricular admission requirements, students must meet with the program head for advising prior to enrollment in the first Central Sterile Technician course. Courses need to be taken in the sequence listed or program head permission is required. Students will be required to repeat any course in which a grade lower than "C" is received. This program must be completed within two (2) years. If there is a break in enrollment, students will be moved into the most recent catalog.

This program is a cohort model. The CSP courses are offered in sequence. The Central Sterile courses start in the summer and fall. SDV 101 - Orientation to Health Science, CSP 101 - Introduction to Central Sterile Services, HLT 105 - Cardiopulmonary Resuscitation, HLT 143 - Medical Terminology, CSP 135 - Central Sterile Infection Control, and CSP 106 - Surgical Instrumentation must be completed prior to the second semester.

**ADDITIONAL ADMISSION REQUIREMENTS:**

- For students who complete all of the admission requirements, admission is based on a first come, first served basis.
- Students must meet with the program director prior to enrolling in a CSP course to review medical, Criminal Offender Record Information (CORI), Sex Offender Registry Information (SORI), and drug clearance information.
- Submission of official high school transcript, GED, or certificate of completion of home schooling transcripts to Central Admissions & Records.

**Competency-based Credit-By-Able:** Students who have documented work experience can receive competency-based credit for the clinical areas below. Competency-based credits are only provided for hands-on work experience. Students are required to complete the related theory course. Competency-based credit can only be applied after the student receives a "C" on the related theory course and completion of 10 credits in the Reynolds CSP program. If a student receives a theory grade below a "C", the theory course must be repeated, and the clinical course must be taken. Students should meet with the program head to determine if they qualify for competency-based credit.

1. General Cleaning (32 hours)
2. Wrapping Packaging (36 hours)
3. Assemble Instrument/Procedure Trays (60 hours)
4. Sterilization (64 hours)
5. Storage Clean and Sterile (36 hours)
6. Miscellaneous (40 hours)
7. Patient Care Equipment (32 hours)
8. Case Carts (32 hours)\*
9. Linen Folding (36 Hours)\*
10. Distribution (32 Hours)\*

\* Clinical hours may be distributed in other competency-based clinical areas above.

### Program Outcomes:

At the conclusion of the program, students are able to:

- Apply the principles and techniques of decontamination to render medical devices safe to handle without protective attire (decontamination);
- Inspect, assemble, pack, and wrap medical devices in preparation for appropriate sterilization process and/or distribution (assembly);
- Safely select and perform proper sterilization techniques, validate sterility assurance level monitoring, and maintain sterilization integrity during storage (sterilization and sterile storage);
- Demonstrate professional conduct, communication, and work practices according to appropriate federal regulations, industry standards, and facility policies (professionalism and communication); and
- Integrate knowledge, skills, and dispositions acquired throughout the program to be prepared to function as a competent certified central sterile technician following guidelines established by IAHCSMM (practitioner).

### Clinical Requirements

Prior to the student's first clinical course

1. Criminal Offender Record Information (CORI) and Sex Offender Registry Information (SORI) requests must be processed. These checks are required due to potential contact with children, persons with disabilities, or the elderly during a clinical experience. Students found to have certain criminal convictions or pending criminal actions may be ineligible for clinical placement. CORI and SORI are processed through an independent third-party vendor. Clinical sites will review results.
2. Students must have current CPR certification from the American Heart Association (Heart Saver). This can be taken as part of the program, but must be completed prior to a clinical course.
3. A physical examination and health form completed by the student's physician for documentation of tetanus, measles, mumps, rubella, hepatitis B, and varicella (chicken pox) immunizations, or titer (a blood test to prove immunity). A TB test is required.

**EXPECTATIONS:** The student is required to complete a sequence of courses and learning experiences provided at the college and selected community agencies, such as acute care (hospitals) or long-term care facilities, clinics, or comparable agencies and facilities. During these experiences, the assigned faculty will observe, monitor, and evaluate the student's ability to achieve program outcomes through direct clinical experiences. Professional conduct and meeting program and course requirements related to dress code, program, and health care orientation are required.

**CLINICAL CONTRACTS:** Individual contracts are in effect with each affiliate clinical agency, and these contracts differ in requirements for students. In general, contracts include the following:

1. Clinical agencies reserve the right to dismiss a student from their agency at any time with due cause. This will be done with advance notice except in an emergency.
2. Student must wear the proper uniform, conforming to program and health care agency standards.
3. Student must follow published hospital policies.
4. Student must meet health, immunity, and immunization requirements.
5. Student releases the facility, its agents, and its employees from any liability for any injury or death to self or damage to personal property arising out of the clinical agreement or use of the facility. (Assessment of Risk document is signed and on file once the student is accepted into the program.)
6. Student is financially responsible for any medical care required while in the clinical setting.
7. Student must have a current American Heart Association CPR Heart Saver certification.
8. Demonstration of professional behavior is expected at all clinical learning experiences. If unacceptable behaviors are observed, faculty will direct a student to leave the learning environment.
9. Student must complete a CORI, SORI, and drug screen, which may be repeated during the program of study. The health care agency may deny a student participation in direct patient care based on results of background and drug screen.

10. Student must attend the health care agency orientation as scheduled to remain enrolled in a clinical nursing course.
11. Student must submit required clinical documents with each clinical rotation. A student who does not meet published deadlines for submission forfeits his/her enrollment.
12. If a student is dismissed by a clinical facility, alternate placement will require disclosure of information related to the dismissal. The student must consent to disclosure through completion of a FERPA form.

Contracts for each agency are available in the School of Health Professions Office in the Division Office and may be reviewed by students upon request.

**PROGRESSION THROUGH THE PROGRAM:** Reynolds offers this program in affiliation with the health care agencies and practitioners in the communities the college serves and relies on its community affiliates to provide clinical education opportunities for its many courses. The rapid changes in health care law, standards of practice, technology, content of credentialing examinations, and availability of qualified faculty increasingly necessitate sudden changes in the program's course content, policies, procedures, and course scheduling. As a result, the college cannot guarantee every student continuous and uninterrupted clinical and course instruction as outlined in the printed catalog curriculum for this program. Circumstances beyond the control of the college may necessitate the postponement of course offerings or changes in the sequencing and/or location of scheduled courses or clinical assignments. Additionally, the college may have to change the instructor for courses after instruction has started.

If a student is dismissed by a clinical facility, alternate placement may require disclosure of information related to the dismissal. The student must consent to disclosure.

**CONTINUATION IN THE PROGRAM:**

- Students must maintain a cumulative GPA of 2.0 or higher.
- Students must achieve a course grade of at least "C" (80) in each course.

**ESSENTIAL FUNCTIONS:** Technicians work in environmentally controlled conditions and practice infection control as they are exposed to disease and/or infectious material. Potential students need to be aware that the work environment includes frequent exposure to electricity, electromagnetic fields, electronic media and latex; and chemical hazards, including (but not limited to) disinfecting solutions, dyes, acetone, bleach, and alcohol. There is also possible exposure to toxic drugs, anesthetic gases, ionizing radiation, and infectious agents (blood, urine, mucus, saliva, etc.).

In order to meet the course requirements the student must be able to perform the following without assistance:

**Communication**

- Follow written and oral/verbal instructions in English;
- Demonstrate ability to comprehend and interpret written material;
- Demonstrate cognitive ability sufficient to learn and use the body of knowledge necessary to meet the program

# REYNOLDS COMMUNITY COLLEGE

curriculum requirements and attain career entry status in the profession;

- Make judgments and decisions that are appropriate to the role of a central sterile technician;
- Demonstrate emotional stability sufficient to interact professionally with instructors, staff, patients, and physicians; respect patient confidentiality; use reasonable judgment; and accept responsibility for their actions;
- Possess short-term and long-term memory sufficient to perform tasks such as, but not limited to, mentally tracking surgical supplies and demonstrate the ability to anticipate tasks required as a central sterile technician and as a member of the health care team;
- Synthesize information from written material and apply the knowledge to various situations in the classroom and health care environment;
- Demonstrate the use of positive coping skills during patient, staff, and faculty interactions;
- Demonstrate calm and effective responses, especially in emergency situations; and
- Travel to clinical sites as assigned.

## Physical and dexterity skills

- **Smell** – ability to detect odors sufficient to maintain environmental safety and patient needs.

## Physical ability (gross and fine motor skills)

- Sufficient mobility and motor coordination to safely perform all activities required while in the upright position;
- Walk, bend, stoop, kneel, stand, twist, sit, carry, lift, reach hands overhead;
- Sit and stand long periods of time (4-7 hours in class; 8 hours in clinical);
- Pull 75 lbs.; lift 35 lbs.; and push 100 lbs.;
- Ambulate/move around without assistive devices; and
- Successfully complete a CPR certification course (American Heart Association Healthcare Provider). Certification must be maintained throughout the entire length of the program.

## Visual

- Demonstrate acuity sufficient to read all appropriate instrumentation;
- Demonstrate ability to perform precise hand/eye coordination;
- Demonstrate ability to discriminate tactile sensations;
- Demonstrate ability to discriminate color and depth perception;
- Demonstrate sufficient visual ability in order to inspect fine needles and needle holders with/without corrective lenses and while wearing safety glasses; and
- Demonstrate sufficient peripheral vision to anticipate and function while in the health care environment.

## Hearing (normal or with assistive device)

- Demonstrate ability sufficient to respond to messages and requests from patients, physicians, and staff and to respond to equipment signals;

- Demonstrate ability to hear activation/warning signals on equipment and respond accordingly; and
- Demonstrate ability to hear and understand muffled communication without seeing the communicator's mouth/lips and within 20 feet.

## Program Costs:

Tuition for Entire Program (in-state at \$166.60 per credit for 20 credits – based on Fall 2019 tuition rate)	\$ 3,332.00
Castlebranch® Document Manager® Background Check, Drug Screening, and Re-checks	\$ 225.00
Physical Exam – proof of immunity, immunizations, TB testing from appropriate physician (varies based on insurance coverage)	\$ 500.00
Books and Supplies	TBA
Scrubs (provided by the clinical site)	-0-
Lab Coat & Program Shirt	\$ 50.00
Shoes – recommend students select comfortable shoes. Many students prefer to set aside one pair of shoes for exclusive use in the clinical experience.	\$ Varies

These costs are approximate and subject to change. The student should also consider transportation and potential parking costs for clinical assignments.

**Professional Organizations:** Visit the following websites to learn more about the rewards of the central service profession.

<sup>4</sup> Must complete health forms prior to clinical placements.

## Computer-Aided Design Specialist CSC

### Career Studies Certificate

**PURPOSE:** The rapidly evolving field of computer technology has had a dramatic impact on the architectural/engineering professions. The Computer-Aided Design Specialist Career Studies Certificate was created to meet the contemporary graphic needs of architectural and industrial design firms. This program provides the student with thorough training in two- and three-dimensional computer graphics, including studies in visualization and animation.

**OCCUPATIONAL OBJECTIVES:** CAD Technician, Presentation (Rendering) Graphics Specialist, and CAD Manager

**ADMISSION REQUIREMENTS:** General college curricular admission

### CURRICULUM:

<sup>1</sup> ARC 201, ART100, CST 100, PSY 200, PHI 200

## Criminal Justice CSC Career Studies Certificate

**PURPOSE:** This program provides an overview of criminal justice and basic police officer training. It is designed for those who have an interest in understanding societal issues associated with crime and the work performed by criminal justice professionals. The curriculum examines various approaches to understanding crime. Topics include maintaining law and order, police-citizen conflict, crime prevention, collecting evidence, conducting criminal investigations, the juvenile justice system, and the interface between police and other criminal justice agencies. Issues pertaining to criminal justice and law enforcement in a modern society are addressed. Students completing this career studies certificate may apply the courses completed to the Administration of Justice AAS degree.

**OCCUPATIONAL OBJECTIVES:** The Criminal Justice Career Studies Certificate prepares students for entry-level careers with general law enforcement responsibilities. This career studies certificate may lead to civilian and sworn positions, including dispatchers, police officers, correctional officers, or security personnel.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** Certain illegal activities and/or convictions may prohibit employment in law enforcement. Employing agencies may require additional training, such as completion of a police academy for some positions. Employing agencies may have minimum age requirements for some positions and may require a physical examination.

## CURRICULUM:

3.09.20

## Culinary - Food and Beverage Operations CSC Career Studies Certificate

**PURPOSE:** The Food and Beverage Operations program is intended to build upon existing skill sets by delving deeper into industry function and understanding of the skills necessary to be successful in the modern and classical kitchen. Related practice and exploration of advanced cooking techniques, experiential learning, and operations are further explored. The curriculum provides technical education in intermediate to advanced skill development through hands-on sanitation practice and assessment including internship experience and the capstone course to display technique, understanding, and application of fundamentals, technique, and operations. This credential leads to mid-level employment in a variety of culinary and retail career paths.

**OCCUPATIONAL OBJECTIVES:** The Food and Beverage Operations Career Studies Certificate prepares graduates to enter the following positions: Prep Cook, Station Cook, Catering, Line Cook, Baking and Pastry Line Chef, Sous Chef, Executive Sous Chef and other mid-level positions; with the skills for career advancement.

**ADMISSION REQUIREMENTS:** The Food and Beverage Operations Career Studies Certificate requires that students have (1) completed MTH 130 or higher or program head approval, (2) competencies in reading and writing as demonstrated by placement in ENG 111 or completion of a college-level composition course, (3) completed Foundations of Culinary Technique and/or completion of all pre- or co-requisite courses.

Faculty provide advising to enhance student success. All students wishing to enroll in Food and Beverage Operations CSC must attend an advising session. Once enrolled, students must meet with their advisor every semester to review their scheduling strategy and status toward graduation. Information about advising and enrolling in classes is available at the following link:

[www.reynolds.edu/get\\_started/programs/business/culinary\\_and\\_hospitality/admission.aspx](http://www.reynolds.edu/get_started/programs/business/culinary_and_hospitality/admission.aspx)

Students who earn a final grade lower than "C" in any HRI or major-related course, as identified by the program, must obtain permission from their advisor to continue the major in Food and Beverage Operations CSC. Students will be required to repeat courses in their major when grades lower than "C" are earned. Exceptions must be reviewed and approved in writing by the program head.

The competency-based nature of the curriculum allows students with previous educational studies or training experience to be evaluated for advanced standing called ABLE. Students who believe they are eligible for such consideration are required to meet with their advisor to discuss eligibility. If the advisor determines this option may apply, the student must meet with the program head for full evaluation and possible advanced standing to gain access to the process and materials required for submission and evaluation.

**PROGRAM NOTES:** The recommended sequence can be viewed at [https://www.reynolds.edu/get\\_started/programs/business/culinary\\_and\\_hospitality/default.aspx](https://www.reynolds.edu/get_started/programs/business/culinary_and_hospitality/default.aspx).

**REQUIRED UNIFORMS AND TOOL KITS:** Students enrolled in HRI courses must wear an approved uniform and possess an approved tool kit for HRI courses. Specifications may be obtained at <https://www.reynolds.edu/uniforms-for-culinary> or from the program head. All required items are available through the campus bookstore, and financial aid may be used to assist with obtaining these items.

**FINANCIAL REQUIREMENTS:** In addition to the regular college tuition and fees, the Culinary Arts AAS degree and specializations require the following:

Approved uniform items: chef jacket, chef pants, slip resistant black kitchen safety shoes, hat, apron	\$185.00 +/-
Supplies: medium black Sharpie marker, yellow highlighter, basic pocket calculator, pocket size notebook	\$25.00 +/-
Textbooks, MyLab products, and other supplies	\$500.00 +/-
Approved tool kit	\$400.00 +/-

Specialization - specific items	See program head
---------------------------------------	---------------------

**TOTAL**

These costs are approximate, are subject to change without notice, and do not cover transportation costs.

**DIETARY EXCEPTION POLICY:** While enrolled and participating in the Culinary Arts program, especially laboratories, students will come into contact with various ingredients, some of which are familiar to them and many that are not. The Culinary Arts AAS is aligned with industry standards and expectations, which require students to be industry-ready upon completion of the program. The industry expects taste development; therefore, a majority of the program revolves around "tasting as you go" as a standard of higher-level cooking, comprehension, and assessment. Without directly participating in tasting, the chances of a successful dish and grade are highly compromised. The following areas address these potential concerns:

**TASTING** - Part of the educational portion of the program is exposure to new ingredients, products, and flavor pairings. During required classes, students will participate in tasting activities of foods that include safe to eat raw and fresh ingredients; cooked ingredients; and fresh, uncooked, and cooked dishes. Students will be expected to taste all items, except those that are documented on file as food restrictions. The process of discerning tastes, flavors, seasonings, and "dish needs" is included as part of the grading rubric. Students who do not participate in tasting activities will have their grade adjusted accordingly.

**ALLERGIES** - The college is committed to student safety. Students with allergy concerns need to provide documentation of food allergies from their doctor to be registered and on file with the Office of Student Accommodations, at which time the student will be provided an accepted accommodations form for presentation to every instructor for each related course, each semester. Students need to provide in written form the process for assisting them if an issue arises related to this. It is the student's responsibility to assure these documents are on file with the Office of Student Accommodations and that they are shared with faculty prior to being needed. In the event that a student opts out of a tasting activity, the instructor will offer a relevant alternative written assignment for the student to complete as a graded alternative to the objectionable tasting activity.

**RELIGION AND RELIGIOUS PRACTICES** - Whereas Reynolds accepts students of all faiths, certain programs contain learning activities that may not align with specific religions or religious practices. The Culinary Arts AAS and its specializations are examples of these programs. Students may choose not to participate in tasting activities if a specific item conflicts with their religious beliefs; however, all efforts should be made to participate within reason. In the event that a student opts out of a tasting activity, the instructor will offer a relevant alternative written assignment for the student to complete as a graded alternative to the objectionable tasting activity. A second option, referred to as the "Taste and Spit Method," is also

available. Tasting and subsequent spitting allow the student to experience the sensory attributes of the food without actually consuming the food. This option satisfies the intended learning benefits of tasting and would not require the completion of the alternative written assignment. During the first week of classes, students need to inform faculty in written form of any religious restrictions.

**RESTRICTIVE AND MEDICAL DIETS** - Documented accommodations through the Office of Accommodations are intended to provide a safe environment for students. Only documented restrictions that provide students a reasonable ability to complete the course and program objectives may be accommodated. It is possible that not all requested accommodations will be granted through the Office of Student Accommodations, as those that are provided may still require students to complete tasks, recipes, and formulas that work with the product in question as part of comprehensive learning. As an example, a student with Celiac's Disease who opts out of a tasting activity will be offered a relevant alternative written assignment as a graded alternative to the objectionable tasting activity.

**LIFESTYLE AND ELECTIVE DIETS** - Whereas the choice of following a lifestyle or elective diet is respected, there are instances where they may not be accommodated within this program. These diets include, but are not limited to, Vegan, Raw Only, Vegetarian, Lacto-Ovo, Lacto, Ovo, Pollotarian, Pescatarian, and Flexitarian. Students may choose not to participate in certain tasting activities; however, their grade will be reflective of these choices. Students may choose an option referred to as the "Taste and Spit Method." Tasting and subsequent spitting allow the student to experience the sensory attributes of the food without actually consuming the food. Students who choose to taste may spit out the product after assessing the characteristics related to the educational objectives.

Students with a particular concern or question should reach out directly to the program head or the Office of Student Accommodations.

**TECHNICAL STANDARDS:** It is understood that any student who is otherwise qualified may be able to use reasonable accommodations in order to meet program standards that are necessary for employment in the culinary industry. Students with an identified disability should contact the Office of Student Accommodations in order to receive available, reasonable accommodations. Students in the Culinary Arts program must have the ability to perform sufficiently kitchen, internship, externship, dining room, market cafe, laboratory, and classroom activities and procedures. A list of essential functions, educational and industry standards, and related examples is provided at <https://www.reynolds.edu/standards>.

**GAINFUL EMPLOYMENT DISCLOSURE INFORMATION:** Please see [https://www.reynolds.edu/curriculum/gainful-employment-html/ge\\_info\\_221-242-04.html](https://www.reynolds.edu/curriculum/gainful-employment-html/ge_info_221-242-04.html) to access gainful employment disclosure information for this program.

**CURRICULUM:**

<sup>1</sup> Approved specialization electives are determined from the list below based on the AAS major a student has declared.

*Culinary Arts Approved Specialization Elective*

- HRI 206 - International Cuisine

- HRI 207 - American Regional Cuisine

*Pastry Arts Approved Specialization Elective*

- HRI 286 - Wedding and Specialty Cakes

- HRI 284 - Specialty, Spa, and Plated Desserts

*Culinary Management Approved Specialization Elective*

- HRI 224 - Recipe and Menu Management

- ACC 117 - Essentials of Accounting

## Culinary - Foundations of Culinary Technique CSC

### Career Studies Certificate

**PURPOSE:** The Foundations of Culinary Technique program is intended to build upon existing skill sets by delving deeper into the skills necessary in the modern and classical kitchen. Related practice and exploration of intermediate techniques, products, and industry relation are further explored. The curriculum provides technical education in intermediate skill development in hands-on sanitation, the modern kitchen, cooking skill sets, advanced terminology, product identification, baking and pastry, food costing and menu design. This credential leads to entry and mid-level employment in a variety of culinary and retail career paths.

**OCCUPATIONAL OBJECTIVES:** The Foundations of Culinary Technique Career Studies Certificate prepares graduates to enter

the following positions: Prep Cook, Station Cook, Catering, Line Cook, Baking and Pastry positions and other mid-level positions.

**ADMISSION REQUIREMENTS:** The Foundations in Culinary Technique Career Studies Certificate requires that students have (1) placed into MTH 130 or higher, or completed MTH 130 or higher, or program head approval, (2) competencies in reading and writing as demonstrated by placement in ENG 111 or completion of a college-level composition course, (3) completion of Culinary Fundamentals Career Studies Certificate and/or completion of all pre- or co-requisite courses, or placement through ABLE with provided documentation submitted to the program head for review for potential placement and in written form.

Faculty provide advising to enhance student success. All students wishing to enroll in the Foundations of Culinary Technique CSC must attend an advising session. Once enrolled, students must meet with their advisor every semester to review their scheduling strategy and status toward graduation. Information about advising and enrolling in classes is available at the following link:

[www.reynolds.edu/get\\_started/programs/business/culinary\\_and\\_hospitality/admission.aspx](http://www.reynolds.edu/get_started/programs/business/culinary_and_hospitality/admission.aspx)

Students who earn a final grade lower than "C" in any HRI or major-related course, as identified by the program, must obtain permission from their advisor to continue the major in the Foundations of Culinary Technique CSC. Students will be required to repeat courses in their major when grades lower than "C" are earned. Exceptions must be reviewed and approved in writing by the program head.

The competency-based nature of the curriculum allows students with previous educational studies or training experience to be evaluated for advanced standing called ABLE. Students who believe they are eligible for such consideration are required to meet with their advisor to discuss eligibility. If the advisor determines this option may apply, the student must meet with the program head for full evaluation and possible advanced standing to gain access to the process and materials required for submission and evaluation.

**PROGRAM NOTES:** The recommended sequence can be viewed at [https://www.reynolds.edu/get\\_started/programs/business/culinary\\_and\\_hospitality/default.aspx](https://www.reynolds.edu/get_started/programs/business/culinary_and_hospitality/default.aspx)

**REQUIRED UNIFORMS AND TOOL KITS:** Students enrolled in HRI courses must wear an approved uniform and possess an approved tool kit for HRI courses. Specifications may be obtained at <https://www.reynolds.edu/uniforms-for-culinary> or from the program head. All required items are available through the campus bookstore, and financial aid may be used to assist with obtaining these items.

**FINANCIAL REQUIREMENTS:** In addition to the regular college tuition and fees, the Culinary Arts AAS degree and specializations require the following:

Approved uniform items: chef jacket, chef pants, slip resistant black kitchen safety shoes, hat, apron	\$185.00 +/-
-----------------------------------------------------------------------------------------------------------------	--------------

Supplies: medium black Sharpie marker, yellow highlighter, basic pocket calculator, pocket size notebook	\$25.00 +/-
Textbooks, MyLab products, and other supplies	\$800.00 +/-
Approved tool kit	\$400.00 +/-
Specialization - specific items	See program head

These costs are approximate, are subject to change without notice, and do not cover transportation costs.

**DIETARY EXCEPTION POLICY:** While enrolled and participating in the Culinary Arts program, especially laboratories, students will come into contact with various ingredients, some of which are familiar to them and many that are not. <b>TOTAL</b>	<b>Foundations of Culinary Technique Career Studies Certificate</b>		<b>19</b>

02.17.20

<sup>1</sup> Approved specialization electives are determined from the list below based on the AAS major a student has declared.

### Culinary Arts Approved Specialization Elective

- HRI 219 – Stock, Soup and Sauce Preparation
- HRI 145 – Garde Manger
- HRI 220 – Meat, Seafood, and Poultry Preparation

### Pastry Arts Approved Specialization Elective

- HRI 281 – Artisan Breads
- HRI 288 – Health-conscious Baking
- HRI 285 – Chocolate and Sugar Arts

### Culinary Management Approved Specialization Elective

- HRI 235 – Marketing of Hospitality Services
- HRI 255 – Human Resource Management and Training for Hospitality and Tourism
- HRI 275 – Hospitality Law

## Culinary Arts AAS

## Associate of Applied Science

### SPECIALIZATIONS:

Culinary Arts  
Pastry Arts  
Culinary Management

**PURPOSE:** The Culinary Arts program provides a comprehensive occupational-technical education that prepares students with the skills needed for immediate industry employment opportunities as culinary artisans and managers within a variety of culinary, food service, hospitality, and retail paths.

**OCCUPATIONAL OBJECTIVES:** The *Culinary Arts specialization* prepares graduates to enter kitchens as professional cooks in hotels, resorts, restaurants, catering operations, and a variety of retail businesses. The *Pastry Arts specialization* prepares students to enter kitchens as professional pastry cooks in hotels, resorts, restaurants, catering operations, and a variety of businesses, while also preparing students interested in opening their own pastry facility or business. The *Culinary Management specialization* prepares students to enter kitchens as entry-level supervisors and managers in hotels, resorts, restaurants, catering operations, and a variety of retail businesses.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** Faculty provide advising to enhance student success. All students wishing to enroll in Culinary Arts must attend an advising session. Once enrolled, students must meet with their advisor every semester to review their scheduling strategy and status toward graduation. Information about advising and enrolling in classes is available at <https://www.reynolds.edu/CulinaryAdvising>.

Students who earn a final grade lower than “C” in any HRI course must obtain permission from their advisor to continue the major in Culinary Arts. Students will be required to repeat courses in their major when grades lower than “C” are earned. Exceptions must be approved in writing by the program head.

The competency-based nature of the curriculum allows students with previous educational studies, training, or experience to be evaluated for advanced standing. Students who believe they are eligible for such consideration are required to meet with the program head to discuss eligibility for evaluation and possible advanced standing.

The purpose of the associate of applied science (AAS) degree curriculum is to prepare students for immediate employment upon graduation. Four-year college and university transfer opportunities for AAS degrees, if existing, are usually very specific in nature. Students may however, substitute some courses in the AAS degree curriculum with courses that generally transfer to senior institutions. Students should consult the program head at the earliest possible date for further guidance and are advised to get assurances in writing in advance from the institution to which they wish to transfer.

**ACCREDITATION:** The Culinary Arts Associate of Applied Science is accredited by the American Culinary Federation Education Foundation Accrediting Commission (ACFEFAC). Students who

graduate from our Culinary Arts Associate of Applied Science in Culinary Arts and are American Culinary Federation (ACF) members at the time of graduation are eligible for free ACF certification as a Certified Culinarian . Students who are not ACF members may still earn their Certified Culinarian credential for a fee set by the ACEFAC. Graduates who use this benefit have an advantage when seeking employment, because certification is representative of having the knowledge and skills to be successful.

**COMPUTER COMPETENCY REQUIREMENT:** Students in this program will meet the college’s computer competency requirement by successfully completing HRI 159.

**CURRICULUM SEQUENCE:** The curriculum sequences illustrated below are examples of how courses may be completed. For complete information, visit <https://www.reynolds.edu/ApprenticeSequence>. Many students are academically prepared and disciplined enough to earn the Culinary Arts Associate of Applied Science in an accelerated manner. A fast-track, 15-month schedule may be viewed at <https://www.reynolds.edu/ApprenticeSequence>. Due to the accelerated pace and intensive workload, students should carefully consider this scheduling option prior to enrolling. Students must meet with the program head and receive approval for entry into this track; college transfer credit and prior related work experience are required.

**REQUIRED UNIFORMS AND TOOL KITS:** Students enrolled in HRI courses must wear an approved uniform and possess an approved tool kit for HRI courses. Specifications may be obtained at <https://www.reynolds.edu/uniforms-for-culinary> or from the program head. All required items are available through the campus bookstore, and financial aid may be used to assist with obtaining these items.

**FINANCIAL REQUIREMENTS:** In addition to the regular college tuition and fees, the Culinary Arts AAS degree and specializations require the following:

Approved uniform items: chef jacket, chef pants, slip resistant black kitchen safety shoes, hat, apron	\$185.00 +/-
Supplies: medium black Sharpie marker, yellow highlighter, basic pocket calculator, pocket size notebook	\$25.00 +/-
Textbooks, MyLab products, and other supplies	\$2000.00 +/-
Approved tool kit	\$400.00 +/-
Specialization - specific items	See program head

These costs are approximate, are subject to change without notice, and do not cover transportation costs.

**DIETARY EXCEPTION POLICY:** While enrolled and participating in the Culinary Arts program, especially laboratories, students will come into contact with various ingredients, some of which are

familiar to them and many that are not. The Culinary Arts AAS is aligned with industry standards and expectations, which require students to be industry-ready upon completion of the program. The industry expects taste development; therefore, a majority of the program revolves around “tasting as you go” as a standard of higher-level cooking, comprehension, and assessment. Without directly participating in tasting, the chances of a successful dish and grade are highly compromised. The following areas address these potential concerns:

**Tasting** – Part of the educational portion of the program is exposure to new ingredients, products, and flavor pairings. During required classes, students will participate in tasting activities of foods that include safe to eat raw and fresh ingredients; cooked ingredients; and fresh, uncooked, and cooked dishes. Students will be expected to taste all items, except those that are documented on file as food restrictions. The process of discerning tastes, flavors, seasonings, and “dish needs” is included as part of the grading rubric. Students who do not participate in tasting activities will have their grade adjusted accordingly.

**Allergies** – The college is committed to student safety. Students with allergy concerns need to provide documentation of food allergies from their doctor to be registered and on file with the Office of Student Accommodations, at which time the student will be provided an accepted accommodations form for presentation to every instructor for each related course, each semester. Students need to provide in written form the process for assisting them if an issue arises related to this. It is the student’s responsibility to assure these documents are on file with the Office of Student Accommodations and that they are shared with faculty prior to being needed. In the event that a student opts out of a tasting activity, the instructor will offer a relevant alternative written assignment for the student to complete as a graded alternative to the objectionable tasting activity.

**Religion and Religious Practices** – Whereas Reynolds accepts students of all faiths, certain programs contain learning activities that may not align with specific religions or religious practices. The Culinary Arts AAS and its specializations are examples of these programs. Students may choose not to participate in tasting activities if a specific item conflicts with their religious beliefs; however, all efforts should be made to participate within reason. In the event that a student opts out of a tasting activity, the instructor will offer a relevant alternative written assignment for the student to complete as a graded alternative to the objectionable tasting activity. A second option, referred to as the “Taste and Spit Method,” is also available. Tasting and subsequent spitting allow the student to experience the sensory attributes of the food without actually consuming the food. This option satisfies the intended learning benefits of tasting and would not require the completion of the alternative written assignment. During the first week of classes, students need to inform faculty in written form of any religious restrictions.

**Restrictive and Medical Diets** – Documented accommodations through the Office of Accommodations are intended to provide a safe environment for students. Only documented restrictions that provide students a reasonable ability to complete the course and program objectives may be accommodated. It is

# REYNOLDS COMMUNITY COLLEGE

possible that not all requested accommodations will be granted through the Office of Student Accommodations, as those that are provided may still require students to complete tasks, recipes, and formulas that work with the product in question as part of comprehensive learning. As an example, a student with Celiac's Disease who opts out of a tasting activity will be offered a relevant alternative written assignment as a graded alternative to the objectionable tasting activity.

**Lifestyle and Elective Diets** - Whereas the choice of following a lifestyle or elective diet is respected, there are instances where they may not be accommodated within this program. These diets include, but are not limited to, Vegan, Raw Only, Vegetarian, Lacto-Ovo, Lacto, Ovo, Pollotarian, Pescatarian, and Flexitarian. Students may choose not to participate in certain tasting activities; however, their grade will be reflective of these choices. Students may choose an option referred to as the "Taste and Spit Method." Tasting and subsequent spitting allow the student to experience the sensory attributes of the food without actually consuming the food. Students who choose to taste may spit out the product after assessing the characteristics related to the educational objectives.

## Culinary Fundamentals CSC Career Studies Certificate

**PURPOSE:** The Culinary Fundamentals program is intended to develop knowledge and skills in the modern and classical kitchen through techniques, products, and industry relation. The curriculum provides technical education in basic to intermediate skill development in sanitation, the kitchen, cooking, terminology, identification, communication, and computer systems. This credential leads to entry-level employment in a variety of culinary and retail career paths.

**OCCUPATIONAL OBJECTIVES:** The Culinary Fundamentals Career Studies Certificate prepares graduates to enter the following positions: Prep Cook, Station Cook, Catering, Line Cook and Pastry Assistants.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** Faculty provide advising to enhance student success. All students wishing to enroll in Culinary Fundamentals CSC must attend an advising session. Once enrolled, students must meet with their advisor every semester to review their scheduling strategy and status toward graduation. Information about advising and enrolling in classes is available at the following link:

[www.reynolds.edu/get\\_started/programs/business/culinary\\_and\\_hospitality/admission.aspx](http://www.reynolds.edu/get_started/programs/business/culinary_and_hospitality/admission.aspx)

Students who earn a final grade lower than "C" in any HRI or major-related course, as identified by the program, must obtain permission from their advisor to continue the major in Culinary Fundamentals CSC. Students will be required to repeat courses in their major when grades lower than "C" are earned. Exceptions must be reviewed and approved in writing by the program head.

The competency-based nature of the curriculum allows students with previous educational studies or training experience to be evaluated for advanced standing called ABLE. Students who believe they are eligible for such consideration are required to meet with their advisor to discuss eligibility. If the advisor determines this option may apply, the student must meet with the program head for full evaluation and possible advanced standing to gain access to the process and materials required for submission and evaluation.

The recommended sequence can be viewed at [https://www.reynolds.edu/get\\_started/programs/business/culinary\\_and\\_hospitality/default.aspx](https://www.reynolds.edu/get_started/programs/business/culinary_and_hospitality/default.aspx)

# REYNOLDS COMMUNITY COLLEGE

**COMPUTER COMPETENCY REQUIREMENT:** Students in this program will meet the college's computer competency requirement by successfully completing HRI 159.

**REQUIRED UNIFORMS AND TOOL KITS:** Students enrolled in HRI courses must wear an approved uniform and possess an approved tool kit for HRI courses. Specifications may be obtained at <https://www.reynolds.edu/uniforms-for-culinary> or from the program head. All required items are available through the campus bookstore, and financial aid may be used to assist with obtaining these items.

**FINANCIAL REQUIREMENTS:** In addition to the regular college tuition and fees, the Culinary Arts AAS degree and specializations require the following:

Approved uniform items: chef jacket, chef pants, slip resistant black kitchen safety shoes, hat, apron	\$185.00 +/-
Supplies: medium black Sharpie marker, yellow highlighter, basic pocket calculator, pocket size notebook	\$25.00 +/-
Textbooks, MyLab products, and other supplies	\$800.00 +/-
Approved tool kit	\$400.00 +/-
Specialization - specific items	See program head

These costs are approximate, are subject to change without notice, and do not cover transportation costs.

**DIETARY EXCEPTION POLICY:** While enrolled and participating in the Culinary Arts program, especially laboratories, students will come into contact with various ingredients, some of which are familiar to them and many that are not. The Culinary Arts AAS is aligned with industry standards and expectations, which require students to be industry-ready upon completion of the program. The industry expects taste development; therefore, a majority of the program revolves around "tasting as you go" as a standard of higher-level cooking, comprehension, and assessment. Without directly participating in tasting, the chances of a successful dish and grade are highly compromised. The following areas address these potential concerns:

**TASTING** - Part of the educational portion of the program is exposure to new ingredients, products, and flavor pairings. During required classes, students will participate in tasting activities of foods that include safe to eat raw and fresh ingredients; cooked ingredients; and fresh, uncooked, and cooked dishes. Students will be expected to taste all items, except those that are documented on file as food restrictions. The process of discerning tastes, flavors, seasonings, and "dish needs" is included as part of the grading rubric. Students who do not participate in tasting activities will have their grade adjusted accordingly.

**ALLERGIES** - The college is committed to student safety. Students with allergy concerns need to provide documentation

of food allergies from their doctor to be registered and on file with the Office of Student Accommodations, at which time the student will be provided an accepted accommodations form for presentation to every instructor for each related course, each semester. Students need to provide in written form the process for assisting them if an issue arises related to this. It is the student's responsibility to assure these documents are on file with the Office of Student Accommodations and that they are shared with faculty prior to being needed. In the event that a student opts out of a tasting activity, the instructor will offer a relevant alternative written assignment for the student to complete as a graded alternative to the objectionable tasting activity.

**RELIGION AND RELIGIOUS PRACTICES** - Whereas Reynolds accepts students of all faiths, certain programs contain learning activities that may not align with specific religions or religious practices. The Culinary Arts AAS and its specializations are examples of these programs. Students may choose not to participate in tasting activities if a specific item conflicts with their religious beliefs; however, all efforts should be made to participate within reason. In the event that a student opts out of a tasting activity, the instructor will offer a relevant alternative written assignment for the student to complete as a graded alternative to the objectionable tasting activity. A second option, referred to as the "Taste and Spit Method," is also available. Tasting and subsequent spitting allow the student to experience the sensory attributes of the food without actually consuming the food. This option satisfies the intended learning benefits of tasting and would not require the completion of the alternative written assignment. During the first week of classes, students need to inform faculty in written form of any religious restrictions.

**RESTRICTIVE AND MEDICAL DIETS** - Documented accommodations through the Office of Accommodations are intended to provide a safe environment for students. Only documented restrictions that provide students a reasonable ability to complete the course and program objectives may be accommodated. It is possible that not all requested accommodations will be granted through the Office of Student Accommodations, as those that are provided may still require students to complete tasks, recipes, and formulas that work with the product in question as part of comprehensive learning. As an example, a student with Celiac's Disease who opts out of a tasting activity will be offered a relevant alternative written assignment as a graded alternative to the objectionable tasting activity.

**LIFESTYLE AND ELECTIVE DIETS** - Whereas the choice of following a lifestyle or elective diet is respected, there are instances where they may not be accommodated within this program. These diets include, but are not limited to, Vegan, Raw Only, Vegetarian, Lacto-Ovo, Lacto, Ovo, Pollotarian, Pescatarian, and Flexitarian. Students may choose not to participate in certain tasting activities; however, their grade will be reflective of these choices. Students may choose an option referred to as the "Taste and Spit Method." Tasting and subsequent spitting allow the student to experience the sensory attributes of the food without actually consuming the food. Students who choose to taste may spit out the product after assessing the characteristics related to the educational objectives.

Students with a particular concern or question should reach out directly to the program head or the Office of Student Accommodations.

**TECHNICAL STANDARDS:** It is understood that any student who is otherwise qualified may be able to use reasonable accommodations in order to meet program standards that are necessary for employment in the culinary industry. Students with an identified disability should contact the Office of Student Accommodations in order to receive available, reasonable accommodations. Students in the Culinary Arts program must have the ability to perform sufficiently kitchen, internship, externship, dining room, market cafe, laboratory, and classroom activities and procedures. A list of essential functions, educational and industry standards, and related examples is provided at <https://www.reynolds.edu/standards>.

**GAINFUL EMPLOYMENT DISCLOSURE INFORMATION:** Please see [https://www.reynolds.edu/curriculum/gainful-employment.html/ge\\_info\\_221-242-04.html](https://www.reynolds.edu/curriculum/gainful-employment.html/ge_info_221-242-04.html) to access gainful employment disclosure information for this program.

#### CURRICULUM:

*Students must take courses in order of roadmap; sequence subject to scheduling and full enrollment.*

Order	Course	Title	Credits
1	SDV 101 <sup>1</sup>	Orientation to Culinary and Pastry Arts	1
2	HRI 115 <sup>1</sup>	Food Service Managers Sanitation Certification	1
3	HRI 106 <sup>1</sup>	Principles of Culinary Arts I	3
4	HRI 119 <sup>1</sup>	Applied Nutrition for Food Service	2
5	HRI 190 <sup>1,2</sup> or SPA 107	Coordinated Internship in Major or Spanish Communications for the Hospitality Industry	1
6	HRI 136 <sup>1</sup>	Storeroom Operations and Inventory Management	1
7	HRI 218 <sup>1</sup>	Fruit, Vegetable, and Starch Preparation	3
8	HRI 159 <sup>1</sup>	Introduction to Hospitality Industry Computer Systems	3
9	———— <sup>1,3</sup>	Approved Specialization Elective	3
10	ENG 111	College Composition I	3
<b>TOTAL</b>	<b>Culinary Fundamentals Career Studies Certificate</b>		<b>21</b>

02.17.20

<sup>1</sup> Students enrolled in HRI majors will be permitted into those classes only when wearing approved uniforms. Specifications may be obtained at [https://www.reynolds.edu/get\\_started/programs/business/culinary\\_and\\_hospitality/uniformsnew.aspx](https://www.reynolds.edu/get_started/programs/business/culinary_and_hospitality/uniformsnew.aspx) or from program faculty and advisors.

<sup>2</sup> HRI 190 internship is the required course for completion, unless an accommodation is provided in writing from the program head, verifying that the student has demonstrable, verifiable, industry-related experience; in these select cases SPA 107 has been selected as the course substitute.

<sup>3</sup> Approved Specialization Elective is determined from the list below based on the AAS major a student has declared.

*Culinary Arts Approved Specialization Elective*

- HRI 128 - Principles of Baking

*Pastry Arts Approved Specialization Elective*

- HRI 128 - Principles of Baking

*Culinary Management Approved Specialization Elective*

- HRI 219 - Stock, Soup & Sauce Preparation

## Dental Assisting C Certificate

**PURPOSE:** (1) To prepare students to perform the following services under supervision of a dentist: chairside assistance, including preparation of impression and restorative materials; exposing and processing intraoral or extraoral dental radiographs; laboratory and office management procedures; dental health education; recognition of emergencies; and patient care as authorized by the Virginia Board of Dentistry. (2) To qualify students for the Dental Assisting National Board Certification Examination.

**OCCUPATIONAL OBJECTIVES:** This program is designed to provide essential technological and practical knowledge required for a dental assistant to perform efficiently in a dental office. Training experiences in nearby dental clinics and private dental offices are provided.

**ADMISSION REQUIREMENTS:** General college curricular admission

**ADDITIONAL ADMISSION REQUIREMENTS:** Applicants must complete placement testing and submit their official high school transcript, GED, or certificate of completion of home schooling and college (if applicable) transcripts to Central Admissions and Records.

**PROGRAM NOTES:** This program accepts new students in the spring and fall semesters of each year. Students admitted to Dental Assisting will be approved for entry into major/clinical

# REYNOLDS COMMUNITY COLLEGE

courses (DNA 100 and higher) when they have satisfied the following requirements:

1. All applicants will need to complete the general education prerequisites (SDV 101, ENG 111, PSY 230, ITE 115 and HLT 105) included in the Health Science I Career Studies Certificate. General education courses must be completed with a grade of "C" or better.
2. College students transferring in all general education course requirements need to contact the program head for information. Students transferring in a partial number of courses must complete relevant components of the Health Science I CSC to ensure all prerequisites are met.
3. The Dental Assisting Certificate program has two program starts during the year, one in the spring semester and one in the fall semester. Students wishing to enter the Dental Assisting Certificate program must have Health Science I CSC courses completed prior to the semester they plan to enroll.
4. After completing Health Science I CSC courses, students will need to interview with the program head to be eligible to enter the Dental Assisting Certificate. Enrollment in the Dental Assisting program is limited, so contact with the program head is imperative. Students enrolling in a fall semester should have the interview completed by the end of June. Students enrolling in a spring semester should have the interview completed by the end of September.
5. A completed Student Health Form must be submitted prior to registering for the first semester of courses. This form will be obtained during the interview with the program head.

Any student whose final grade falls below "C" in any course must obtain permission from the program head to continue the major in Dental Assisting. Students are responsible for transportation to and from facilities used for clinical experiences unless otherwise determined by the program head. DNA courses are sequential.

**FINANCIAL REQUIREMENTS:** Due to the increase in enrollment in the program, the number of DNA courses a student can enroll into may not meet the full-time status for financial aid.

In addition to the regular college tuition and fees, the Dental Assisting program requires the following:

Textbooks	\$300.00*
Uniforms, Lab Coat, Safety Glasses, Name Tag, Physical Exam, Immunizations, and Hepatitis B Vaccine Series	\$300.00*
Background Check	\$43.00*
The following expenses are optional:	
Student Membership in the ADAA	\$45.00* (will increase each year after expiration of student membership)
DANB Certification Exam	\$550.00*

\*Costs listed are approximate.

**ESSENTIAL FUNCTIONAL SKILLS REQUIREMENTS:** Students entering the Dental Assisting program must possess the physical ability to do the following: 1) aid in lifting and moving supplies and patients; 2) hear verbal communication and equipment sounds; 3) discern shades of color; 4) interact effectively with instructors, patients, and clinical and extern personnel; and 5) demonstrate manual dexterity to manipulate materials. These essential functions are all validated on the Student Health Form and include the following:

- Sufficient eyesight to observe small objects inside and outside the mouth; to read procedures manuals, records, and computers; and to manipulate materials.
- Sufficient hearing to communicate with instructors, patients, and dental staff and to monitor and operate equipment.
- Satisfactory speaking, reading, and writing skills to effectively understand and communicate in English in a timely manner.
- Sufficient gross and fine motor skills and coordination to exhibit excellent eye-hand skills and dexterity to manipulate materials, equipment, and instruments and to have coordination in lifting, stooping, walking, and bending.
- Satisfactory physical strength and endurance to be sitting or on feet for extended periods of time; to move heavy equipment and supplies; and to walk, bend, and reach.
- Satisfactory intellectual, emotional, and psychological health and functioning to ensure instructor, patient, and dental staff safety and to exercise independent judgment and discretion to perform assigned tasks.
- Sufficient time management skills to effectively attend to multiple priorities and operate in a fast-paced setting.
- Satisfactory critical thinking skills and comprehension of detailed instructions to effectively operate in a dental setting.

Clinical facilities used by the program may mandate additional requirements for students that include, but may not be limited to, dress, body jewelry, and tattoo codes and conformance with professional standards. Students will be informed prior to clinical rotations of any additional requirements.

**BACKGROUND CHECKS:** Background checks are required of all students prior to entering any clinical rotations. Details concerning cost and vendor use will be provided to students during the interview appointment. Students who are aware of any potential problems in their backgrounds must discuss these with the program head. Continuation within and graduation from the program may be affected.

**PROGRESSION THROUGH THE PROGRAM:** The college offers this program in affiliation with the health care agencies and practitioners in the communities the college serves. The college relies on its community affiliates to provide clinical education opportunities for its students, expert clinical preceptors, and course instructors for many courses. The often rapid changes in health care law, standards of practice, technology, and content of credentialing examinations increasingly necessitate sudden changes in the program's course content, policies, procedures, and course scheduling. As a result, the college cannot guarantee every student continuous and uninterrupted clinical and course instruction as outlined in the printed catalog curriculum for this

program. Circumstances beyond the control of the college may necessitate the postponement of course offerings or changes in the sequencing and/or location of scheduled courses or clinical assignments. Additionally, the college may have to change the instructor for courses after instruction has started.

**COMPUTER COMPETENCY REQUIREMENT:** Students in this program will meet the college's computer competency requirement by successfully completing ITE 115 or CSC 155. Students can also meet this requirement by passing the college's computer competency exam, administered in the testing centers on each campus, in which case they will receive college credit for ITE 115 or CSC 155. Those students not passing the computer competency exam may retake the exam only once.

**PROGRAM ACCREDITATION:** The program in Dental Assisting is accredited by the Commission on Dental Accreditation and has been granted the accreditation status of "approval with reporting requirements." The Commission is a specialized accrediting body recognized by the United States Department of Education. The Commission on Dental Accreditation can be contacted at (312) 440-4653 or at 211 East Chicago Avenue, Chicago, IL 60611. The website address is [www.ada.org/coda](http://www.ada.org/coda).

## Diesel Mechanics Technology C Certificate

**PURPOSE:** The Diesel Mechanics Technology curriculum is designed to introduce the fundamentals of diesel equipment repair and provide instruction in hydraulic systems, welding, diesel engine overhaul and tune-up, electrical circuits, power train maintenance, and fuel injection. The Diesel Mechanics Technology program will give graduates a practical background in basic diesel equipment technology principles. The curriculum provides practical training and the option of on-the-job experience through cooperative education. The demand for trained diesel mechanic personnel and technicians is increasing.

**OCCUPATIONAL OBJECTIVES:** The Diesel Mechanics Technology curriculum prepares graduates for employment in any of the following occupations: Diesel Equipment Repair, Diesel Truck Repair, Supervisor, Shop Foreman, Heavy Duty Repair, Purchasing Agent, Salesperson, Power Train Repair, Fuel Injection Repair, Diesel Engine Repair, and Automotive Diesel Repair.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** Students are strongly encouraged to meet with the program head either before registering for their first semester or early in their first semester of study. Students will be required to furnish clear lens safety glasses, leather work footwear, and proper clothing for working in the lab.

**COMPUTER COMPETENCY REQUIREMENT:** Students in this program will meet the college's computer competency requirement by successfully completing ITE 115. Students can also meet this requirement by passing the college's computer competency exam, administered in the testing centers on each campus, in which case they will receive college credit for ITE 115. Students not passing the computer competency exam may retake the exam only once.

## Early Childhood Development AAS Associate of Applied Science

**PURPOSE:** The two-year degree program in Early Childhood Development is designed to prepare students with skills and theoretical knowledge related to the care, supervision, education, and development of young children from birth to age twelve. Upon successful completion of the curriculum, students will be prepared to seek employment in a variety of positions in the childcare field.

**OCCUPATIONAL OBJECTIVES:** Employment opportunities include preparation or upgrading of skills for positions as childcare center directors, assistant directors, before- and after-school teachers or assistant teachers, aides, playroom attendants, home-based providers or day care workers, camp directors, and before- and after-school teachers in the following types of facilities: child day care centers, nursery schools, family day care homes, Head Start programs, recreational before- and after-school programs, hospital-based childcare programs, pre-school at-risk programs, and pre-kindergarten church-sponsored programs.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** In addition to the general college curricular admission requirements, all entering students will be required to take placement tests in math and English to aid placement in the appropriate courses. Students who do not meet required placement levels must enroll in developmental studies courses. It is recommended that students arrange for a personal interview and advising appointment with the program head.

It is recommended that students take courses in the sequence listed in the catalog. Students must attain a grade of "C" or higher in all courses with CHD, EDU, and PSY prefixes.

An observation and participation in an approved early childhood/primary setting are required. This is practicum experience internship in a licensed or approved childcare setting. It is a planned learning experience for the purpose of pulling together theories and practices learned in the classroom. A Criminal Record Clearance/Sex Offender Registry check is required for placement and volunteering. Students should see the program head for a list of convictions that will prevent employment. Students will be expected to complete a tuberculosis test before placement.

The purpose of the associate of applied science (AAS) degree curriculum is to prepare students for immediate employment upon graduation. Four-year college and university transfer opportunities for associate of applied science degrees, if existing, are usually very specific in nature. Students may, however, substitute some courses in the AAS degree curriculum with courses that generally transfer to senior institutions. Students should consult their advisor at the earliest possible date for further guidance and are advised to get assurances in writing in advance from the institution to which they wish to transfer.

**COMPUTER COMPETENCY REQUIREMENT:** Students in this program will meet the college's computer competency requirement by successfully completing ITE 115. Students can also meet this requirement by passing the college's computer competency exam, administered in the testing centers on each campus, in which case they will receive college credit for ITE 115. Students not passing the computer competency exam may retake the exam only once.

<sup>4</sup> BIO 106 preferred, but BIO 101 is accepted

## Early Childhood Development C Certificate

**PURPOSE:** The one-year certificate in Early Childhood Development is designed to prepare students with skills related to the care, supervision, education, and development of young children from birth to age eight. There is also the ability to become qualified to work with children up to the age of twelve in programs that serve before- and after-school and recreational programs.

**OCCUPATIONAL OBJECTIVES:** Employment opportunities include preparation or upgrading skills for positions as child care center directors, assistant directors, before- and after-school teachers or assistant teachers, aides, playroom attendants, home-based providers or day care workers, camp directors, and before- and after-school teachers in the following types of facilities: child day care centers, nursery schools, family day care homes, Head Start programs, recreational before- and after-school programs, hospital-based child care programs, pre-school at-risk programs, and pre-kindergarten church-sponsored programs.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** In addition to the general college curricular admission requirements, all entering students will be required to take placement tests in math and English to aid placement in the appropriate courses. Students who do not meet required placement levels must enroll in developmental studies courses. It is recommended that students arrange for a personal interview and advising appointment with the program head.

An observation and participation in an approved early childhood/primary setting are required in the second semester of the Early Childhood curriculum. This is a practicum experience internship in a licensed or approved childcare setting. It is a planned learning experience for the purpose of pulling together the theories and practice learned in the classroom. A Criminal Record Clearance/Sex Offender Registry Check is required for placement and volunteering. Students should see the program head for a list of convictions that will prevent employment. Students will be expected to complete a tuberculosis test before practicum placement.

Students must attain a grade of "C" or higher in all courses with CHD, PSY, and EDU course prefixes.

**COMPUTER COMPETENCY REQUIREMENT:** Students in this program will meet the college's computer competency requirement by successfully completing ITE 115. Students can also meet this requirement by passing the college's computer competency exam, administered in the testing centers on each campus, in which case they will receive college credit for ITE 115. Students not passing the computer competency exam may retake the exam only once.

## Early Childhood Education CSC Career Studies Certificate

**PURPOSE:** This program is designed to provide students with the basic skills needed in the care and development of young children in a variety of child care settings. The program provides training appropriate for persons entering the field of early childhood education, as well as in-service training for persons presently working in the field who wish to upgrade their skills. The program also offers a well-organized course of study for parents who wish to increase their understanding of child development.

**OCCUPATIONAL OBJECTIVES:** Employment opportunities include preparation or upgrading skills for positions as child care center assistant directors, teachers or assistant teachers, aides, playroom attendants, home-based providers or day care workers, camp directors, and before- and after-school teachers in the following types of facilities: child day care centers, nursery schools, family day care homes, Head Start programs, recreational before- and after-school programs, hospital-based child care programs, pre-school at-risk programs, and pre-kindergarten church-sponsored programs.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** In addition to the general college curricular admission requirements, a personal interview with the program head is recommended. Students must attain a grade of “C” or higher in all courses completed in this program with CHD, EDU, and PSY course prefixes.

## Early Childhood Education – Advanced CSC Career Studies Certificate

**PURPOSE:** This program is designed to provide students with the additional early childhood skills needed in the care and development of young children in a variety of child care settings. The program provides training appropriate for persons presently working in the field who wish to continue to upgrade their knowledge and skills in child development and care. The program also offers a well-organized course of study for parents who wish to increase their understanding of child development.

**OCCUPATIONAL OBJECTIVES:** Employment opportunities include preparation or upgrading skills for positions as child care center assistant directors, teachers or assistant teachers, aides, playroom attendants, home-based providers or day care workers, camp directors, and before- and after-school teachers in the following types of facilities: child day care centers, nursery schools, family day care homes, Head Start programs, recreational before- and after-school programs, hospital-based

child care programs, pre-school at-risk programs, and pre-kindergarten church-sponsored programs.

**ADMISSION REQUIREMENTS:** General college curricular admission

**COMPUTER COMPETENCY REQUIREMENT:** Students in this program will meet the college's computer competency requirement by successfully completing ITE 115. Students can also meet this requirement by passing the college's computer competency exam, administered in the testing centers on each campus, in which case they will receive college credit for ITE 115. Students not passing the computer competency exam may retake the exam only once.

**PROGRAM NOTES:** In addition to the general college curricular admission requirements, those interested in entering the Early Childhood Education – Advanced Career Studies Certificate should hold the Early Childhood Education Career Studies Certificate or be approved by the program head. A personal interview with the program head is recommended. Students must attain a grade of “C” or higher in all courses with CHD and PSY prefixes.

## Emergency Medical Services - Emergency Medical Technician CSC Career Studies Certificate

**PURPOSE:** This program prepares students to become Emergency Medical Technicians at the entry level. This is a one semester program that offers several scheduling options for students.

**OCCUPATIONAL OBJECTIVES:** Certified Emergency Medical Technician

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** In addition to the general college curricular admission requirements, students must have a current CPR card from either the American Heart Association-BLS Provider or the American Red Cross Professional Rescuer prior to the start of the first day of class. Students without a current CPR card must complete EMS 100 - CPR for Healthcare Providers or HLT 105 - CPR prior to the start of EMS classes. EMS 100 will be offered the weekend prior to the first day of class for EMS 111. Students desiring to further their emergency medical training and capabilities should consider the Emergency Medical Services - Paramedic Associate of Applied Science degree after completing this career studies certificate. All potential EMS students are encouraged to meet with the EMS Program Coordinator prior to the start of each semester.

**FINANCIAL REQUIREMENTS:** In addition to the regular college tuition and fees, the EMS program requires the items listed below. These costs are subject to change.

CPR Textbook/CPR Mask Fee	\$37.00
Textbook/Online Access Fees	\$75.00 - \$374.00

# REYNOLDS COMMUNITY COLLEGE

Castlebranch Registration (Immunization Records, Background Check and Drug Testing)	\$126.00 - \$140.00
FISDAP/Platinum Planner Scheduler	\$45.00
Uniforms (Boots, Belt, Pants, Reynolds EMS Program Shirt)	\$100.00 - \$150.00
Testing Fees:	
ODEMSA (Psychomotor)	\$50.00
National Registry Paramedic Cognitive Examination (Initial)	(Waived) \$80.00
Medical Check Up	varies according to student's doctor fees

To determine current tuition and fees, visit [www.reynolds.edu/pay\\_for\\_college/tuition.aspx](http://www.reynolds.edu/pay_for_college/tuition.aspx) or call the School of Health Professions office at (804) 523-5375. The instructor will inform students of the textbooks and other required learning materials needed in the syllabus for each course. This information can also be found on the college bookstore website.

**CONTINUATION IN THE PROGRAM:** Student must successfully achieve a course grade of at least "B" (80) in each EMS course. State EMT Certification is a requirement for continuation into the Paramedic program.

**FUNCTIONAL SKILLS REQUIREMENTS:** The functional skills listed below apply to students entering the EMS – Emergency Medical Technician CSC and EMS – Paramedic AAS degree. Students entering these programs must have the ability to, but not limited to:

- Verbally communicate in person, via telephone and telecommunications using the English language;
- Hear spoken information from co-workers, patients, physicians, and dispatchers and sounds common to the emergency scene;
- Lift, carry, and balance a minimum of 125 pounds equally distributed (250 pounds with assistance), a height of 33 inches, and a distance of 10 feet;
- Read and comprehend written materials under stressful conditions;
- Use a prescribed format to document patient information in writing or by entry into a computer program;
- Demonstrate manual dexterity and fine motor skills, with ability to perform all tasks related to quality patient care in a safe manner;
- Bend, stoop, crawl, and walk on even surfaces; and
- Meet minimum vision requirements to operate a motor vehicle within the state.

Please visit <http://www.vdh.virginia.gov/emergency-medical-services/instructor-forms/> for a complete list of BLS and ALS Functional Job Descriptions.

10.22.20

<sup>1</sup> SDV 100 may be substituted for SDV 101.

<sup>2</sup> CSC 155 may be substituted for ITE 115.

<sup>3</sup> Taking both BIO 141 and BIO 142 are approved substitutes for BIO 145.

<sup>4</sup> EMS 100 is a prerequisite for EMS 111. This is a 2-day course offered 1-2 weeks prior to the start of EMS 111. Additional fees may apply for this course.

<sup>5</sup> EMS 120 is a co-requisite to EMS 111.

<sup>6</sup> Minimum courses required for EMT certification only.

**ALL students are strongly encouraged to meet with EMS Program Coordinator for more detailed information regarding curriculum and additional program requirements prior to enrolling.**

## Emergency Medical Services - Paramedic AAS

### Associate of Applied Science

**PURPOSE:** To prepare students to be knowledgeable, competent, entry-level, pre-hospital care practitioners and fill positions at the level of Paramedic.

**OCCUPATIONAL / PROGRAM OBJECTIVES:** To prepare competent entry-level Paramedics in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains with or without exit points at the Advanced Emergency Medical Technician and/or Emergency Medical Technician, and/or

Emergency Medical Responder levels. Successful performance in this program qualifies the student to take the Paramedic exam.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM SPECIFIC REQUIREMENTS:** In addition to the general college curriculum admissions requirements, the student must have a *current Virginia EMT Certification* and a valid CPR card for either *the American Heart Association-BLS Provider* or the *American Red Cross -Professional Rescuer*. Applicants to the program must have completed one unit of high school biology and one unit of high school chemistry with a minimum grade of “C” within 7 years of enrollment, or obtain a score of 75% or higher on Test of Essential Academic Skills (TEAS), or minimum score of 50 on College Level Examination Program (CLEP), or completion of ENF2, if required by placement test, or obtain the permission of the EMS program head for a waiver to that requirement.

In compliance with the Virginia State Board of Health and Virginia EMS regulations (12 VAC 5-31-1200 and 12 VAC 5-31-1460), students wishing to register for Paramedic courses with an EMS prefix must be at least 18 years of age at the time of enrollment into the program. Students younger than 18 are eligible to enroll in EMS 100, EMS 111 & EMS 120 if not already an Emergency Medical Technician (EMT). Students may enroll in non-EMS prefix courses. Students must meet with the EMS Program Coordinator for additional advising and enrollment into the Paramedic program. Course enrollment permission is required.

A new Paramedic Cohort will start every fall semester unless otherwise noted. The average length of this program is two years (5 semesters) that will meet once a week with an anticipated spring graduation. All students must possess State EMT Certification to enroll in a fall Paramedic Cohort.

**FINANCIAL REQUIREMENTS:** In addition to the regular college tuition and fees, the EMS program requires the items listed below. The costs listed are estimates and subject to change.

To determine current tuition and fees, visit [www.reynolds.edu/pay\\_for\\_college/tuition.aspx](http://www.reynolds.edu/pay_for_college/tuition.aspx) or call the School of Health Professions office at (804) 523-5375. The instructor will inform students of the textbooks and other required learning materials needed in the syllabus for each course.

**FUNCTIONAL SKILLS REQUIREMENTS:** The functional skills listed below apply to students entering the EMS - Paramedic AAS degree program. Students entering this program must have the ability to, but not limited to:

- Verbally communicate in person, via telephone and telecommunications using the English language;
- Hear spoken information from co-workers, patients, physicians, and dispatchers and sounds common to the emergency scene;
- Lift, carry, and balance a minimum of 125 pounds equally distributed (250 pounds with assistance), a height of 33 inches, and a distance of 10 feet;
- Read and comprehend written materials under stressful conditions;
- Use a prescribed format to document patient information in writing or by entry into a computer program;
- Demonstrate manual dexterity and fine motor skills, with ability to perform all tasks related to quality patient care in a safe manner;
- Bend, stoop, crawl, and walk on even surfaces; and
- Meet minimum vision requirements to operate a motor vehicle within the state.

# REYNOLDS COMMUNITY COLLEGE

Please visit <http://www.vdh.virginia.gov/emergency-medical-services/instructor-forms/> for a complete list of BLS and ALS Functional Job Descriptions.

**CONTINUATION IN THE PROGRAM:** To continue in the program, students must achieve a minimum course grade of “B” (80) in each EMS course. *Students MUST possess current EMT & CPR certification prior to entering the Paramedic program. EMT and CPR certification is a minimum requirement for continuation in the Paramedic program.* Paramedic students **must** successfully complete BIO 145 or BIO 141 & BIO 142 to complete the Paramedic program. BIO 145 and/or BIO 141 & 142 require a minimum grade of “C” (70-79) under the Biology department’s grading scale.

**PROGRESSION THROUGH THE PROGRAM:** The college offers this program in affiliation with the health care agencies and practitioners in the communities the college serves. The college relies on its community affiliates to provide clinical education opportunities for its students, expert clinical preceptors, and course instructors for many courses. The often-rapid changes in health care law, standards of practice, technology, and content of credentialing examinations increasingly necessitate sudden changes in the program’s course content, policies, procedures, and course scheduling. As a result, the college cannot guarantee every student continuous and uninterrupted clinical and course instruction as outlined in the printed catalog curriculum for this program. Circumstances beyond the control of the college may necessitate the postponement of course offerings or changes in the sequencing and/or location of scheduled courses or clinical assignments. Additionally, the college may have to change the instructor for courses after instruction has started.

**NATIONAL REGISTRY OF EMERGENCY MEDICAL TECHNICIANS - PARAMEDIC (NRP) TEST PASS RATES:** Reynolds EMS - Paramedic AAS students achieved a cumulative pass rate of 92.3% on the NRP test for the period of 1st quarter 2018 through 4th quarter 2018. The direct link to the published results for 2018 are located at <https://www.caahep.org/Students/Find-a-Program.aspx>

**CAAHEP - Find an Accredited Program.** Emergency Medical Services - Paramedic Program 2501 Phoenix Drive Tuscaloosa, AL 35405 United States of America Satellite Locations/Multiple Campuses. Prattville Regional Training Center/Prattville Fire Dept, Prattville, AL. [www.caahep.org](http://www.caahep.org)

## ACCREDITATION

Reynolds Community College paramedic program is accredited by the Commission on Accreditation of Allied Health Education Programs ([www.caahep.org](http://www.caahep.org)) upon the recommendation of the Committee on accreditation of Emergency Medical Services Professions (CoAEMSP). The program meets the National EMS Education Standards and is approved and accredited by the Virginia Office of Emergency Medical Services.

<sup>1</sup> SDV 100 may be substituted for SDV 101.

<sup>2</sup> CSC 155 may be substituted for ITE 115.

<sup>3</sup> AHA-BLS Certification or ARC- Professional Rescuer Certification only. Other provider certifications are not accepted. Certification must be current through entirety of EMS Program. Course is provided 1-2 weeks prior to start of semester for EMS 112 and other EMS courses if needed. Additional fees do apply for this course. Program-declared students possessing a current AHA/ARC Certification will be granted credit by prior knowledge.

<sup>4</sup> EMS 111(EMT I and II) is equivalent to EMS 112 and EMS 113. Additional fees may apply, ie, uniform, PPD, Background-Castlebranch. Program-declared students possessing a current VA EMT and/or NREMT Certification will be granted credit by prior knowledge.

<sup>5</sup> Taking both BIO 141 and BIO 142 are approved substitutes for BIO 145. Please note that students who complete BIO 141 and BIO 142 are exempt from completing one of the General Education electives (3 credits).

<sup>6</sup> Students must meet requirements of Clinical Agreement prior to start of Internship/Lab (Castlebranch) if not previously met. Additional fees will apply. Students not concurrently enrolled in an EMS course/curriculum will need to repeat Castlebranch screening process. Program-declared students possessing a current VA EMT and/or NREMT Certification will be granted credit by prior knowledge.

<sup>7</sup> Program-declared students possessing a current VA EMT-Intermediate Certification through end of program will be granted credit by prior knowledge for EMS 121, EMS 123, EMS 125, EMS 126, EMS 127.

<sup>8</sup> Program-declared students possessing a current VA EMT-Intermediate Certification through end of program will be granted credit by prior knowledge for EMS 141, EMS 142, EMS 165, EMS 135, EMS 163, EMS 164.

<sup>9</sup> Program-declared students possessing a current ACLS Certification through end of program will be granted credit by prior knowledge.

<sup>10</sup> Program-declared students possessing a current AMLS Certification through end of program will be granted credit by prior knowledge.

<sup>11</sup> Program-declared students possessing a current PHTLS Certification through end of program will be granted credit by prior knowledge.

<sup>12</sup> Program-declared students possessing a current VA EMT-Intermediate Certification through end of program will be granted credit by prior knowledge for EMS 212.

<sup>13</sup> Program-declared students possessing a current EPC Certification through end of program-program will be granted credit by prior knowledge.

## Engineering AS (Transfer) Associate of Science

### SPECIALIZATIONS:

Mechanical/General Engineering  
Chemical/Biological Engineering  
Electrical/Computer Engineering

**PURPOSE:** The demand for technically trained people is increasing rapidly in Virginia as well as throughout the world. The engineer is a most important member of the technical team, which includes the scientist, technician, and skilled craftsman. Opportunities are unlimited for men and women in the field of engineering. Science is so diversified now that one may enter almost any specialization and find employment. The preparation for the engineering profession is based on a rigorous program, especially in mathematics and science.

The Associate of Science degree in Engineering is designed for persons who plan to transfer to a four-year college or university to complete a baccalaureate degree in one of the following engineering fields: aerospace, agriculture, architecture, biomedical, chemical, civil, computer, electrical, environmental, industrial, materials, mechanical, mining, nuclear, or ocean.

**ADMISSION REQUIREMENTS:** General college curricular admission

The **Mechanical/General Engineering specialization** is designed for persons who plan to transfer to a four-year college or university to pursue a degree in mechanical, civil, aerospace, ocean, or mining engineering. For students who do not yet know which discipline they want to pursue, this specialization provides

# REYNOLDS COMMUNITY COLLEGE

a fundamental engineering education that will help prepare students for a future in any engineering field.

The **Chemical/Biological Engineering specialization** is designed for students who plan to transfer to a four-year college or university to pursue a bachelor's degree in chemical, biomedical, biological, or environmental engineering.

The **Electrical/Computer Engineering specialization** is designed for students who plan to transfer to a four-year college or university to pursue a degree in electrical or computer engineering.

**PROGRAM NOTES:** Applicants shall have (a) completed placement testing and (b) met with their advisor to establish a planned course of study prior to being allowed to register for courses.

Satisfactory completion of the following high school units or their equivalent, at a minimum, is strongly recommended: four units of English, one unit of laboratory science (preferably physical science), one unit of social studies, and four units of mathematics (two units of algebra, one unit of plane geometry, one unit of advanced mathematics or trigonometry and solid geometry).

This program requires a steady progression through at least four high-level mathematics courses, generally taken at a rate of one per semester. MTH 263 and MTH 264 are pre- or co-requisites for several engineering courses. Applicants who place into developmental mathematics will face additional mathematics courses, which do not count toward degree progress, before even qualifying for MTH 263. Accordingly, applicants are urged to study their math thoroughly before taking the mathematics placement test to avoid having to repeat one or more mathematics courses unnecessarily.

This program includes the courses usually required in the first two years of a baccalaureate engineering curriculum. Students should consult with their engineering advisor at the earliest possible date to acquaint themselves with the requirements of the engineering program at the college or university to which transfer is planned.

**COMPUTER COMPETENCY REQUIREMENT:** Students in this program will meet the college's computer competency requirement by successfully completing EGR 124.

<sup>1</sup> CHM 112 may be required by some four-year institutions for their engineering baccalaureate degree programs. Students should verify the chemistry requirements of the institutions to which they plan to transfer. JMU requires both CHM 111 and CHM 112.

<sup>2</sup> Virginia Tech - all engineering majors

<sup>3</sup> Virginia Commonwealth University - Computer and Electrical engineering

## Floral Design CSC

### Career Studies Certificate

**PURPOSE:** This program is intended primarily for students who are seeking employment in the floral design business or who are presently employed in this field and wish to upgrade or enhance their skills. The program is also available for those who wish to establish credentials to demonstrate their expertise for exhibiting and judging.

**OCCUPATIONAL OBJECTIVES:** Careers include serving as an owner/operator of an independent florist business; a floral department manager/staff in a supermarket or garden center; and a floral designer in partnership with a caterer, wedding coordinator, or corporate client. There is also tremendous growth in production, sale, and display of cut flowers at farmers' markets.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** Students need good manual dexterity skills to fulfill job requirements in almost all applications of floral design training. In addition, an eye for color and an appreciation for design elements are very helpful.

All courses required for completion of this certificate can be applied to the AAS degree in Horticulture Technology.

#### CURRICULUM:

Order	Course	Title	Credits
<b>1</b>	HRT 260	Introduction to Floral Design	3
<b>2</b>	HRT 110	Principles of Horticulture	3
<b>3</b>	HRT 266	Advanced Floral Design	3
<b>4</b>	HRT 268	Advanced Floral Design Applications	3
<b>5</b>	HRT 106 or HRT 190	Practical Horticulture or Coordinated Internship in Horticulture	1
<b>6</b>	<sup>1</sup> _____ or HRT 121	Humanities/Social Science Elective or Greenhouse Crop Production I	3
<b>TOTAL</b>	<b>Floral Design Career Studies Certificate</b>		<b>16</b>

02.07.20

<sup>1</sup> PHI 220, PHI 225, ECO 120, PSY 200, SOC 200.

## General Education C (Transfer) Certificate

# REYNOLDS COMMUNITY COLLEGE

**PURPOSE:** The General Education Certificate is designed to serve as an intermediate step toward the associate of arts or associate of science degree for students who plan to transfer to a four-year college or university. The curriculum provides students with a foundation in the general education core competency areas of communication, critical thinking, information literacy, cultural and social understanding, personal development, quantitative reasoning, and scientific reasoning.

First-time job seekers who come to their employers with basic writing, analytical reasoning, and computing skills find they can be more competitive in the job market and more valuable in the workplace. Counter and retail clerks, administrative support, social and human service assistants, and customer service positions, as well as a variety of other fields, require individuals to apply their entry-level knowledge and skills while exploring the world of work and relevant career opportunities. For those employees who wish to pursue their education, the General Education Certificate provides foundational courses that allow students to progress toward the associate degree or to transfer to a senior institution.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** This certificate is approximately equivalent to the first year of study in any one of Reynolds' associate of arts or associate of science transfer degree programs. The associate degree is the gateway for transfer to a four-year college or university through one of many articulation and guaranteed admission agreements currently available to Reynolds students.

## CURRICULUM:

Order	Course	Title	Credits
1	SDV 100	College Success Skills	1
2	<sup>1</sup> ENG 111	College Composition I	3
3	MTH 154 or MTH 161 or MTH 245 or MTH 261	Approved Transfer Mathematics Elective	3
4	<sup>2</sup> _____	Humanities/Fine Arts Elective	3
5	<sup>3</sup> _____	Social/Behavioral Science Elective	3
6	<sup>4</sup> _____	Approved Laboratory Science Elective	4
7	<sup>2</sup> _____	Humanities/Fine Arts Elective	3
8	CST 110 or ENG 112	Introduction to Speech Communication or College Composition II	3
9	<sup>3</sup> _____	Social/Behavioral Science Elective	6

10	<sup>4</sup> _____	Approved Laboratory Science Elective	4
<b>TOTAL</b>	<b>General Education Certificate</b>		<b>33</b>

03.05.20

<sup>1</sup> There are numerous ENG 111 + EDE 011 6-credit cohorts where students are enrolled in both courses at the same time. These cohorts are offered at various campuses.

<sup>2</sup> For approved Humanities/Fine Arts Electives, please see the General Education Electives section of the catalog.

<sup>3</sup> For approved Social/Behavioral Science Elective, please see the General Education Electives section of the catalog.

<sup>4</sup> For approved Laboratory Science Electives, please see the General Education Electives section of the catalog.

<sup>5</sup> Some classes offered via hybrid class. Check specific schedule for further information.

## General Studies AS (Transfer) Associate of Science

### SPECIALIZATION

Elementary Education

**PURPOSE:** The Associate of Science degree in General Studies is a flexible degree that allows students to design a curriculum that meets particular transfer objectives that are not fulfilled by existing Reynolds transfer programs. The program consists of 46 credits of general education coursework and 15 additional credits that may be selected in consultation with an advisor to ensure they will be accepted for the preferred program at the four-year institution to which students plan to transfer.

**TRANSFER INFORMATION :** The AS in General Studies is designed to provide transfer paths that will match the requirements of senior institutions (four-year colleges and universities). However, these institutions differ in their requirements, so students are recommended to work closely with their advisors for program planning and course scheduling. The responsibility for appropriate course selection rests with the student, and electives should be chosen to meet the requirements of the transfer institution.

**THE ELEMENTARY EDUCATION SPECIALIZATION :** The Elementary Education Specialization prepares students to transfer to a four-year college and major in elementary education (kindergarten - 6th grade). This degree is not intended for students who want to teach special education, physical education, health, art, theatre or music. If you are

## ACADEMIC MAJORS A to Z

interested in one of the other options, contact your advisor or Advising@Reynolds.edu.

### PROGRAM OUTCOMES:

Graduates of the program will be able to

1. Demonstrate critical thinking strategies by comprehensively exploring issues, ideas, artifacts, and events before accepting or formulating an opinion or conclusion;
2. Demonstrate an understanding of human diversity and an awareness of global issues through analysis of art, history, culture, geography, and economics;
3. Interpret key concepts in social sciences and liberal arts;
4. Use quantitative skills to solve problems and interpret data;
5. Apply the basic principles of scientific inquiry;
6. Demonstrate when there is a need for information, and identify, locate, evaluate, and effectively and responsibly use and share that information for the problem at hand;
7. Effectively communicate in writing to diverse audiences and for a variety of purposes; and
8. Work independently and in teams to complete tasks.

Students from the AS in General Studies degree will be able to transfer into a wide variety of majors at senior institutions including, but not limited to, the following:

Business	Human Services
Communications	Journalism
Economics	Political Science
Education	Pre-law
Humanities	Psychology

**ADMISSION REQUIREMENTS:** General college curricular admission

**COMPUTER COMPETENCY REQUIREMENT:** Students in this program will meet the college's computer competency requirement by successfully completing ITE 115 or CSC 155. Students can also meet this requirement by passing the college's computer competency exam, administered in the testing centers on each campus, in which case they will receive college credit for ITE 115 or CSC 155. Students not passing the computer competency exam may retake the exam only once.

## Health Information Management AAS Associate of Applied Science in Partnership with Lord Fairfax Community College

This program is offered in partnership with Lord Fairfax Community College. The Health Information Management AAS degree is offered via distance through Lord Fairfax Community College and Reynolds Community College supports the coordination of internships for students in the Richmond area.

Students currently enrolled in Reynolds Community College Health Information Management courses who wish to complete the Health Information Management AAS degree must enroll at Lord Fairfax Community College and complete at least 25% of their coursework at Lord Fairfax Community College.

Designed to provide training in the management of systems to collect, interpret, and analyze patient data and to communicate information related to the research, planning, provision and evaluation of everyday operations in health care services.

Additionally, students gain skills to manage positions related to the functions. This program is beneficial to individuals who are seeking career advancement and eligibility for the national certifying examination - Registered Health Information Technician (RHIT). Occupational objectives upon completion of this program include: Health Information (Medical Records) Assistant/Technician, Medical Coder, Coding Manager/Supervisor, Health Information Supervisor/Office Manager, Clinical Documentation Improvement Specialist, Privacy Officer, Health Data Analyst.

**ACCREDITATION:** The Health Information Management (HIM) associate degree is accredited by the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM).

For more information about the associate degree in Health Information Management please visit the LFCC website at

<https://lfcc.edu/degree/health-information-management/>

03.10.20

In order to complete this degree in two years (beginning fall semester), courses must be taken in the order presented in the pathway.

<sup>1</sup> BIO 141/BIO 142 Human Anatomy and Physiology I/II may be substituted for BIO 145

<sup>2</sup> Course **MUST** be taken in first semester. May also take SDV 100.

<sup>3</sup> Prerequisite: ITE 115 strongly recommended before HIM 130

# REYNOLDS COMMUNITY COLLEGE

<sup>4</sup>  
See list of approved electives

<sup>5</sup>  
Prerequisite: Instructor permission required; all HIM core courses must be successfully completed with a grade of "C" or better prior to the coordinated internship. Most sites require a criminal background check, flu-shot, and proof of immunizations. All associated fees are the responsibility of the student.

## Health Science I CSC Career Studies Certificate

**PURPOSE:** The Health Science I Career Studies Certificate is a career pathway designed to move students from basic entry-level employment skills to foundational professional skills and occupational specific licensure and credentials as a Certified Nurse Aide or a Phlebotomist. The program can also serve as a pathway to a certificate in Dental Assisting or Practical Nursing or an associate of applied science degree in Emergency Medical Services, Medical Laboratory Technology, Nursing, Opticianry, and Respiratory Therapy.

**OCCUPATIONAL OBJECTIVES:** The health science educational and career ladder provides a broad foundation of core skills, knowledge, and abilities for employment as entry-level health care workers.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** Students new to the college must complete GoToOrientation and attend a new student orientation program. Students enrolling in this program are required to meet with an advisor and enroll in SDV 100 or SDV 101 in the first semester.

### CURRICULUM:

Order	Course	Title	Credits
1	<sup>1</sup> SDV 101	Orientation to Health Science	1
2	ENG 111	College Composition I	3
<b>3 - 4</b>	<b>Science Options: Select two (2) options based on your program of study</b>

<b>TOTAL</b>	<b>Health Science I Career Studies Certificate</b>		<b>21-28</b>

02.03.20

<sup>1</sup> SDV 100 may be substituted for SDV 101

<sup>2</sup> Program-specific--meet with advisor

<sup>3</sup> Program-specific for Emergency Medical Services or Medical Laboratory Technology or Health Information Management AAS at Lord Fairfax Community College--meet with advisor

<sup>4</sup> Program-specific for Opticianry--meet with advisor

<sup>5</sup> Program-specific for Medical Laboratory Technology--meet with advisor

<sup>6</sup> Program-specific for Health Information Management--meet with advisor

<sup>7</sup> Must be able to pass background check and drug screen; HCT 101 and HCT 102 must be taken concurrently. Negative TB test required for HCT 102

<sup>8</sup> Program-specific for Pharmacy Technician--meet with advisor

<sup>9</sup> Transferable to VCU; refer to this link: <https://transfer.vcu.edu/prospective/equivalency/>

<sup>10</sup> Program-specific for Central Sterile Services--meet with advisor

<sup>11</sup> EMS 100 may substitute for HLT 105

<sup>12</sup> HLT 105 may substitute for EMS 100

<sup>13</sup> Meet with advisor to discuss options based on your program of study

<sup>14</sup> Prerequisite for Nursing. Meets Dental Assisting Certificate and AAS degree requirements for Emergency Medical Services, Medical Laboratory Technology, and Respiratory Therapy as a social/behavioral science elective option

<sup>15</sup> Students interested in Medical Laboratory Technology may take either MTH 155 or MTH 161

<sup>16</sup> Students must contact the program head for permission to register. If required, must be able to pass background check and drug screen

<sup>17</sup> Meet with advisor. Students will complete the requirements in 40 hours for three weeks. Must be able to pass background check and drug screen

<sup>18</sup> Meet with advisor. Program-specific for Respiratory Therapy

## Horticulture Technology AAS Associate of Applied Science

**PURPOSE:** The Horticulture Technology program is designed to prepare students for a wide range of horticulture careers. Training is available for those who seek to begin a career track, and those who are changing careers. Individuals already in the green industry are invited to improve or upgrade their skills and knowledge with appropriate courses.

**OCCUPATIONAL OBJECTIVES:** The program offers hands-on laboratory work and classroom instruction in the design-install-maintain aspects of landscaping, in floral design, and in production of horticultural materials. Many of our graduates own and operate their own businesses, while others are employed by corporate, commercial, or governmental entities.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** Students in the Horticulture Technology program must complete a basic core of specified horticulture technology and general education courses. In addition, in consultation with the program head, the students will select technical courses that match their career objectives.

Students who already have a two-year, four-year, or graduate degree should request that their transcripts be sent to the college registrar if transfer credit is desired. It is strongly recommended that students meet with the program head or counselor either before registering or early in their first semester of study.

**COMPUTER COMPETENCY REQUIREMENT:** Students in this program will meet the college's computer competency requirement by successfully completing ITE 115. Students can also meet this requirement by passing the college's computer competency exam, administered in the testing centers on each campus, in which case they will receive college credit for ITE 115.

# REYNOLDS COMMUNITY COLLEGE

Students not passing the computer competency exam may retake the exam only once.

**CURRICULUM SEQUENCE:** The curriculum sequence that follows is one example of how courses may be completed. Students should work with their program advisor to determine the most appropriate sequence.

## CURRICULUM:

## Human Services AAS

### Associate of Applied Science

**PURPOSE:** The purpose of the associate of applied science (AAS) degree curriculum is to prepare students for employment upon graduation. Four-year college and university transfer opportunities for associate of applied science degrees, if existing, are usually very specific in nature. Students may, however, substitute some courses in the AAS degree curriculum with courses that generally transfer to senior institutions. Students should consult their program advisor at the earliest possible date for further guidance and are advised to get assurances in writing, in advance, from the institution to which they wish to transfer.

**OCCUPATIONAL OBJECTIVES:** Employment opportunities include, but are not limited to, the following types of employers: social service agencies; childcare agencies; hospitals; programs

and rehabilitation agencies that serve the physically and intellectually disabled and rehabilitation agencies; mental health settings; juvenile and adult corrections; private, non-profit, and for-profit agencies; and geriatric settings.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** In addition to the general college curricular admission requirements, an interview with the program head is recommended. While a face-to-face interview is preferable, an interview can also be conducted via telephone or electronic conference. The curriculum provides students with the requisite knowledge, skills, professional values, and attitudes necessary to practice in a diverse client and service delivery system. The program is also designed to enhance the professional knowledge, skills, and marketability of persons already employed in human services. Students who have completed 15+ credits in the program must consult their faculty advisor.

All students in the program should take the core curriculum courses that includes a first and second course, in a sequenced order. This means students must successfully complete the first course before proceeding to the second course in the sequence.. Students who receive a final grade lower than “C” in any of the core courses must repeat the course before taking further courses in the core curriculum. Students having academic difficulty completing the first 15 credits of their program should discuss their academic progress with a counselor in Student Support Services and after completion of 15 credits with their faculty advisor.

However, students who have successfully completed 7 core courses that have HMS and/or Men prefixes can enroll in the HMS 290 course before the fourth semester. Students must discuss the internship course with the program head, as well as select, interview, confirm a placement supervisor and site, and complete all required internship documents the semester prior to registering for HMS 290: Coordinated Internship. Students must complete a 130 clock-hour internship learning experience in a program-approved agency site that has been verified by the instructor of the HMS 290 course. Students are expected to provide their own transportation to the agency.

- 1). Students should meet with their faculty advisor at least once per academic semester and check their advisement report by accessing the Student Information System (SIS) through the myreynolds portal.
- 2). Some agency internship sites may require criminal background, sex offender registry checks, and a TB screening as a condition for placement. When this is the case, students will be expected to cover any costs incurred.
- 3). Students who have past felony records; especially those that include barrier crimes in the state of Virginia or are on the sex offender registry in any state will not be able to secure internships that provide services to children or the elderly and may find it difficult being placed in other internship training sites. This, in turn, would prevent them from completing requirements for the Human Services degree.

**CREDENTIALS:** Upon completion of the degree or specific course credits within the degree, students are eligible for national and/or industry-based certifications. Students should consult their faculty advisor for more information on these certifications.

**COMPUTER COMPETENCY REQUIREMENT:** Students in this program will meet the college’s computer competency requirement by successfully completing ITE 115. Students can also meet this requirement by passing the college’s computer competency exam, administered in the testing centers on each campus, in which case they will receive college credit for ITE 115. Students not passing the computer competency exam may retake the exam only once.

## Hybrid and Electric Vehicle Technology CSC Career Studies Certificate

**PURPOSE:** This curriculum is designed to meet the need for automotive technicians with education in the advanced technologies used on current vehicles. Such advanced technologies include electric, plug-in hybrid, and fuel cell electric vehicles, as well as the advanced control systems used on these and other advanced vehicles. The program provides instruction on the theory of operation, application, and diagnosis of the systems used in these vehicles.

**OCCUPATIONAL OBJECTIVES:** Auto Mechanic, State Safety Inspector, Service Advisor, Maintenance Technician, Parts Clerk, and Service Writer

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** To enroll in this program, students must have the following background or the program head's approval: (1) experience in the automotive repair field and (2) completion of AUT 241 – Automotive Electricity I, AUT 242 – Automotive Electricity II, and AUT 245 – Automotive Electronics. Students interested in entering this program are required to meet with the program head before registering for their first semester.

### CURRICULUM:

## Information Systems Technology - Computer Programmer CSC Career Studies Certificate

**PURPOSE:** The Computer Programmer Career Studies Certificate prepares students to design and implement traditional/legacy stand-alone and client-server applications using procedural and object-oriented development techniques.

The material presented in this certificate will help prepare students for the Microsoft Certified Solutions Developer Certification.

**OCCUPATIONAL OBJECTIVES:** Entry-Level Computer Programmer; Analyst; Software Developer; Web Programmer

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** The Computer Programmer Career Studies Certificate will fulfill the IT concentration electives in the Information Systems Technology Associate of Applied Science degree.

Students should check their advisement report in SIS and meet with their faculty advisor.

Students must attain the grade of "C" or higher in IT courses taken for this career studies certificate.

IT courses used for this program may not be more than 10 years old.

**Credit for Prior Learning:** Students in this program may be eligible for credit for prior learning. See an Information Systems Technology (IST) academic advisor for further information.

### CURRICULUM:

## Information Systems Technology - Cyber Security CSC

### Career Studies Certificate

**PURPOSE:** The Cyber Security Career Studies Certificate provides instruction in Information Security and prepares students to recognize and prevent threats to data, information systems, and to master techniques for defense against such attacks. The material presented in this certificate will help prepare students for the CompTIA Security+ Certification.

**OCCUPATIONAL OBJECTIVES:** Help Desk Specialist; Entry-Level Information Security Analyst; Entry-Level Cyber Security Specialist

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** The Cyber Security Career Studies Certificate will fulfill the IT concentration electives in the Information Systems Technology Associate of Applied Science degree.

Students should check their advisement report in SIS and meet with their faculty advisor.

Students must obtain the grade of "C" or higher in IT courses taken for this CSC.

IT courses used for this program may not be more than 10 years old.

**Credit for Prior Learning:** Students in this program may be eligible for credit for prior learning. See an Information Systems Technology (IST) academic advisor for further information.

02.27.20

## Information Systems Technology AAS Associate of Applied Science

The Associate of Applied Science (AAS) degree program enables students to concentrate in one of the following areas:

Cloud Computing  
 Computer Applications  
 Computer Applications Fundamentals  
 Computer Programmer  
 Cyber Security  
 Network Administration Fundamentals  
 Web Development

Students select from ONE of the IST Career Studies Certificate programs listed above to define an area of concentration for the Associate of Applied Science degree.

**PURPOSE:** The purpose of the Information Systems Technology AAS degree is to develop and/or enhance the information technology skills and knowledge of students by providing training in the latest technology that businesses demand. This program is for students who seek employment in business information systems, who desire to update their information technology skills for their current job, or who desire to improve their technology skills and knowledge to help prepare for industry certifications.

**TRANSFER INFORMATION:** Four-year college and university transfer opportunities for this degree, if existing, are usually very specific in nature. Students interested in IT Management or Information Security at the University of Richmond School of Professional and Continuing Studies or Occupational and Technical Studies at Old Dominion University should consult their faculty advisor upon program entry for further guidance.

#### OCCUPATIONAL OBJECTIVES:

**Cloud Computing:** Entry-level Cloud System Administrators; Cyber Information Security Specialists; Programmers; Developers

**Computer Applications:** Computer Support Specialist; Computer Technician; Help Desk Analyst; Information Technology Specialist (IT Specialist)

# REYNOLDS COMMUNITY COLLEGE

**Computer Applications Fundamentals:** Computer Support Specialist; Computer Technician; Help Desk Analyst; Information Technology Clerks.

**Computer Programmer:** Entry-Level Computer Programmer Analyst; Software Developer; Web Programmer

**Cyber Security:** Help Desk Specialist; Entry-Level Information Security Analyst; Entry-Level Cyber Security Specialist

**Network Fundamentals:** Hardware Technician; Entry-Level Help Desk Technician; and Entry-Level Technical Support

**Web Development:** Web Designer; Web Developer

**For more occupational information check out O\*Net** (<https://www.onetonline.org/>).

**ADMISSION REQUIREMENTS:** General college curricular admission

## PROGRAM NOTES:

Students must attain the grade of “C” or higher in IT courses taken for this degree. Students must get approval from the appropriate IT program head or their academic advisor in choosing program electives or substitutions. Students should complete SDV 100 during their first semester of study at the college.

All new students should meet with an Information Systems Technology faculty advisor in the first semester.

IT courses used for this program may not be more than 10 years old.

**CREDIT FOR PRIOR LEARNING:** Students in this program may be eligible for credit for prior learning. See an Information Systems Technology (IST) academic advisor for further information.

**COMPUTER COMPETENCY REQUIREMENT:** Students in this program will meet the college’s computer competency requirement by successfully completing ITE 115. Students can also meet this requirement by successfully passing the college’s computer competency exam, administered in the testing centers on each campus, in which case they will receive college credit for ITE 115. Students not passing the computer competency exam may retake the exam only once.

02.27.20

Students are strongly encouraged to complete their SDV requirement first.

<sup>1</sup> Students with good computer skills may seek to satisfy this requirement by internal exam.

<sup>2</sup> Students will select IT Concentration Electives based on the chosen Career Studies Certificate.

<sup>3</sup> Students in the Computer Programmer concentration should take ITP 136 (C# Programming I) in the first semester in order to complete the sequence of ITP 136, ITP 236, ITP 245, ITP 298 in four semesters.

<sup>4</sup> An IT Elective can be any IT course that is not required in the chosen Career Studies Certificate.

<sup>5</sup> Students considering transferring to a four-year college should take a transfer mathematics sequence (consult advisor).

<sup>6</sup> The Personal Wellness Elective requirement must be satisfied by completing a 1-credit Personal Wellness course.

<sup>7</sup> The Humanities Elective requirement must be satisfied by completing a 3-credit Humanities/Fine Arts course.

See [http://www.reynolds.edu/curriculum/generaled\\_electives.pdf](http://www.reynolds.edu/curriculum/generaled_electives.pdf) for a list of approved general education and personal wellness electives.

All information technology courses must be completed within ten years of a student's graduation date.

Students should regularly meet with their faculty advisor and check their advisement report in SIS.

Credit for Prior Learning: Students in this program may be eligible for credit for prior learning. See an Information Systems Technology (IST) academic advisor for further information.

## Information Systems Technology – Cloud Computing CSC Career Studies Certificate

**PURPOSE:** This curriculum is designed for those who seek employment in the field of cloud computing, for those who are presently in that field and who desire to increase their knowledge and update their skills, and for those who must augment their abilities in other fields with knowledge and skills in cloud computing.

**OCCUPATIONAL OBJECTIVES:** Entry-level Cloud system administrators and cyber information security specialists, and programmers and developers. For more information, check out O\*Net (<https://www.onetonline.org/>)

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** The Network Administration Career Studies Certificate will fulfill the IT concentration electives in the Information Systems Technology Associate of Applied Science degree.

Students should check their advisement report in SIS and meet with their faculty advisor.

Students must attain the grade of "C" or higher in IT courses taken for this certificate.

IT courses used for this program may not be more than 10 years old.

**CREDIT FOR PRIOR LEARNING:** Students in this program may be eligible for credit for prior learning. See an Information Systems Technology (IST) advisor for further information.

07.01.20

## Information Systems Technology – Computer Applications CSC Career Studies Certificate

**PURPOSE:** This program is designed to provide computer education and training required by business and industry. Specifically, this includes skills necessary to function in today's highly technical and computerized environment. Students will use computer application software to develop business applications. The career studies certificate will help prepare students for the MOS certification exams for Word, Excel, Access, and PowerPoint.

**OCCUPATIONAL OBJECTIVES:** Computer Support Specialist; Computer Technician; Help Desk Analyst; Information Technology Specialist

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** The Computer Applications Career Studies Certificate will fulfill the IT concentration electives in the Information Systems Technology Associate of Applied Science degree.

Students should check their advisement report in SIS and meet with their faculty advisor.

Students must attain the grade of "C" or higher in IT courses taken for this certificate.

IT courses used for this program may not be more than 10 years old.

**Credit for Prior Learning:** Students in this program may be eligible for credit for prior learning. See an Information Systems Technology (IST) academic advisor for further information.

## Information Systems Technology – Computer Applications Fundamentals CSC

### Career Studies Certificate

**PURPOSE:** This program is designed to introduce students to computer application software required by business and industry. Students will use computer application software to develop

business applications. The career studies certificate will help prepare students for the MOS certification exams for Word, Excel, Access, and PowerPoint.

**OCCUPATIONAL OBJECTIVES:** Computer support specialist; computer technician; help desk analyst; information technology clerks.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** The Computer Applications Fundamentals Career Studies Certificate will satisfy 18 credit hours of the courses in the Computer Applications Career Studies Certificate which fulfills the concentration electives in the Information Systems Technology Associate of Applied Science degree.

Students should check their advisement report in SIS and meet with their faculty advisor.

Students must attain the grade of "C" or higher in IT courses taken for this certificate.

IT courses used for this program may not be more than 10 years old.

**CREDIT FOR PRIOR LEARNING:** Students in this program may be eligible for credit for prior learning. See an Information Systems Technology (IST) academic advisor for further information.

## Information Systems Technology – Network Fundamentals CSC

### Career Studies Certificate

**PURPOSE:** This program provides the student with a background in beginning networking skills. The material presented in this certificate will help prepare students for the CompTIA A+ Certification and the CompTIA Network + Certification. It is

# REYNOLDS COMMUNITY COLLEGE

recommended that students complete the A+ Certification before the Network+ Certification.

**OCCUPATIONAL OBJECTIVES:** Hardware technician; entry-level help desk technician; entry-level technical support. For more information, go to O\*Net (<https://onetonline.org/>)

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** The Network Fundamentals Career Studies Certificate will fulfill 18 credit hours of the Network Administration Career Studies Certificate which fulfills the concentration electives in the Information Systems Technology Associate of Applied Science degree.

Students should check their advisement report in SIS and meet with their faculty advisor.

Students must attain the grade of "C" or higher in IT courses taken for this certificate.

IT courses used for this program may not be more than 10 years old.

02.07.20

## Liberal Arts AA (Transfer)

### Associate of Arts

#### SPECIALIZATION

American Sign Language/Deaf Studies  
Teacher Preparation

**PURPOSE:** The Associate of Arts degree in Liberal Arts lays the foundation for a Bachelor of Arts degree in art and art history, ASL-English Interpretation, communication, Deaf studies, English/literature, history, humanities, journalism, music, philosophy, pre-law, social sciences, speech-language pathology, religious

studies, and world languages. The liberal arts promote a broad background of knowledge across the arts, humanities, languages, and social sciences to develop students' abilities in analytical and critical thinking, written and oral communication, and understanding global cultural awareness. The Liberal Arts degree is a two-year program designed for those students who plan to transfer to a four-year college or university to complete a Bachelor of Arts degree. While the program is designed to provide transfer paths that will match the requirements of four-year colleges and universities, the requirements may differ. Therefore, students are strongly urged to work with their assigned advisor and to acquaint themselves with the requirements of the major department in the college or university to which they plan to transfer. This program requires intermediate proficiency (two years of coursework or its equivalent) in a language other than English.

Each student admitted to the program is assigned an academic advisor to help plan the appropriate course of studies to transfer to the student's choice of a four-year college or university. Students who complete the program generally transfer as juniors.

**THE TEACHER PREPARATION SPECIALIZATION** is designed for students who plan to transfer to a four-year college or university in a major that requires a background in the liberal arts, and who plan to teach at the elementary, middle, or secondary school level. The Teacher Preparation specialization enables the student to participate in two field experiences in area schools.

**THE ASL/DEAF STUDIES SPECIALIZATION** is designed for students who plan to transfer to a four-year college or university in a major that requires a background in American Sign Language and Deaf persons as a cultural group. These expanding fields include speech-language pathology, deaf education, ASL instruction, interpretation, interpreter education, linguistics, and Deaf studies (e.g., history, literature, and research).

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** The following high school units are strongly recommended: three units of college preparatory mathematics and two years of a foreign language.

**NOTE TO PROSPECTIVE TEACHERS:** Students who wish to be licensed to teach in Virginia should earn a baccalaureate degree in a liberal arts, science, or mathematics field. Students should consult with their advisor regarding elective choices that match their desired teaching endorsement area(s). While enrolled at the community college, students should prepare for and successfully complete Praxis Core (Reading, Writing, and Mathematics), the initial teacher licensure examination.

**COMPUTER COMPETENCY REQUIREMENT:** Students in the Liberal Arts degree program will meet the college's computer competency requirement by successfully completing ITE 115 or CSC 155. Students can also meet this requirement by passing the college's computer competency exam, administered in the testing centers on each campus, in which case they will receive college credit for ITE 115 or CSC 155. Students not passing the computer competency exam may retake the exam only once.

**PROGRAM OUTCOMES:**

Upon successful completion of the AA degree in Liberal Arts, the student will be able to demonstrate:

- An interdisciplinary understanding of the human experience from different global, cultural, sociological, and historical perspectives;
- An awareness of how social and cultural contexts shape and influence forms of human expression; and
- An understanding of the interdependence of academic disciplines and how an interdisciplinary perspective contributes to understanding the human experience.

<sup>1</sup> There are numerous ENG 111 + EDE 011 6-credit cohorts where students are enrolled in both courses at the same time. These cohorts are offered at various campuses..

<sup>2</sup> Program-declared students possessing a current Certiport Microsoft Office Specialist (MOS) Certification will be granted credit by prior knowledge.

<sup>3</sup> Some classes offered via hybrid class. Check specific schedule for further information..

<sup>4</sup> Program-declared students possessing a current Comptia Network + Certification will be granted credit by prior knowledge.

<sup>5</sup> For approved Laboratory Science Electives, please see the General Education Electives section of the catalog.

<sup>6</sup> Program-declared students possessing a current Comptia Security + Certification will be granted credit by prior knowledge.

<sup>7</sup> For Personal Wellness Electives, please see the General Education Electives section of the catalog. Some classes offered via hybrid class. Check specific schedule for further information.

<sup>8</sup> For English Literature Electives, please see the General Education Electives section of the catalog. Some classes offered via hybrid class. Check specific schedule for further information.

## Management AAS Associate of Applied Science

### SPECIALIZATIONS:

Small Business Management  
Retail Management

**PURPOSE:** The Management degree program is designed to serve the needs of individuals presently employed in businesses and those who are interested in ownership or management of businesses. Additionally, the program is designed for those who may be seeking a promotion and have the potential for supervisory and management positions. Students will gain a solid foundation in key business areas and management. Students will develop critical thinking skills and practices to address business issues and skills in strategic management and retail.

### OCCUPATIONAL OBJECTIVES:

**Small Business Management** – Small businesses represent the majority of businesses in the United States and can be started at a low cost and on a part-time basis. This specialization will prepare students for self-employment and careers in small business. It directly focuses on the practical aspects of small business and business ownership. At the completion of the Small Business Management Specialization, students will have newly developed knowledge and skills to operate a successful business, such as a franchise, restaurant, day care center, sporting goods

store, computer service business, bridal store, clothing store, printing service, or any micro-business.

**Retail Management** – Retailing is a dynamic industry. Every successful retail store has a manager or team of managers. This specialization focuses on preparing students for a career in either store management or sales. Retail managers must make important decisions on a daily basis, such as buying, pricing, advertising, staffing, and logistics. Students learn to direct staff and operations on a sales floor. Students also learn how to make sales, manage customer service, and maintain records. Students may obtain entry-level positions as store managers, sales managers, department managers, or assistant account representatives.

**ADMISSION REQUIREMENTS:** General college curricular admission

**COORDINATED INTERNSHIPS:** All students in the Management degree program are required to complete a coordinated internship that provides on-the-job training. The internship provides students with practical exposure to many facets of management and retailing.

**COMPUTER COMPETENCY REQUIREMENT:** Students in this program will meet the college's computer competency requirement by successfully completing ITE 115. Students can also meet this requirement by passing the college's computer competency exam, administered in the testing centers on each campus, in which case they will receive college credit for ITE 115. Students not passing the computer competency exam may retake the exam only once.

### CURRICULUM:

## Medical Laboratory Technology AAS Associate of Applied Science

**PURPOSE:** The Medical Laboratory Technology major is designed to prepare students for certification and employment as Medical Laboratory Technicians. Upon satisfactory completion of the program, the student is eligible to apply for national certification examinations. With satisfactory completion of the national certification exam, students are eligible to pursue a Bachelor's degree in Clinical Laboratory Science with either Virginia Commonwealth University or Old Dominion University

**OCCUPATIONAL OBJECTIVES:** Positions for Medical Laboratory Technicians are available in hospitals, private laboratories, physicians' offices, health departments, and industrial medical laboratories.

**ADMISSION REQUIREMENTS:** General college curricular admission and program specific criteria

**PROGRAM NOTES:** Students must be accepted to this program to enroll in MDL major/clinical courses (MDL 110 and higher).

1. Students interested in the Medical Laboratory Technology program should first enroll in the Health Science I Career Studies Certificate (CSC) to complete the prerequisite courses. Completion (or near completion) of the designated prerequisites is required for admission to the program.

2. Upon satisfactory completion of the five-semester AAS degree, graduates will be eligible to take the Medical Laboratory Technology examinations (e.g., ASCP, AMT, or equivalent) for national certification. The national certification exam is not a requirement for graduation; however, it is strongly recommended and may be required for employment, depending upon the employer.
3. Upon satisfactory completion of the national certification exam, graduates are eligible to pursue a bachelor's degree in Clinical Laboratory Science with either Virginia Commonwealth University or Old Dominion University.
4. It is recommended that the students have appropriate health insurance. Students are responsible for covering the cost of medical care that they may require while in the clinical setting.
5. The MDL courses may be taken for retraining by certified technologists who have been out of the field for a period of time. While admission to the program is not required, permission of the program head is required prior to registration for MDL courses.

Courses in the program are offered on campus as well as via distance learning. Students in the distance program must attend mandatory laboratory classes at college-designated sites or may be required to come to campus for labs. Tests may be taken at an approved testing center as determined by the faculty member and the program head.

### **Medical Laboratory Technology AAS Student Learning Outcomes:**

**The National Accrediting Agency for Clinical Laboratory Science (NAACLS)** describes entry-level competencies for the medical laboratory technician as follows: The medical laboratory technician will possess the entry-level competencies necessary to perform routine clinical laboratory tests in areas, such as clinical chemistry, hematology/hemostasis, immunology, immunohematology/transfusion medicine, microbiology, urine and body fluid analysis, and laboratory operations.

The level of analysis ranges from waived and point of care testing to complex testing encompassing all major areas of the clinical laboratory. The medical laboratory technician will have diverse functions in areas of pre-analytical, analytical, and post-analytical processes. The medical laboratory technician will have responsibilities for information processing, training, and quality control monitoring wherever clinical laboratory testing is performed.

### **Reynolds Medical Laboratory Technology Program Outcomes**

The educational experiences in the Medical Laboratory Technology program are designed to ensure that students are well prepared to enter the profession of medical laboratory technology and continue to learn throughout their professional career. At completion of the program, graduates will be able to

1. Exhibit patient confidentiality within HIPAA parameters;
2. Demonstrate consistent safe practice within industry-level safety standards;
3. Demonstrate job entry-level precision and accuracy in performing procedures;
4. Formulate accurate reports within industry-level reporting parameters;

5. Analyze and record test and quality control data within industry-level accuracy standards;
6. Distinguish reportable vs. non-reportable test results using established industry criteria;
7. Troubleshoot non-reportable test results;
8. Discuss laboratory testing in terms of theory, technique, quality control, and interpretation; and
9. Perform routine testing of adult, infant, and geriatric patient samples in specified rotations.

### **Application Requirements:**

1. Admission to the MDL program is competitive and only limited numbers of students are accepted (usually 15 in fall semester and 15 in spring semester).
2. To be eligible for admission into the MDL program and courses, applicants must have completed (or be near completion) of the following designated prerequisites: SDV 101, ITE 115/CSC 155, ENG 111, BIO 145, MTH 155/MTH 161, ENG 112, CHM 101/CHM 111, and HLT 115/PED 109/PED 111/PED 117.
3. Completion of the prerequisite courses does not guarantee admission to the AAS degree program. Transfer students must declare the Health Science I CSC as their major until formally admitted to the program.
4. Applicants must complete and submit an MDL application portfolio to the program director for consideration. Instructions for completing the Medical Laboratory Technology application packet are located below.
5. Fully qualified students will be ranked according to GPA, prior degrees achieved, and a completed application packet. (See the program application packet for full explanation of ranking of applicants.)
6. A minimum GPA of 2.5 in the designated prerequisite courses is required for consideration.
7. Official transcripts from all previously attended colleges must be submitted to Central Admissions for consideration.
8. Advanced placement opportunities are based on evaluation of transcripts and clinical work experience, and must be discussed with the program head.
9. A criminal background check, drug screen, and documentation of immunizations are required prior to placement for clinical rotations.

### **Application Deadlines:**

- Fall Start: May 15 with notification in mid-June
- Spring Start: October 1 with notification in early November

### **Medical Laboratory Technology Application Packet:**

The application packet is available at the following url: [www.reynolds.edu/\\_onlinecatalog/documents/MDL-Application-Packet.pdf](http://www.reynolds.edu/_onlinecatalog/documents/MDL-Application-Packet.pdf)

### **Medical Laboratory Technology Student Handbook:**

This handbook is available at the following url: <https://www.reynolds.edu/mlt>.

**ESSENTIAL SKILLS REQUIREMENTS:** Students entering the MDL program must possess the following skills:

- Sufficient eyesight, including color vision, to observe microscopic cells and features within cells, read records,

manipulate equipment, and visually read procedures, graphs, and test results.

- Sufficient hearing to communicate with patients and members of the health care delivery team, monitor patients using electronic equipment, and hear necessary sounds during operation of equipment.
- Satisfactory speaking, reading, and writing skills to effectively communicate in English in a timely manner.
- Sufficient gross and fine motor coordination to exhibit excellent eye-hand coordination and dexterity to manipulate equipment.
- Sufficient ability to lift, stoop, or bend in the delivery of safe laboratory testing.
- Satisfactory physical strength and endurance to be on feet for extended periods and to move heavy equipment and supplies. Sitting, walking, bending, and reaching motions are also requirements of most positions.
- Satisfactory intellectual, emotional, and psychological health and functioning to ensure patient safety and to exercise independent judgment and discretion in performing assigned tasks.
- Satisfactory time management of multiple priorities and stimuli to operate in fast-paced environments.
- Sufficient analysis, synthesis, and comprehension skills to follow detailed instructions and effectively operate in a laboratory setting.

### PROGRESSION THROUGH THE PROGRAM:

1. Students who have a break in their enrollment must meet with the program head to review current enrollment requirements. In some cases, students may be required to retake MDL courses.
2. All students must successfully pass a comprehensive clinical readiness assessment prior to placement in clinical rotations. Attendance during one summer session may be required.
3. Students must earn a course grade of "C" or better in all courses within the curriculum. Any student who receives a final grade lower than "C" in any course must repeat the course. Students failing to obtain "C" or better in any two MDL prefix courses will not be able to progress in the MDL program.
4. Courses with the MDL prefix must be completed successfully prior to entering the final coordinated internship courses.

**CLINICAL PROGRESSION:** The college offers this program in affiliation with the health care agencies and practitioners in the communities the college serves. The college relies on its community affiliates to provide clinical education opportunities for its students, expert clinical preceptors, and course instructors for many courses. The often rapid changes in health care law, standards of practice, technology, and content of credentialing examinations increasingly necessitate sudden changes in the program's course content, policies, procedures, and course scheduling. As a result, the college cannot guarantee every student continuous and uninterrupted clinical and course instruction as outlined in the printed catalog curriculum for this program. Circumstances beyond the control of the college may necessitate the postponement of course offerings or changes in the sequencing and/or location of scheduled courses or clinical

assignments. Additionally, the college may have to change the instructor for courses after instruction has started.

**FINANCIAL REQUIREMENTS:** In addition to the regular college tuition and fees, the Medical Laboratory Technology program requires the items listed below (these fees are approximate and subject to change):

Books and Supplies (varies):	\$2,000.00
Scrubs and Shoes:	\$200.00
Lab Tests and Immunizations (varies):	\$300.00
Background Check (varies):	\$45.00
Drug Screen (varies):	\$50.00
Travel to Clinical Affiliates	Variable

*Note: An additional fee for the national certification examination is not a requirement for graduation and is not included above. The fee is approximately \$215.00.*

### ANNUAL PROGRAM STATISTICS

	2016-2017	2017-2018	2018-2019	3-YEAR AVERAGE
ASCP BOC Exam <sup>1</sup>	100%	94%	70%	90%
Attrition Rate	4%	14%	6%	7%
# Graduated	26	29	31	29
Graduation Rate	100%	75%	89%	87%
Graduate Placement Rate	100%	100%	93%	98%

<sup>1</sup> Pass within first year of program completion

**COMPUTER COMPETENCY REQUIREMENT:** Students in this program will meet the college's computer competency requirement by successfully completing ITE 115 or CSC 155. Students can also meet this requirement by passing the college's computer competency exam, administered in the testing centers on each campus, in which case they will receive college credit for ITE 115 or CSC 155. Students not passing the computer competency exam may retake the exam only once.

**PROGRAM ACCREDITATION AND ADMINISTRATION:** The Medical Laboratory Technology program is accredited by the National Accreditation Agency for Clinical Laboratory Sciences, 5600 N. River Rd., Suite 720, Rosemont, IL 60018 (773-714-8880 and NAACLSinfo@naaccls.org). The program director is D. Gayle Melberg, MS, MT (ASCP), an experienced medical laboratory scientist and certified medical technologist.

## Medical Records Coder (Health Information Management) CSC Career Studies Certificate

**PURPOSE:** This program is designed to provide the technical knowledge and skills, along with the practical experience, needed for employment as a basic medical records coder. Assisted by specialized computer equipment and software, medical records coders analyze and interpret the patient's record to determine the proper standardized codes that represent the patient's diagnosis and treatment. These codes may be used for billing purposes, to create accurate standardized records, to maintain health statistics. The need for medical records coders will continue to increase as the health field continues to address reimbursement challenges and move toward a focus on quality improvement related to health care services.

**OCCUPATIONAL OBJECTIVES:** Medical records coders work in hospitals, doctors' offices, insurance companies, and government agencies.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** In addition to the general college curricular admission requirements, a personal interview with the faculty advisor is required for advising prior to enrollment in the first HIM course. Courses need to be taken in the sequence listed or advised. Students will be required to repeat any course in which a grade lower than "C" is received.

Upon satisfactory completion of this certification program, graduates will be eligible to take the nationally-accredited exam offered by the American Academy of Professional Coders (AAPC). Successfully passing the exam and obtaining certification as a medical coder begins the journey towards

an in-demand career within the healthcare industry. The designation of Certified Professional Coder (CPC) is the medical coding certification from AAPC that is nationally recognized by employers, physician societies, and government organizations. According to the U.S. Bureau of Labor Statistics, medical coding is one of the fastest growing professions in the nation and allows certified medical coders to be more marketable and earn more than non-certified coders.

#### STUDENT OUTCOMES FOR MEDICAL RECORDS CODER CAREER STUDIES CERTIFICATE:

Students who complete the Medical Records Coder Career Studies Certificate will be expected to

- Recognize and implement professional policies and procedures related to the legal and ethical use of medical information;
- Interpret health record documentation using knowledge of anatomy, physiology, clinical indicators and disease processes, pharmacology, and medical terminology to identify codeable diagnoses and/or procedures, according to the ICD-10-CM and CPT-4 coding systems;
- Apply knowledge of major reimbursement systems in the United States to the preparation of universal billing claims; and
- Demonstrate behaviors and dispositions that are in accord with professional ethics, including integrity, respect for privacy, and commitment to professional growth.

**COMPUTER COMPETENCY REQUIREMENT:** Students in this program must meet the college's computer competency requirement by successfully completing ITE 115 or CSC 155. Students can also meet this requirement by passing the college's computer competency exam administered in the testing centers on each campus, in which they will receive college credit for ITE 115 or CSC 155. Students not passing the computer competency exam may retake the exam. Either ITE 115, CSC 155, or the competency test must be completed in the first semester or students may not progress to the second semester.

**FINANCIAL REQUIREMENTS:** In addition to the regular college tuition and fees, the medical records coder program requires the purchase of books and/or electronic resources (these costs are approximate and subject to change): books and supplies \$1,200.00

**NOTE:** Graduates seeking CPC certification from AAPC should be aware of the following additional fees: (1) AAPC Student Membership (\$175); and (2) CPC national certification examination fee from AAPC is approximately \$400.00 for two, in-person attempts or \$300.00 for one, online attempt. CPC Certification is not a requirement for graduation from the program.

#### PROGRESSION THROUGH THE PROGRAM:

1. Students who have a break in their enrollment must meet with a program faculty advisor to review current enrollment requirements. In some cases, students may be required to retake courses or take additional courses required for the program when industry standards have changed.
2. Any student who receives a final grade lower than "C" in any courses within the program must repeat the course.

**ESSENTIAL SKILLS REQUIREMENTS:** Students entering the Medical Records Coder certificate program must possess the following skills:

- Satisfactory speaking, reading, and writing skills to effectively communicate in English in a timely manner.
- Satisfactory intellectual, emotional, and psychological health and functioning to exercise independent judgment and discretion in performing assigned tasks.
- Satisfactory time management of multiple priorities and stimuli to operate in fast-paced environments.
- Sufficient analysis, synthesis, and comprehension skills to follow detailed instructions and effectively code medical charts and records.

## Nursing AAS

**Reynolds uses the HESI for all nursing admission testing. Please see Registered Nursing HESI Admission Test Information for more information.**

The **summer application deadline (for Fall 2021 start)** WILL REMAIN the 3<sup>rd</sup> Monday in May. Instructions for remote HESI testing (For the RN program ONLY) can be found by clicking the

"HESI Admission Test Information" link above and scrolling to the bottom of the page. There will be an additional \$10 charge (Test \$53 + Proctor U \$10= \$63 total to test). Please follow the instructions specifically. Applications **MUST CONTAIN HESI** scores or they will be considered incomplete and returned. Please check the nursing website (frequently) and your email account (daily) to ensure important information is not overlooked.

## Associate of Applied Science

**PURPOSE:** The Nursing AAS program is designed to prepare diverse individuals to practice evidence-based nursing successfully as a professional member of the interdisciplinary health care team. Upon satisfactory completion of the program, the student is eligible to apply to take the licensing examination (NCLEX-RN\*) required to become a Registered Nurse.

**OCCUPATIONAL OBJECTIVES:** To secure and sustain employment as a professional nurse providing nursing care to individuals, families, communities, and/or populations in a variety of health care settings

**ADMISSION REQUIREMENTS:** General college curricular admission and program-specific criteria

**PROGRAM NOTES:** The Virginia State Board of Nursing has the authority to deny licensure to any applicant who has violated any of the provisions of 54.1-3007 of the Code of Virginia. Any student convicted of illegal offenses other than minor traffic violations should discuss these matters with the coordinator of the Nursing AAS program prior to admission for clarification.

A criminal background check and drug screen are required of all incoming nursing students. Random drug screens and repeat background checks may be required for current or returning students at any time. A student with an unsatisfactory background check and/or drug screening will be dismissed from the Nursing AAS program.

A student who has an absence greater than 12 months within the Nursing AAS program must meet current admission and curriculum requirements. A student seeking to resume enrollment must meet with the coordinator of the Nursing AAS program prior to reenrollment.

A student accepted to the Nursing AAS program must sign an Assumption of Risk document that serves to provide a general outline of hazards encountered within nursing. This list includes, but is not limited to, exposure to infectious, biological, chemical, environmental/mechanical, and psychosocial hazards, as well as loss of personal property.

### Student Outcomes for the AAS in Nursing:

A student who completes the AAS in Nursing will be expected to

1. Provide patient-centered care promoting therapeutic relationships, caring behaviors, and self-determination across the lifespan for diverse populations;
2. Practice safe nursing care that minimizes risk of harm across systems and client populations;
3. Demonstrate nursing judgment through the use of clinical reasoning, the nursing process, and evidence-based practice in the provision of safe, quality care;

4. Practice professional behaviors that encompass the legal/ethical framework, while incorporating self-reflection, leadership, and a commitment to recognize the value of lifelong learning;
5. Manage client care through quality improvement processes, information technology, and fiscal responsibility to meet client needs and support organizational outcomes; and
6. Demonstrate principles of collaborative practice within the nursing and interdisciplinary teams fostering mutual respect and shared decision-making to achieve stated outcomes of care.

### Program Specific requirements are the following:

1. Selection of Health Science I CSC (plan code 221-190-01) on the Reynolds Community College general admission application. (Please Note: VCCS student email accounts are the only accepted email account for all correspondence)
2. BIO 141, BIO 142, BIO 150 or any BIO equivalent transfer courses for credit must be taken within 7 years of admission into the first semester of the program.
3. All prerequisite courses for the AAS Nursing Program (BIO 141, ENG 111, SDV 101, and PSY 230) must be completed prior to the program application deadline.
4. Complete an English language proficiency test for ALL non-native English speaking students. The TOEFL iBT, Pearson Test for English (PTE) Academic, and IELTS are the only acceptable proficiency exams. For TOEFL iBT, a minimum total score of 84 and a minimum speaking score of 26 must be earned. For PTE Academic, a minimum score of 56 must be earned. For IELTS, a minimum score of 6.5 with no communicative skill below 6.0 must be earned. Any student that has completed 6<sup>th</sup> grade through high school graduation in the United States will be waived from this requirement. Completion of ENG 111 or ESL courses does not satisfy this requirement. These scores are based on recommendations from the National Council of State Boards of Nursing for the level of English proficiency required to perform entry-level nursing safely and effectively. Test scores are valid for up to two years.
5. Submission of official college transcripts to the Admissions office for consideration of transfer credit for courses is required by the Nursing AAS program. All decisions for transfer credit are determined by the Registrar's office. The applicant is solely responsible for confirming transfer credits are posted by the Registrar.
6. Successful completion of the program admission test.
7. Applications are ranked based on admission scores. Anatomy and Physiology, reading comprehension, and math scores are each weighted 30%; the grammar score is weighted 10%.
8. Cumulative grade point average (GPA) of 2.0 or higher.
9. Curricular GPA of 2.5 or higher in the eleven (11) credits of general education prerequisite courses with a grade of "C" or above (BIO 141, ENG 111, SDV 101, and PSY 230).
10. A selected applicant must accept or deny admission electronically, via their Reynolds student email account, as directed, via the Accepted Student Response Form by the identified date or forfeit their seat.

**FUNCTIONAL SKILLS REQUIREMENTS:** Students entering the Nursing program must possess the following functional skills:

- Sufficient eyesight to observe patients, read records, manipulate equipment, and visually monitor patients in dim light;
- Sufficient hearing to communicate with patients and members of a health care delivery team, monitor patients using electronic equipment, hear necessary sounds during operation of equipment, and hear a patient whispering;
- Satisfactory speaking, reading, and writing skills to communicate effectively in English in a timely manner;
- Sufficient bilateral finger dexterity to manipulate equipment;
- Ability to lift, stoop, or bend in the delivery of safe nursing care;
- Satisfactory physical strength and endurance to stand for extended periods, push equipment, and move immobile patients; and
- Satisfactory intellectual and emotional functioning to ensure patient safety and to exercise independent judgment and discretion in performing assigned care.

**Application Deadlines for Full-time Day Program:**

- Fall Semester start: 3rd Monday in May
- Spring Semester start: 3rd Monday in August

**TRANSFER OPTIONS:** Applicants seeking to transfer into the Nursing AAS program are required to meet all admission requirements. Transfer students from other nursing programs may be accepted on a space available basis.

1. The Nursing Student Affairs Subcommittee will review applications for students seeking transfer of nursing courses. Applicants must demonstrate that a nursing course, with corresponding credits, was completed within the previous 12 months.
2. Nursing transfer applicants must have a written statement from the dean or director of the nursing program the student is leaving, indicating that they are in good standing and eligible to return to the previous institution.

**EXPECTATIONS:** The student is required to complete a sequence of courses and learning experiences provided at the college and selected community agencies, such as acute care (hospitals) or long-term care facilities, clinics, or comparable agencies and facilities. During these experiences, the nursing faculty will observe, monitor, and evaluate the student's ability to achieve program outcomes through direct patient care.

**CLINICAL CONTRACTS:** Individual contracts are in effect with each affiliate clinical agency, and these contracts differ in requirements for students. In general, contracts include the following:

1. Clinical agencies reserve the right to dismiss a student from their agency at any time. Student must wear the proper uniform, conforming to program and health care agency standards.
2. Student must follow published hospital policies.
3. Student must meet health, immunity, and immunization requirements.

4. Student releases the facility, its agents, and its employees from any liability for any injury or death to self or damage to personal property arising out of the clinical agreement or use of the facility. (Assessment of Risk document is signed and on file, once the student is accepted into the program.)
5. Student is financially responsible for any medical care required while in the clinical setting.
6. Student must have a current American Heart Association CPR BLS for Health Care Provider Certification.
7. Demonstration of professional behavior is expected at all clinical learning experiences. Faculty will direct a student to leave the learning environment if unacceptable behaviors are observed.
8. The health care agency may deny a student participation based on results of background and drug screen.
9. Student must attend the health care agency's orientation as scheduled to remain enrolled in a clinical nursing course.
10. Student must submit required clinical documents with each clinical rotation. A student who does not meet published deadlines for submission forfeits his/her enrollment.

**FINANCIAL REQUIREMENTS:** In addition to the regular college tuition and fees, the nursing program requires the following (these costs are approximate and subject to change):

Uniforms, Shoes, and Stethoscope	\$350.00
Special Testing across the Curriculum	\$650.00
Books and Supplies	\$1,500.00
Physical Exam and Clinical Health Requirements (Titers, Immunizations, TB Testing, etc.) -- varies depending on health insurance coverage	\$500.00
NCLEX-RN® Fee, VBON Application Fee, and Fieldprint background check	\$435.00
Castlebranch® Document Manager® Background Check, Drug Screening, and Re-checks	\$225.00
Transportation and Parking for Clinical Rotations	Varies

**PROGRESSION THROUGH THE PROGRAM:** Reynolds relies on affiliation agreements with community agencies to provide clinical education opportunities for nursing students. The rapid changes in health care law, standards of practice, technology, content of credentialing examinations, and availability of qualified faculty increasingly necessitate sudden changes in the program's course content, policies, procedures, and course scheduling. As a result, the college cannot guarantee every student continuous and uninterrupted clinical and course instruction as outlined in the printed catalog curriculum for this program. Circumstances beyond the control of the college may necessitate the postponement of course offerings or changes in the sequencing and/or location of scheduled courses or clinical assignments. Additionally, the college may have to change the instructor for courses after instruction has started.

**CONTINUATION IN THE PROGRAM:**

# REYNOLDS COMMUNITY COLLEGE

- A student must maintain a cumulative GPA of at least 2.0.
- A student must achieve a course grade of "C" (80%) or better in ALL courses within the AAS curriculum.
- The clinical portion of designated nursing courses is evaluated as "Pass/Fail." A student who does not meet the clinical learning outcomes will fail the course.
- A student who fails any two nursing courses or is not successful after two attempts (withdrawal and/or fail) in the same course may not continue in the Nursing AAS.
- A student may enroll only in the courses listed in his/her qualified semester.
- A student that is deemed ineligible to return to a clinical site will not be eligible for re-admission.

**PROGRESSION STATUS:** Reynolds has entered into an implied contract with all students accepted into the AAS Nursing program via the Reynolds catalog. The catalog indicates that once accepted into the Nursing program a student can complete the program within two years, assuming the student attends four consecutive semesters. (Summer is a session, not a semester.) Continuation in the program is conditional upon those factors identified in the "Progression through the Program" statement.

**Progression 1** students are those who have never failed, dropped, withdrawn, or taken a leave of absence for any reason. Progression 1 students may register for any available space in a course for which they are eligible during the assigned registration period.

**Progression 2** students have stopped program progress due to leave of absence, course withdrawal or failure. Re-enrollment into the program is based upon available seats. Students in Progression 2 status will be enrolled based on a random lottery drawing for available seats and will not participate in the online registration process. Progression 2 students will return to Progression 1 status after successful completion of the course from which they withdrew or failed.

## NCLEX-RN Licensure Examination Pass Rates for Reynolds Nursing Graduates

Year	NCLEX Pass Rate
2019	85%
2018	94%
2017	93%
2016	95%
2015	94%

**Nursing AAS Employment Data:** Employment data is dependent upon graduate responses to surveys conducted. May 2019 Graduates - 100% reported employment or offers of employment upon program completion.

## PROGRAM ACCREDITATION

Pursuant to United States Department of Education (US DOE) regulation 34 CFR 668.43 (a) (5) (v), the Reynolds Community College Associate Degree in Nursing (ADN) program provides the following information for all prospective and current students:

The **Reynolds Community College** ADN program meets all Virginia Board of Nursing requirements for pre-licensure nursing education programs in the Commonwealth of Virginia. In addition, the Reynolds Community College ADN program meets all requirements for nationally recognized accreditation by the Accrediting Commission for Education in Nursing.

The Commonwealth of Virginia participates with 32 other states in the National Council of State Boards of Nursing (NCSBN) National Licensing Compact (NLC) to allow nurses licensed in one state to provide nursing care across state lines in other compact states. The Uniform Licensing Requirements (ULRs) are found at [https://www.ncsbn.org/NLC\\_ULRs.pdf](https://www.ncsbn.org/NLC_ULRs.pdf)

States currently in the NLC are found at: <https://www.ncsbn.org/nlcmemberstates.pdf>. Prospective and current students are strongly encouraged to evaluate all state requirements in jurisdictions where they intend to practice nursing.

A list of all state requirements is found at: <https://www.ncsbn.org/14730.htm>

The Virginia State Board of Nursing may be contacted at, 9960 Mayland Drive, Suite 300, Henrico, VA 23233-1463, (804) 367-4515. The Accreditation Commission for Education in Nursing may be contacted at 3343 Peachtree Road NE, Suite 500, Atlanta, GA 30326, (404) 975-5000). **Reynolds Community College** has not determined if the ADN program meets the requirements of any other states.

<sup>1</sup> SDV 100 may be substituted for SDV 101.

<sup>2</sup> Course must be retaken if greater than 7 years.

<sup>3</sup> All prerequisite courses for the AAS Nursing Program (BIO 141, ENG 111, SDV 101, and PSY 230) must be completed prior to submitting the RN program application

## Opticianry AAS Associate of Applied Science

**PURPOSE:** The Opticianry program is designed to prepare individuals in the art and science of all phases of the making and fitting of eyeglasses and contact lenses: surfacing, finishing, eyeglass dispensing, contact lens fitting, and dispensing.

**OCCUPATIONAL OBJECTIVES:** Graduation from the program may lead to one of the following occupational goals: Optician, Private Practitioner, Ophthalmic Dispenser, Optical Laboratory Manager, Contact Lens Technician, Branch Manager, Optical Laboratory Technician, Ophthalmic Sales Representative, and Ophthalmic Research Technician.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** Students admitted into this program will be approved for entry into major/clinical courses (Optical Theory I or higher) when they have satisfied the following requirements:

- Applicants must meet with the program head to review their records and to discuss the requirements of the program and a career in Opticianry.
- It is also recommended, but not required, that students have completed one unit each of high school algebra, biology, and physics.

Students acquire direct patient-related practical skills by taking eyeglass and contact lens clinical coursework at clinical sites assisting customers. All students must complete an Assumption of Risk agreement prior to taking any clinical courses. Courses in the program are offered on campus as well as via distance learning with in-person or proctor required. Students in the distance program must attend mandatory clinical classes offered

at an approved distance learning site. Exams must be taken at an approved testing center as determined by the program head.

Graduation from this program prepares one for the licensing examination and contact lens fitting endorsement given by the Virginia State Board of Opticians. This accredited program is also approved by other state licensing boards.

### PROGRAM OBJECTIVES FOR OPTICIANRY AAS DEGREE:

Students who complete the Opticianry AAS degree will be expected to

1. Demonstrate theoretical and technical optical knowledge at a level of a licensed optician in the state of Virginia and other states requiring accreditation with similar requirements.
2. Demonstrate clinical optical skills at a level of a licensed optician in the state of Virginia and other states requiring accreditation with similar requirements.
3. Demonstrate clinical competency in basic contact lens fitting.
4. Demonstrate entry-level business skills for the opticianry profession.

**FINANCIAL REQUIREMENTS:** In addition to the regular college tuition and fees, the following expenses may be required for the Opticianry program:

- Approximate textbook costs for program | \$700-800
- Eye examination (by the 4th semester) | \$35-85
- Personal pair of safety glasses | \$15-50 (Non-Rx safety eyewear is available for on-campus labs.)
- White laboratory coat | \$20-45
- Name badge | \$8-10
- USB headset (for all online lecture courses) | \$25-75
- Mailing costs (for distance clinical courses only) | \$ varies by location\*
- Testing center fees (for distance clinical courses only) | \$ varies by location
- Optical tools or equipment (for distance clinical courses only) | \$ varies by location\*\*

\* Distance learning students are required to take proctored exams and complete projects to be sent back to the college throughout the curriculum. Students must have an approved proctor, and, if there is a fee, students are required to pay for the services they decide to use.

\*\*Distance learning students in a clinical setting must have access to specific optical tools and equipment in order to successfully complete coursework. Dependent upon the clinical site, students using off-campus locations may need to purchase tools or equipment if they do not have access to them at their approved location.

NOTE: The above costs are approximate, clinical site dependent, and subject to change.

**COMPUTER COMPETENCY REQUIREMENT:** Students in this program will meet the college's computer competency requirement by successfully completing ITE 115 or CSC 155. Students can also meet this requirement by passing the college's computer competency exam, administered in the testing

# REYNOLDS COMMUNITY COLLEGE

centers on each campus, in which case they will receive college credit for ITE 115 or CSC 155. Those students not passing the computer competency exam may retake the exam only once. This requirement must be satisfied by the end of the second semester to continue in the program.

## PROGRESSION THROUGH THE PROGRAM:

1. Students who receive a final grade lower than “71” in any of the Opticianry courses must repeat the course and gain permission from the program head to continue in the program.
2. The college offers this program in affiliation with the health care agencies and practitioners in the communities the college serves. The college relies on its community affiliates to provide clinical education opportunities for its students, expert clinical preceptors, and course instructors for many courses. The often rapid changes in health care law, standards of practice, technology, and content of credentialing examinations increasingly necessitate sudden changes in the program’s course content, policies, procedures, and course scheduling. As a result, the college cannot guarantee every student continuous and uninterrupted clinical and course instruction as outlined in the printed catalog curriculum for this program. Circumstances beyond the control of the college may necessitate the postponement of course offerings or changes in the sequencing and/or location of scheduled courses or clinical assignments. Additionally, the college may have to change the instructor for courses after instruction has started.

## ANNUAL PERFORMANCE DATA FOR OPTICIANRY

**GRADUATES:** The following table presents the pass rates on the first attempt for certification/licensure exams and employment rates for Reynolds opticianry graduates for 2015-2019

	2015	2016	2017	2018	2019
American Board of Opticianry (ABO)	100%	100%	100%	100%	100%
National Contact Lens Examiners (NACLE)	100%	100%	100%	100%	100%
Virginia State Board for Opticians	88%	92%	94%	100%	100%
Employment	100%	100%	100%	100%	100%

**ACCREDITATION:** The Opticianry program is accredited by the Commission on Opticianry Accreditation, PO Box 592, Canton, NY 13617; director@coaccreditation.com; 703-468-0566 voice.

## Opticians Apprentice CSC Career Studies Certificate

**PURPOSE:** Successful completion of the Opticians Apprentice Career Studies Certificate will prepare students for employment in the eye care field throughout the Commonwealth of Virginia. This program is offered solely to provide the required related instruction component of the Virginia Department of Labor and Industry (DOLI) Opticians Apprentice program.

**OCCUPATIONAL OBJECTIVES:** Students who successfully complete this career studies certificate and complete the 4,000 hours of on-the-job training as a Virginia DOLI registered apprentice will be eligible to sit for the licensure examination to become an optician in the Commonwealth of Virginia.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** In addition to the general college curricular admission requirements, an interview with the Opticianry program head is required before beginning the curriculum. Students must provide proof that they are registered as an Apprentice Optician with the Virginia Department of Labor and Industry. This career studies certificate may be completed in one to two years. Apprentice students are required to complete 2,000 hours of on-the-job training per year, for a total of 4,000 hours, along with the required courses in this career studies certificate. Students will be required to repeat any OPT course in which a grade lower than "71" is received.

The courses in this certificate are offered via distance learning online with weekly virtual meetings. Computer literacy is required to be successful. If a student is not prepared to take an online class, we highly recommend taking ITE 115 (or equivalent course) prior to enrolling in this program.

**FINANCIAL REQUIREMENTS:** In addition to the regular college tuition and fees, the following expenses may be required for the Opticians Apprentice program:

USB headset (for all distance courses)	\$25-75
Approximate Textbooks costs	\$400
Testing center fees (for distance clinical courses only)	\$ varies by location

## Paralegal Studies AAS Associate of Applied Science

### Specializations:

General Practice  
Litigation

**PURPOSE:** There is a need in the greater Richmond area and throughout Virginia for paralegals. There is a need to train those who are presently employed in legal secretarial or legal assistant positions who wish to become paralegals. The Paralegal Studies Associate of Applied Science degree is designed to meet these educational needs by preparing individuals to perform as legal assistants or paralegals under the supervision of an attorney. The program is approved by the American Bar Association.

**OCCUPATIONAL OBJECTIVES:** Paralegal for private law firms, administrative agencies, other governmental agencies, mortgage companies, title insurance companies, and corporations

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** It is strongly recommended that students meet with the program head before registering for classes, or as early as possible in their first semester of enrollment. Students with developmental studies course recommendations resulting from the English placement test must complete those courses prior to admission to any Paralegal Studies (LGL) course. Students placed in co-requisites EDE 11 and ENG 111 must complete those courses either prior to or concurrently with LGL 110. Any student who receives a final grade lower than "C" in any of the courses in the Paralegal Studies curriculum must obtain permission from the program head to continue as a student in the Paralegal Studies program. Students will be required by the program head to repeat LGL-prefix courses and ENG 111-112

# REYNOLDS COMMUNITY COLLEGE

courses where grades below “C” are received. Legal assistants, paralegals, and other non-lawyers are prohibited from practicing law without a license. Paralegals and legal assistants may not provide legal services directly to the public, except as permitted by law.

**COMPUTER COMPETENCY REQUIREMENT:** Students in this program will meet the college’s computer competency requirement by successfully completing ITE 115, Introduction to Computer Applications and Concepts. Students can also meet this requirement by successfully passing the college’s computer competency exam, administered in the testing centers on each campus, in which case they will receive college credit for ITE 115. Students not passing the computer competency exam may retake the exam only once.

**TRANSFER OF LEGAL SPECIALTY COURSES:** The Paralegal Studies program accepts the transfer of legal specialty course credits completed at other institutions as long as such institution is accredited by the appropriate regional accrediting body, such as the Southern Association of Colleges and Schools Commission on Colleges. A legal specialty course is a course that (1) covers substantive law or legal procedures or process, (2) has been developed for paralegals, (3) emphasizes practical paralegal skills, and (4) meets other guidelines of the American Bar Association. The following courses are legal specialty courses: LGL 117 - Family Law, LGL 125 - Legal Research, LGL 126 - Legal Writing, LGL 216 - Trial Preparation and Discovery Practice, LGL 221 - E-Practice, LGL 222 - Information Technology for the Paralegal, LGL 226 - Real Estate Abstracting, LGL 228 - Real Estate Settlement Practicum, LGL 235 - Legal Aspects of Business Organizations, LGL 225 - Estate Planning and Probate, and LGL 238 - Bankruptcy. Credits from another institution for legal specialty courses will only be awarded if delivered in a traditional format, meet the guidelines of a legal specialty course as defined by the American Bar Association, and approved by the Paralegal Studies program head. Students may have to submit their work product before approval will be granted. In all cases, the grade for such course must be “C” or better, and no such credit will be given to any courses awarded at an institution outside of the United States. No credit by examination or portfolio is allowed for legal specialty coursework, and no more than fifty percent (50%) of legal specialty credits required by the Paralegal Studies program shall be accepted for transfer credit.

## Pharmacy Technician CSC Career Studies Certificate

**PURPOSE:** The Pharmacy Technician program is designed to prepare students to assist and support licensed pharmacists in providing health care and medications to patients. Students will obtain a broad knowledge of pharmacy practice and be skilled in the techniques required to order, stock, package, prepare, and dispense medications under the supervision of a licensed pharmacist.

**OCCUPATIONAL OBJECTIVES:** Pharmacy technicians work in the following types of pharmacies: hospitals, retail, home health care, nursing homes, clinics, nuclear medicine, and mail order. Pharmacy technicians can be employed with medical insurance companies, pharmacy software companies, drug manufacturing and wholesale companies, food processing companies, and as instructors in pharmacy technician training programs. Currently, hospital, home health care, and retail pharmacies hire the majority of technicians.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** Students must place out of or complete MDE 10 either prior to or concurrently with HLT 261 - Basic Pharmacy I. Students choosing to enroll in HLT 290 must have transportation and must be able to complete the 160-hour internship of HLT 290. Students may have to complete hours during the day, evening, or weekend, depending on the internship site. Students must pass HLT 143, HLT 250, and HLT 261 with a "C" or better to advance to HLT 262, HLT 290, or HLT 298.

Courses in this program may not be offered every semester; please see the program head for scheduling.

02.05.20

## Practical Nursing C Certificate

**PURPOSE:** The Practical Nursing Certificate prepares a student to work as a practical nurse. A student who successfully completes

# REYNOLDS COMMUNITY COLLEGE

the certificate program for practical nursing is eligible to apply for licensure in the state they reside and must pass the National Council Licensure Examination (NCLEX®) for practical nurses.

**OCCUPATIONAL OBJECTIVES:** To prepare students to work as licensed practical nurses, participating as an integral member of the nursing or health care team involved in health promotion and maintenance activities for the client. The LPN provides direct care for individual clients experiencing common, well-defined health problems with predictable outcomes, in structured health care settings with supervision. Long-term care, hospitals, physicians' offices, and other comparable structured health care facilities and agencies employ LPNs.

**ADMISSION REQUIREMENTS:** General college curricular admission and program specific criteria

**PROGRAM NOTES:** The Virginia Board of Nursing has the authority to deny licensure to an applicant who has violated any of the provisions of 54-367.32 of the Code of Virginia. Health care agencies used for clinical learning experiences also have the right to deny a student participation in direct patient care. Any student entering the program who has committed illegal offenses other than minor traffic violations should discuss these matters with the program head for clarification prior to admission. Criminal background checks are required of all applicants to the Practical Nursing program. Inability to be placed in a clinical site due to a negative background check will result in removal from the program.

## **STUDENT OUTCOMES FOR THE CERTIFICATE IN PRACTICAL NURSING:**

The Practical Nursing program prepares students to practice in a multi-cultural, multi-ethnic community as demonstrated by the college and community demographic data. Upon successful completion of the program, a student will be able to:

1. Provide safe care in multiple settings with a variety of patients including those with cognitive and physical limits (Safety).
2. Support desired health outcomes in patients while respecting dignity, diversity, and self-determination of patients and families (Quality).
3. Collaborate with patients, families, and the interprofessional team to assist in planning, delivery, and coordination of patient-centered care to assigned patients (Team/Collaboration).
4. Demonstrate caring and respect in culturally appropriate, individualized interactions with patients, family, and health care team. (Relationship-Centered Care).
5. Manage system resources to support optimal care for patients (Systems-Based Care).
6. Reflect on individual and professional areas of practice which support self-fulfillment (Personal/Professional Development).

## **PROGRAM SPECIFIC ADMISSION REQUIREMENTS ARE THE FOLLOWING:**

The following steps must be completed to submit an application to the Practical Nursing program:

1. Selection of Health Science I CSC (plan code 221-190-01) on the Reynolds Community College general admission application. (Please note: Reynolds student email accounts are the only accepted email account for all correspondence)
2. Current certification as a nurse aide in Virginia, with no practice restrictions. A copy of your C.N.A. license must be submitted with the application.
3. Submit official college transcripts, if applicable, to the Admissions office. Courses taken at other colleges that contain equivalent content and credits may transfer to satisfy a program requirement. If a student has attended another VCCS college, a Request for an Evaluation of a VCCS Transcript form (#11-0036) must be submitted with the Application for Admission to the college. This form can be found under student forms on reynolds.edu.
4. If a non-native English speaker, complete the Test of English as a Foreign Language (TOEFL iBT) with a standard score of 84 or above and minimum speaking score of 26. Completion of ENG 111 or ESL courses does not satisfy this requirement. Documentation must be submitted with the application.
  - These scores are based on recommendations from the National Council of State Boards of Nursing for the level of English proficiency required to perform entry-level nursing safely and effectively.
  - TOEFL iBT scores are valid for two years.
5. Complete BIO 141, ENG 111, PSY 230, ITE 115, and SDV 101 with a grade of "C" or above. All pre-requisite courses must be completed prior to the program application deadline.
6. Achieve a cumulative GPA of 2.0 or higher and a curricular GPA of 2.5 or higher of the five (5) pre-requisite courses listed above.
7. Completion of the required program admission assessment exam scoring at or above 70% in each required component. The admissions exam may be repeated once. After the second attempt, a student must wait at least 24 months before reattempting. Applications are ranked based on admission scores. Anatomy and Physiology, reading comprehension, and math scores are each weighted 30%; the grammar score is weighted 10%.
8. A selected applicant must accept or deny admission electronically via their Reynolds student email account, as directed, via the Accepted Student Response Form by the identified date or forfeit their seat.

## **APPLICATION DEADLINE PROGRAM:**

### **Fall Semester Start: 4th Monday in May**

Accepted students will receive an acceptance letter with additional program requirements information to complete prior to enrollment during a mandatory orientation session. It is important to meet the deadlines identified in this letter. Additional program requirements include the following:

- Physical exam
- Evidence of immunity to Measles, Mumps, Rubella, Varicella, and Hepatitis B, and evidence of Tetanus, Diphtheria, and Pertussis immunization within the past seven (7) years.
- Tuberculosis screening, with negative results (two-step process required)
- Annual flu vaccination

- Current American Heart Association BLS Certification for Health Care Providers (C.P.R.)
- Background check
- Drug screening
- Signed Assumption of Risk form
- Additional program and clinical agency forms

**ADDITIONAL REQUIREMENTS OF CLINICAL FACILITIES:** Clinical facilities used by the program have additional requirements for students that include updated immunizations, dress codes, and compliance with professional standards. In general, contracts include the following:

1. Clinical agencies reserve the right to dismiss a student from their agency at any time with good cause.
2. Compliance with Practical Nursing Dress Code standard.
3. Strict compliance with all published hospital policies. State and federal regulations and laws mandate some hospital policies. Some violations may result in immediate dismissal from the hospital.
4. Compliance with health care agency physical exam, immunization, TB, and flu requirements.
5. The student releases the facility, its agents, and its employees from any liability for any injury or death to self or damage to personal property arising out of the clinical agreement or use of the facility. (Reynolds' *Assumption of Risk* document is signed and on file, once the student is accepted into the program.)
6. The student is financially responsible for any self-medical care, if needed, while in the clinical setting.
7. The student must maintain a current American Heart Association BLS Certification for Health Care Providers while in the program.
8. Completion of the required criminal background check and drug screen and any re-screening as identified.

**FUNCTIONAL SKILLS REQUIREMENTS:** Students entering the Practical Nursing program must possess the following functional skills:

1. Sufficient eyesight to observe patients, read records, manipulate equipment, and visually monitor patients in dim light;
2. Sufficient hearing to communicate with patients and members of a health care delivery team, monitor patients using electronic equipment, hear a patient's whisper, and hear necessary sounds during operation of equipment;
3. Satisfactory speaking, reading, and writing skills to communicate effectively in English in a timely manner;
4. Sufficient bilateral finger dexterity to manipulate equipment;
5. Ability to lift, stoop, or bend in the delivery of safe nursing care;
6. Satisfactory physical strength and endurance to stand for extended periods, push equipment, and move immobile patients; and
7. Satisfactory intellectual and emotional functioning to ensure patient safety and to exercise independent judgment and discretion in performing assigned tasks.

**ACADEMIC PERFORMANCE POLICY:**

1. A minimum grade of "C" is required for all courses in the Practical Nursing curriculum. A "C" is equal to 80% in all practical nursing courses.
2. Students must obtain permission from the program head to continue in the program under the following conditions:
  - repeating a nursing course with a grade below "C"
  - withdrawing from a nursing course for any reason
3. In accordance with VCCS policy, a student is limited to two attempts of the same course.
4. Additional policies for the program are listed in the Practical Nursing Student Handbook, which is given to students at the mandatory orientation.

**PROGRESSION THROUGH THE PROGRAM:** The college offers this program in affiliation with the health care agencies and practitioners in the communities the college serves. The college relies on its community affiliates to provide clinical education opportunities for its students, expert clinical preceptors, and course instructors for many courses. The often rapid changes in health care law, standards of practice, technology, and content of credentialing examinations increasingly may necessitate sudden changes in the program's course content, policies, procedures, and course scheduling. As a result, the college cannot guarantee every continuous and uninterrupted clinical and course instruction as outlined in the printed catalog curriculum for this program. Circumstances beyond the control of the college may necessitate the postponement of course offerings or changes in the sequencing and/or location of scheduled courses or clinical assignments.

**Reynolds' Graduate NCLEX-PN LICENSURE EXAMINATION PASS RATES:**

Year	Number of Candidates who Attempted the Examination	Number of Candidates who Passed on their First Attempt	First Attempt Pass Rate
2018	1	1	100%
2017	16	15	93.8%
2016	9	9	100%
2015	16	13	81.25%
2014	29	24	82.76%

## Release of Health Information Specialist (Health Information Management) CSC Career Studies Certificate

**PURPOSE:** This program is designed to provide the technical knowledge and skills needed for employment as a release of health information specialist. Release of health information specialists assemble, process, and maintain medical records of hospital and clinic patients in a manner consistent with administrative, legal, ethical, and regulatory requirements of the health care system. Duties could include retrieving patient medical records, protecting the security of medical records to ensure that confidentiality is maintained, and releasing information to persons or agencies according to regulations.

**OCCUPATIONAL OBJECTIVES:** Release of health information specialists work in hospitals, doctors' offices, insurance companies, and government agencies.

**ADMISSION REQUIREMENTS:** General college curricular admission

### Student outcomes for the Release of Health Information

**Specialist Career Studies Certificate:** Students who complete the career studies certificate will be expected to

- Recognize and implement professional policies and procedures related to the legal and ethical use of medical information;
- Interpret health record documentation using knowledge of anatomy, physiology, clinical indicators and disease processes, pharmacology, and medical terminology;
- Apply knowledge of major reimbursement systems in the United States to the preparation of universal billing claims; and
- Demonstrate behaviors and dispositions that are in accord with professional ethics and behavior, including integrity, respect for privacy, and commitment to professional growth.

### CURRICULUM:

<sup>2</sup> CSC 155 may be substituted for ITE 115.

## Respiratory Therapy AAS Associate of Applied Science

**PURPOSE:** The degree in Respiratory Therapy is designed to prepare students for roles as contributing members of the modern health care team concerned with treatment, management, and care of patients with breathing, cardiovascular, and sleep abnormalities.

**OCCUPATIONAL OBJECTIVES:** Occupational objectives include employment opportunities as respiratory therapy practitioners in hospitals, clinics, research facilities, home care agencies, and alternate care sites. The respiratory therapy practitioner will be able to administer gas therapy, humidity therapy, aerosol therapy, and hyperinflation therapy; assist with mechanical ventilation, special therapeutic and diagnostic procedures, cardiopulmonary resuscitation, and airway management techniques; and follow therapeutic protocols. The respiratory therapy practitioner works under the supervision of a physician.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** The Respiratory Therapy program offers courses in both traditional and distance learning formats. All distance learning courses within the curriculum are classified as distance learning with in-person or proctor requirements. This means that most of the instruction for the course is delivered online and that students will be required to make a limited number of trips to a campus site for labs, presentations, and other class activities or to a community site for clinical or internships. Also, some courses may require proctored testing that can be done at Reynolds testing centers, testing sites at other VCCS colleges, or an approved site outside the state of Virginia.

In order to complete the Respiratory Therapy program, students will be required to attend both day and evening classes.

### Student Outcomes for the Respiratory Therapy AAS

**Degree:** Upon completion of the Respiratory Therapy AAS degree, students will be expected to

- Demonstrate competence in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains of respiratory care practice as performed by registered respiratory therapists (RRTs) through the National Board for Respiratory Care Self-Assessment Exams and program clinical evaluations;
- Apply critical thinking to the practice of respiratory care as measured by the NBRC Therapist Multiple-Choice Self-Assessment Exam with a score of 94 or higher;
- Synthesize theory and clinical practice as measured by the NBRC Clinical Simulation Self-Assessment Exam with a combined score of 274 or higher on decision making and information gathering; and
- Demonstrate awareness of credentialing, job placement, interviewing, licensure, and professionalism within the field of respiratory care by completing RTH 227-Integrated Respiratory Therapy Skills II.

**APPLYING TO THE PROGRAM:** Applicants must:

- Fulfill the following prerequisite courses included in the Health Science I Career Studies Certificate (CSC) by the end

of the spring semester in the year the student is applying for acceptance into the associate degree.

- ENG 111, PSY 230, SDV 101, PHI 220, BIO 141, and BIO 142
  - BIO 141 prerequisite requirement: high school biology and chemistry completed within seven (7) years or BIO 101
- Successful completion of a math entrance exam will be required for student's applying for the Fall 2021 program start. Information regarding the math entrance exam will be published on this site by August 2020.
- Submit a portfolio by February 1 to include a completed Respiratory Therapy program application and official transcript.
- Meet with the program director, director of clinical education, or coordinator of distance education before the application deadline.

**ACCEPTANCE INTO THE PROGRAM:** Students are accepted into the Respiratory Therapy AAS degree based on completion of the prerequisite course requirements with a minimum GPA of 2.5 or higher (not to include SDV 101 as part of the GPA calculation) and competitive ranking of their GPA's for the CSC RTH prerequisite courses. The program director will notify students by June 15 regarding acceptance.

**NON-ACCEPTANCE INTO THE PROGRAM:** Students not accepted into the program must reapply by the February 1 deadline. Previously submitted portfolios will not be carried over to the next year's applicant pool.

**ACCEPTANCE INTO CLINICAL COURSES:** Students who have been accepted into the program must secure transportation to and from facilities used for clinical experiences. Students enrolled in programmatic clinical rotations shall not receive any form of remuneration in exchange for their work. In addition, students shall not be substituted for paid staff and/or used simply as back-ups in the absence of appropriate paid staff during clinical rotations.

Students will be placed in clinical courses (RTH 190 or higher) when they have submitted the following (at the student's expense):

- Completed physical examination form provided by the program, which includes a yearly Purified Protein Derivative (PPD) and flu vaccination, as well as an immunization schedule.
- Documentation of a current CPR Basic Life Support Certification (American Heart Association), with biennial recertification.
- Certified background check and drug screening. (Applicants who do not pass the background check and/or drug screening will not be allowed to enroll in any Respiratory Therapy clinical course.) Without completing the clinical component of the program, students will not be eligible for employment as a student or Respiratory Care Practitioner (RCP), or for curriculum completion.

**MENTORSHIP OPPORTUNITIES:** There is a mentorship in association with clinical courses for qualifying students on a space-available basis.

# REYNOLDS COMMUNITY COLLEGE

**FUNCTIONAL SKILLS REQUIREMENTS:** Students entering the Respiratory Therapy program must possess the following functional skills:

- Sufficient eyesight, including color vision, to observe patients, perform and visualize patient assessments, manipulate equipment, and visually read patient records, graphs, and test results;
- Sufficient hearing to communicate with patients and members of the health care delivery team, monitor patients using electronic equipment, and hear necessary sounds during operation of equipment;
- Satisfactory speaking, reading, and writing skills to communicate effectively in English in a timely manner;
- Sufficient gross and fine motor coordination to exhibit excellent eye-hand coordination and dexterity to manipulate equipment, lift, stoop, and bend in the delivery of safe patient care;
- Satisfactory physical strength and endurance to be on one's feet for extended periods and move heavy equipment, patients, and supplies. Sitting, walking, bending, and reaching motions are also requirements for respiratory therapists;
- Satisfactory intellectual, emotional, and psychological health and functioning to ensure patient safety and to exercise independent judgment and discretion in performing assigned tasks;
- Time management of multiple priorities, multiple stimuli, and fast-paced environments; and
- Analysis and critical-thinking skills.

**PROGRESSION THROUGH THE PROGRAM:** The college offers this program in affiliation with the health care agencies and practitioners in the communities the college serves. The college relies on its community affiliates to provide clinical education opportunities for its students, expert clinical preceptors, and course instructors for many courses. The often rapid changes in health care law, standards of practice, technology, and content of credentialing examinations increasingly necessitate sudden changes in the program's course content, policies, procedures, and course scheduling. As a result, the college cannot guarantee every student continuous and uninterrupted clinical and course instruction as outlined in the printed catalog curriculum for this program. Circumstances beyond the control of the college may necessitate the postponement of course offerings or changes in the sequencing and/or location of scheduled courses or clinical assignments. Additionally, the college may have to change the instructor for courses after instruction has started.

**CONTINUATION IN THE PROGRAM:** A student must obtain permission from the program head to continue in the Respiratory Therapy program under the following conditions: (1) a grade below "C" is earned in any major course; (2) overall GPA falls below a 2.0 average in any one semester.

**RE-ENTRY INTO THE PROGRAM:** Should a student leave the program for any reason and subsequently wish to be readmitted, a new application must be submitted. The student's new application will be reviewed under the competitive admissions process. If a student is readmitted into the program, an objective evaluation will be used to determine placement within the curriculum based on evaluated didactic and laboratory

competencies. Students who leave the program for more than two semesters will be required to repeat the program in its entirety, including the background check, drug screen, immunization boosters, physical examination, and a two-step TB test or T-Spot blood test.

**CLINICAL CONTRACTS:** Individual contracts are in effect with each affiliate clinical agency, and these contracts differ in requirements for students. The general stipulations are as follows:

- Clinical agencies reserve the right to dismiss a student from their agency at any time with due cause. This will be done with advanced notice except in an emergency.
- Proper uniform must be worn.
- Published hospital policies must be followed.
- Immunizations must be current.
- The student releases the facility, its agency, and employees from any liability for any injury or death to self or damage to personal property arising out of the clinical agreement or use of the facility.
- The student is financially responsible for any medical care required while in the clinical setting.
- The student must have a current American Heart Association Basic Life Support CPR certification for health care providers.
- A background check and drug screening are required of all entering students.

## FINANCIAL REQUIREMENTS:

Books and Supplies	\$850 first semester; \$100 per subsequent semester
Miscellaneous Fees:	
ACLS	\$180
DataArc	\$70
Self-Assessment Exit Exams	\$300
Seminar	\$300
Identification Badge	\$15
Uniform/Shoes/Stethoscope	\$175
RT Document Manager	\$35
Background Check and Drug Screening	\$90
Physical Examination	Varies
Immunizations and Titers	Varies
Travel to Clinical Agencies	Varies

*Note: The above costs are approximate and subject to change.*

**PROGRAM EXIT EXAMS:** Every student is required to pass comprehensive exit exams before being added to the National Board for Respiratory Care's electronic eligibility database. The cost of the exams must be paid through the Downtown Campus Bookstore.

## PROGRAM ACCREDITATION AND PRACTITIONER

**CERTIFICATION:** The Respiratory Therapy program is accredited through the Commission on Accreditation for Respiratory Care, 1248 Harwood Road, Bedford, Texas 76021-4244, (817) 283-2835.

Graduates of the AAS program are eligible to take the Therapist Multiple-Choice Examination administered by the National Board for Respiratory Care, Inc. Successful completion of the Therapist Multiple-Choice Examination will award graduates the CRT (Certified Respiratory Therapist) credential and the possibility of becoming eligible to take the Clinical Simulation Examination. Successful completion of the Clinical Simulation Examination will award graduates the RRT (Registered Respiratory Therapist) credential.

After obtaining the minimum CRT credential, graduates must apply for a license in the state they are seeking employment. State licensure is a process overseen by the Board of Medicine. Graduates are therefore responsible for licensure requirements and fees for that state. It is also the responsibility of graduates to maintain their credentials (CRT or RRT) through the National Board for Respiratory Care, Continuing Maintenance Program.

## Science AS (Transfer) Associate of Science

**SPECIALIZATIONS**

Science  
Computer Science  
Mathematics  
Mathematics and Science Teacher Preparation

**PURPOSE:** The associate degree in Science is intended for those who plan to transfer to a four-year college or university to complete a bachelor of science degree in the natural and physical sciences, mathematics, or computer science. There are four specializations in this degree program that enable students to complete courses that align with their intended majors at a four-year college or university.

The **Science specialization** is designed for persons who plan to transfer to a four-year college or university in a major that requires a background in the natural or physical sciences and mathematics. With the many advances taking place in all areas of science, the opportunities for persons with expertise in this area are rapidly increasing. This program provides the necessary training for transfer into a broad range of scientific fields, from botany to zoology and from chemistry or geology to physics. In addition, the Science specialization is designed to meet the requirements for admission to a professional school or upper-division major for career preparation in many of the medical

# REYNOLDS COMMUNITY COLLEGE

professions including nursing, pharmacy, medicine, and veterinary medicine.

The **Computer Science specialization** is designed for persons who plan to transfer to a four-year college or university in a major that requires a background in the sciences, mathematics, and computer science. Student familiarity with or expertise in computer science is frequently a requirement for study in the disciplines of biology, chemistry, physics, science education, engineering, manufacturing, and related fields. This program will provide the opportunity to obtain this needed preparation. In this rapidly changing field, students should regularly meet with their advisor to keep up with course and curriculum updates.

The **Mathematics specialization** is designed for persons who plan to transfer to a four-year college or university in a major that requires a background in the sciences, mathematics, and computer science. The Mathematics specialization includes the courses usually required in the first two years of a baccalaureate degree program in mathematics.

The **Mathematics and Science Teacher Preparation specialization** is designed for persons who plan to transfer to a four-year college or university in a major that requires a background in the sciences and/or mathematics, and who plan to teach at the elementary, middle, or secondary school level. The Mathematics and Science Teacher Preparation specialization enables the student to participate in field experiences in area schools.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** The following high school units are strongly recommended for the Science specialization: four units of English, three units of college preparatory mathematics, one unit of laboratory science, and two units of foreign language.

The following high school units are strongly recommended for the Computer Science and Mathematics specializations: four units of English; four units of college preparatory mathematics, including algebra (two units), geometry, and trigonometry (or advanced math); two units of laboratory science; and one unit of social studies. Students in the Computer Science and Mathematics specializations are urged to begin their programs of study during the fall semester because many courses are sequential and only offered once a year.

Students are encouraged to seek information from the upper-division college, university, or professional school to which transfer is intended as to specific requirements for a particular major or specific admission requirements. Students are advised that grades of C or higher are required for a course to transfer to a 4-year institution.

**NOTE TO PROSPECTIVE TEACHERS:** Students who wish to be licensed to teach in Virginia should earn a baccalaureate degree in a liberal arts, science, or mathematics field. Students should consult with their advisor regarding elective choices that match their desired teaching endorsement area(s). While enrolled at the community college, students should prepare for and successfully complete Praxis Core (Reading, Writing, and Mathematics), the initial teacher licensure examination.

**COMPUTER COMPETENCY REQUIREMENT:** Students in this program will meet the college's computer competency requirement by passing the computer competency exam, administered in the testing centers on each campus, or by completing CSC 155. Students not passing the computer competency exam for CSC 155 may retake the exam only once.

## CURRICULUM:

<sup>1</sup> MTH 263-264 are recommended for students planning to major in Physics or Chemistry. Students not prepared for MTH 263 may be required to take MTH 167 prior to taking MTH 263.

<sup>2</sup> Students completing the Teacher Preparation Specialization in Mathematics and Science with the intention of being a mathematics teach should see their advisor prior to enrolling for a list of approved mathematics courses for their transfer institution.

<sup>3</sup> Students should consult with their advisor and transfer institution to determine the best choice for their program.

## Social Sciences AS (Transfer)

### Associate of Science

#### SPECIALIZATIONS:

Pre-Social Work  
Teacher Preparation

**PURPOSE:** The social sciences are concerned with the study of human society and emphasize the role of analysis, experimentation, and the scientific method. The chief academic disciplines of the social sciences are anthropology, economics, political science, psychology, and sociology. The Social Sciences AS degree is designed for those who plan to transfer to a four-year college or university to complete a bachelor's degree in the social sciences. The curricula consist of courses in general education (including foreign language, natural science, and social science) typically required in the first two years of a baccalaureate curriculum in the social sciences.

Students from the Science AS degree transfer into a wide variety of majors at senior institutions including, but not limited to, the following:

anthropology	pre-law
history	social work
economics	government/political science
mass communications	sociology
psychology	speech-language pathology
education/Deaf studies	ASL: interpretation/linguistics

The **Social Sciences AS degree** lays the foundation for a bachelor of science degree in anthropology, economics, political science,

psychology, and sociology. The program includes one year of coursework in the same foreign language. The Social Sciences program is designed to provide transfer paths that will match the requirements of senior institutions (four-year colleges and universities); however, senior institutions differ in their requirements, so students are strongly urged to work with their assigned advisor and to acquaint themselves with the requirements of the major department in the college or university to which they plan to transfer.

Students should understand that the line between the humanities and social sciences is not always clear and that some colleges and universities award BA degrees in what are usually considered the social sciences. Each student admitted to the program is assigned an academic advisor to help plan the appropriate course of studies to transfer to the student's choice of a four-year college or university. Students who complete the program generally transfer as juniors.

The **ASL/Deaf Studies specialization** is designed for students who plan to transfer to a four-year college or university in a major that requires a background in American Sign Language and Deaf persons as a cultural group. These expanding fields include speech-language pathology, deaf education, ASL instruction, interpretation, interpreter education, linguistics, and Deaf studies (e.g., history, literature, and research).

The **Pre-Social Work specialization** is designed for students who plan to transfer to Virginia Commonwealth University and major in social work. This specialization was developed in collaboration with VCU, and an articulation agreement exists for eligible students who transfer to VCU. Students who pursue a different degree program at VCU will be subject to a reevaluation of transferable credits for their elected course of study. Students interested in this specialization should meet with the Pre-Social Work program head at Reynolds and are required to do so during their first semester of study.

The **Teacher Preparation specialization** is designed for students who plan to transfer to a four-year college or university in a major that requires a background in the social sciences, and who plan to teach at the elementary, middle, or secondary school level. The Teacher Preparation specialization enables the student to participate in two field experiences in area schools.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** The following high school units are strongly recommended: three units of college preparatory mathematics and two years of a foreign language.

**PRE-SOCIAL WORK ARTICULATION AGREEMENT WITH VCU:** The VCU School of Social Work guarantees admission into its BSW program with junior standing to eligible students who have completed requirements for Pre-Social Work specialization for the AS in Social Sciences at Reynolds. Eligible students are those who meet the following criteria:

- Earn an Associate of Science degree in Social Sciences at Reynolds;
- Earn a minimum cumulative grade point average of 2.5 on a 4.0 scale;

- Earn an individual grade no lower than B in HMS 100 - Introduction to Human Services and HMS 121 - Basic Counseling Skills I; and
- Earn an individual grade no lower than a C in all other courses listed for the Pre-Social Work specialization.

**NOTE TO PROSPECTIVE TEACHERS:** Students who wish to be licensed to teach in Virginia should earn a baccalaureate degree in a liberal arts, science, or mathematics field. Students should consult with their advisor regarding elective choices that match their desired teaching endorsement area(s). While enrolled at the community college, students should prepare for and successfully complete Praxis Core (Reading, Writing, and Mathematics), the initial teacher licensure examination.

**COMPUTER COMPETENCY REQUIREMENT:** Students in the Social Sciences AS degree will meet the college's computer competency requirement by successfully completing ITE 115 or CSC 155. Students can also meet this requirement by passing the college's computer competency exam, administered in the testing centers on each campus, in which case they will receive college credit for ITE 115 or CSC 155. Students not passing the computer competency exam may retake the exam only once.

## Substance Abuse Counseling Education CSC

### Career Studies Certificate

**PURPOSE:** The Human Services program offers a career studies certificate in Substance Abuse Counseling Education designed to prepare students with the requisite professional knowledge, intervention skills, and values for delivering services in substance abuse counseling programs and addictions treatment. Courses in this curriculum can be used to meet the certification requirements of substance abuse counselors and substance abuse counseling assistants designated by the Health Professions Board of Counseling in the Commonwealth of Virginia.

**OCCUPATIONAL OBJECTIVES:** Graduates may be employed in a variety of settings, including, but not limited to, hospital and residential-based treatment programs, community-based treatment programs, group homes, homeless shelters, residential halfway houses, and institutional and community-based juvenile and adult corrections. Students in recovery for a minimum of 2 years are also eligible to become credentialed as Peer Recovery Coaches and/or Certified Peer Recovery Specialists by external credentialing bodies.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** In addition to the general college curricular admission requirements, an interview with the Human Services program head is required. While a face-to-face interview is preferable, an interview can also be conducted via telephone or electronic conference. Students should see their program advisor for information on the certification requirements of the Virginia Health Professions Board of Counseling for credentialing

certified substance abuse counselors and certified substance abuse counselor assistants.

1). Students should meet with their faculty advisor at least once per academic semester and check their advisement report by accessing their Student Information System (SIS) portal.

2). Some agency internship sites may require criminal background, sex offender registry checks, and a TB screening as a condition for placement. When this is the case, students will be expected to cover any costs incurred.

3). Students who have past felony records; especially those that include barrier crimes in the state of Virginia or are on the sex offender registry in any state will not be able to secure internships that provide services to children or the elderly and may find it difficult being placed in other internship training sites. This, in turn, would prevent them from completing requirements for the CSA in Substance Abuse Counseling Education and/or becoming credentialed as a CSAC-A or CSAC by the VA Health Professions Board of Counseling.

#### CURRICULUM:

<b>TOTAL</b>	<b>Substance Abuse Counseling Education Career Studies Certificate</b>		<b>24</b>

3.09.20

<sup>1</sup> Student must meet with program advisor the semester prior to enrolling in course.

## Sustainable Agriculture CSC

### Career Studies Certificate

**PURPOSE:** With the rapid growth in planning, production, and marketing of organically produced foods, there is an increasing need for qualified personnel trained in sustainable agriculture and organic food production methods. The Career Studies Certificate

in Sustainable Agriculture is designed for persons interested in producing food crops for personal consumption or for sale to the public through farmers' markets and other direct-to-consumer marketing strategies.

**OCCUPATIONAL OBJECTIVES:** Owner/operator of a food crop production business, including the production of food crops for specialty markets, e.g., restaurants, farmer's markets, herb producers, and pick-your-own operations; managing entry-level workers at other food production businesses; growing products to create secondary products (value added); and planning and growing food crops to be used for personal consumption

**ADMISSION REQUIREMENTS:** General college curricular admission

#### CURRICULUM:

Order	Course	Title	Credit
1	HRT 130	Introduction to Sustainable Farming	3
2	HRT 110	Principles of Horticulture	3
3	HRT 134	Four Season Food Production	3
4	HRT 238	Growing for Market	3

<b>TOTAL</b>	Sustainable Agriculture Career Studies Certificate		21

02.07.20

## Welding - Advanced CSC Career Studies Certificate

**PURPOSE:** The program offers a career pathway that enables learners to continue their studies for advanced skills. Those who complete this certificate will be well prepared to fill the gap in industrial manufacturing between the welder/fitter-welder and the welding shop supervisor by being better prepared in structural and maintenance welding. Structural and pipe welders join and assemble components as part of the construction of buildings, vessels, structures, and stand-alone pipelines. They use a variety of welding processes and equipment, in a wide range of industrial and commercial environments.

**OCCUPATIONAL OBJECTIVES:** Opportunities for graduates include shop supervisor, weld inspector, offsite welder, fitter/welder, pipe welder, and advanced structural welder.

**ADMISSION REQUIREMENTS:** General college curricular admission

**PROGRAM NOTES:** Students should possess the competencies obtained by completion of WEL 120 - Fundamentals of Welding, WEL 160 - Gas Metal Arc Welding (MIG and FCAW), and WEL 164 - Gas Tungsten Arc Welding (GTAW), Tungsten Inert Gas (TIG), or may petition for program head approval to enroll in the program.

#### CURRICULUM:

Order	Course	Title	Credits
1	HLT 106	First Aid and Safety	2
2	MTH 111	Basic Technical Mathematics	3
3	WEL 153	Layout and Fitting for Welders	3
4	WEL 141	Welder Qualification Tests I	3
5	WEL 145	Welding Metallurgy	3
6	WEL 126	Pipe Welding I	3
<b>TOTAL</b>	<b>Advanced - Welding Career Studies Certificate</b>		<b>17</b>

## Welding CSC Career Studies Certificate

**PURPOSE:** Employment opportunities exist for individuals proficient in advanced welding techniques. This program is designed for students with no previous experience in welding, as well as for individuals currently employed in the welding field who wish to upgrade their skills. Individuals entering the Welding Career Studies Certificate (CSC) should consider this program as a means of developing or advancing their job skills over a one-year period of time and as a means of acquiring the skills necessary to test for the various levels of welding certification.

**OCCUPATIONAL OBJECTIVES:** Opportunities for graduates include construction welder, fabrication welder, and welding supply salesperson.

**ADMISSION REQUIREMENTS:** General college curricular admission

#### CURRICULUM:

Order	Course	Title	Credits
1	SAF 130	Industrial Safety - OSHA 10	1
2	WEL 120	Introduction to Welding	2
3	WEL 155	Ornamental Welding	2
4	WEL 160	Gas Metal Arc Welding (MIG and FCAW)	3

## **AWS Certified Cloud Practitioner Short-term Training Certifications**

**PURPOSE:** The Community College Workforce Alliance works in partnership with Reynolds and Tyler Community Colleges to serve students with a fast track to the workforce with training and credentialing programs that can be completed in weeks or months. CCWA offers workforce training and certifications in transportation and logistics, construction and trades, customer service, health care and manufacturing. These programs are supported through state-funded tuition assistance available to all Virginians, making Short-term Training Programs low cost or no cost. Short-term Training Programs also offer career coaching and job connections.

**OCCUPATIONAL OBJECTIVES:** Short-term Training credentials prepare students for entry-level careers in high-demand occupational fields offering good starting wages – many with benefits and promotion opportunities.

**ADMISSION REQUIREMENTS:** There are no admissions requirements. Tuition assistance is available to all residents of Virginia, regardless of income. Classes may be free to those qualifying for additional financial aid.

**PROGRAM NOTES:** In certain industries, prior convictions may prohibit employment. Drug testing and a pre-employment physical may be required for some occupations. Some companies may have minimum age requirements for select positions.

### **CURRICULUM:**

#### **AWS Certified Cloud Practitioner**

The Amazon Web Services Cloud Practitioner Certification prep program prepares participants to develop a fundamental understanding of the AWS Cloud platform. This course emphasizes AWS Cloud concepts and characteristics, core AWS services, security and compliance, architectural principles, account management, and technical assistance. This certification is the foundational level certification for AWS Associate-level or Specialty certifications. Exam and materials included.

## **AWS Certified Solutions Architect- Associate Short-term Training Certifications**

**PURPOSE:** The Community College Workforce Alliance works in partnership with Reynolds and Tyler Community Colleges to serve students with a fast track to the workforce with training and credentialing programs that can be completed in weeks or months. CCWA offers workforce training and certifications in transportation and logistics, construction and trades, customer service, health care and manufacturing. **PROGRAM NOTES:** In certain industries, prior convictions may prohibit employment. Drug testing and a pre-employment physical may be required for some occupations. Some companies may have minimum age requirements for select positions.

### **CURRICULUM:**

#### **AWS Certified Solutions Architect-Associate**

The Amazon Web Services Solutions Architect Associate Certification prep program prepares participants to demonstrate the skills to architect and deploy available, cost-efficient, fall-tolerant, and scalable distributed systems on the AWS cloud platform. The AWS Certified Solutions Architect certification is among the most valuable and highly sought after cloud computing certifications in the world. This course emphasizes on how to architect and deploy secure and robust applications, to define a solution using architectural design principles, and to provide implementation guidance based on best practices. Pre-requisite: Prior hands-on AWS experience and/or the AWS Cloud Practitioner Certification. Exam and materials included.

## **Certified Logistics Associate Short-term Training Certifications**

**PURPOSE:** The Community College Workforce Alliance works in partnership with Reynolds and Tyler Community Colleges to serve students with a fast track to the workforce with training and credentialing programs that can be completed in weeks or months. CCWA offers workforce training and certifications in transportation and logistics, construction and trades, customer service, health care and manufacturing. These programs are supported through state-funded tuition assistance available to all Virginians, making Short-term Training Programs low cost or no cost. Short-term Training Programs also offer career coaching and job connections.

**OCCUPATIONAL OBJECTIVES:** Short-term Training credentials prepare students for entry-level careers in high-demand occupational fields offering good starting wages – many with benefits and promotion opportunities.

**ADMISSION REQUIREMENTS:** There are no admissions requirements. Tuition assistance is available to all residents of Virginia, regardless of income. Classes may be free to those qualifying for additional financial aid.

**PROGRAM NOTES:** In certain industries, prior convictions may prohibit employment. Drug testing and a pre-employment physical may be required for some occupations. Some companies may have minimum age requirements for select positions.

#### **CURRICULUM:**

##### **Certified Logistics Associate (CLA)**

The training prepares an individual for entry level logistics based positions. Upon completion of the CLA training, individuals will sit for the CLA exam. The CLA program covers a wide range of skills necessary for success in the logistics industry. Through this program, individuals will cover safety, quality control, supply chain management, receiving, storage, communication, and many other valuable skills.

## **Certified Logistics Technician Short-term Training Certifications**

**PURPOSE:** The Community College Workforce Alliance works in partnership with Reynolds and Tyler Community Colleges to serve students with a fast track to the workforce with training and credentialing programs that can be completed in weeks or months. CCWA offers workforce training and certifications in transportation and logistics, construction and trades, customer service, health care and manufacturing. These programs are supported through state-funded tuition assistance available to all Virginians, making Short-term Training Programs low cost or no cost. Short-term Training Programs also offer career coaching and job connections.

**OCCUPATIONAL OBJECTIVES:** Short-term Training credentials prepare students for entry-level careers in high-demand occupational fields offering good starting wages – many with benefits and promotion opportunities.

**ADMISSION REQUIREMENTS:** There are no admissions requirements. Tuition assistance is available to all residents of Virginia, regardless of income. Classes may be free to those qualifying for additional financial aid.

**PROGRAM NOTES:** In certain industries, prior convictions may prohibit employment. Drug testing and a pre-employment physical may be required for some occupations. Some companies may have minimum age requirements for select positions.

#### **CURRICULUM:**

##### **Certified Logistics Technician**

The program was developed to meet the growing employment demands of the logistics industry. The CLT program addresses core industry-wide skills standards required of skilled logistics employees in all sectors of the industry. The training begins with basic logistics knowledge and skills, followed by the foundational certification test, or the CLA. The CLA (Certified Logistics Associate) training prepares an individual for entry level logistics based positions. Upon completion of the CLA portion, the individual moves on to more advanced skills preparing them for the mid-level CLT exam. The CLT program covers a wide range of skills necessary for success in the logistics industry. Through this program, individuals will cover safety, quality control, supply chain management, receiving, storage, communication, and many other valuable skills.

## **Clinical Medical Assistant Short-term Training Certifications**

**PURPOSE:** The Community College Workforce Alliance works in partnership with Reynolds and Tyler Community Colleges to serve students with a fast track to the workforce with training and credentialing programs that can be completed in weeks or months. CCWA offers workforce training and certifications in transportation and logistics, construction and trades, customer service, health care and manufacturing. These programs are supported through state-funded tuition assistance available to all Virginians, making Short-term Training Programs low cost or no cost. Short-term Training Programs also offer career coaching and job connections.

**OCCUPATIONAL OBJECTIVES:** Short-term Training credentials prepare students for entry-level careers in high-demand occupational fields offering good starting wages – many with benefits and promotion opportunities.

**ADMISSION REQUIREMENTS:** There are no admissions requirements. Tuition assistance is available to all residents of Virginia, regardless of income. Classes may be free to those qualifying for additional financial aid.

**PROGRAM NOTES:** In certain industries, prior convictions may prohibit employment. Drug testing and a pre-employment physical may be required for some occupations. Some companies may have minimum age requirements for select positions.

#### **CURRICULUM:**

##### **Clinical Medical Assistant**

This program prepares students to be professional medical assistants dedicated to patient care management. Participants will be trained as competent entry-level medical assistants in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains.

## **Commercial Driver's License (CDL) Short-term Training Certifications**

**PURPOSE:** The Community College Workforce Alliance works in partnership with Reynolds and Tyler Community Colleges to serve students with a fast track to the workforce with training and credentialing programs that can be completed in weeks or months. CCWA offers workforce training and certifications in transportation and logistics, construction and trades, customer service, health care and manufacturing. These programs are supported through state-funded tuition assistance available to all Virginians, making Short-term Training Programs low cost or no cost. Short-term Training Programs also offer career coaching and job connections.

**OCCUPATIONAL OBJECTIVES:** Short-term Training credentials prepare students for entry-level careers in high-demand occupational fields offering good starting wages – many with benefits and promotion opportunities.

**ADMISSION REQUIREMENTS:** There are no admissions requirements. Tuition assistance is available to all residents of Virginia, regardless of income. Classes may be free to those qualifying for additional financial aid.

**PROGRAM NOTES:** In certain industries, prior convictions may prohibit employment. Drug testing and a pre-employment physical may be required for some occupations. Some companies may have minimum age requirements for select positions.

## **CURRICULUM:**

### **Commercial Driver's License (CDL)**

CCWA offers a quality 20-day Class A training program working with an industry leader in CDL training. This comprehensive program will provide the skills and opportunities needed to be successful in a truck driving career. This program assists graduates with job placement for local, regional and over-the-road positions. Assistance with nationwide job placement is a benefit to our students and graduates. This course will certify an individual to drive Class A commercial motor vehicles. Class A vehicles are defined as any combination of vehicles with gross vehicle weight rating. Classes are offered Monday through Friday from 8am until 5pm for four weeks. Part-time classes are also available and run Saturday and Sunday from 8am until 5pm for ten weekends. While funds last, there is excellent financial assistance available to help offset the cost of high-demand certification programs. Participants pay one-third of the cost for eligible courses. For more information call (804) 706-5256.

## **CompTIA A+**

### **Short-term Training Certifications**

**PURPOSE:** The Community College Workforce Alliance works in partnership with Reynolds and Tyler Community Colleges to serve students with a fast track to the workforce with training and credentialing programs that can be completed in weeks or months. CCWA offers workforce training and certifications in transportation and logistics, construction and trades, customer service, health care and manufacturing. These programs are supported through state-funded tuition assistance available to all Virginians, making Short-term Training Programs low cost or

no cost. Short-term Training Programs also offer career coaching and job connections.

**OCCUPATIONAL OBJECTIVES:** Short-term Training credentials prepare students for entry-level careers in high-demand occupational fields offering good starting wages – many with benefits and promotion opportunities.

**ADMISSION REQUIREMENTS:** There are no admissions requirements. Tuition assistance is available to all residents of Virginia, regardless of income. Classes may be free to those qualifying for additional financial aid.

**PROGRAM NOTES:** In certain industries, prior convictions may prohibit employment. Drug testing and a pre-employment physical may be required for some occupations. Some companies may have minimum age requirements for select positions.

## **CURRICULUM:**

### **CompTIA A+**

The CompTIA A+ Certification prep program prepares participants with the technical skills and competencies related to computer repair, support specialist, and computer information technologies – ranging from networking and operating systems to mobile devices and security, connecting users to data needed to perform their jobs. The CompTIA A+ Exam and materials are included.

## **CompTIA Linux+**

### **Short-term Training Certifications**

**PURPOSE:** The Community College Workforce Alliance works in partnership with Reynolds and Tyler Community Colleges to serve students with a fast track to the workforce with training and credentialing programs that can be completed in weeks or months. CCWA offers workforce training and certifications in transportation and logistics, construction and trades, customer service, health care and manufacturing. These programs are supported through state-funded tuition assistance available to all Virginians, making Short-term Training Programs low cost or no cost. Short-term Training Programs also offer career coaching and job connections.

**OCCUPATIONAL OBJECTIVES:** Short-term Training credentials prepare students for entry-level careers in high-demand occupational fields offering good starting wages – many with benefits and promotion opportunities.

**ADMISSION REQUIREMENTS:** There are no admissions requirements. Tuition assistance is available to all residents of Virginia, regardless of income. Classes may be free to those qualifying for additional financial aid.

**PROGRAM NOTES:** In certain industries, prior convictions may prohibit employment. Drug testing and a pre-employment physical may be required for some occupations. Some companies may have minimum age requirements for select positions.

**CURRICULUM:****CompTIA Linux+**

The CompTIA Linux+ Certification prep program prepares participants for the CompTIA Linux+ exam by exploring common tasks such as Linux troubleshooting, installation, or maintenance. Participants will gain the knowledge and skills required to configure, manage, operate, and troubleshoot a Linux environment by using security best practices, scripting, and automation. The course will also cover Linux operations such as Linux command line, configuring workstations, and networking. Pre-requisite: Prior Linux experience and/or CompTIA A+, CompTIA Security+ or CompTIA Network+ certifications are preferred.

## CompTIA Network+ Short-term Training Certifications

**PURPOSE:** The Community College Workforce Alliance works in partnership with Reynolds and Tyler Community Colleges to serve students with a fast track to the workforce with training and credentialing programs that can be completed in weeks or months. CCWA offers workforce training and certifications in transportation and logistics, construction and trades, customer service, health care and manufacturing. These programs are supported through state-funded tuition assistance available to all Virginians, making Short-term Training Programs low cost or no cost. Short-term Training Programs also offer career coaching and job connections.

**OCCUPATIONAL OBJECTIVES:** Short-term Training credentials prepare students for entry-level careers in high-demand occupational fields offering good starting wages – many with benefits and promotion opportunities.

**ADMISSION REQUIREMENTS:** There are no admissions requirements. Tuition assistance is available to all residents of Virginia, regardless of income. Classes may be free to those qualifying for additional financial aid.

**PROGRAM NOTES:** In certain industries, prior convictions may prohibit employment. Drug testing and a pre-employment physical may be required for some occupations. Some companies may have minimum age requirements for select positions.

**CURRICULUM:****CompTIA Network+**

The CompTIA Network+ Certification prep program prepares participants to configure, manage, and troubleshoot common wired devices and wireless network devices. The courses also has emphasis on: critical security concepts, key cloud computing best practices and typical service models, newer hardware and virtualization techniques, and other tools required to maintain network security and guard against network attacks. Pre-requisite: CompTIA A+ certification or experience in networking platforms. Exam and materials included.

## CompTIA Security+ Short-term Training Certifications

**PURPOSE:** The Community College Workforce Alliance works in partnership with Reynolds and Tyler Community Colleges to serve students with a fast track to the workforce with training and credentialing programs that can be completed in weeks or months. CCWA offers workforce training and certifications in transportation and logistics, construction and trades, customer service, health care and manufacturing. These programs are supported through state-funded tuition assistance available to all Virginians, making Short-term Training Programs low cost or no cost. Short-term Training Programs also offer career coaching and job connections.

**OCCUPATIONAL OBJECTIVES:** Short-term Training credentials prepare students for entry-level careers in high-demand occupational fields offering good starting wages – many with benefits and promotion opportunities.

**ADMISSION REQUIREMENTS:** There are no admissions requirements. Tuition assistance is available to all residents of Virginia, regardless of income. Classes may be free to those qualifying for additional financial aid.

**PROGRAM NOTES:** In certain industries, prior convictions may prohibit employment. Drug testing and a pre-employment physical may be required for some occupations. Some companies may have minimum age requirements for select positions.

**CURRICULUM:****CompTIA Security+**

The CompTIA Security+ Certification prep program prepares participants with the knowledge and skills required to install and configure systems to secure applications, networks, and devices; perform threat analysis and respond with appropriate mitigation techniques; participate in risk mitigation activities; and operate with an awareness of applicable policies, laws, and regulations. Security+ completers are equipped to identify security risks and mitigate system incidents. The CompTIA Security+ Exam and materials are included. Prerequisite: CompTIA A+ or Network+ Certifications, or network security experience.

## Customer Service & Sales Short-term Training Certifications

**PURPOSE:** The Community College Workforce Alliance works in partnership with Reynolds and Tyler Community Colleges to serve students with a fast track to the workforce with training and credentialing programs that can be completed in weeks or months. CCWA offers workforce training and certifications in transportation and logistics, construction and trades, customer service, health care and manufacturing. These programs are supported through state-funded tuition assistance available to all Virginians, making Short-term Training Programs low cost or no cost. Short-term Training Programs also offer career coaching and job connections.

**OCCUPATIONAL OBJECTIVES:** Short-term Training credentials prepare students for entry-level careers in high-demand occupational fields offering good starting wages – many with benefits and promotion opportunities.

**ADMISSION REQUIREMENTS:** There are no admissions requirements. Tuition assistance is available to all residents of Virginia, regardless of income. Classes may be free to those qualifying for additional financial aid.

**PROGRAM NOTES:** In certain industries, prior convictions may prohibit employment. Drug testing and a pre-employment physical may be required for some occupations. Some companies may have minimum age requirements for select positions.

## **CURRICULUM:**

### **Customer Service & Sales**

This course is designed to capture the core customer service duties for a broad range of entry-level through first-line supervisory positions across sales and service industries. This certification is industry-driven, endorsed credential that help employers distinguish and recognize qualified customer service professionals, and define career advancement opportunities.

## **EKG Technician**

### **Short-term Training Certifications**

**PURPOSE:** The Community College Workforce Alliance works in partnership with Reynolds and Tyler Community Colleges to serve students with a fast track to the workforce with training and credentialing programs that can be completed in weeks or months. CCWA offers workforce training and certifications in transportation and logistics, construction and trades, customer service, health care and manufacturing. These programs are supported through state-funded tuition assistance available to all Virginians, making Short-term Training Programs low cost or no cost. Short-term Training Programs also offer career coaching and job connections.

**OCCUPATIONAL OBJECTIVES:** Short-term Training credentials prepare students for entry-level careers in high-demand occupational fields offering good starting wages – many with benefits and promotion opportunities.

**ADMISSION REQUIREMENTS:** There are no admissions requirements. Tuition assistance is available to all residents of Virginia, regardless of income. Classes may be free to those qualifying for additional financial aid.

**PROGRAM NOTES:** In certain industries, prior convictions may prohibit employment. Drug testing and a pre-employment physical may be required for some occupations. Some companies may have minimum age requirements for select positions.

## **CURRICULUM:**

### **EKG Technician**

This program will prepare students to function as EKG Technicians and to understand background information on

anatomy and physiology of the heart, medical disease processes, medical terminology, medical ethics, legal aspects of patient contact, electrocardiography and stress testing.

## **Emergency Medical Technician Short-term Training Certifications**

**PURPOSE:** The Community College Workforce Alliance works in partnership with Reynolds and Tyler Community Colleges to serve students with a fast track to the workforce with training and credentialing programs that can be completed in weeks or months. CCWA offers workforce training and certifications in transportation and logistics, construction and trades, customer service, health care and manufacturing. These programs are supported through state-funded tuition assistance available to all Virginians, making Short-term Training Programs low cost or no cost. Short-term Training Programs also offer career coaching and job connections.

**OCCUPATIONAL OBJECTIVES:** Short-term Training credentials prepare students for entry-level careers in high-demand occupational fields offering good starting wages – many with benefits and promotion opportunities.

**ADMISSION REQUIREMENTS:** There are no admissions requirements. Tuition assistance is available to all residents of Virginia, regardless of income. Classes may be free to those qualifying for additional financial aid.

**PROGRAM NOTES:** In certain industries, prior convictions may prohibit employment. Drug testing and a pre-employment physical may be required for some occupations. Some companies may have minimum age requirements for select positions.

## **CURRICULUM:**

### **Emergency Medical Technician (EMT)**

The Virginia EMT program is based upon the Virginia EMS Education Standards. Virginia certification requires successful completion of a standardized cognitive and psychomotor skills examination. This course is designed to train individuals to serve as a vital link in the chain of the health care team. This includes all skills necessary to provide emergency medical care as an attendant-in-charge with a basic life support ambulance service or other specialized rescue service. For Virginia trained EMT, successful certification at the National Registry EMT level will automatically lead to a Virginia EMT certification. National Registry EMT certified technicians trained outside of Virginia must apply for Virginia certification before being allowed to practice at this level. After receiving Virginia credentials, the EMT has the option to maintain National Registry EMT certification without affecting their Virginia certification; however, Virginia certification must be maintained in order to provide patient care at this level.

## **Emergency Telecommunicator (9-1-1 Dispatcher)**

## Short-term Training Certifications

**PURPOSE:** The Community College Workforce Alliance works in partnership with Reynolds and Tyler Community Colleges to serve students with a fast track to the workforce with training and credentialing programs that can be completed in weeks or months. CCWA offers workforce training and certifications in transportation and logistics, construction and trades, customer service, health care and manufacturing. These programs are supported through state-funded tuition assistance available to all Virginians, making Short-term Training Programs low cost or no cost. Short-term Training Programs also offer career coaching and job connections.

**OCCUPATIONAL OBJECTIVES:** Short-term Training credentials prepare students for entry-level careers in high-demand occupational fields offering good starting wages – many with benefits and promotion opportunities.

**ADMISSION REQUIREMENTS:** There are no admissions requirements. Tuition assistance is available to all residents of Virginia, regardless of income. Classes may be free to those qualifying for additional financial aid.

**PROGRAM NOTES:** In certain industries, prior convictions may prohibit employment. Drug testing and a pre-employment physical may be required for some occupations. Some companies may have minimum age requirements for select positions.

### CURRICULUM:

#### Emergency Telecommunicator (9-1-1 Dispatcher)

This course (40 hours minimum) is designed to train students who are unfamiliar with emergency communication centers, emergency telecommunication technology, interpersonal communication, legal issues, and job stress factors. The program takes an integrated teaching approach that features comprehensive content, multimedia presentations, and hands-on training. ETC certification is earned through successfully completing the National Academies of Emergency Dispatch (NAED) 40-hour (minimum) Emergency Telecommunicator Course and achieving a passing score (80%) on the certification examination. Certification is valid for two years.

## Lean Practitioner Certification Short-term Training Certifications

**PURPOSE:** The Community College Workforce Alliance works in partnership with Reynolds and Tyler Community Colleges to serve students with a fast track to the workforce with training and credentialing programs that can be completed in weeks or months. CCWA offers workforce training and certifications in transportation and logistics, construction and trades, customer service, health care and manufacturing. These programs are supported through state-funded tuition assistance available to all Virginians, making Short-term Training Programs low cost or no cost. Short-term Training Programs also offer career coaching and job connections.

**OCCUPATIONAL OBJECTIVES:** Short-term Training credentials prepare students for entry-level careers in high-demand occupational fields offering good starting wages – many with benefits and promotion opportunities.

**ADMISSION REQUIREMENTS:** There are no admissions requirements. Tuition assistance is available to all residents of Virginia, regardless of income. Classes may be free to those qualifying for additional financial aid.

**PROGRAM NOTES:** In certain industries, prior convictions may prohibit employment. Drug testing and a pre-employment physical may be required for some occupations. Some companies may have minimum age requirements for select positions.

### CURRICULUM:

#### Lean Practitioner Certification

The Lean Practitioner Certification Course focuses on how to improve processes by using the Lean Six Sigma methods and tools. Learn how to immediately apply the most important Lean principles, methods, and tools in the field. Utilizing an extensive knowledge base, the focus is on the practical application of Lean and process improvement. The course comes with a hands-on simulation and project development.

## Manufacturing Technician 1 Short-term Training Certifications

**PURPOSE:** The Community College Workforce Alliance works in partnership with Reynolds and Tyler Community Colleges to serve students with a fast track to the workforce with training and credentialing programs that can be completed in weeks or months. CCWA offers workforce training and certifications in transportation and logistics, construction and trades, customer service, health care and manufacturing. These programs are supported through state-funded tuition assistance available to all Virginians, making Short-term Training Programs low cost or no cost. Short-term Training Programs also offer career coaching and job connections.

**OCCUPATIONAL OBJECTIVES:** Short-term Training credentials prepare students for entry-level careers in high-demand occupational fields offering good starting wages – many with benefits and promotion opportunities.

**ADMISSION REQUIREMENTS:** There are no admissions requirements. Tuition assistance is available to all residents of Virginia, regardless of income. Classes may be free to those qualifying for additional financial aid.

**PROGRAM NOTES:** In certain industries, prior convictions may prohibit employment. Drug testing and a pre-employment physical may be required for some occupations. Some companies may have minimum age requirements for select positions.

### CURRICULUM:

#### Manufacturing Technician 1 (MT1)

The MT1 certification program was developed to meet the growing employment demands of the manufacturing industry.

The MT1 program addresses the core industry-wide skills standards required for skilled production occupations in all sectors of manufacturing. The core competency areas certified are: (1) Math and Measurement, (2) Spatial Reasoning and Manufacturing Technology, and (3) Quality and Business Acumen.

The purpose of the MT1 certification program is to document individuals' mastery of the critical competencies required for modern manufacturing production and production-related occupations.

## Medical Coding

### Short-term Training Certifications

**PURPOSE:** The Community College Workforce Alliance works in partnership with Reynolds and Tyler Community Colleges to serve students with a fast track to the workforce with training and credentialing programs that can be completed in weeks or months. CCWA offers workforce training and certifications in transportation and logistics, construction and trades, customer service, health care and manufacturing. These programs are supported through state-funded tuition assistance available to all Virginians, making Short-term Training Programs low cost or no cost. Short-term Training Programs also offer career coaching and job connections.

**OCCUPATIONAL OBJECTIVES:** Short-term Training credentials prepare students for entry-level careers in high-demand occupational fields offering good starting wages – many with benefits and promotion opportunities.

**ADMISSION REQUIREMENTS:** There are no admissions requirements. Tuition assistance is available to all residents of Virginia, regardless of income. Classes may be free to those qualifying for additional financial aid.

**PROGRAM NOTES:** In certain industries, prior convictions may prohibit employment. Drug testing and a pre-employment physical may be required for some occupations. Some companies may have minimum age requirements for select positions.

#### CURRICULUM:

##### Medical Coding

This program will introduce class participants to the basic principles of coding for outpatient and physician services. Instruction will include: beginning through advanced CPT coding.

It will cover information about anatomy, terminology, and various procedures, as well as demonstrations and examples on how to code each service in the CPT book. This course will prepare participants to sit for the AAPC, formally American Academy of Professional Coders, Certified Professional Coder (CPC) exam. Course Objectives include: Identifying the purpose of the CPT®, ICD-10-CM, and HCPCS Level II code books, understanding and apply the official ICD-10-CM coding guidelines, applying coding conventions when assigning diagnoses and procedure codes, identifying the information in appendices of the CPT® code book, explaining the determination

of the levels of E/M services, coding a wide variety of patient services using CPT®, ICD-10-CM, and HCPCS Level II codes, listing the major features of HCPCS Level II codes, and providing practical application of coding operative reports and evaluation and management services.

## NCCER Core Construction

### Short-term Training Certifications

**PURPOSE:** The Community College Workforce Alliance works in partnership with Reynolds and Tyler Community Colleges to serve students with a fast track to the workforce with training and credentialing programs that can be completed in weeks or months. CCWA offers workforce training and certifications in transportation and logistics, construction and trades, customer service, health care and manufacturing. These programs are supported through state-funded tuition assistance available to all Virginians, making Short-term Training Programs low cost or no cost. Short-term Training Programs also offer career coaching and job connections.

**OCCUPATIONAL OBJECTIVES:** Short-term Training credentials prepare students for entry-level careers in high-demand occupational fields offering good starting wages – many with benefits and promotion opportunities.

**ADMISSION REQUIREMENTS:** There are no admissions requirements. Tuition assistance is available to all residents of Virginia, regardless of income. Classes may be free to those qualifying for additional financial aid.

**PROGRAM NOTES:** In certain industries, prior convictions may prohibit employment. Drug testing and a pre-employment physical may be required for some occupations. Some companies may have minimum age requirements for select positions.

#### CURRICULUM:

##### NCCER Core Construction

The National Center for Construction Education and Research (NCCER) is the credentialing body for the NCCER CORE Curriculum certification. The NCCER CORE training course is a prerequisite to all other NCCER Level 1 craft curriculum in construction and industrial occupations such as carpentry, HVAC, electrical, plumbing, welding, drywall, and construction craft laborer. The NCCER standardized curricula introduces basic skills for obtaining and retaining industrial employment, including an introduction to hand tools, power tools, construction drawings, basic communication skills, basic safety, and basic employability skills. This certification-training course provides the foundational skills needed to continue entry-level education in any skilled-craft.

## NCCER Electrical Level 1

### Short-term Training Certifications

**PURPOSE:** The Community College Workforce Alliance works in partnership with Reynolds and Tyler Community Colleges to serve students with a fast track to the workforce with training and credentialing programs that can be completed in weeks or months. CCWA offers workforce training and certifications in transportation and logistics, construction and trades, customer service, health care and manufacturing. These programs are supported through state-funded tuition assistance available to all Virginians, making Short-term Training Programs low cost or no cost. Short-term Training Programs also offer career coaching and job connections.

**OCCUPATIONAL OBJECTIVES:** Short-term Training credentials prepare students for entry-level careers in high-demand occupational fields offering good starting wages – many with benefits and promotion opportunities.

**ADMISSION REQUIREMENTS:** There are no admissions requirements. Tuition assistance is available to all residents of Virginia, regardless of income. Classes may be free to those qualifying for additional financial aid.

**PROGRAM NOTES:** In certain industries, prior convictions may prohibit employment. Drug testing and a pre-employment physical may be required for some occupations. Some companies may have minimum age requirements for select positions.

#### **CURRICULUM:**

##### **NCCER Electrical Level 1**

The National Center for Construction Education and Research (NCCER) is the credentialing body for the NCCER Electrical Level 1 certification. The NCCER Electrical Level 1 certification course is part of the required training for many companies' apprenticeship programs. This course is intended for students interested in entering the Electrician industry and it can help you get a foot-in-the-door to a helper or apprentice position. Instruction will cover topics such as Orientation to the Electrical Trade, Electrical Safety, Electrical Circuits, Electrical Theory, National Electrical Code, Device Boxes, Raceways, Fittings, Conduit, Conductors and Cables, Fasteners and Anchors, Basic Electrical Construction Drawings, Residential Electrical Services, and Electrical Test Equipment. Registration in NCCER CORE, or previous NCCER CORE certification is required for enrollment in NCCER Electrical Level 1.

## **NCCER HVAC Level 1**

### **Short-term Training Certifications**

**PURPOSE:** The Community College Workforce Alliance works in partnership with Reynolds and Tyler Community Colleges to serve students with a fast track to the workforce with training and credentialing programs that can be completed in weeks or months. CCWA offers workforce training and certifications in transportation and logistics, construction and trades, customer service, health care and manufacturing. These programs are supported through state-funded tuition assistance available to all Virginians, making Short-term Training Programs low cost or

no cost. Short-term Training Programs also offer career coaching and job connections.

**OCCUPATIONAL OBJECTIVES:** Short-term Training credentials prepare students for entry-level careers in high-demand occupational fields offering good starting wages – many with benefits and promotion opportunities.

**ADMISSION REQUIREMENTS:** There are no admissions requirements. Tuition assistance is available to all residents of Virginia, regardless of income. Classes may be free to those qualifying for additional financial aid.

**PROGRAM NOTES:** In certain industries, prior convictions may prohibit employment. Drug testing and a pre-employment physical may be required for some occupations. Some companies may have minimum age requirements for select positions.

#### **CURRICULUM:**

##### **NCCER HVAC Level 1**

The National Center for Construction Education and Research (NCCER) is the credentialing body for the NCCER CORE Curriculum certification. The NCCER HVAC Level 1 certification course is part of the required training for many companies' apprenticeship programs. This course is intended for students interested in entering the HVAC industry and it can help you get a foot-in-the-door to a helper or apprentice position. Instruction will cover topics such as HVAC Field Calculations, Basic Electricity, Basic Heating and Cooling Systems, and will include test preparation for the EPA-608 refrigerant certification exam. There may be an additional cost for EPA 608 certification. Registration in NCCER CORE, or previous NCCER CORE certification is required for enrollment in HVAC Level 1.

## **NCCER Heavy Equipment Operator Short-term Training Certifications**

**PURPOSE:** The Community College Workforce Alliance works in partnership with Reynolds and Tyler Community Colleges to serve students with a fast track to the workforce with training and credentialing programs that can be completed in weeks or months. CCWA offers workforce training and certifications in transportation and logistics, construction and trades, customer service, health care and manufacturing. These programs are supported through state-funded tuition assistance available to all Virginians, making Short-term Training Programs low cost or no cost. Short-term Training Programs also offer career coaching and job connections.

**OCCUPATIONAL OBJECTIVES:** Short-term Training credentials prepare students for entry-level careers in high-demand occupational fields offering good starting wages – many with benefits and promotion opportunities.

**ADMISSION REQUIREMENTS:** There are no admissions requirements. Tuition assistance is available to all residents of Virginia, regardless of income. Classes may be free to those qualifying for additional financial aid.

**PROGRAM NOTES:** In certain industries, prior convictions may prohibit employment. Drug testing and a pre-employment physical may be required for some occupations. Some companies may have minimum age requirements for select positions.

**CURRICULUM:**

**NCCER Heavy Equipment Operator**

The National Center for Construction Education and Research (NCCER) is the credentialing body for the NCCER Heavy Equipment Operator Level 1 certification. The Heavy Equipment Operator program was developed to meet the growing employment demands for equipment operators. This class serves as the first level of training in the Heavy Equipment Operator program. Students will learn the following content: core craft skills, orientation to the trade, heavy equipment safety, identification of heavy equipment, basic operational techniques, utility tractors, introduction to earthmoving, interpreting civil drawings, and using simulator exercises for equipment basic controls, loading and unloading, excavating, and trenching. Students receive hands-on training with using simulators, which replicates real-life operating scenarios through rotation-motion platforms and high-resolution 3D displays for excavator and wheel loader equipment. Hands-on lab schedule on simulators is included. Prerequisite: NCCER Core Craft Skills (typically included with the Heavy Equipment Level 1 certification).

## Nurse Aide

### Short-term Training Certifications

**PURPOSE:** The Community College Workforce Alliance works in partnership with Reynolds and Tyler Community Colleges to serve students with a fast track to the workforce with training and credentialing programs that can be completed in weeks or months. CCWA offers workforce training and certifications in transportation and logistics, construction and trades, customer service, health care and manufacturing. These programs are supported through state-funded tuition assistance available to all Virginians, making Short-term Training Programs low cost or no cost. Short-term Training Programs also offer career coaching and job connections.

**OCCUPATIONAL OBJECTIVES:** Short-term Training credentials prepare students for entry-level careers in high-demand occupational fields offering good starting wages – many with benefits and promotion opportunities.

**ADMISSION REQUIREMENTS:** There are no admissions requirements. Tuition assistance is available to all residents of Virginia, regardless of income. Classes may be free to those qualifying for additional financial aid.

**PROGRAM NOTES:** In certain industries, prior convictions may prohibit employment. Drug testing and a pre-employment physical may be required for some occupations. Some companies may have minimum age requirements for select positions.

**CURRICULUM:**

**Nurse Aide**

This program will prepare the student for a career in the nursing field. Training will focus on the improvement and enhancement of quality of life for long-term care residents and introduce the growing need in long-term care. Course topics include: the nurse aide's role focusing on legal responsibilities, desirable qualities, accountability, standards of conduct, and professionalism, appropriate personal care of long-term residents and special needs residents and successful completion of the Nurse Aid Competency Evaluation and Exams. Participants are taught to: Take and record Vital Signs, monitor urinary catheters, apply dressings, monitor patients and report adverse reactions of medications or treatments, feed patients, monitor patient safety, record intake and output, assist with bathing, dressing, feeding, enemas, basic wound care, patient mobility and personal hygiene. Students must have a high school diploma or GED and the ability to pass drug and criminal background screening. A TB test is also administered.

## Pharmacy Technician

### Short-term Training Certifications

**PURPOSE:** The Community College Workforce Alliance works in partnership with Reynolds and Tyler Community Colleges to serve students with a fast track to the workforce with training and credentialing programs that can be completed in weeks or months. CCWA offers workforce training and certifications in transportation and logistics, construction and trades, customer service, health care and manufacturing. These programs are supported through state-funded tuition assistance available to all Virginians, making Short-term Training Programs low cost or no cost. Short-term Training Programs also offer career coaching and job connections.

**OCCUPATIONAL OBJECTIVES:** Short-term Training credentials prepare students for entry-level careers in high-demand occupational fields offering good starting wages – many with benefits and promotion opportunities.

**ADMISSION REQUIREMENTS:** There are no admissions requirements. Tuition assistance is available to all residents of Virginia, regardless of income. Classes may be free to those qualifying for additional financial aid.

**PROGRAM NOTES:** In certain industries, prior convictions may prohibit employment. Drug testing and a pre-employment physical may be required for some occupations. Some companies may have minimum age requirements for select positions.

**CURRICULUM:**

**Pharmacy Technician**

This program will prepare participants to enter the pharmacy field and to pursue certification including the Pharmacy Technician Certification Board's PTCB exam. The need for Pharmacy Technicians continues to grow with demand expected to increase substantially in the next few years. Technicians work under the supervision of a registered pharmacist in hospitals, home infusion pharmacies, community pharmacies and other healthcare settings. This high demand for pharmacy technicians

is the result of a multitude of factors including the constant availability of new drugs, the national shortage of registered pharmacists, the establishment of certified pharmacy technicians, and the aging population. This course covers the following key areas and topics: Pharmacy calculations, medical terminology specific to the pharmacy industry, skills to read and interpret prescriptions, review of the top 200 drugs, skills to identify drugs by generic and brand names, dosage calculations, I.V. flow rates, drug compounding, and dose conversions, dispensing of prescriptions, inventory control, and billing and reimbursement.

## Phlebotomy Technician Short-term Training Certifications

**PURPOSE:** The Community College Workforce Alliance works in partnership with Reynolds and Tyler Community Colleges to serve students with a fast track to the workforce with training and credentialing programs that can be completed in weeks or months. CCWA offers workforce training and certifications in transportation and logistics, construction and trades, customer service, health care and manufacturing. These programs are supported through state-funded tuition assistance available to all Virginians, making Short-term Training Programs low cost or no cost. Short-term Training Programs also offer career coaching and job connections.

**OCCUPATIONAL OBJECTIVES:** Short-term Training credentials prepare students for entry-level careers in high-demand occupational fields offering good starting wages – many with benefits and promotion opportunities.

**ADMISSION REQUIREMENTS:** There are no admissions requirements. Tuition assistance is available to all residents of Virginia, regardless of income. Classes may be free to those qualifying for additional financial aid.

**PROGRAM NOTES:** In certain industries, prior convictions may prohibit employment. Drug testing and a pre-employment physical may be required for some occupations. Some companies may have minimum age requirements for select positions.

### CURRICULUM:

#### Phlebotomy Technician

This program will prepare students to function as EKG Technicians and to understand background information on anatomy and physiology of the heart, medical disease processes, medical terminology, medical ethics, legal aspects of patient contact, electrocardiography and stress testing.

## Python Programming Short-term Training Certifications

**PURPOSE:** The Community College Workforce Alliance works in partnership with Reynolds and Tyler Community Colleges to serve students with a fast track to the workforce with training and credentialing programs that can be completed in weeks or months. CCWA offers workforce training and certifications in

transportation and logistics, construction and trades, customer service, health care and manufacturing. These programs are supported through state-funded tuition assistance available to all Virginians, making Short-term Training Programs low cost or no cost. Short-term Training Programs also offer career coaching and job connections.

**OCCUPATIONAL OBJECTIVES:** Short-term Training credentials prepare students for entry-level careers in high-demand occupational fields offering good starting wages – many with benefits and promotion opportunities.

**PROGRAM NOTES:** In certain industries, prior convictions may prohibit employment. Drug testing and a pre-employment physical may be required for some occupations. Some companies may have minimum age requirements for select positions.

### CURRICULUM:

#### Python Programming

The Certified Associate in Python Programming certification prep program prepares participants to accomplish coding tasks related to the basics of programming in the Python language and the fundamental notions and techniques used in object-oriented programming. This course also emphasizes the general computer programming concepts like conditional execution, loops, Python programming language syntax, semantics, and the runtime environment, as well as with general coding techniques. Exam and materials included.

## Teacher Licensure (EducateVA) Short-term Training Certifications

**PURPOSE:** The Community College Workforce Alliance works in partnership with Reynolds and Tyler Community Colleges to serve students with a fast track to the workforce with training and credentialing programs that can be completed in weeks or months. CCWA offers workforce training and certifications in transportation and logistics, construction and trades, customer service, health care and manufacturing. These programs are supported through state-funded tuition assistance available to all Virginians, making Short-term Training Programs low cost or no cost. Short-term Training Programs also offer career coaching and job connections.

**OCCUPATIONAL OBJECTIVES:** Short-term Training credentials prepare students for entry-level careers in high-demand occupational fields offering good starting wages – many with benefits and promotion opportunities.

**ADMISSION REQUIREMENTS:** There are no admissions requirements. Tuition assistance is available to all residents of Virginia, regardless of income. Classes may be free to those qualifying for additional financial aid.

**PROGRAM NOTES:** In certain industries, prior convictions may prohibit employment. Drug testing and a pre-employment physical may be required for some occupations. Some companies may have minimum age requirements for select positions.

## **CURRICULUM:**

### **Teacher Licensure (EducateVA)**

The EducateVA program consists of two levels. Level I is comprised of online and face-to-face instruction. Level II – the part of the EducateVA program that makes us so unique – is the post-coursework experience. After Level I, as a graduate seeks employment and during their first year of teaching, EducateVA partners students with mentors to guide, instruct and advise them in order to ensure they receive the support they need to thrive as a new teacher. Additional instructional support is also offered through Level II modules and three required Level II Saturday seminars. The program consists of 220-hours of instruction delivered within a 18-week format for professional studies training. Instruction is delivered online via Blackboard, and will focus on the following modules:

Foundations of Teaching, Instructional Design, Teaching and Learning Content Methods, Teaching Reading in the Content Area, Classroom Management, and Current Trends and Issues in Education.

## **VDOT Construction Inspector Series Short-term Training Certifications**

**PURPOSE:** The Community College Workforce Alliance works in partnership with Reynolds and Tyler Community Colleges to serve students with a fast track to the workforce with training and credentialing programs that can be completed in weeks or months. CCWA offers workforce training and certifications in transportation and logistics, construction and trades, customer service, health care and manufacturing. These programs are supported through state-funded tuition assistance available to all Virginians, making Short-term Training Programs low cost or no cost. Short-term Training Programs also offer career coaching and job connections.

**ADMISSION REQUIREMENTS:** There are no admissions requirements. Tuition assistance is available to all residents of Virginia, regardless of income. Classes may be free to those qualifying for additional financial aid.

**PROGRAM NOTES:** In certain industries, prior convictions may prohibit employment. Drug testing and a pre-employment physical may be required for some occupations. Some companies may have minimum age requirements for select positions.

## **CURRICULUM:**

### **VDOT Construction Inspector Series**

The Virginia Department of Transportation's (VDOT) construction inspectors ensure the safe and sound construction of the Commonwealth's roadways. The Construction Inspector Trainee Program develops inspectors through classroom training, mentoring and on-the-job experience. Those completing this program will have verified, highly desirable and proficient skills as construction inspectors and will be ready to transition into vital roles at VDOT. Trainees participate in the program as full-time employees, with a competitive benefits package. Courses include: SiteManager for Inspectors, Plan Reading for Inspectors, Documentation and Record Keeping for Inspectors, Surveying for Inspectors, Roadway Construction and Drainage for Inspectors, and Structures and Bridges for Inspectors.

# COURSE DESCRIPTIONS

---

## ACCOUNTING(ACC)

### ACC 117 Essentials of Accounting (3 cr.)

Covers reading and understanding financial statements internal control requirements for safeguarding assets and accounting procedures necessary to complete the entire accounting cycle including journals ledgers and financial statements.

Prerequisites: Placement in ENG 111 or placement in co-requisites ENG 111 and EDE 11 and competency in Introductory Algebra MDE 010 as demonstrated through placement or by satisfactorily completing MDE 010.  
Lecture 3 hours per week.

### ACC 134 Small Business Taxes (3 cr.)

Introduces taxes most frequently encountered in business. Includes payroll sales property and income tax. Studies the fundamentals of income tax preparation of business taxes for small businesses organized as proprietorships partnerships limited liability companies and S-corporations. Includes income tax preparation related to business assets; business of the home; employment taxes; withholding and estimated taxes; Schedules C SE and 1040; self-employed retirement plans; tip reporting and allocation rules etc. Also includes discussion and practice in recording of payroll for a small business.

Lecture 3 hours per week.

### ACC 198 Seminar and Project: Accounting Capstone (4 cr.)

Provides students an opportunity to integrate skills learned in prior accounting courses and apply those skills to the real-world practice of accounting through a business simulation project. Prepares students to complete the Certified Bookkeeper examination given by the American Institute of Public Bookkeepers (AIPB) utilizing a review course prepared by the AIPB. Offered spring semester only. Prerequisite: ACC 211 with a grade of C or better.

Lecture 4 hours per week.

### ACC 211 Principles of Accounting I (3 cr.)

Introduces accounting principles with respect to financial reporting. Demonstrates how decision-makers use accounting information for reporting purposes. Focuses on the preparation of accounting information and its use in the operation of organizations as well as methods of analysis and interpretation of accounting information.

Prerequisites: Placement in ENG 111 or placement in co-requisites ENG 111 and EDE 11 and competency in Introductory Algebra MDE 010 as demonstrated through placement or by satisfactorily completing MDE 010.  
Lecture 3 hours per week.

### ACC 212 Principles of Accounting II (3 cr.)

Introduces accounting principles with respect to cost and managerial accounting. Focuses on the application of accounting information with respect to product costing as well as its use within the organization to provide direction and to judge performance.

Prerequisite: ACC 211 or equivalent or school approval.

Lecture 3 hours per week.

### ACC 215 Computerized Accounting (3 cr.)

Introduces the computer in solving accounting problems. Focuses on operation of computers. Presents the accounting cycle and financial statement preparation in a computerized system and other applications for financial and managerial accounting. Introduces the QuickBooks accounting software program.

Prerequisite: ACC 117 or ACC 211, or equivalent, or school approval.

Lecture 3 hours per week.

### ACC 217 Analyzing Financial Statements (3 cr.)

Explains the generation and limitations of data techniques for analyzing the flow of a business's funds and the methods of selecting and interpreting financial ratios. Offers analytical techniques through the use of comprehensive case studies. Highlights the evolution of financial statement reporting the conceptual framework and GAAP analysis.

Offered fall semester only.

Prerequisite: ACC 211 or equivalent.

Lecture 3 hours per week.

### ACC 219 Government and Non-Profit Accounting (3 cr.)

Introduces fund accounting as used by governmental and nonprofit entities. Stresses differences between accounting principles of for-profit and not-for-profit organizations.

Prerequisite: ACC 212 or program head approval.

Lecture 3 hours per week.

### ACC 221 Intermediate Accounting I (3 cr.)

Covers accounting principles and theory including a review of the accounting cycle and accounting for current assets current liabilities and investments. Also addresses wholesaler transactions and inventory fixed assets natural resources and intangible assets. Introduces various accounting approaches and demonstrates the effect of these approaches on the financial statement users. Offered fall semester only.

Prerequisite: ACC 211 with a grade of "B" or higher.

Lecture 3 hours per week.

### ACC 222 Intermediate Accounting II (3 cr.)

Continues accounting principles and theory with emphasis on accounting for fixed assets intangibles corporate capital structure long-term liabilities and investments. Consists of an extensive examination of topics for specified balance sheet accounts beyond the scope of a principles course. Focuses on the complex areas of balance sheet and income statement reporting for the corporate entity. Offered spring semester only.

Prerequisite: ACC 211 with a grade of "B" or higher.

Lecture 3 hours per week.

### ACC 231 Cost Accounting I (3 cr.)

Studies cost accounting methods and reporting as applied to job order process and standard cost accounting systems. Includes cost control responsibility accounting capital budgeting and pricing decisions. Offered fall semester only.

Prerequisite: ACC 212 with a grade of "C" or higher.

Lecture 3 hours per week.

### ACC 240 Fraud Examination (3 cr.)

Covers the principles and methodology of fraud detection and deterrence. Provides an introduction to the various ways fraud and occupational abuses occur methods to identify the risk of exposure to loss from fraud and appropriate prevention detection and investigation approaches. Also covers recent developments in e-commerce and consumer fraud and the legal options for victims of fraud. Offered spring semester only.

Lecture 3 hours per week.

### ACC 241 Auditing I (3 cr.)

Presents techniques of investigating interpreting and appraising accounting records and assertions. Studies internal control design and evaluation evidence-gathering techniques and other topics. Develops an understanding and appreciation of the philosophy of the audit process and its practice. Focuses on issues relevant to an external auditing professional such as audit risk analysis planning of audit engagements internal controls and substantive testing. Presents the preparation of audit working papers supporting an examination of the financial records and internal control procedures of an enterprise. Covers the report and opinion of the auditor to management stockholders and considers the ethical and legal responsibilities of the auditor. Offered spring semester only.

Lecture 3 hours per week.

**ACC 261 Principles of Federal Taxation I (3 cr.)**

Presents the study of federal taxation as it relates to individuals and related entities. Includes tax planning compliance and reporting. Covers gross income deductions and credits. Includes tax compliance and reporting. Emphasizes personal tax burden minimization and preparation of personal tax returns. Prerequisite: ACC 211 or equivalent. Lecture 3 hours per week.

**ADMINISTRATION OF JUSTICE(ADJ)**

**ADJ 100 Survey of Criminal Justice (3 cr.)**

Presents an overview of the United States criminal justice system; introduces the major system components: law enforcement judiciary and corrections. Prerequisite: Placement in ENG 111 or placement in Co-requisites ENG 111 and EDE 11. Lecture 3 hours per week.

**ADJ 105 The Juvenile Justice System (3 cr.)**

Presents the evolution philosophy structures and processes of the American juvenile delinquency system; surveys the rights of juveniles dispositional alternatives rehabilitation methods and current trends. Prerequisite: Placement in ENG 111 or placement in co-requisites ENG 111 and EDE 11. Lecture 3 hours per week.

**ADJ 107 Survey of Criminology (3 cr.)**

Surveys the volume and scope of crime; considers a variety of theories developed to explain the causation of crime and criminality. Prerequisite: Placement in ENG 111 or placement in Co-requisites ENG 111 and EDE 11. Lecture 3 hours.

**ADJ 116 Special Enforcement Topics (3 cr.)**

Considers contemporary issues problems and controversies in modern law enforcement. Prerequisite: ADJ 100. Lecture 3 hours per week.

**ADJ 128 Patrol Administration and Operations (3 cr.)**

Studies the goals methods and techniques of police patrol with focus on the norms which govern work behavior in a police career. Examines the responsibilities of administrators and field supervisors of patrol in the local and state law enforcement agencies. Prerequisite: ADJ 100. Lecture 3 hours per week.

**ADJ 130 Introduction to Criminal Law (3 cr.)**

Surveys the general principles of American criminal law the elements of major crimes and the basic steps of prosecution procedure. Prerequisite: Placement in ENG 111 or placement in co-requisites ENG 111 and EDE 11. Lecture 3 hours per week.

**ADJ 133 Ethics and the Criminal Justice Professional (3 cr.)**

Examines ethical dilemmas pertaining to the criminal justice system including those in policing courts and corrections. Focuses on some of the specific ethical choices that must be made by the criminal justice professional. Lecture 3 hours per week.

**ADJ 140 Introduction To Corrections (3 cr.)**

Focuses on societal responses to the offender. Traces the evolution of practices based on philosophies of retribution deterrence and rehabilitation. Reviews contemporary correctional activities and their relationships to other aspects of the criminal justice system. Lecture 3 hours per week.

**ADJ 169 Transportation and Border Security (3 cr.)**

Discusses substantive issues regarding transportation security within the role of Homeland Security measures implemented by the United States. Introduces the student to and examines global preparedness from a transportation perspective. Considers the interrelationship among natural disasters and sustainable infrastructure. Describes intermodal and integrated transportation and physical models of movement and discusses mobility as a cultural lifeline. Lecture 3 hours per week.

**ADJ 195 Topics in Administration of Justice: Intelligence Analysis and Security Management (3 cr.)**

Examines intelligence analysis and its indispensable relationship to the security management of terrorist attacks man-made disasters and natural disasters. It also explores vulnerabilities of our national defense and private sectors as well as the threats posed to these institutions by terrorists man-made disasters and natural disasters. Lecture 3 hours per week.

**ADJ 201 Criminology (3 cr.)**

Studies current and historical data pertaining to criminal and other deviant behavior. Examines theories that explain crime and criminal behavior in human society. Prerequisites: Placement in ENG 111 or placement in co-requisites ENG 111 and EDE 11 and competency in Introductory Algebra MDE 010 as demonstrated through placement or by satisfactorily completing MDE 010. Prerequisite and co-requisite courses may be waived only by program or school approval. Lecture 3 hours per week.

**ADJ 211 Criminal Law, Evidence, & Procedures I (3 cr.)**

Teaches the elements of proof for major and common crimes and the legal classification of offenses. Studies the kinds degrees and admissibility of evidence and its presentation in criminal proceedings with emphasis on legal guidelines for methods and techniques of evidence acquisition. Surveys the procedural requirements from arrest to final disposition in the various American court systems with focus on the Virginia jurisdiction. Part I of II. Lecture 3 hours per week.

**ADJ 212 Criminal Law, Evidence, and Procedures II (3 cr.)**

Teaches the elements of proof for major and common crimes and the legal classification of offenses. Studies the kinds degrees and admissibility of evidence and its presentation in criminal proceedings with emphasis on legal guidelines for methods and techniques of evidence acquisition. Surveys the procedural requirements from arrest to final disposition in the various American court systems with focus on the Virginia jurisdiction. Lecture 3 hours per week.

**ADJ 227 Constitutional Law for Justice Personnel (3 cr.)**

Surveys the basic guarantees of liberty described in the U. S. Constitution and the historical development of these restrictions on government power primarily through U. S. Supreme Court decisions. Reviews rights of free speech press and assembly as well as criminal procedure guarantees (to counsel jury trial habeas corpus etc.) as they apply to the activities of those in the criminal justice system. Lecture 3 hours per week.

**ADJ 228 Narcotics and Dangerous Drugs (3 cr.)**

Surveys the historical and current usage of narcotics and dangerous drugs. Teaches the identification and classification of such drugs and emphasizes the symptoms and effects on their users. Examines investigative methods and procedures utilized in law enforcement efforts against illicit drug usage. Lecture 3 hours per week.

**ADJ 229 Law Enforcement and the Community (3 cr.)**

Considers current efforts by law enforcement personnel to achieve an effective working relationship with the community. Surveys and analyzes various interactive approaches of law enforcement agencies and the citizenry they serve. Lecture 3 hours per week.

**ADJ 232 Domestic Violence (3 cr.)**

Surveys historical issues that have affected family violence. Examines current trends in the context of the criminal justice system. Lecture 3 hours per week.

## **ADJ 234 Terrorism and Counter-Terrorism (3 cr.)**

Surveys the historical and current practices of terrorism that are national transnational or domestic in origin. Includes biological chemical nuclear and cyber-terrorism. Teaches the identification and classification of terrorist organizations violent political groups and issue-oriented militant movements. Examines investigative methods and procedures utilized in counter terrorist efforts domestically and internationally.  
Lecture 3 hours per week.

## **ADJ 236 Principles of Criminal Investigation (3 cr.)**

Surveys the fundamentals of criminal investigation procedures and techniques. Examines crime scene search collecting handling and preserving evidence.  
Lecture 3 hours per week.

## **ADJ 240 Techniques of Interviewing (3 cr.)**

Provides the student with essential skills and techniques necessary to obtain quality information from victims witnesses and suspects regarding criminal activity. Emphasizes locations and settings for interviews kinesics proxemics and paralinguistics of both the interviewer and interviewee.  
Prerequisite: Students enrolling in the course must be certified law enforcement personnel currently employed in a police agency.  
Lecture 3 hours per week.

## **ADJ 246 Correctional Counseling (3 cr.)**

Presents concepts and principles of interviewing and counseling as applied in the correctional setting.  
Lecture 3 hours per week.

## **ADJ 290 Coordinated Internship in Administration of Justice (3 cr.)**

Provides supervised on-the-job training in selected business industrial or service firms coordinated by the college.  
Laboratory 15 hours per week.

## **ADJ 295 Topics in Administration of Justice: Use of Force (3 cr.)**

Focuses on issues related to use of force in law enforcement. Includes court cases policies and procedures media and politics and the tools and techniques used by law enforcement personnel.  
Prerequisites: ADJ 100 or LGL 110; ADJ 130 or LGL 218.  
Lecture 3 hours per week.

## **ADMINISTRATIVE SUPPORT TECHNOLOGY(AST)**

### **AST 141 Word Processing I (3 cr.)**

Teaches creating and editing documents including line and page layouts columns fonts search/replace cut/paste spell/thesaurus and advanced editing and formatting features of word processing software.  
Prerequisite: AST 101 or equivalent, or IT program head's permission.  
Lecture 3 hours per week.

### **AST 205 Business Communications (3 cr.)**

Teaches techniques of oral and written communications. Emphasizes writing and presenting business-related materials.  
Prerequisite: ENG 111 or equivalent.  
Lecture 3 hours per week.

## **AMERICAN SIGN LANGUAGE(ASL)**

### **ASL 100 Orientation to Acquisition of ASL as an Adult (2 cr.)**

Presents a brief introduction to the U.S. Deaf Community focusing on the differences in language and literature. Introduces many common pitfalls experienced by adults when acquiring ASL as a second language. Provides students with experience bridging spoken English and ASL via use of visual-gestural non-verbal communication. Introduces students to the various ASL and IE curricular options offered at Reynolds.  
Lecture 2 hours per week.

### **ASL 101 American Sign Language I (4 cr.)**

Introduces the fundamentals of American Sign Language (ASL) used by the Deaf Community including basic vocabulary syntax fingerspelling and grammatical non-manual signals. Focuses on communicative competence. Introduces cultural knowledge and increases understanding of the Deaf Community. Part I of II.  
Lecture 4 hours per week.

### **ASL 102 American Sign Language II (4 cr.)**

Introduces the fundamentals of American Sign Language (ASL) used by the Deaf Community including basic vocabulary syntax fingerspelling and grammatical non-manual signals. Focuses on communicative competence. Introduces cultural knowledge and increases understanding of the Deaf Community. Part II of II.  
Prerequisite: A final grade of "C" or better in ASL 101 or program head approval.  
Lecture 4 hours per week.

## **ASL 115 Fingerspelling and Number Use in ASL (2 cr.)**

Provides intensive practice in comprehension and production of fingerspelled words and numbers with emphasis on clarity and accuracy. Focuses on lexicalized fingerspelling and numeral incorporation as used by native users of American Sign Language.  
Prerequisite: ASL 101 or program head placement.  
Lecture 2 hours per week.

## **ASL 125 History and Culture of the Deaf Community I (3 cr.)**

Presents an overview of various aspects of Deaf culture including educational and legal issues. Examines the history of the Deaf Community.  
Prerequisite: Placement for ENG 111 or Co-requisites ENG 111 and EDE 11.  
Lecture 3 hours per week.

## **ASL 195 Topics in ASL: Sign Tuning Lite (1 cr.)**

Provides an opportunity to diagnose areas of language weakness including advanced and colloquial aspects of phonology morphology grammar/syntax semantics variation and historical change.  
Prerequisite: ASL 201 or ASL 295 (ASL III).  
Lecture 1 hour per week.

## **ASL 201 American Sign Language III (3 cr.)**

Develops vocabulary conversational competence and grammatical knowledge with a total immersion approach. Introduces increasingly complex grammatical aspects including those unique to ASL. Discusses culture and literature. Encourages contact with the Deaf Community to enhance linguistic and cultural knowledge. Part I of II.  
Prerequisite: A final grade of "C" or better in ASL 102 or program head approval.  
Lecture 3 hours per week.

## **ASL 202 American Sign Language IV (3 cr.)**

Develops vocabulary conversational competence and grammatical knowledge with a total immersion approach. Introduces increasingly complex grammatical aspects including those unique to ASL. Discusses culture and literature. Encourages contact with the Deaf Community to enhance linguistic and cultural knowledge. Part II of II.  
Prerequisite: A final grade of "C" or better in ASL 201 or program head approval.  
Lecture 3 hours per week.

## **ASL 208 ASL for Classroom Settings (3 cr.)**

Provides extensive instruction of vocabulary and concepts used in content areas covered in elementary and high school classrooms. Focuses on comprehension and production of content-related information in American Sign Language with emphasis on sign production clarity and conceptual accuracy.  
Prerequisite: ASL 102 or program head placement.  
Lecture 3 hours per week.

## **ASL 210 ASL Storytelling (3 cr.)**

Focuses on the elements of storytelling in American Sign Language and the techniques that deaf individuals utilize to pass on the histories and traditions of the deaf community. Emphasizes comprehension and production of short stories in American Sign Language with emphasis on sign production clarity and conceptual accuracy.  
Prerequisite: ASL 295 -- Topics in ASL: American Sign Language IV or program head placement.  
Lecture 3 hours per week.

## **ASL 212 Advanced Fingerspelling and Number Use in ASL (2 cr.)**

Provides intensive practice in advanced comprehension and production of fingerspelled words and numbers with emphasis on clarity and accuracy. Focuses on lexicalized fingerspelling and numeral incorporation as used by native users of American Sign Language.  
Prerequisites: ASL 102 and ASL 115 or program head placement.  
Lecture 2 hours per week.

## **ASL 215 Sign Tuning (3 cr.)**

Provides an opportunity to explore various language elements in American Sign Language (ASL) including advanced and colloquial aspects of phonology morphology grammar/ syntax semantics variation and historical change.  
Prerequisite: A final grade of "C" or better in ASL 201 or program head approval.  
Lecture 3 hours per week.

## **ASL 220 Comparative Linguistics: ASL and English (3 cr.)**

Describes spoken English and ASL (American Sign Language) on five levels: phonological morphological lexical syntactic and discourse. Compares and contrasts the two languages on all five levels using real-world examples. Documents similarities between signed languages and spoken languages in general. Describes the major linguistic components and processes of English and ASL. Introduces basic theories regarding ASL structure. Emphasizes ASL's status as a natural language by comparing and contrasting similarities and unique differences between the two languages.  
Lecture 3 hours per week.

## **ASL 225 Literature of the U.S. Deaf Community (3 cr.)**

Presents an overview of various aspects of literature common in the U.S. Deaf Community including those forms written in English and those forms signed in ASL. Applies the recurring themes and metaphors in the context of the history of the U.S. Deaf Community.  
Prerequisite: ASL 220.  
Lecture 3 hours per week.

## **ASL 225 Literature of the US Deaf Community (4 cr.)**

Presents an overview of various aspects of literature common in the U.S. Deaf Community including those forms written in English and those forms signed in ASL. Applies the recurring themes and metaphors in the context of the history of the U.S. Deaf Community.  
Prerequisites: ASL 220.  
Lecture 4 hours per week.

## **ASL 261 American Sign Language V (3 cr.)**

Develops advanced American Sign Language comprehension and production skills. Emphasizes advanced linguistic aspects of ASL. Presents ASL literary forms. Encourages contact with the deaf community. Part I of II.  
Prerequisite: ASL 295 --Topics in ASL: American Sign Language IV or program head placement.  
Lecture 3 hours per week.

## **ASL 262 American Sign Language VI (3 cr.)**

Develops advanced American Sign Language comprehension and production skills. Emphasizes advanced linguistic aspects of ASL. Presents ASL literary forms. Encourages contact with the deaf community. Part II of II.  
Prerequisite: ASL 295 -- Topics in ASL: American Sign Language IV or program head placement.  
Lecture 3 hours per week.

## **ASL 295 Topics in ASL: American Sign Language III (3 cr.)**

Develops vocabulary conversational competence and grammatical knowledge with a total immersion approach. Introduces increasingly complex grammatical aspects including those unique to ASL. Discusses culture and literature. Encourages contact with the Deaf Community to enhance linguistic and cultural knowledge. Part I of II.  
Prerequisite: ASL 102 or permission of instructor.  
Lecture 3 hours per week.

## **ASL 295 Topics in ASL: American Sign Language IV (3 cr.)**

Develops vocabulary conversational competence and grammatical knowledge with a total immersion approach. Introduces increasingly complex grammatical aspects including those unique to ASL. Discusses culture and literature. Encourages contact with the Deaf Community to enhance linguistic and cultural knowledge. Part II of II.  
Prerequisite: ASL 295 --Topics in ASL: American Sign Language III.  
Lecture 3 hours per week.

## **ASL 295 Topics in American Sign Language: Sign Tuning (3 cr.)**

Provides an opportunity to explore various language elements in ASL including advanced and colloquial aspects of phonology morphology grammar/syntax semantics variation and historical change.  
Prerequisite: ASL 295 -- Topics in ASL: American Sign Language III.  
Lecture 3 hours per week.

## **ARABIC(ARA)**

### **ARA 101 Beginning Arabic I (4 cr.)**

Introduces understanding speaking reading and writing skills and emphasizes basic Arabic sentence structure. Discusses the diversity of cultures in the Arab world. Part I of II.  
Prerequisite: Students must be functionally fluent in English.  
Lecture 4 hours per week.

### **ARA 102 Beginning Arabic II (4 cr.)**

Introduces understanding speaking reading and writing skills and emphasizes basic Arabic sentence structure. Discusses the diversity of cultures in the Arab world. Part II of II.  
Prerequisites: ARA 101 or its equivalent and functional fluency in English.  
Lecture 4 hours per week.

## **ARCHITECTURE(ARC)**

### **ARC 121 Architectural Drafting I (3 cr.)**

Introduces techniques of architectural drafting including lettering dimensioning and symbols. Requires production of plans sections and elevations of a simple building. Studies use of common reference material and the organization of architectural working drawings. Requires development of a limited set of working drawings including a site plan related details and pictorial drawings. Part I of II.  
Prerequisite: DRF 231 or school approval.  
Lecture 2 hours.  
Laboratory 3 hours.  
Total 5 hours per week.

### **ARC 122 Architectural Drafting II (3 cr.)**

Introduces techniques of architectural drafting including lettering dimensioning and symbols. Requires production of plans sections and elevations of a simple building. Studies use of common reference material and the organization of architectural working drawings. Requires development of a limited set of working drawings including a site plan related details and pictorial drawings. Part II of II.  
Credit will not be awarded for both ARC 122 and ARC 124.  
Prerequisites: ARC121 and DRF 231 or instructor's approval.  
Lecture 2 hours.  
Laboratory 3 hours.  
Total 5 hours per week.

## **ARC 131 Materials and Methods of Construction I (3 cr.)**

Covers use of wood as a building material in all phases of construction. Deals with species used growth characteristics hygroscopic properties and applications of lumber and plywood. Includes wood framing systems pre-manufactured components modular systems windows doors cabinets and flooring.  
Lecture 3 hours per week.

## **ARC 132 Materials and Methods of Construction II (3 cr.)**

Studies masonry and concrete materials related to the construction industry: materials mixtures handling and placing finishing and curing and protection of concrete work. Includes brick and cementitious materials mortar and workmanship and iron steel and aluminum as used in construction.  
Lecture 3 hours per week.

## **ARC 201 History of Modern Architecture (3 cr.)**

Surveys architecture from 19th century to present with emphasis on philosophy of design form and structure.  
Prerequisite: ENG 111 or placement in co-requisites ENG 111 and EDE 11.  
Lecture 3 hours per week.

## **ARC 221 Architectural CAD Applications Software I (3 cr.)**

Teaches the principles and techniques of architectural drawing practices through the use of architecture-specific CAD software. Utilizes the commands and features of the software to generate drawings that emphasize architectural design and structural systems. Use local prerequisites.  
Lecture 2 hours.  
Laboratory 2 hours.  
Total 4 hours per week.

## **ARC 222 Architectural CAD Applications Software II (3 cr.)**

Uses advanced features of architectural CAD software to teach students to develop working drawings and details that adhere to the practices and techniques of architectural drawing principles.  
Prerequisite: ARC 221.  
Lecture 2 hours.  
Laboratory 2 hours.  
Total 4 hours per week.

## **ARC 241 Building Mechanical Systems (3 cr.)**

Studies components and design for systems in residential and commercial building. Covers plumbing supply and drainage including storm drainage and private sewage disposal. Requires calculation of overall heat balances for buildings as basis for design of heating and cooling systems.  
Prerequisite: ARC 122 or equivalent.  
Lecture 3 hours per week.

## **ARC 242 Building Electrical Systems (3 cr.)**

Studies components and design for lighting and electrical systems security fire and smoke alarms.  
Lecture 3 hours per week.

## **ARTS(ART)**

### **ART 100 Art Appreciation (3 cr.)**

Introduces art from prehistoric times to the present day. Describes architectural styles sculpture photography printmaking and painting techniques.  
Prerequisites: Placement in English 111 or placement in Co-requisites ENG 111 and EDE 11.  
Lecture 3 hours per week.

### **ART 101 History and Appreciation of Art I (3 cr.)**

Presents the history and interpretation of architecture sculpture and painting. Begins with prehistoric art and follows the development of western civilization to the present. Part I of II.  
Prerequisites: Placement in English 111 or placement in Co-requisites ENG 111 and EDE 11.  
Lecture 3 hours per week.

### **ART 102 History and Appreciation of Art II (3 cr.)**

Presents the history and interpretation of architecture sculpture and painting. Begins with prehistoric art and follows the development of western civilization to the present. Part II of II.  
Prerequisites: Placement in English 111 or placement in Co-requisites ENG 111 and EDE 11.  
Lecture 3 hours per week.

### **ART 106 History of Modern Art (3 cr.)**

Surveys the history of modern architecture sculpture painting and graphic arts in representational and non-representational forms. Focuses on the periods and movements that influenced the arts of the Twentieth Century. Emphasizes contemporary art forms particularly the interaction between art and society industry and design.  
Prerequisite: Placement in English 111 or placement in Co-requisites ENG 111 and EDE 11.  
Lecture 3 hours per week.

### **ART 121 Drawing I (4 cr.)**

Develops basic drawing skills and understanding of visual language through studio instruction/lecture. Introduces concepts such as proportion space perspective tone and composition as applied to still life landscape and the figure. Uses drawing media such as pencil charcoal ink wash and color media. Includes field trips and gallery assignments as appropriate. Part I of II.  
Lecture 2 hours.  
Studio instruction 4 hours.  
Total 6 hours per week.

### **ART 122 Drawing II (4 cr.)**

Develops basic drawing skills and understanding of visual language through studio instruction/lecture. Introduces concepts such as proportion space perspective tone and composition as applied to still life landscape and the figure. Uses drawing media such as pencil charcoal ink wash and color media. Includes field trips and gallery assignments as appropriate. Part II of II.  
Prerequisite: ART 121 or permission of the instructor.  
Lecture 2 hours.  
Studio instruction 4 hours.  
Total 6 hours per week.

### **ART 125 Introduction to Painting (3 cr.)**

Introduces study of color composition and painting techniques. Places emphasis on experimentation and enjoyment of oil and/or acrylic paints and the fundamentals of tools and materials.  
Lecture 2 hours.  
Studio instruction of 3 hours.  
Total 5 hours per week.

### **ART 131 Fundamentals of Design I (4 cr.)**

Explores the concepts of two- and three-dimensional design and color. May include field trips as required. Part I of II.  
Lecture 2 hours.  
Studio instruction 4 hours.  
Total 6 hours per week.

### **ART 133 Visual Arts Foundation (4 cr.)**

Covers tools and techniques design concepts and principles color theory and an introduction to the computer for graphic use. Applies to all fields of Visual Art.  
Lecture 2 hours.  
Laboratory 4 hours.  
Total 6 hours per week.

### **ART 138 Figure Drawing (3 cr.)**

Develops drawing skills for the beginning and experienced students. Explores a broad range of drawing problems dealing with the human figure in costume using various media and techniques.  
Prerequisite: ART 120 or divisional approval.  
Lecture 2 hours.  
Studio instruction 4 hours.  
Total 6 hours per week.

### **ART 217 Electronic Graphic Design I (4 cr.)**

Focuses on creative concepts of graphic design problem-solving using electronic technology; includes techniques specific to computer-generated publication design and imagery. Required for students pursuing careers in graphic design with emphasis on use of the computer. Part I of II.  
Prerequisites: ART 131 and passing score on computer competency exam or satisfactory completion of ITE 115 or CSC 155 or equivalent.  
Lecture 2 hours.  
Studio Instruction 4 hours.  
Total 6 hours per week.

## **ART 241 Painting I (4 cr.)**

Introduces abstract and representational painting in acrylic and/or oil with emphasis on color composition and value. Part I of II. Prerequisite: ART 122 or instructor's approval. Lecture 2 hours. Studio instruction 4 hours. Total 6 hours per week.

## **ART 242 Painting II (4 cr.)**

Introduces abstract and representational painting in acrylic and/or oil with emphasis on color composition and value. Part II of II. Prerequisite: ART 122 or divisional approval. ART 241 and 242 must be taken in order except with instructor's approval. Lecture 2 hours. Studio instruction 4 hours. Total 6 hours per week.

## **ART 243 Watercolor I (3 cr.)**

Presents abstract and representational painting in watercolor with emphasis on design color composition technique and value. Prerequisites: ART 131 or divisional approval. Part I of II. Lecture 1.5 hours. Studio Instruction 3.5 hours. Total 5 hours per week.

## **ART 293 Studies in Art: Painting (4 cr.)**

Provides directed study in painting in the student's chosen medium with emphasis on investigation of personal style and development of portfolio. Prerequisite: ART 242 or instructor's approval. Lecture 2 hours. Studio instruction 4 hours. Total 6 hours per week.

## **AUTOMOTIVE(AUT)**

### **AUT 101 Introduction to Automotive Systems (3 cr.)**

Introduces fundamental systems of automobile the engine fuel exhaust electric ignition lubrication cooling transmission steering brake and suspension systems. Teaches theory and function of each system. Demonstrates operation. Lecture 2 hours. Laboratory 2 hours. Total 4 hours per week.

### **AUT 111 Automotive Engines I (4 cr.)**

Presents analysis of power cylinder condition valves and bearings in the automotive engine to establish the present condition repairs or adjustments. Lecture 3 hours. Laboratory 3 hours. Total 6 hours per week.

### **AUT 126 Auto Fuel and Ignition Systems (5 cr.)**

Studies automobile ignition and fuel systems and their functions in operation of the engine. Includes carburetors fuel pumps ignition systems troubleshooting engine testing and adjustment and tune-up. Prerequisite AUT 242. Lecture 4 hours. Laboratory 3 hours. Total 7 hours per week.

### **AUT 129 Automotive Electronic Safety Control Systems (3 cr.)**

Introduces advanced automotive electronic safety control systems including driver alert unintended lane departure blind spot detection active headlights and electronic control of braking systems. Addresses diagnostic procedures and maintenance of electronic safety control systems and the theory function and operation of each system. Lecture 3 hours per week.

### **AUT 136 Automotive Vehicle Inspection (2 cr.)**

Presents information on methods for performing automotive vehicle safety inspection. Lecture 1 hour. Laboratory 2 hours. Total 3 hours per week.

### **AUT 155 Basic Automotive Engine Performance Diagnostics (5 cr.)**

Introduces basic engine performance concepts including theory and practical application. Covers vehicle communications scan-tool diagnostics basic engine mechanical tests and diagnosing and repairing vehicle drivability issues. Provides preparation for the Automotive Service Excellence (ASE) A8 Engine Performance Certification examination. Prerequisites: AUT 111 and AUT 245, or program head approval. Lecture 2 hours. Laboratory 6 hours. Total 8 hours per week.

### **AUT 156 Small Gasoline Engines (2 cr.)**

Studies small gasoline engine operating principles construction design variety and their many purposes. Gives instruction on two-cycle and four-cycle small gas engines their construction design fuel system ignition systems and lubricating systems. Demonstrates disassembly reconditioning overhaul and reassembly in the lab. Lecture 1 hour. Laboratory 3 hours. Total 4 hours per week.

### **AUT 165 Auto Diagnosis and Tune-Up (2 cr.)**

Presents the techniques for diagnosis of malfunctions in systems of the automobile. Uses dynamometers oscilloscopes and other specialized diagnostic and testing equipment. Demonstrates tune-up of conventional and rotary engines. Lecture 1 hour. Laboratory 3 hours. Total 4 hours per week.

### **AUT 178 Automotive Final Drive and Manual Transmission Systems (4 cr.)**

Presents the operation design construction and repair of manual transmissions and final drive systems for both front and rear drive vehicles including clutches synchronizers and torque multiplication/gear reduction along with differentials transmission/ transaxles drive axles U-joints CV joints four-wheel drive and all-wheel drive systems. Prerequisite: Completion of AUT 101 - Introduction to Automotive Systems is preferred. Lecture 3 hours. Laboratory 3 hours. Total 6 hours per week.

### **AUT 197 Cooperative Education in Automotive Mechanics (2 cr.)**

Supervises on-the-job training for pay in approved business industrial and service firms coordinated by the college's cooperative education office. Applies to all occupational-technical curricula at the discretion of the college. Provides on-the-job training for automotive technology students. Laboratory 10 hours per week.

### **AUT 199 Supervised Study - Auto Diagnosis and Tune-Up (2 cr.)**

Presents the techniques for diagnosis of malfunctions in systems of the automobile. Uses dynamometers oscilloscopes and other specialized diagnostic and testing equipment. Demonstrates tune-up of conventional and rotary engines. Prerequisite: AUT 126. Lecture 1 hour. Laboratory 3 hours. Total 4 hours per week.

### **AUT 229 Applied Automotive Electronic Guidance and Safety Control Systems (3 cr.)**

Covers advanced automotive electronic systems including GPS navigation communication and guidance control systems. Addresses the theory function operation diagnostic procedures and maintenance of each system. Emphasizes safety. Prerequisite: AUT 129. Lecture 1 hour. Laboratory 3 hours. Total 4 hours per week.

## **AUT 230 Introduction to Alternative Fuels and Hybrid Vehicles (3 cr.)**

Introduces current trends in alternative fueled vehicles including current alternative fueled vehicles and the implication and safety precautions necessary for working on hybrid vehicle systems.  
Lecture 3 hours per week.

## **AUT 235 Automotive Heating and Air Conditioning (2 cr.)**

Studies separate and combined automotive heaters and air conditioning including direct and vacuum-operated controls basic principles of refrigeration adjustment general servicing and charging of air-conditioning systems.  
Lecture 1 hour.  
Laboratory 2 hours.  
Total 3 hours per week.

## **AUT 236 Automotive Climate Control (4 cr.)**

Introduces principles of refrigeration air-conditioning controls and adjustment and general servicing of automotive air-conditioning systems.  
Prerequisite: AUT 241.  
Lecture 3 hours.  
Laboratory 3 hours.  
Total 6 hours per week.

## **AUT 241 Automotive Electricity I (3 cr.)**

Introduces electricity and magnetism symbols and circuitry as applied to alternators regulators starters lighting systems instruments and gauges and accessories. Part I of II.  
Lecture 2 hours.  
Laboratory 3 hours.  
Total 5 hours per week.

## **AUT 242 Automotive Electricity II (3 cr.)**

Introduces electricity and magnetism symbols and circuitry as applied to alternators regulators starters lighting systems instruments and gauges and accessories. Part II of II.  
Prerequisite: AUT 241.  
Lecture 2 hours.  
Laboratory 3 hours.  
Total 5 hours per week.

## **AUT 243 Automotive Control Electronics (4 cr.)**

Introduces advanced automotive technologies and covers the electronic control systems found in hybrid electric vehicle systems battery electric vehicle systems and fuel cell electric vehicle systems. Teaches theory function and operation of each electronic control system and provides students an opportunity to perform diagnostic procedures and maintenance for these systems. Focuses on safety.  
Prerequisite: AUT 245 or program head approval.  
Lecture 3 hours.  
Laboratory 3 hours.  
Total 6 hours per week.

## **AUT 245 Automotive Electronics (4 cr.)**

Introduces the field of electronics as it applies to the modern automobile. Emphasizes basic circuit operation diagnosis and repair of digital indicator and warning systems.  
Prerequisite: AUT 241.  
Lecture 3 hours.  
Laboratory 3 hours.  
Total 6 hours per week.

## **AUT 251 Automatic Transmissions (4 cr.)**

Studies several types of automatic transmissions/transaxles torque converters and their principles of operation. Includes adjustment maintenance and rebuilding.  
Prerequisites: Completion of AUT 101 - Introduction to Automotive Systems and AUT 241 - Electricity I is preferred.  
Lecture 3 hours.  
Laboratory 3 hours.  
Total 6 hours per week.

## **AUT 251 Automatic Transmissions (3 cr.)**

Studies several types of automatic transmissions/transaxles torque converters and their principles of operation. Includes adjustment maintenance and rebuilding.  
Prerequisites: Completion of AUT 101 and AUT 241 is preferred.  
Lecture 2 hours.  
Laboratory 3 hours.  
Total 5 hours per week.

## **AUT 253 Electric Vehicles (4 cr.)**

Covers electric vehicle systems and advanced automotive electronics. Provides students an opportunity to perform diagnostic procedures and maintenance of electric vehicle systems. Teaches theory function and operation of electric vehicle systems. Focuses on safety.  
Prerequisites: Experience in the automotive repair field, AUT 241, AUT 242, AUT 245, and AUT 230.  
Lecture 3 hours.  
Laboratory 3 hours.  
Total 6 hours per week.

## **AUT 254 Plug-In Hybrid Vehicles (4 cr.)**

Covers plug-in hybrid electric vehicle systems extended-range electric vehicle systems and advanced automotive electronics. Teaches theory function and operation of each plug-in hybrid vehicle system and provides students an opportunity to perform diagnostic procedures and maintenance for these vehicles. Focuses on safety.  
Prerequisites: Experience in the automotive repair field, AUT 241, AUT 242, AUT 245, and AUT 230 or approval of the program head.  
Lecture 3 hours.  
Laboratory 3 hours.  
Total 6 hours per week.

## **AUT 256 Fuel Cell Electric Vehicles (4 cr.)**

Introduces advanced automotive technologies and covers hydrogen fuel cell electric vehicle systems and advanced automotive electronics. Teaches theory function and operation of fuel cell electric vehicles and provides students an opportunity to perform diagnostic procedures and maintenance for fuel cell electric vehicle systems. Focuses on safety.  
Prerequisite: AUT 245 or program head approval.  
Lecture 3 hours.  
Laboratory 3 hours.  
Total 6 hours per week.

## **AUT 265 Automotive Braking Systems (3 cr.)**

Presents operation design construction repair and servicing of braking system including Anti-Lock Brake Systems (ABS). Explains uses of tools and test equipment evaluation of test results and estimation of repair cost for power standard and disc brakes.  
Lecture 2 hours.  
Laboratory 3 hours.  
Total 5 hours per week.

## **AUT 266 Auto Alignment, Suspension, and Steering (3 cr.)**

Introduces use of alignment equipment in diagnosing adjusting and repairing front and rear suspensions. Deals with repair and servicing of power and standard steering systems.  
Lecture 1 hour.  
Laboratory 6 hours.  
Total 7 hours per week.

## **AUT 275 Shop Management (2 cr.)**

Studies shop layout personnel management cost analysis record keeping and quality control. Discusses shop manager service salesman and service writer roles in customer relations.  
Lecture 2 hours per week.

## **AUT 297 Cooperative Education in Automotive Mechanics (2 cr.)**

Supervises on-the-job training for pay in approved business industrial and service firms coordinated by the college's cooperative education office. Applies to all occupational-technical curricula at the discretion of the college. Provides on-the-job training for automotive technology students.  
Laboratory 10 hours per week.

## **BASIC SKILLS(BSK)**

### **BSK 1 Whole Numbers (1 cr.)**

Covers whole number principles and computations. Develops the mathematical mastery necessary for MTE 1. Credits not applicable toward graduation.  
Lecture 4 hours per week for ¼ semester.

## **BSK 41 Language Arts, Level 1 (2 cr.)**

Introduces basic reading and writing skills in preparation for subsequent courses by focusing on vocabulary development (simple phonics dictionary skills) conventions of Standard English (basic grammar punctuation sentence structure) reading comprehension (reading process topics) study skills (time management textbook format) and critical thinking skills (fact and opinion).

Lecture 2 hours per week.

## **BIOLOGY(BIO)**

### **BIO 1 Foundations of Biology (4 cr.)**

Develops a basic understanding of plant and animal form function and relationships. Prepares students who have a deficiency in high school biology. Credits cannot be included in any of the college's academic program. Lecture 4 hours per week.

### **BIO 100 Basic Human Biology (3 cr.)**

Presents basic principles of human anatomy and physiology. Discusses cells tissues and selected human systems. Not intended for students in college transfer AA or AS degree. Prerequisite: Placement in ENG 111 or placement in co-requisites ENG 111 and EDE 11 by placement test or instructor/advisory approval. Lecture 3 hours per week.

### **BIO 101 General Biology I (4 cr.)**

Focuses on foundations in cellular structure metabolism and genetics in an evolutionary context. Explores the core concepts of evolution; structure and function; information flow storage and exchange; pathways and transformations of energy and matter; and systems biology. Emphasizes process of science interdisciplinary approach and relevance of biology to society. Part I of a two-course sequence. Prerequisite: Placement in ENG 111 or placement in co-requisites ENG 111 and EDE 11 and competency in Introductory Algebra MDE 010 as demonstrated through placement or by satisfactorily completing MDE 010. Lecture 3 hours. Recitation and Laboratory 3 hours. Total 6 hours per week.

### **BIO 102 General Biology II (4 cr.)**

Focuses on diversity of life anatomy and physiology of organisms and ecosystem organization and processes in an evolutionary context. Explores the core concepts of evolution; structure and function; information flow storage and exchange; pathways and transformations of energy and matter; and systems biology. Emphasizes process of science interdisciplinary approach and relevance of biology to society. Part II of a two-course sequence.

Prerequisite: Satisfactory completion of BIO 101.

Lecture 3 hours.

Recitation and Laboratory 3 hours.

Total 6 hours per week.

### **BIO 106 Life Science (4 cr.)**

Provides a topical approach to basic biological principles. Includes the scientific process characteristics of living organisms molecular aspects of cells bioenergetics cellular and organismal reproduction genetics evolution some human organ systems and ecology. Designed for the non-science major. Credits in this course do not count toward the AS in Science degree options.

Prerequisite: Placement in ENG 111 or placement in co-requisites ENG 111 and EDE 11

Lecture 3 hours.

Laboratory 3 hours.

Total 6 hours per week.

### **BIO 107 Biology of the Environment (4 cr.)**

Presents the basic concepts of environmental science through a topical approach. Includes the scientific method population growth and migration use of natural resources and waste management ecosystem simplification and recovery evolution biogeochemical cycles photosynthesis and global warming geological formations atmosphere and climate ozone depletion pollution examples and anti-pollution laws and acid deposition. Environmental Sustainability Designation: Course content related to the study of sustainable development.

Prerequisite: Placement in ENG 111 or placement in co-requisites ENG 111 and EDE 11 by placement test or instructor/advisory approval.

Lecture 3 hours.

Laboratory 3 hours.

Total 6 hours per week.

### **BIO 141 Human Anatomy and Physiology I (4 cr.)**

Integrates anatomy and physiology of cells tissues organs and systems of the human body. Integrates concepts of chemistry physics and pathology. Part I of II.

Prerequisites: (1) BIO 101 (or an equivalent) or high school biology and chemistry completed within seven years of registering for this course with a grade of C or better or a score of 75% or higher on the Test of Essential Academic Skills (TEAS) or advisor approval, and (2) Placement in ENG 111 or placement in co-requisites ENG 111 and EDE 11 by placement test, or instructor/advisor approval.

Lecture 3 hours.

Laboratory 3 hours.

Total 6 hours per week.

### **BIO 142 Human Anatomy and Physiology II (4 cr.)**

Integrates anatomy and physiology of cells tissues organs and systems of the human body. Integrates concepts of chemistry physics and pathology. Part II of II.

Prerequisite: BIO 141.

Lecture 3 hours.

Laboratory 3 hours.

Total 6 hours per week.

### **BIO 145 Basic Human Anatomy & Physiology (4 cr.)**

Introduces human anatomy and physiology. Covers basic chemical concepts cellular physiology anatomy and physiology of human organ systems.

Laboratory 3 hours.

Total 6-7 hours per week.

### **BIO 149 Microbiology for Allied Health (1 cr.)**

Studies the characteristics of microorganisms that are especially important to programs in the Allied Health fields. This course also emphasizes these characteristics in regard to individual and community health.

Prerequisites: ENG 111, MTH 126, and BIO 141 (or NAS 161 or BIO 231)

### **BIO 150 Introductory Microbiology (4 cr.)**

Studies the general characteristics of microorganisms. Emphasizes their relationships to individual and community health.

Prerequisites: Placement in ENG 111 or placement in co-requisites ENG 111 and EDE 11 and competency in Introductory Algebra MDE 010 as demonstrated through placement or by satisfactorily completing MDE 010.

Lecture 3 hours.

Recitation and laboratory 3 hours.

Total 6 hours per week.

## **BIO 205 General Microbiology (4 cr.)**

Examines morphology genetics physiology ecology and control of microorganisms. Emphasizes application of microbiological techniques to selected fields.  
Prerequisites: BIO 101-102 and CHM 111-112 or equivalent, or permission of instructor. CHM 101-102 are acceptable equivalent courses. Credits for CHM 101-102 do not count toward the AS in Science degree.  
Lecture 3 hours.  
Recitation and laboratory 3 hours.  
Total 6 hours per week.

## **BIO 206 Cell Biology (4 cr.)**

Introduces the ultrastructure and functions of cells. Emphasizes cell metabolism cell division and control of gene expression.  
Prerequisite: One year of college biology and one year of college chemistry.  
Lecture 3 hours.  
Recitation and Laboratory 3 hours.  
Total 6 hours per week.

## **BIO 231 Human Anatomy and Physiology I (4 cr.)**

Integrates the study of gross and microscopic anatomy with physiology emphasizing the analysis and interpretation of physiological data. Part I of II.  
Prerequisites: One year of college biology and one year of college chemistry or school approval.  
Lecture 3 hours.  
Recitation and Laboratory 3 hours.  
Total 6 hours per week.

## **BIO 232 Human Anatomy and Physiology II (4 cr.)**

Integrates the study of gross and microscopic anatomy with physiology emphasizing the analysis and interpretation of physiological data. Part II of II.  
Prerequisites: One year of college biology and one year of college chemistry or school approval and BIO 231.  
Lecture 3 hours.  
Recitation and Laboratory 3 hours.  
Total 6 hours per week.

## **BIO 256 General Genetics (4 cr.)**

Explores the principles of genetics ranging from classical Mendelian inheritance to the most recent advances in the biochemical nature and function of the gene. Includes experimental design and statistical analysis.  
Prerequisites: BIO 101, BIO 102, CHM 111, and CHM 112.  
Lecture 3 hours.  
Recitation and laboratory 3 hours.  
Total 6 hours per week.

## **BIO 270 General Ecology (3 cr.)**

Studies interrelationships between organisms and their natural and cultural environments with emphasis on populations communities and ecosystems.  
Prerequisites: BIO 101 and 102 or departmental approval.  
Lecture 2 hours.  
Recitation and laboratory 3 hours.  
Total 5 hours per week.

## **BIO 299 Supervised Study in Biology: Advanced Microbiology (4 cr.)**

Assigns problems for independent study incorporating previous instruction and supervised by the instructor. Provides students the opportunity to research scientific literature on their selected topic design and conduct a lab study assemble and analyze observed lab data and complete a final report on this research.  
Prerequisites: One year of college biology (BIO 101 and 102) and one semester of college chemistry (CHM 111 or CHM 101) or faculty approval.  
Lecture 4 hours per week.

## **BIO 299 Supervised Study in Biology: Intermediate Microbiology (2 cr.)**

Assigns problems for independent study incorporating previous instruction and supervised by the instructor. Provides students the opportunity to research scientific literature on their selected topic design and conduct a lab study assemble and analyze observed lab data and complete a final report on this research.  
Prerequisites: One year of college biology and one semester of college chemistry or faculty approval.  
Lecture 2 hours per week.

## **BIO 299 Supervised Study in Ecology: Advanced (4 cr.)**

Assigns problems for independent study incorporating previous instruction and supervised by the instructor. Provides students an opportunity to research scientific literature on their selected topic design a field study to be conducted assemble and analyze observed field data and complete a final report on this research.  
Prerequisites: One year of college biology (including BIO 102) and MTH 161 or MTH 167 or faculty approval.  
Lecture 2 hours.  
Laboratory 6 hours.  
Total 8 hours per week.

## **BIO 299 Supervised Study in Ecology: Intermediate (2 cr.)**

Assigns problems for independent study incorporating previous instruction and supervised by the instructor. Provides students the opportunity to research scientific literature on their selected topic design a field study to be conducted assemble and analyze observed field data and complete a final report on this research.  
Prerequisites: One year of college biology (including BIO 102) and MTH 161 or MTH 167 or faculty approval.  
Lecture 1 hour.  
Laboratory 3 hours.  
Total 4 hours per week.

## **BUILDING AND CONSTRUCTION TECHNOLOGIES(BLDG)**

### **BLDG 510013 National Center for Construction Education & Research (NCCER) - Introductory Craft Skills (Non-Credit)**

The National Center for Construction Education and Research (NCCER) is the credentialing body for the NCCER CORE Curriculum certification. The NCCER CORE training course is a prerequisite to all other NCCER Level 1 craft curriculum in construction and industrial occupations. This certification-training course provides the foundational skills needed to continue education in any skilled-craft. Non-Credit

## **BUILDING(BLD)**

### **BLD 101 Construction Management I (3 cr.)**

Presents overviews of all phases of construction project management. Introduces students to philosophy responsibilities methodology and techniques of the construction process. Introduces topics related to the construction and design industries organizations construction contracts bidding procedures insurance taxes bonding cost accounting business methods including basic computer usage safety and general project management procedures.  
Lecture 3 hours per week.

### **BLD 103 Principles of Residential Building Construction Inspection (3 cr.)**

Introduces general principles of residential building inspection including materials foundations framing finishing and building codes.  
Lecture 3 hours per week.

## **BLD 199 Supervised Study in Building: Construction Management I (3 cr.)**

Presents overviews of all phases of construction project management. Introduces students to philosophy responsibilities methodology and techniques of the construction process. Introduces topics related to the construction and design industries organizations construction contracts bidding procedures insurance taxes bonding cost accounting business methods including basic computer usage safety and general project management procedures.  
Lecture 3 hours per week.

## **BLD 200 Sustainable Construction (3 cr.)**

Teaches students the specialized construction management best practices that must be utilized when managing a sustainable project. Includes industry standards for green construction as identified by popular building rating systems.  
Lecture 3 hours per week.

## **BLD 210 Building Structures (3 cr.)**

Introduces analysis and design of steel wood and reinforced concrete structural members including loads reactions bending moments stresses and deflection for selection of beam and column sizes. Considers bolted and welded connections in steel design. Introduces determination of reinforcing steel sizes and arrangements in concrete members.  
Prerequisite: MTH 131.  
Lecture 3 hours per week.

## **BLD 231 Construction Estimating I (3 cr.)**

Focuses on materials take-off and computing quantities from working drawings and specifications. Includes methods for computing quantities of concrete steel masonry roofing and excavation. Deals with pricing building components materials and processes as well as transportation and handling costs markup discount procedures equipment costs and labor rates.  
Prerequisites: ARC 131 and ARC 132 or instructor's approval.  
Lecture 3 hours per week.

## **BLD 247 Construction Planning and Scheduling (3 cr.)**

Introduces principles of planning and scheduling a construction project. Includes sequence of events and processes on a construction site. Studies scheduling techniques including the critical path method.  
Lecture 3 hours per week.

## **BLD 299 Supervised Study in Building: Construction Planning and Scheduling (3 cr.)**

Introduces principles of planning and scheduling of a construction project. Includes sequence of events and processes on a construction site. Studies scheduling techniques including the critical path method.  
Lecture 3 hours per week.

## **BUSINESS MANAGEMENT/ ADMINISTRATION(BUS)**

### **BUS 100 Introduction to Business (3 cr.)**

Presents a broad introduction to the functioning of business enterprise within the U.S. economic framework. Introduces economic systems essential elements of business organization production human resource management marketing finance and risk management. Develops business vocabulary.  
Lecture 3 hours per week.

### **BUS 111 Principles of Supervision I (3 cr.)**

Teaches the fundamentals of supervision including the primary responsibilities of the supervisor. Introduces factors relating to the work of supervisor and subordinates. Covers aspects of leadership job management work improvement training and orientation performance evaluation and effective employee/supervisor relationships.  
Lecture 3 hours per week.

### **BUS 116 Entrepreneurship (3 cr.)**

Presents the various steps considered necessary when going into business. Includes areas such as product-service analysis market research evaluation setting up books ways to finance start-up operations of the business development of business plans buyouts versus starting from scratch and franchising. Uses problems and cases to demonstrate implementation of these techniques.  
Lecture 3 hours per week.

### **BUS 117 Leadership Development (3 cr.)**

Covers interpersonal relations in hierarchical structures. Examines the dynamics of teamwork motivation handling change and conflict and how to achieve positive results through others.  
Lecture 3 hours per week.

### **BUS 125 Applied Business Mathematics (3 cr.)**

Applies mathematical operations to business process and problems such as wages and payroll sales and property taxes checkbook records and bank reconciliation depreciation overhead distribution of profit and loss in partnerships distribution of corporate dividends commercial discounts markup markdown simple interest present values bank discount notes multiple payment plans compound interest annuities sinking funds and amortization.  
Lecture 3 hours per week.

### **BUS 165 Small Business Management (3 cr.)**

Identifies management concerns unique to small businesses. Introduces the requirements necessary to initiate a small business and identifies the elements comprising a business plan. Presents information establishing financial and administrative controls developing a marketing strategy managing business operations and the legal and government relationships specific to small businesses.  
Prerequisite: BUS 116 or BUS 200 or school approval.  
Lecture 3 hours per week.

### **BUS 200 Principles of Management (3 cr.)**

Teaches management and the management functions of planning organizing leading and controlling. Focuses on application of management principles to realistic situations managers encounter as they attempt to achieve organizational objectives.  
Lecture 3 hours per week.

### **BUS 201 Organizational Behavior (3 cr.)**

Presents a behaviorally-oriented course combining the functions of management with the psychology of leading and managing people. Focuses on the effective use of human resources through understanding human motivation and behavior patterns conflict management and resolution group functioning and process the psychology of decision-making and the importance of recognizing and managing change.  
Lecture 3 hours per week.

### **BUS 205 Human Resource Management (3 cr.)**

Introduces employment selection and placement of personnel forecasting job analysis job descriptions training methods and programs employee evaluation systems compensation benefits and labor relations.  
Lecture 3 hours per week.

### **BUS 208 Quality and Productivity Management (3 cr.)**

Focuses on the key quality improvement concepts regarding products and services customers and suppliers and systems and processes that make quality a part of the work life of an organization. Emphasizes the role of teams including team meeting skills and techniques and a variety of quality improvement tools such as flowcharts run charts Pareto diagrams cause and effect diagrams evaluation matrices and implementation road maps.  
Lecture 3 hours per week.

## **BUS 209 Continuous Quality Improvement (3 cr.)**

Presents the different philosophies in Quality Control. Introduces students to Process Improvement Team Development Consensus Building and Problem-Solving Strategies. Identifies methods for Process Improvement in manufacturing and service organizations which includes Statistical Process Control when used in the quality control function of business and industry.  
Lecture 3 hours per week.

## **BUS 220 Introduction to Business Statistics (3 cr.)**

Introduces statistics as a tool in decision-making. Emphasizes ability to collect present and analyze data. Employs measures of central tendency and dispersion statistical inference index numbers probability theory and time series analysis.  
Lecture 3 hours per week.

## **BUS 240 Introduction to Business Law (3 cr.)**

Presents an introduction to the American legal system including an overview of the courts civil and criminal law. Develops an in-depth understanding of contracts agency law and business organizations. Also includes an overview of property UCC Sales and Commercial Paper.  
Lecture 3 hours per week.

## **BUS 260 Planning for Small Business (3 cr.)**

Provides knowledge of the development of a business plan which can be used to acquire capital and serve as a management guide. Combines knowledge that has been acquired in the areas of planning management and finance using pro forma statements and marketing. Covers internet-searching techniques. Recommended as a capstone course.  
Lecture 3 hours per week.

## **BUS 265 Ethical Issues in Management (3 cr.)**

Examines the legal ethical and social responsibilities of management. May use cases to develop the ability to think and act responsibly.  
Lecture 3 hours per week.

## **BUS 290 Coordinated Internship in Business Management and Administration (3 cr.)**

Supervises on-the-job training in selected business industrial or service firms coordinated by the college. Credit/practice ratio not to exceed 1:5 hours. May be repeated for credit. Prerequisite: Program head approval is required for enrollment in this course. Variable hours

## **BUS 298 Seminar and Project in Business Management and Administration (3 cr.)**

Requires completion of a project or research report related to the student's occupational objective and a study of approaches to the selection and pursuit of career opportunities in the field. Prerequisite: Students should have completed most of the management courses before enrolling in this course.  
Lecture 3 hours per week.

## **BUSINESS, PROFESSIONAL DEVELOPMENT, AND MANAGEMENT (BUSC)**

### **BUSC 300006 National Retail Certification in Customer Service & Sales (Non-Credit)**

This course is designed to capture the core customer service duties for a broad range of entry-level through first-line supervisory positions across sales and service industries. This certification is industry-driven endorsed credential that help employers distinguish and recognize qualified customer service professionals and define career advancement opportunities.  
Non-Credit

## **CENTRAL STERILE PROCESSING (CSP)**

### **CSP 101 Introduction to Central Sterile Services (1 cr.)**

Introduces students to the central service area of health care facilities and the responsibilities and role of the Certified Registered Central Service Technician (CRCST). Explores the practical application of concepts and procedures such as regulations and standards safety personal protective equipment (PPE) universal precautions and the work flow of the central service department. Discusses disinfection decontamination transportation of soiled items and cleaning processes. Explores the basics of instrumentation assembly and how to process instruments including disassembly.  
Lecture 1 hour per week.

### **CSP 106 Surgical Instrumentation (1 cr.)**

Prepares the student to visually identify surgical instruments and distinguish category use and name of each instrument. Emphasizes quality assurance and provides the student with the skills to package and inspect instrumentation and equipment for sterilization.  
Laboratory 3 hours per week.

## **CSP 107 Fundamentals of Central Sterile Services (1 cr.)**

Prepares the student for entry level practice in assembly area of the central service department. Covers the packaging process and sterilization method with an emphasis on disposable packaging materials package closure methods package labeling sterility maintenance selection of appropriate packing material and identification of instruments by category use and name. Emphasizes quality assurance to enable the student to inspect assemble and prepare instrumentation for packaging.  
Lecture 1 hour per week.

## **CSP 135 Central Sterile Infection Control (2 cr.)**

Introduces the fundamentals of infection control. Content will include an introduction to concepts of microbiology including cell structure and theory microbial function human and pathogen relationships infectious process blood-borne and airborne pathogens defense microorganisms and principles of microbial control and destruction.  
Lecture 2 hours per week.

## **CSP 191 Fundamental Clinical Applications (3 cr.)**

Provides students hands-on practice in the clinical setting of central sterile service with an emphasis on the decontamination and processing areas. Provides the clinical experience required for International Association of Healthcare Central Service Materiel Management (IAHCSMM) certification.  
Laboratory 9 hours per week.

## **CSP 205 Intermediate Central Sterile Services (1 cr.)**

Prepares the student for point-of-use processing immediate-use steam sterilization and high-heat and low-heat sterilization methods. Emphasizes proper procedures involved in transporting sterile goods through facilities and between various clinical sites and quality assurance to ensure customer satisfaction and safety records maintenance sterile storage and central service inventory. Prerequisite: CSP 107.  
Lecture 1 hour per week.

## **CSP 291 Intermediate Clinical Applications (3 cr.)**

Provides the student with continued hands-on practice in the clinical setting with an emphasis on packaging wrapping and sterilization in the clinical setting within a central sterilization processing department. Provides the clinical experience required for International Association of Healthcare Central Service Materiel Management (IAHCSMM) certification. Prerequisite: CSP 191.  
Laboratory 9 hours per week.

## **CSP 292 Advanced Clinical Applications: Capstone (3 cr.)**

Provides continued hands-on clinical experience in a central sterilization processing department. Emphasizes the student's ability to demonstrate distribution sterile storage and case cart preparation in the clinical setting with minimal supervision and provides hours required for the International Association of Healthcare Central Service Materiel Management (IAHCSCMM) certification. Prerequisite: CSP 291. Laboratory 9 hours per week.

## **CHEMISTRY(CHM)**

### **CHM 1 Chemistry I (4 cr.)**

Presents basic inorganic and organic principles to students with little or no chemistry background. Taught as pass/fail the course can be taken in subsequent semesters as necessary until course objectives are completed. The credits are not applicable to any of the college's academic programs although high school level chemistry or higher may be required for entrance into certain programs. The credits do not transfer. Prerequisite: Competency in Math Essentials (MTE), units 1-3, as demonstrated through the placement and diagnostics tests or equivalent. Lecture 4 hours per week.

### **CHM 101 Introductory Chemistry I (4 cr.)**

Explores the experimental and theoretical concepts of general chemistry while emphasizing scientific reasoning critical and analytical thinking. Designed for the non-science major. This is a Passport Transfer Course. Part I of II. Prerequisite: Co-requisite of MDE 60 or co-requisite of MTH 154 or program head approval. Lecture 3 hours. Laboratory 3 hours. Total 6 hours per week.

### **CHM 102 Introductory Chemistry II (4 cr.)**

Emphasizes experimental and theoretical aspects of inorganic organic and biological chemistry. Discusses general chemistry concepts as they apply to issues within our society and environment. Designed for the non-science major. Part II of II. Prerequisite: CHM 101 or equivalent. Lecture 3 hours. Laboratory 3 hours. Total 6 hours per week.

### **CHM 111 General Chemistry I (4 cr.)**

Explores the fundamental laws theories and mathematical concepts of chemistry. Designed primarily for science and engineering majors. Requires a strong background in mathematics. Part I of II. Lecture 3 hours. Laboratory 3 hours. Total 6 hours per week.

### **CHM 112 General Chemistry II (4 cr.)**

Explores the fundamental laws theories and mathematical concepts of chemistry. Designed primarily for science and engineering majors. Requires a strong background in mathematics. Part II of II. Prerequisite: MTH 161 or higher and CHM 111 with a grade of C or better. Lecture 3 hours. Laboratory 3 hours. Total 6 hours per week.

### **CHM 241 Organic Chemistry I (3 cr.)**

Introduces fundamental chemistry of carbon compounds including structures physical properties syntheses and typical reactions. Emphasizes reaction mechanisms. Part I of II. Prerequisite: CHM 112 or equivalent. Lecture 3 hours. Total contact 3 hours per week.

### **CHM 242 Organic Chemistry II (3 cr.)**

Introduces fundamental chemistry of carbon compounds including structures physical properties syntheses and typical reactions. Emphasizes reaction mechanisms. Part II of II. Prerequisite: CHM 241 or equivalent with a grade of C or better. Lecture 3 hours. Total 3 contact hours per week.

### **CHM 243 Organic Chemistry Laboratory I (1 cr.)**

Provides a laboratory experience for students in organic synthesis and qualitative organic analysis. Part I of II. Prerequisite: CHM 112 or permission of instructor. Laboratory 3 hours per week.

### **CHM 244 Organic Chemistry Laboratory II (1 cr.)**

Provides a laboratory experience for students in organic synthesis and qualitative organic analysis. Part II of II. Prerequisite: CHM 112 or permission of instructor. Laboratory 3 hours per week.

### **CHM 245 Organic Chemistry Laboratory I (2 cr.)**

Introduces various methods and procedures used in present day organic laboratories. Covers the general techniques organic synthesis and the use of common spectroscopic instrumentation; synthesizing a variety of compounds; and analyzing the products through physical properties and spectroscopy. Part I of II. Prerequisite: CHM 112 with a grade of C or better. Lecture 1 hour per week. Laboratory 3 hours per week. Total 4 hours per week.

### **CHM 246 Organic Chemistry Laboratory II (2 cr.)**

Introduces various methods and procedures used in present day organic laboratories. Prerequisite: CHM 245. Lecture 1 hour per week. Lab 3 hours per week. Total 4 hours per week.

### **CHM 260 Introductory Biochemistry (3 cr.)**

Explores fundamentals of biological chemistry. Includes study of macromolecules metabolic pathways and biochemical genetics. Prerequisites: CHM 112 and satisfactory placement score for ENG 111. Lecture 3 hours per week.

## **CHILDHOOD DEVELOPMENT(CHD)**

### **CHD 118 Language Arts for Young Children (3 cr.)**

Emphasizes the early development of children's language and literacy skills. Presents techniques and methods for supporting all aspects of early literacy. Surveys children's literature and examines elements of promoting oral literacy print awareness phonological awareness alphabetic principle quality storytelling and story reading. Addresses strategies for intervention and support for exceptional children and English Language Learners. Lecture 2 hours. Laboratory 2 hours. Total 4 hours per week.

### **CHD 119 Introduction to Reading Methods (3 cr.)**

Focuses on promoting language and literacy skills as the foundation for emergent reading. Emphasizes phonetic awareness and alphabetic principles print awareness and concepts comprehension and early reading and writing. Addresses strategies for intervention and support for exceptional children and English Language Learners. Lecture 2 hours. Laboratory 2 hours. Total 4 hours per week.

### **CHD 120 Introduction to Early Childhood Education (3 cr.)**

Introduces early childhood development through activities and experiences in early childhood pre-kindergarten kindergarten and primary programs. Investigates classroom organization and procedures and use of classroom time and materials approaches to education for young children professionalism and curricular procedures. Lecture 3 hours per week.

# REYNOLDS COMMUNITY COLLEGE

## **CHD 145 Teaching Art, Music, and Movement to Children (3 cr.)**

Focuses on children's exploration play and creative expression in the areas of art music and movement. Emphasis will be on developing strategies for using various open-ended media representing a range of approaches in creative thinking. Addresses strategies for intervention and support for exceptional children and English Language Learners.

Lecture 2 hours.

Laboratory 2 hours.

Total 4 hours per week.

## **CHD 146 Math, Science, and Social Studies for Children (3 cr.)**

Provides experiences in content methods and materials for the development of math science and social studies skills in children. Emphasis will be on developing strategies for using various resources to facilitate children's construction of knowledge. Addresses strategies for intervention and support for children with special needs and English Language Learners.

Lecture 2 hours.

Laboratory 2 hours.

Total 4 hours per week.

## **CHD 165 Observation and Participation in Early Childhood/Primary Settings (3 cr.)**

Focuses on observation as the primary method for gathering information about children in early childhood settings. Emphasizes development of skills in the implementation of a range of observation techniques. Includes 40 hours of field placement in early learning setting.

Prerequisite: Students must be eligible to work with young children according to Department of Social Services requirements.

Lecture 2 hours (seminar).

Laboratory 2 hours (field placement).

Total 4 hours per week.

## **CHD 166 Infant and Toddler Programs (3 cr.)**

Examines child growth and development from birth to 36 months. Focuses on development in the physical cognitive social emotional and language domains. Emphasizes the importance of the environment and relationships for healthy brain development during the child's first three years of life. Investigates regulatory standards for infant/toddler caregiving.

Lecture 3 hours per week.

## **CHD 205 Guiding the Behavior of Children (3 cr.)**

Explores the role of the early childhood educator in supporting emotional and social development of children and in fostering a sense of community. Presents practical strategies for encouraging prosocial behavior conflict resolution and problem solving. Emphasizes basic skills and techniques in child guidance.

Lecture 3 hours per week.

## **CHD 210 Introduction to Exceptional Children (3 cr.)**

Reviews the history of and legal requirements for providing intervention and educational services for children with special needs. Studies the characteristics of children with a diverse array of needs and developmental abilities. Explores concepts of early intervention inclusion guiding behavior and adapting environments to meet children's needs.

Lecture 3 hours per week.

## **CHD 215 Models of Early Childhood Education Programs (3 cr.)**

Studies and discusses the various models and theories of early childhood education programs including current trends and issues. Presents state licensing and staff requirements.

Lecture 3 hours per week.

## **CHD 216 Early Childhood Programs, School, and Social Change (3 cr.)**

Explores methods of developing positive effective relations with families to enhance their developmental goals for children. Considers culture and other diverse needs perspectives and abilities of families and educators. Emphasizes advocacy and public policy awareness as an important role of early childhood educators. Describes risk factors and identifies community resources.

Lecture 3 hours per week.

## **CHD 265 Advanced Observation and Participation in Early Childhood/Primary Settings (3 cr.)**

Focuses on implementation of activity planning and observation of children through participation in early childhood settings. Emphasizes responsive teaching practices and assessment of children's development. Reviews legal and ethical implications of working with children. Supports the student in creating a professional educational portfolio. Includes 40 hours of field placement in early learning setting.

Lecture 2 hours (seminar).

Laboratory 2 hours (field placement).

Total 4 hours per week.

## **CHD 270 Administration of Child Care Programs (3 cr.)**

Examines the skills needed for establishing and managing early childhood programs. Emphasizes professionalism and interpersonal skills program planning staff selection and development creating policies budgeting and developing forms for recordkeeping.

Lecture 3 hours per week.

## **CHD 298 Seminar and Project in Childhood Development: Portfolio Development (1 cr.)**

Requires completion of a project or research report related to the student's occupational objectives and a study of approaches to the selection and pursuit of career opportunities in the field. Serves in conjunction with CHD 265 as the capstone course for the Early Childhood Development Associate of Applied Science degree.

Laboratory 2 hours per week.

## **CHINESE(CHI)**

### **CHI 101 Beginning Chinese I (5 cr.)**

Introduces understanding speaking reading and writing skills and emphasizes basic Chinese sentence structure.

Lecture 5 hours per week.

### **CHI 102 Beginning Chinese II (5 cr.)**

This is the second semester of the two-semester course for beginners or a refresher course for non-native speakers with other equivalent experience. In this course students will continue their introduction to basic standard Mandarin Chinese spoken by over a billion people in mainland China Taiwan Singapore and other parts of the world. They will learn to comprehend speak read and write on a variety of topics related to daily life. The course will also expand on the student's growing knowledge of essential aspects of Chinese culture.

Prerequisite: CHI 101 or demonstrated proficiency or equivalence.

Lecture 5 hours per week.

## **COMMUNICATION STUDIES AND THEATRE(CST)**

### **CST 100 Principles of Public Speaking (3 cr.)**

Applies theory and principles of public address with emphasis on preparation and delivery.

Lecture 3 hours per week.

### **CST 110 Introduction to Communication (3 cr.)**

Examines the elements affecting speech communication at the individual small group and public communication levels with emphasis on practice of communication at each level.

Lecture 3 hours per week.

## **CST 151 Film Appreciation I (3 cr.)**

Provides students with a critical understanding of film through the discussion and viewing of motion pictures with emphasis upon the study of film history and the forms and functions of film. Students will develop skills to analyze the shared social cultural and historical influences of films and their contexts. Part I of II. Prerequisite: Placement in ENG 111 or placement in Co-requisites ENG 111 and EDE 11. Lecture 3 hours per week.

## **CST 152 Film Appreciation II (3 cr.)**

Provides students with a critical understanding of film through the discussion and viewing of motion pictures with emphasis upon the study of film history and the forms and functions of film. Students will develop the skills to analyze the shared social cultural and historical influences of films and their contexts. The course focuses on the interplay of contemporary aspects of film creation such as diverse audiences economic realities and emerging media formats. Part II of II. Prerequisites: Fluency in Standard American English; placement in ENG 111 or placement in ENG 111 and EDE 11. Lecture 3 hours per week.

## **CST 229 Intercultural Communication (3 cr.)**

Emphasizes the influence of culture on the communication process including differences in values message systems and communication rules. Prerequisite: Completion of all developmental reading and writing recommendations. Lecture 3 hours per week.

## **COMPUTER SCIENCE(CSC)**

### **CSC 130 Scientific Programming (4 cr.)**

Introduces a science and engineering-oriented high-level programming language. Studies the C language and its application in problem-solving in a structured programming environment. Includes the concepts and practice of structured programming problem-solving top-down design of algorithms basic C syntax control structures arrays and data structures. Lecture 4 hours per week.

### **CSC 155 Computer Concepts and Applications (3 cr.)**

Introduces basic hardware and software concepts of computer usage programming languages and the computer's impact on society. Includes applications of various types of software to illustrate how computers are used in sciences social sciences humanities and education. Covers the use of an operating system word processing spreadsheets e-mail library access database access and retrieval presentation graphics and the Internet. Lecture 3 hours per week.

### **CSC 200 Introduction to Computer Science (3 cr.)**

Provides a broad introduction to computer science and the work of computer scientists. Discusses architecture and the function of computer hardware including networks and operating systems data and instruction representation and data organization. Covers software algorithms programming languages team dynamics research resources social and ethical aspects of technology and software engineering. Discusses artificial intelligence and theory of computation. Includes a hands-on component with oral and written presentations. Prerequisite: MATH 167 or the equivalent with a grade of C or better. Lecture 3 hours per week.

### **CSC 201 Computer Science I (4 cr.)**

Introduces algorithm and problem-solving methods. Emphasizes structured programming concepts elementary data structures and the study and use of a high level programming language. Lecture 4 hours per week.

### **CSC 202 Computer Science II (4 cr.)**

Examines data structures introduction to object-oriented design and algorithm analysis. Covers data structures (including sets strings stacks queues arrays records files linked lists and trees) polymorphism inheritance exceptions interfaces abstract data types algorithm analysis (including searching and sorting methods) and file structures. Prerequisite: CSC 201 with a grade of "C" or better. Lecture 4 hours per week.

### **CSC 205 Computer Organization (4 cr.)**

Examines the hierarchical structure of computer architecture. Focuses on multi-level machine organization. Uses a simple assembler language to complete programming projects. Includes processors instruction execution addressing techniques data representation and digital logic. Prerequisite: CSC 202. Lecture 4 hours per week.

### **CSC 208 Introduction to Discrete Structures (3 cr.)**

Covers Boolean algebra combinatorial and sequential circuits algorithms and algorithm analysis recursion recurrence relations graphs and trees. Prerequisites: CSC 201 with a grade of C or better. Lecture 3 hours per week.

### **CSC 210 Programming with C++ (3 cr.)**

Covers advanced topics using the syntax of the C++ language. Includes language syntax problem-solving techniques top-down refinement procedure definition loop invariance theory of numerical errors program design objects classes inheritance files strings linked lists stacks queues binary trees recursion and basic searching and sorting techniques and debugging. Prerequisite: CSC 130. Lecture 3 hours per week.

### **CSC 295 Topics in Computer Science: Introduction to the Theory of Computations (3 cr.)**

Focuses on complexity classes grammars formal languages Turing machines and computability. Prerequisite: CSC 208, or equivalent, with a grade of C or better. Lecture 3 hours per week.

## **DENTAL ASSISTING(DNA)**

### **DNA 100 Introduction to Oral Health Professions (1 cr.)**

Provides an introduction to the oral health professions and covers basic terminology historical perspective the credentialing process accreditation professional organizations and legal and ethical considerations. Lecture 1 hour per week.

### **DNA 103 Introduction to Oral Health (1 cr.)**

Teaches anatomy of the head and neck the hard and soft tissues of the oral cavity tooth morphology deciduous and permanent dentitions as well as dental pathology and terminology. Lecture 1 hour per week.

### **DNA 108 Dental Science (3 cr.)**

Studies head and neck anatomy tooth morphology pathological conditions of the oral cavity disease processes and microbiology. Prerequisite: Completion of courses in the Health Science I Career Studies Certificate. Lecture 2 hours. Laboratory 3 hours. Total 5 hours per week.

### **DNA 109 Practical Infection Control (3 cr.)**

Studies the principles of management of disease-producing microorganisms and associated diseases. Emphasizes sterilization asepsis and disinfection techniques applicable in the dental office. Prerequisite: Completion of courses in Health Science I Career Studies Certificate. Lecture 2 hours. Laboratory 3 hours. Total 5 hours per week.

## **DNA 110 Dental Materials (3 cr.)**

Studies the materials utilized in the laboratory aspect of dentistry as support in treatment. Emphasis is placed on the characteristics manipulation economical control storage and delivery of materials.

Prerequisite: Completion of courses in the Health Science I Career Studies Certificate.

Lecture 2 hours.

Laboratory 3 hours.

Total 5 hours per week.

## **DNA 113 Chairside Assisting I (3 cr.)**

Provides instruction on the principles of clinical chairside dental assisting dental equipment use and maintenance safety instrument identification tray set-ups by procedures and patient data collection. Emphasizes patient management during restorative procedures.

Prerequisite: Completion of courses in the Health Science I Career Studies Certificate.

Lecture 2 hours.

Laboratory 3 hours.

Total 5 hours per week.

## **DNA 114 Chairside Assisting II (4 cr.)**

Introduces the student to the various dental specialties including oral surgery orthodontics periodontics prosthodontics endodontics and pediatric dentistry. Emphasizes integration and application of previous course content to operative dental procedures.

Prerequisites: DNA 100, DNA 103, DNA 108, DNA 109, DNA 113, and DNA 120.

Lecture 2 hours.

Laboratory 6 hours.

Total 8 hours per week.

## **DNA 119 Dental Therapeutics (1 cr.)**

Exposes students to concepts and terminology related to pharmacology pain control and dental medicinal agents. Emphasizes use of materials in patient treatment.

Prerequisites: DNA 100, DNA 109, DNA 103, DNA 108, DNA 113, and DNA 120.

Lecture 1 hour per week.

## **DNA 120 Community Health (1 cr.)**

Studies topics related to community health issues including identification of specific diseases symptoms causes and effects.

Emphasizes the promotion of oral health in the community through patient education in oral home care techniques dietary counseling plaque control procedures and application of medicinal agents.

Prerequisites: Completion of courses in the Health Science I Career Studies Certificate.

Lecture 1 hour per week.

## **DNA 130 Dental Office Management (3 cr.)**

Exposes students to and provides practical experience in the legal aspects of dental office management with regard to ethics jurisprudence appointment control recall systems reception techniques telephone techniques accounts receivable and payable payroll insurance claims inventory control and professional conduct in a dental office.

Prerequisites: DNA 100, DNA 103, DNA 108, DNA 109, DNA 113, DNA 120, and DNA 190.

Lecture 2 hours.

Laboratory 3 hours.

Total 5 hours per week.

## **DNA 134 Dental Radiology and Practicum (3 cr.)**

Teaches the physics of dental radiation and safety equipment operation cone placement for the parallel and bisection techniques panoramic exposures mounting and film processing.

Prerequisites: DNA 100, DNA 103, DNA 108, DNA 109, DNA 113, and DNA 120.

Lecture 2 hours.

Laboratory 3 hours.

Total 5 hours per week.

## **DNA 190 Coordinated Internship in Dental Assisting (2 cr.)**

Supervises on-the-job training in selected business industrial or service firms coordinated by the college. Provides students clinical experience to supplement DNA 113 through hands-on experience in the dental clinic at Reynolds. Students will be assisting various dental practices.

Laboratory 8 hours per week.

## **DNA 196 On-Site Training in Dental Assisting (5 cr.)**

Provides clinical experience within the private practice community by exposing students to the fast-paced dental office environment in which the student performs chairside and support services with an established team. Focuses on chairside assisting in general dentistry at two different clinical sites. Students will complete the required number of clinical hours at the two assigned facilities.

Prerequisites: DNA 100, DNA 103, DNA 108, DNA 109, DNA 110, DNA 113, DNA 114, DNA 119, DNA 120, DNA 134, and DNA 190.

Laboratory 24 hours per week.

## **DIESEL(DSL)**

### **DSL 126 Diesel Engine Reconditioning (6 cr.)**

Provides basic knowledge of the construction design and application of selected modern diesel engines and their components. Covers induction and exhaust systems cooling and lubricating systems and fuel injection and governing systems. Provides opportunity to disassemble inspect recondition reassemble and test selected engines.

Lecture 3 hours.

Laboratory 6 hours.

Total 9 hours per week.

### **DSL 131 Diesel Fuel Systems and Tune-Up (4 cr.)**

Teaches maintenance adjustment testing and general repair of the typical fuel injection components used on non-automotive diesel engines. Includes engine and fuel system tune-up procedures and troubleshooting using current diagnostic equipment.

Lecture 2 hours.

Laboratory 4 hours.

Total 6 hours per week.

### **DSL 143 Diesel Truck Electrical Systems (4 cr.)**

Studies the theory and operation of various truck and tractor electrical systems. Covers preheating starting generating (charging) multiplexing and lighting systems. Uses modern test equipment for measurement adjustment and troubleshooting electrical and electronic systems.

Lecture 2 hours.

Laboratory 4 hours.

Total 6 hours per week.

### **DSL 150 Mobile Hydraulics and Pneumatics (3 cr.)**

Introduces the theory operation and maintenance of hydraulic/pneumatic systems and devices used in mobile applications. Emphasizes the properties of fluid flow fluid flow states and the application of Bernoulli's equation.

Lecture 2 hours.

Laboratory 2 hours.

Total 4 hours per week.

### **DSL 152 Diesel Power Trains, Chassis, and Suspension (4 cr.)**

Studies the chassis suspension steering and brake systems found on medium- and heavy-duty diesel trucks. Covers construction features operating principles and service procedures for such power train components as clutches multi-speed transmissions propeller shafts and rear axles. Teaches operations of modern equipment to correct and adjust abnormalities.

Lecture 2 hours.

Laboratory 4 hours.

Total 6 hours per week.

## **DSL 160 Air Brake Systems (3 cr.)**

Studies the basic operational theory of pneumatic and air brake systems as used in heavy-duty and public transportation vehicles. Covers various air control valves test system components and advanced air system schematics. Teaches proper service and preventative maintenance of system.  
Lecture 2 hours.  
Laboratory 2 hours.  
Total 4 hours per week.

## **DSL 176 Transportation Air Conditioning (2 cr.)**

Studies fundamentals of transportation air conditioning. Includes repair service and troubleshooting of the refrigeration systems used in road vehicles and heavy equipment.  
Lecture 1 hour.  
Laboratory 2 hours.  
Total 3 hours per week.

## **DSL 197 Cooperative Education in Diesel Mechanics Technology (3 cr.)**

Supervises on-the-job training for pay in approved business industrial and service firms coordinated by the college's cooperative education office. Is applicable to all occupational-technical curricula at the discretion of the college.  
Laboratory 15 hours per week.

## **DIETETICS(DIT)**

### **DIT 121 Nutrition I (3 cr.)**

Studies food composition dietary guidelines and nutrients essential to healthy human life. Analyzes nutrient function and metabolism.  
Lecture 3 hours per week.

## **DRAFTING(DRF)**

### **DRF 111 Technical Drafting I (3 cr.)**

Introduces technical drafting from the fundamentals through advanced drafting practices. Teaches lettering metric construction technical sketching orthographic projection sections intersections development fasteners theory and applications of dimensioning and tolerances. Includes pictorial drawing and preparation of working and detailed drawings. Part I of II.  
Lecture 2 hours.  
Laboratory 3 hours.  
Total 5 hours per week.

### **DRF 165 Architectural Blueprint Reading (3 cr.)**

Emphasizes reading understanding and interpreting standard types of architectural drawing including plans elevations sections and details.  
Lecture 2 hours.  
Laboratory 2 hours.  
Total 4 hours per week.

### **DRF 231 Computer-Aided Drafting I (3 cr.)**

Teaches computer-aided drafting concepts and equipment designed to develop a general understanding of components and operating a typical CAD system.  
Prerequisite: DRF 111 is recommended for students (but not required) who have no previous technical drawing experience.  
Lecture 2 hours.  
Laboratory 2 hours.  
Total 4 hours per week.

### **DRF 232 Computer-Aided Drafting II (3 cr.)**

Teaches advanced operations in computer-aided drafting.  
Prerequisite: DRF 231.  
Lecture 2 hours.  
Laboratory 2 hours.  
Total 4 hours per week.

### **DRF 238 Computer-Aided Modeling and Rendering I (3 cr.)**

Focuses on training students in the contemporary techniques of 3D modeling rendering and animation on the personal computer. Introduces the principles of visualization sometimes known as photo-realism which enable the student to create presentation drawings for both architectural and industrial product design. Uses computer animation to produce walk-throughs that will bring the third dimension to architectural designs. 3-D Studio is the primary software used in this course. Part I of II.  
Prerequisite: DRF 232.  
Lecture 2 hours.  
Laboratory 2 hours.  
Total 4 hours per week.

### **DRF 239 Computer-Aided Modeling and Rendering II (3 cr.)**

Focuses on training students in the contemporary techniques of 3D modeling rendering and animation on the personal computer. Introduces the principles of visualization sometimes known as photo-realism which enable the student to create presentation drawings for both architectural and industrial product design. Uses computer animation to produce walk-throughs that will bring the third dimension to architectural designs. Part II of II.  
Prerequisite: DRF 238.  
Lecture 2 hours.  
Laboratory 2 hours.  
Total 4 hours per week.

## **ECONOMICS(ECO)**

### **ECO 120 Survey of Economics (3 cr.)**

Presents a broad overview of economic theory history development and application. Introduces terms definitions policies and philosophies of market economies. Provides some comparison with other economic systems. Includes some degree of exposure to microeconomic and macroeconomic concepts.  
Lecture 3 hours per week.

### **ECO 201 Principles of Macroeconomics (3 cr.)**

Presents the fundamental macroeconomic concepts theories and issues including the study of scarcity and opportunity cost supply and demand national economic growth inflation recession unemployment fiscal and monetary policies and international trade. Develops an appreciation of how these economic concepts apply to consumer business and government decisions and their effect on the overall economy. This is a Passport Transfer course.  
Lecture 3 hours per week.

### **ECO 202 Principles of Microeconomics (3 cr.)**

Presents the fundamental microeconomic concepts theories and issues including the study of scarcity and opportunity cost supply and demand elasticities marginal revenues and costs profits production and distribution. Develops an appreciation of how these economic concepts apply to consumer and business decisions and their effect on the individual.  
Lecture 3 hours per week.

## **EDUCATION(EDU)**

### **EDU 114 Driver Task Analysis (3 cr.)**

Introduces "The Driver Task" as related to the highway transportation system (HTS) and factors that influence performance ability. Prepares students so they may be eligible to take certification exams for driving school instructors in both public and private schools. This is the first of two courses that are required for public/private school certification in driver education.  
Prerequisites: Must be eligible for ESL 13 or placement in ENG 111 or placement in Co-requisites ENG 111 and EDE 11.  
Lecture 2 hours.  
Laboratory 2 hours.  
Total 4 hours per week.

## **EDU 200 Introduction to Teaching as a Profession (3 cr.)**

Provides an orientation to the teaching profession in Virginia including historical perspectives current issues and future trends in education on the national and state levels. Emphasizes information about teacher licensure examinations steps to certification teacher preparation and induction programs and attention to critical shortage areas in Virginia. Includes supervised field placement (recommended: 40 clock hours) in a K-12 school.

Prerequisites: SDV 101 and successful completion of 24 credits of transfer courses or departmental approval for students accepted into Virginia's Teachers for Tomorrow program. Lecture 2 hours.

Laboratory 2 hours.

Total 4 hours per week.

## **EDU 214 Instructional Principles of Driver Education (3 cr.)**

Analyzes rules and regulations that govern the conduct of Driver Education programs with special emphasis on organization and administration. Includes uses in the classroom driving range and on the street. Prepares students so they may be eligible to take the state certification exam in driver education. This is the second of two courses that is required for state certification in driver education.

Prerequisite: EDU 114. Lecture 2 hours.

Laboratory 2 hours.

Total 4 hours per week.

## **EDU 220 Teaching Reading (3 cr.)**

Provides instruction in concepts and strategies involved in teaching reading at the K-12 levels. Includes topics on literacy and components and development various reading programs technology integration and assessment tools. May include a field placement in a K-12 school.

Prerequisite: Students must satisfy general college curricular admission requirements. Lecture 3 hours per week.

## **EDU 235 Health, Safety, and Nutrition Education (3 cr.)**

Focuses on the health and developmental needs of children and the methods by which these needs are met. Emphasizes positive health hygiene nutrition and feeding routines childhood diseases and safety issues. Emphasizes supporting the mental and physical well-being of children as well as procedures for reporting child abuse. Lecture 3 hours per week.

## **EDU 286 Multimedia for Online Distance and E-learning (MODEL) (3 cr.)**

Provides students an opportunity to identify create and implement multimedia in an e-learning course. Covers an introduction to multimedia the ASSURE model of instructional design various media formats screen design and user friendliness storyboards and storyboard development multimedia development assessment creation and incorporating multimedia into Blackboard/Canvas.

Prerequisites: MODEL enrollees must have successfully completed EDU 287 - Instructional Design for Online Learning (IDOL), possess basic computer skills, be familiar with how to navigate the World Wide Web, and have used Blackboard/Canvas for a minimum of one semester. Blackboard/Canvas utilized as a supplement to a face-to-face class will fulfill this requirement.

## **EDU 287 Instructional Design for Online Learning (IDOL) (3 cr.)**

Prepares educators to design online courses that encourage active learning and student participation. Focuses on instructional design practices including the development of content tied to learning objectives and a peer-based approach to evaluating courses.

Prerequisites: IDOL enrollees must have basic computer skills, be familiar with how to navigate the World Wide Web and have used Blackboard/Canvas for a minimum of one semester (as a supplement to a face-to-face class will fulfill this requirement). Lecture 3 hours per week.

## **EDU 288 Engaging Online Learners with Web 2.0 Applications (ENROLL 2.0) (3 cr.)**

Introduces learners to the fundamentals of using various Web 2.0 applications in order to conduct and manage an online classroom in a manner that promotes student engagement and learning.

Prerequisites: EDU 287, basic computer and web navigation skills, and experience using Blackboard/Canvas for at least one semester for teaching. Lecture 3 hours per week.

## **EDU 289 Learning on the Go (LoGo) (3 cr.)**

Provides introduction to the fundamentals of implementing mobile technologies in the online teaching and learning environment. Focuses on increasing student engagement using mobile technologies and includes an overview of mobile learning common applications researching and applying mobile learning developing content and materials to be used with mobile devices assessing in the mobile learning environment social media productivity and a self-reflection.

Prerequisites: LoGo enrollees must have basic computer skills, be familiar with how to navigate the World Wide Web, and experience using Blackboard for a minimum of one semester (as a supplement to a face-to-face class will fulfill this requirement). In addition, the learner should have successfully completed EDU 287 (IDOL) or the equivalent. Lecture 3 hours per week.

## **EDU 295 Topics in Education: Updating Classroom Assessment for Student Growth (3 cr.)**

Develops effective assessment practices of in-service teachers. Focuses on a balanced assessment approach emphasizing the use of formative and summative assessments. Utilizes quality rubrics as a vital component of effective classroom assessment. Addresses local state and federal requirements that impact classroom assessment. Examines the concept that quality assessment is vital to student success. Emphasizes the application of course content to each teacher's individual classroom setting.

Prerequisite: Must be a licensed and/or in-service preK-12 teacher or administrator. Lecture 3 hours per week.

## **EDUCATION(EDUC)**

### **EDUC 660079 EducateVA: ESOL Praxis Subject Assessment (Non-Credit)**

The EducateVA program consists of two levels. Level I is comprised of online and face-to-face instruction. Level II is the post-coursework experience. The program consists of 220-hours of instruction delivered within a 18-week format for professional studies training. Non-Credit

## ELECTRICAL/ELECTRONIC TECHNOLOGY(ELEC)

### ELEC 510015 National Center for Construction Education & Research (NCCER) - Electrical Level 1 (Non-Credit)

The National Center for Construction Education and Research (NCCER) is the credentialing body for the NCCER Electrical Level 1 certification. This course is intended for students interested in entering the Electrician industry. Registration in NCCER CORE or previous NCCER CORE certification is required for enrollment in NCCER Electrical Level 1. Non-Credit

## EMERGENCY MEDICAL SERVICES(EMS)

### EMS 100 CPR for Healthcare Providers (1 cr.)

Provides instruction in Cardiopulmonary Resuscitation that meets current Emergency Cardiac Care (ECC) guidelines for Cardiopulmonary Resuscitation education for Healthcare Providers. Specifically provides training in coordinated mouth-to-mouth/mask artificial ventilation and chest compression choking life-threatening emergencies sudden illness and AED skills for adults children and infants in keeping with current Emergency Cardiac Care Standards as established by the American Heart Association. Equivalent to HLT 105.

Lecture 1 hour per week.

### EMS 111 Emergency Medical Technician (7 cr.)

Prepares student for certification as a Virginia and National Registry EMT. Focuses on all aspects of pre-hospital basic life support as defined by the Virginia Office of Emergency Medical Services curriculum for Emergency Medicine Technician.

Prerequisite: EMS 100 or equivalent CPR certification at the Health Care Provider level. An approved substitute is HLT 105.

Lecture 5 hours.

Laboratory 4 hours.

Total 9 hours per week.

### EMS 120 Emergency Medical Technician Clinical (1 cr.)

Provides supervised direct patient contact introducing the student to the assessment and emergency care of sick and injured patients. This course is a co-requisite for either EMS 111 or EMS 113 depending upon the program in which the student is participating.

Laboratory 2 hours per week.

### EMS 121 Preparatory Foundations (2 cr.)

Introduces fundamental concepts established by the National Emergency Medical Service Education Standards (NEMSES) for Advanced EMT and Paramedic curricula. Includes EMS systems introduction to research workforce safety and wellness EMS system communications introduction to public health legal and ethical issues.

Prerequisite: Current Virginia EMT and CPR certification as approved by the Virginia Office of EMS.

Lecture 2 hours per week.

### EMS 123 EMS Clinical Preparation (1 cr.)

Introduces the student to local clinical agencies and prepares the student for clinical activities above the level of EMT. Includes prerequisites required by clinical affiliates therapeutic communication primary assessment history taking secondary assessment reassessment monitoring devices and documentation.

Prerequisite: Current Virginia EMT and CPR certification as approved by the Virginia Office of EMS.

Laboratory 2 hours per week.

### EMS 125 Basic Pharmacology (1 cr.)

Prepares students to demonstrate competency concerning basic principles of pharmacology drug dosage calculations and medication administration. Introduces medications listed in the Advanced EMT (AEMT) scope of practice.

Prerequisite: Current Virginia EMT and CPR certification as approved by the Virginia Office of EMS.

Lecture 1 hour per week.

### EMS 126 Basic Pharmacology Lab (1 cr.)

Focuses on the safe administration of medications in the emergency setting. Includes drug dose calculation and covers multiple routes of administration including oral intramuscular subcutaneous intravenous and intraosseous and other methods within the scope of practice for the emergency care provider.

Prerequisite: Current Virginia EMT and CPR certification as approved by the Virginia Office of EMS.

Laboratory 2 hours per week.

### EMS 127 Airway, Shock and Resuscitation (1 cr.)

Introduces concepts associated with pre-hospital emergency care of the individual experiencing airway difficulty or in need of resuscitation or shock management.

Prerequisite: Current Virginia EMT and CPR certification as approved by the Virginia Office of EMS.

Lecture 1 hour per week.

### EMS 128 Airway, Shock and Resuscitation Lab (1 cr.)

Focuses on specific skills related to airway resuscitation and shock management.

Prerequisite: Current Virginia EMT and CPR certification as approved by the Virginia Office of EMS.

Laboratory 2 hours per week.

### EMS 135 Emergency Medical Care (2 cr.)

Prepares the student to assess and manage patients with common medical emergencies.

Prerequisites: EMS 121, EMS 123, EMS 125, EMS 126, EMS 127, EMS 128. Corequisite: EMS 136.

Lecture 2 hours per week.

### EMS 136 Emergency Medical Care Lab (1 cr.)

Focuses on specific skills related to the assessment and management of common medical emergencies.

Prerequisites: EMS 121, EMS 123, EMS 125, EMS 126, EMS 127, EMS 128. Corequisite: EMS 135.

Laboratory 2 hours per week.

### EMS 137 Trauma Care (1 cr.)

Prepares the student to assess and manage injured patients developing his/her problem-solving ability in the treatment of trauma involving various body systems.

Prerequisites: EMS 121, EMS 123, EMS 125, EMS 126, EMS 127, EMS 128. Corequisite: EMS 138.

Lecture 1 hour per week.

### EMS 138 Trauma Care Lab (1 cr.)

Focuses on the skills required for the assessment and management of patients with traumatic injury.

Prerequisites: EMS 121, EMS 123, EMS 125, EMS 126, EMS 127, EMS 128. Corequisite: EMS 137.

Laboratory 2 hours per week.

### EMS 139 Special Populations (1 cr.)

Focuses on the pre-hospital assessment and management of patients in a specific population including pediatrics geriatrics obstetrics/gynecology (OB/GYN) bariatric abuse sexual assault and special needs.

Prerequisites: EMS 121, EMS 123, EMS 125, EMS 126, EMS 127, EMS 128. Corequisite: EMS 140.

Lecture 1 hour per week.

### EMS 140 Special Populations Lab (1 cr.)

Develops skills related to the assessment and management of patients in a specific population including pediatrics geriatrics obstetrics/gynecology (OB/GYN) bariatric abuse sexual assault and special needs.

Prerequisites: EMS 121, EMS 123, EMS 125, EMS 126, EMS 127, EMS 128. Corequisite: EMS 139.

Laboratory 2 hours per week.

## **EMS 141 Cardiovascular Care (2 cr.)**

Focuses on assessment and management of cardiac-related emergencies. Covers basic dysrhythmia recognition and relates it to overall cardiac patient care.

Prerequisites: EMS 121, EMS 123, EMS 125, EMS 126, EMS 127, EMS 128. Corequisite: EMS 142. Lecture 2 hours per week.

## **EMS 142 Cardiovascular Care Lab (1 cr.)**

Focuses on skills involved in the assessment and management of cardiac-related emergencies.

Prerequisites: EMS 121, EMS 123, EMS 125, EMS 126, EMS 127, EMS 128. Corequisite EMS 141. Laboratory 2 hours per week.

## **EMS 163 Prehospital Trauma Life Support (PHTLS) (1 cr.)**

Prepares for certification as a Prehospital Trauma Life Support provider as defined by the American College of Surgeons.

Prerequisites: EMS 111 or equivalent. Lecture 1 hour per week.

## **EMS 164 Advanced Medical Life Support (AMLS) (1 cr.)**

Covers current topics of care for adult patients suffering extensive medical conditions and emergencies and offers certification as an Advanced Medical Life Support (AMLS) as defined by the National Association of Emergency Medical Technicians (NAEMT). Lecture 1 hour per week.

## **EMS 165 Advanced Cardiac Life Support (ACLS) (1 cr.)**

Prepares for certification as an Advanced Cardiac Life provider. Follows course as defined by the American Heart Association. Advanced Cardiovascular Life Support (ACLS) builds on the foundation of Basic Life Support (BLS) emphasizing the importance of continuous high-quality CPR. The hands-on instruction and simulated cases in this advanced course are designed to help enhance skills in the recognition and intervention of cardiopulmonary arrest immediate post-cardiac arrest acute arrhythmia stroke and acute coronary syndromes.

Prerequisites: EMS 100. Lecture 1 hour per week.

## **EMS 167 Emergency Pediatrics Course (EPC) (1 cr.)**

Provides a unique approach to pediatric medical care offering assessment techniques that can help EMS practitioners rapidly and accurately assess pediatric patients to determine which situations may be life threatening and require immediate intervention. Offers certification as defined by the National Association of Emergency Medical Technicians (NAEMT).

Prerequisite: Current Virginia EMT and CPR certification as approved by the Virginia Office of EMS.

Lecture 1 hour per week.

## **EMS 175 Paramedic Clinical Experience I (1 cr.)**

Introduces students to live patient assessment and management in the clinical setting. Begins a continuum of learning involving live patients that leads to entry-level competence at the paramedic level.

Prerequisites: Current Virginia EMT and CPR certification as approved by the Virginia Office of EMS. Laboratory 3 hours per week.

## **EMS 202 Paramedic Pharmacology (2 cr.)**

Focuses on advanced pharmacological interventions medications and their effects. Lecture 2 hours per week.

## **EMS 203 Advanced Patient Care (2 cr.)**

Focuses on the comprehensive assessment and management of patients in out-of-hospital and inter-facility scenarios. Content is centered on problem-solving through integration of didactic psychomotor and affective curricula.

Prerequisites: Current Virginia EMT and CPR certification as approved by the Virginia Office of EMS. Lecture 2 hours per week.

## **EMS 204 Advanced Patient Care Lab (2 cr.)**

Focuses on the comprehensive assessment and management of out-of-hospital and inter-facility patients using scenario-based learning. Laboratory 4 hours per week.

## **EMS 206 Pathophysiology for the Health Professions (3 cr.)**

Focuses on the pathological processes of disease with emphasis on the anatomical and physiological alterations of the human body systems. Includes diagnosis and management appropriate to the advanced health care provider in and out of the hospital environment. Lecture 3 hours per week.

## **EMS 210 EMS Operations (1 cr.)**

Focuses on matters related to Emergency Medical Services (EMS) operations incident and scene safety and awareness triage multiple and mass casualty incident operations and medical incident management (command and control of EMS incidents).

Prerequisites: Current Virginia EMT and CPR certification as approved by the Virginia Office of EMS. Laboratory 2 hours per week.

## **EMS 212 Leadership and Professional Development (1 cr.)**

Focuses on the development of leadership within the field of Emergency Medical Services (EMS) topics include civic engagement personal wellness resource management ethical considerations in leadership and research. Lecture 1 hour.

## **EMS 216 Paramedic Review (1 cr.)**

Provides the student with intensive review for the practical and written portions of the National Registry Paramedic exam. May be repeated once for credit. Laboratory 2 hours per week.

## **EMS 247 Paramedic Clinical Experience II (1 cr.)**

Continues the student experience with live patient assessment and management in the clinical setting. It is the second step in a continuum of learning involving live patients that leads to entry-level competence at the paramedic level. Laboratory 3 hours.

## **EMS 248 Paramedic Comprehensive Field Experience (2 cr.)**

Expands the student experience with live patient assessment and management into the field setting. It is the third step in a continuum of learning involving live patients that leads to entry-level competence at the paramedic level. Laboratory 6 hours

## **EMS 249 Paramedic Capstone Internship (2 cr.)**

Provides summative evaluation of the Paramedic student in the cognitive psychomotor and affective domains. Laboratory 6 hours.

## **ENGINEERING(EGR)**

### **EGR 110 Engineering Graphics (3 cr.)**

Presents theories and principles of orthographic projection. Studies multiview pictorial drawings and sketches geometric construction sectioning lettering tolerancing dimensioning and auxiliary projections. Studies the analysis and graphic presentation of space relationships of fundamental geometric elements; points lines planes and solids. Includes instruction in Computer Aided Drafting.

Lecture 2 hours. Laboratory 2 hours. Total 4 hours per week.

### **EGR 124 Introduction to Engineering and Engineering Methods (3 cr.)**

Introduces the engineering profession professionalism and ethics. Covers problem presentation engineering calculations digital computer applications word processing worksheets programming and elementary numerical methods. Design project also includes using presentation software database searching and prototyping. Lecture 3 hours per week.

## **EGR 140 Engineering Mechanics - Statics (3 cr.)**

Introduces mechanics of vector forces and space scalar mass and time including SI and US customary units. Teaches equilibrium free-body diagrams moments couples distributed forces centroids moments of inertia analysis of two-force and multi-force members and friction and internal forces.

Prerequisite: MTH 263.

Lecture 3 hours,

Total 3 hours.

## **EGR 206 Engineering Economy (3 cr.)**

Presents economic analysis of engineering alternatives. Studies economic and cost concepts calculation of economic equivalence comparison of alternatives replacement economy economic optimization in design and operation depreciation and after-tax analysis. Lecture 3 hours per week.

## **EGR 245 Engineering Mechanics - Dynamics (3 cr.)**

Presents approach to kinematics of particles in linear and curvilinear motion. Includes kinematics of rigid bodies in plane motion. Teaches Newton's second law work-energy and power impulse and momentum and problem-solving using computers.

Prerequisite: EGR 140.

Lecture 3 hours per week.

## **EGR 246 Mechanics of Materials (3 cr.)**

Teaches concepts of stress strain deformation internal equilibrium and basic properties of engineering materials. Analyzes axial loads torsion bending shear and combined loading. Studies stress transformation and principle stresses column analysis and energy principles.

Prerequisite: EGR 140.

Lecture 3 hours per week.

## **EGR 248 Thermodynamics for Engineering (3 cr.)**

Studies formulation of the first and second law of thermodynamics. Presents energy conversion concepts of energy temperature entropy enthalpy and equations of state of fluids. Covers reversibility and irreversibility in processes closed and open systems cyclical processes and problem-solving using computers.

Prerequisite: MTH 263.

Lecture 3 hours per week.

## **EGR 251 Basic Electric Circuits I (3 cr.)**

Teaches fundamentals of electric circuits. Includes circuit quantities of charge current potential power and energy. Teaches resistive circuit analysis; Ohm's laws; nodal and mesh analysis; network theorems; RC RL and RLC circuit transient response with constant forcing functions. Teaches AC steady-state analysis power and three-phase circuits. Presents frequency domain analysis resonance Fourier series inductively coupled circuits Laplace transform applications and circuit transfer functions. Introduces problem-solving using computers. Part I of II.

Prerequisites: MTH 264 and PHY 241 or equivalent.

Lecture 3 hours per week.

## **EGR 255 Electric Circuits Laboratory (1 cr.)**

Teaches principles and operation of laboratory instruments such as VOM electronic voltmeters digital multimeters oscilloscopes counters wave generators and power supplies. Presents application to circuit measurements including transient and steady-state response of simple networks with laboratory applications of laws and theories of circuits plus measurement of AC quantities.

Laboratory 3 hours per week.

## **ENGLISH AS A SECOND LANGUAGE(ESL)**

### **ESL 20 English as a Second Language II (9 cr.)**

Provides intensive instruction and practice at the low intermediate level. Provides an introduction to the sound system stress and intonational and rhythmic patterns of English through listening and speaking exercises. Includes individualized instruction to improve basic reading comprehension. Requires practice in writing with emphasis on building basic sentence structures grammar and sentence-level writing. Credits are not applicable toward graduation.

Lecture 9 hours per week.

### **ESL 31 Composition I (6 cr.)**

Provides instruction and practice in the writing process emphasizing development of fluency in writing and competence in structural and grammatical patterns of written English. Prerequisite: Requires ability to express ideas clearly in writing without a consistent pattern of grammatical errors as indicated by a placement exam or teacher recommendation from a previous level. Credits are not applicable toward graduation.

Lecture 6 hours per week.

### **ESL 32 Reading I (6 cr.)**

Helps students improve their reading comprehension and vocabulary development. Improves students' reading proficiency to a level which would allow the students to function adequately in ESL 42 and other college classes. Credits are not applicable toward graduation.

Prerequisites: Requires competency in reading as indicated by the placement test or by teacher recommendation from a previous level. Recommendation of department following satisfactory completion of ESL 20 or appropriate placement test.

Lecture 6 hours per week

### **ESL 33 Oral Communications I (3 cr.)**

Helps students practice and improve listening and speaking skills as needed for functioning successfully in academic professional and personal settings. Assesses students' oral skills and includes as needed practice with pronunciation rhythm stress and intonation. Provides exercises practices small and large group activities and oral presentations to help students overcome problems in oral communication. Credits are not applicable toward graduation.

Prerequisite: Requires competency in the English language as indicated by a placement test score or teacher recommendation from a previous level or from other college classes. Recommendation of department following satisfactory completion of ESL 20. Completion of or co-enrollment in ESL 31 and ESL 32 is recommended.

Lecture 3 hours per week.

### **ESL 35 ESL Applied Grammar 3 (3 cr.)**

Provides instruction and practice in the use of intermediate-level academic English grammar structures including verb tenses parts of speech and basic sentence structure. Helps ESL students assess their own knowledge of English grammar improve accuracy and learn methods to improve editing.

Prerequisite: Successful completion of ESL 31 or approval by the ESL program coordinator.

Lecture 3 hours per week.

### **ESL 41 Composition II (6 cr.)**

Provides further instruction and practice in the writing process and introduces advanced language patterns. Includes practice in developing and improving writing strategies. Requires a sense of paragraph structure and development appropriate use of verb forms and command of basic sentence structures with some coordination and subordination as indicated by a placement test and writing sample or teacher recommendation from a previous level. Credits are not applicable toward graduation.

Prerequisite: Recommendation of department following satisfactory completion of intermediate ESL 31 or appropriate placement test.

Lecture 6 hours per week.

## **ESL 42 Reading II (6 cr.)**

Improves students' reading proficiency to a level which would allow students to function adequately in the ESL 52 reading class and other college courses. Credits are not applicable toward graduation.

Prerequisite: Requires competency in reading as indicated by the placement test or by teacher recommendation from a previous level. Helps students improve their reading comprehension and vocabulary development. Recommendation of department following satisfactory completion of ESL 32 or appropriate placement test.  
Lecture 6 hours per week.

## **ESL 43 Oral Communications II (3 cr.)**

Provides further instruction and practice in helping students to improve listening and speaking skills. Assesses students' oral skills and includes as needed practice with pronunciation rhythm stress and intonation. Emphasizes the development of fluency through exercises practices small and large group activities and formal and informal presentations. Credits are not applicable toward graduation.

Prerequisite: Recommendation of department based on placement test and/or successful completion of ESL 33, ESL 41, and ESL 42 or department consent.  
Lecture 3 hours per week.

## **ESL 45 Applied Grammar 4 (3 cr.)**

Provides instruction and practice in the use of high intermediate and advanced academic English grammar structures including advanced verb forms clauses determiners and prepositions. Helps ESL students assess their own knowledge of English grammar improve accuracy and learn methods to improve editing. Credits are not applicable toward graduation.

Prerequisite: ESL 41 or approval by the ESL program coordinator.  
Lecture 3 hours per week.

## **ESL 51 Composition III (6 cr.)**

Prepares for college-level writing by practice in the writing process emphasizing development of thought in essays of greater length and complexity and use of appropriate syntax and diction. Credits are not applicable toward graduation.

Prerequisite: Requires competency in the English language and ability to write short essays in understandable English, as indicated by a placement test and writing sample, or by teacher recommendation from a previous ESL writing course. Prerequisite or Co-requisite (recommended): ESL 42.  
Lecture 6 hours per week.

## **ESL 52 Reading III (6 cr.)**

Emphasizes applying and synthesizing ideas. Includes ways to detect organization summarize make inferences draw conclusions evaluate generalizations recognize differences between facts and opinions and introduces other advanced comprehension strategies. May also include comprehensive library skills. Helps students improve their reading comprehension and vocabulary development. Improves students' reading proficiency to a level that would allow students to succeed in certificate and degree programs. Credits are not applicable toward graduation.  
Prerequisite: Satisfactory completion of ESL 41 and 42 or appropriate placement test.  
Lecture 6 hours per week.

## **ESL 58 ESL Writing Workshop II (6 cr.)**

Provides an intensive writing seminar for students struggling with the writing process editing and self-correction in academic English. Helps students improve their fluency and command of American academic English. Credits are not applicable toward graduation.  
Prerequisite: ESL 51.  
Lecture 6 hours per week.

## **ESL 72 Spelling and Vocabulary (3 cr.)**

Provides individualized instruction and practice in sound-letter correspondences. Introduces students to basic spelling rules word division prefixes roots and suffixes. Helps students master vocabulary through an understanding of homonyms confusing words and Greek and Latin roots. Stresses using words in context. Credits are not applicable toward graduation.  
Prerequisites: Completion of ESL 20 or placement at the intermediate level (ESL 31, 32, 33).  
Lecture 3 hours per week.

## **ESL 73 Accent Reduction (3 cr.)**

Provides contextualized practice at the high intermediate/ advanced level to improve the speech and intelligibility of non-native speakers of English. Focuses on problems of American English pronunciation unclear individual sounds and positional variants stress rhythm and intonation common to speakers of different language backgrounds. May include individualized practice in consonant and vowel production. Credits are not applicable toward graduation.

Prerequisite: Recommendation following oral placement interview or successful completion of ESL 33.  
Lecture 3 hours per week.

## **ENGLISH DIRECT ENROLLMENT(EDE)**

### **EDE 10 English Composition Preparation (3 cr.)**

Provides academic skills and support for introductory composition. Students will identify and apply academic skills including critical reading writing thinking and research.  
Lecture 3 hours per week.

### **EDE 11 English Composition Readiness (3 cr.)**

Provides academic support for successful completion of ENG 111. Students will identify and apply academic skills including critical reading writing thinking and introductory research.  
Lecture 3 hours per week.

## **ENGLISH FUNDAMENTALS(ENF)**

### **ENF 1 Preparing for College English I (8 cr.)**

Provides integrated reading and writing instruction for students who require extensive preparation to succeed in college-level English courses. Students will place into this course based on placement test score. Upon successful completion and faculty recommendation students will move into Preparing for College English III (if they require additional preparation) or into college-level English (if they require no additional preparation). Credit is not applicable toward graduation.  
Lecture 8 hours per week.

### **ENF 2 Preparing for College English II (4 cr.)**

Provides integrated reading and writing instruction for students who require intermediate preparation to succeed in college-level English courses. Students will place into this course based on placement test score. Upon successful completion and faculty recommendation students will move into Preparing for College Level III (if they require additional preparation) or into college-level English (if they require no additional preparation). Credit is not applicable toward graduation.  
Lecture 4 hours per week.

### **ENF 3 Preparing for College English III (2 cr.)**

Provides integrated reading and writing instruction for students who require minimal preparation for college-level English but still need some preparation to succeed. Students in this course will be co-enrolled in college-level English. Students will place into this course based on placement test score. Credit is not applicable toward graduation.  
Prerequisite: Qualifying Placement Score.  
Lecture 2 hours per week.

## ENGLISH(ENG)

### ENG 111 College Composition I (3 cr.)

Introduces students to critical thinking and the fundamentals of academic writing. Through the writing process students refine topics; develop and support ideas; investigate evaluate and incorporate appropriate resources; edit for effective style and usage; and determine appropriate approaches for a variety of contexts audiences and purposes. Writing activities will include exposition and argumentation with at least one researched essay. ENG 111 has been designated as a "writing intensive" course according to standards developed by the English department.

Prerequisite: Placement recommendation for ENG 111 or placement recommendation for co-requisites ENG 111 and EDE 11.  
Lecture 3 hours.

### ENG 112 College Composition II (3 cr.)

Continues to develop college writing with increased emphasis on critical essays argumentation and research developing these competencies through the examination of a range of texts about the human experience. Requires students to locate evaluate integrate and document sources and effectively edit for style and usage. ENG 112 has been designated as a "writing intensive" course according to standards developed by the English department.

Prerequisite: Successful completion of ENG 111 or its equivalent and the ability to use word processing software; a grade of C or better in ENG 111 is recommended.  
Lecture 3 hours.

### ENG 115 Technical Writing (3 cr.)

Develops ability in technical writing through extensive practice in composing technical reports and other documents. Guides students in achieving voice tone style and content in formatting editing and graphics. Introduces students to technical discourse through selected reading. Provides instruction and practice in basic principles or oral presentation. Prerequisite: ENG 111 or approval by English program head.  
Lecture 3 hours per week.

### ENG 137 Communication Processes I (3 cr.)

Covers content form and procedures for research writings which may include reports articles summaries essays and correspondence. Stresses editing proofreading skills sentence structure and paragraph development. Offers instruction and practice in oral communication skills. May use reading selections for discussions and writing assignments. Prerequisite: Departmental placement recommendation.  
Lecture 3 hours per week.

### ENG 210 Advanced Composition (3 cr.)

Helps students refine skills in writing non-fiction prose. Guides students in the development of individual voice and style. Introduces procedures for composing and producing alphabetic visual aural and/or digital texts and for publication in an electronic environment. ENG 210 has been designated as a "writing intensive" course according to standards developed by the English department.

Prerequisite: ENG 112 with a grade of "C" or better or approval by the English department head.  
Lecture 3 hours per week.

### ENG 215 Creative Writing - Fiction I (3 cr.)

Introduces in a workshop setting the fundamentals and techniques of writing short and long fiction. ENG 215 has been designated as a "writing intensive" course according to standards developed by the English department.

Prerequisite: ENG 111 or approval by the English department program head.  
Lecture 3 hours per week.

### ENG 217 Creative Writing - Poetry I (3 cr.)

Introduces in a workshop setting the fundamentals and techniques of writing poetry. ENG 217 has been designated as a "writing intensive" course according to standards developed by the English department.

Prerequisite: ENG 111 or approval by the English program head.  
Lecture 3 hours per week.

### ENG 233 The Bible as Literature (3 cr.)

Provides an introduction to the study of the Bible as literature. Examines the intent and presentation of major literary genres found in the Bible refining skills of analysis synthesis and evaluation. Involves critical reading and writing. ENG 233 has been designated as a "writing intensive" course according to standards developed by the English department.

Prerequisite: ENG 112 or equivalent.  
Lecture 3 hours per week.

### ENG 241 Survey of American Literature I (3 cr.)

Examines American literary works from pre-colonial times through the mid-nineteenth century emphasizing the ideas and characteristics of our national literature. Involves critical reading and writing. ENG 241 has been designated as a "writing intensive" course according to standards developed by the English department. ENG 241 and 242 may be taken out of order.

Prerequisite: ENG 112 or equivalent.  
Lecture 3 hours per week.

### ENG 242 Survey of American Literature II (3 cr.)

Examines selected American literary works from the late-nineteenth century to the present emphasizing the ideas and characteristics of our national literature. Involves critical reading and writing. ENG 242 has been designated as a "writing intensive" course according to standards developed by the English department.

Prerequisite: ENG 112 or equivalent.  
Lecture 3 hours per week.

### ENG 243 Survey of English (British) Literature I (3 cr.)

Studies major English texts from the Anglo-Saxon period to the 18th century emphasizing the ideas and characteristics of the British literary tradition. Involves critical reading and writing. ENG 243 has been designated as a "writing intensive" course according to standards developed by the English department.

Prerequisite: ENG 112 or equivalent.  
Lecture 3 hours per week.

### ENG 244 Survey of English (British) Literature II (3 cr.)

Studies major English works from the Romanticism to the present emphasizing the ideas and characteristics of the British literary tradition. Involves critical reading and writing. ENG 244 has been designated as a "writing intensive" course according to standards developed by the English department.

Prerequisite: ENG 112 or equivalent.  
Lecture 3 hours per week.

### ENG 250 Children's Literature (3 cr.)

Surveys the history development and genres of children's literature focusing on analysis of texts for literary qualities and in terms of audience. Involves critical reading and writing. ENG 250 has been designated as a "writing intensive" course according to standards developed by the English department.

Prerequisite: ENG 112 or equivalent.  
Lecture 3 hours per week.

### ENG 251 Survey of World Literature I (3 cr.)

Examines major works of world literature from the ancient period to the early 17th century. Involves critical reading and writing. ENG 251 has been designated as a "writing intensive" course according to standards developed by the English department.

Prerequisite: ENG 112 or equivalent.  
Lecture 3 hours per week.

## **ENG 252 Survey of World Literature II (3 cr.)**

Examines major works of world literature from the 17th century to the present era. Involves critical reading and writing. ENG 252 has been designated as a "writing intensive" course according to standards developed by the English department.

Prerequisite: ENG 112 or equivalent.

Lecture 3 hours per week.

## **ENG 253 Survey of African-American Literature I (3 cr.)**

Examines selected works by African-American writers from the colonial period to the present more specifically to the early twentieth century. Involves critical reading and writing. ENG 253 has been designated as a "writing intensive" course according to standards developed by the English department.

Prerequisite: ENG 112 or equivalent.

Lecture 3 hours per week.

## **ENG 254 Survey of African-American Literature II (3 cr.)**

Examines selected works by African-American writers from the colonial period to the present more specifically from the early 20th century to the present. Involves critical reading and writing. ENG 254 has been designated as a "writing intensive" course according to standards developed by the English department.

Prerequisite: ENG 112 or equivalent.

Lecture 3 hours per week.

## **ENG 273 Women in Literature I (3 cr.)**

Examines literature by and about women prior to 1900. Involves critical reading and writing. ENG 273 has been designated as a "writing intensive" course according to standards developed by the English department.

Prerequisite: ENG 112 or equivalent.

Lecture 3 hours per week.

## **ENG 274 Women in Literature II (3 cr.)**

Examines literature by and about women from about 1900 to the present. Involves critical reading and writing. ENG 274 has been designated as a "writing intensive" course according to standards developed by the English department.

Prerequisite: ENG 112 or equivalent.

Lecture 3 hours per week.

## **ENG 295 Topics in English: The American Romantics in Italy (3 cr.)**

Focuses on the writers of American Romanticism and the diaries novels journals poetry letters and dispatches that grew from their engagement with Italy. Provides students with an understanding of American Romanticism through its encounter with Italy and students will engage these elements themselves in Venice Padua Florence Rome Naples Pompeii and Sorrento. This course will be inter-disciplinary exploring Italian art architecture history music language and culture.

Prerequisite: ENG 112 or the equivalent.

Lecture 3 hours per week.

## **ENVIRONMENTAL SCIENCE(ENV)**

### **ENV 195 Topics in Environmental Science: The Environment and Its Chemistry (4 cr.)**

Introduces chemical principles and applies them to environmental issues. Covers the fundamental principles concepts and language of general organic inorganic and biochemistry. Addresses topics associated with matter/energy nuclear chemistry air and water quality and wastes. Laboratories will include sampling analysis and generation of statistically-valid data while preparing students to think like environmental scientists. Environmental Sustainability Designation: Course content related to the study of sustainable development.

Prerequisite: Competency in Introductory Algebra MDE 010 as demonstrated through placement or by satisfactorily completing MDE 010.

Lecture 3 hours.

Laboratory 3 hours.

Total 6 hours per week.

## **FINANCIAL SERVICES(FIN)**

### **FIN 107 Personal Finance (3 cr.)**

Presents a framework of personal money management concepts including establishing values and goals determining sources of income managing income preparing a budget developing consumer buying ability using credit understanding savings and insurance providing for adequate retirement and estate planning.

Lecture 3 hours per week.

### **FIN 215 Financial Management (3 cr.)**

Introduces basic financial management topics including statement analysis working capital budgeting and long-term financing. Focuses on Net Present Value and Internal Rate of Return techniques lease vs. buy analysis and Cost of Capital computations. Uses problems and cases to enhance skills in financial planning and decision-making.

Lecture 3 hours per week.

## **FIN 260 Financial Management for Small Business (2 cr.)**

Provides the tools of financial planning for the small business owner. Includes areas such as financial statements ratio analysis forecasting profit cash flow pricing and obtaining capital.

Prerequisite: ACC 117.

Lecture 2 hours per week.

## **FIRE SCIENCE TECHNOLOGY(FST)**

### **FST 100 Principles of Emergency Services (3 cr.)**

Provides an overview to fire protection; career opportunities in fire protection and related fields; philosophy and history of fire protection/service; fire loss analysis; organization and function of public and private fire protection services; fire departments as part of local government; laws and regulations affecting the fire service; fire service nomenclature; specific fire protection functions; basic fire chemistry and physics; introduction to fire protection systems; and introduction to fire strategy and tactics. (Usually offered in fall only.)

Lecture 3 hours per week.

### **FST 110 Fire Behavior and Combustion (3 cr.)**

Explores the theories and fundamentals of how and why fires start spread and how they are controlled. (Usually offered in fall only.)

Lecture 3 hours per week.

### **FST 112 Hazardous Materials Chemistry (3 cr.)**

Provides basic fire chemistry relating to the categories of hazardous materials including problems of recognition reactivity and health encountered by firefighters. (Usually offered only in spring.)

Lecture 3 hours per week.

### **FST 115 Fire Prevention (3 cr.)**

Provides fundamental information regarding the history and philosophy of fire prevention organization and operation of a fire prevention bureau use of fire codes identification and correction of fire hazards and the relationships of fire prevention with built-in fire protection systems fire investigation and fire and life-safety education. (Usually offered in spring only.)

Lecture 3 hours per week.

### **FST 121 Principles of Fire and Emergency Services Safety and Survival (3 cr.)**

Introduces basic principles and history related to the national firefighter life safety initiatives focusing on the need for cultural and behavior change throughout the emergency services. (This course has replaced FST 120 in the curriculum.)

Lecture 3 hours per week.

## **FST 135 Fire Instructor I (3 cr.)**

Emphasizes development of teaching methods and aids including role-playing small group discussion and development of individual learning methods and materials. Requires students to develop lesson plans and make presentations on appropriate topics. Prepares students for certification as Fire Instructor I. (Course is based on current requirements of NFPA 1041 Standards for Fire Instructor Professional Qualifications.)  
Lecture 3 hours per week.

## **FST 140 Fire Officer I (3 cr.)**

Presents and develops the foundational skills needed to supervise and direct personnel and manage resources at the company level which is based on the current requirements of the NFPA 1021 Standards for Fire Officer Professional Qualifications. Prepares the student for certification as Fire Officer I.  
Lecture 3 hours per week.

## **FST 205 Fire Protection Hydraulics and Water Supply (3 cr.)**

Provides a foundation of theoretical knowledge in order to understand the principles of the use of water in fire protection and to apply hydraulic principles to analyze and solve water supply problems. (Usually offered in the spring semester.)  
Lecture 3 hours per week.

## **FST 210 Legal Aspects of Fire Service (3 cr.)**

Introduces the federal state and local laws that regulate emergency services; national standards influencing emergency services; standard of care tort liability and a review of relevant court cases. (Usually offered in the spring semester.)  
Lecture 3 hours per week.

## **FST 215 Fire Protection Systems (3 cr.)**

Provides information relating to the features of design and operation of fire detection and alarm systems heat and smoke control systems special protection and sprinkler systems water supply for fire protection and portable fire extinguishers. (Usually offered in the spring semester.)  
Lecture 3 hours per week.

## **FST 216 Automatic Sprinkler System Design I (3 cr.)**

Presents a comprehensive study of treatment of automatic sprinkler systems including a study of sprinkler standards design features water supply adequacy sprinkler limitations and appropriate building and fire code applications.  
Prerequisite: FST 205 or program permission.  
Lecture 3 hours per week.

## **FST 217 Automatic Sprinkler System Design II (3 cr.)**

Continues the study of automatic sprinkler system design implementation and installation. Includes the use of appropriate computer applications in the design of various types of sprinkler systems. (Usually offered in spring semester.)  
Prerequisite: FST 216.  
Lecture 3 hours per week.

## **FST 220 Building Construction for Fire Protection (3 cr.)**

Provides the components of building construction that relate to fire and life safety. Focuses on firefighter safety. Covers the elements of construction and design of structures shown to be key factors when inspecting buildings preplanning fire operations and operating at emergencies. (Usually offered in the fall semester.)  
Lecture 3 hours per week.

## **FST 230 Fire Investigation (3 cr.)**

Provides the student with the fundamentals and technical knowledge needed for proper fire scene interpretations including recognizing and conducting origin and cause preservation of evidence and documentation scene security motives of the firesetter and types of fire causes.  
Lecture 3 hours per week.

## **FST 235 Strategy and Tactics (3 cr.)**

Provides an in-depth analysis of the principles of fire control through utilization of personnel equipment and extinguishing agents on the fire ground. (Usually offered in the fall semester.)  
Lecture 3 hours per week.

## **FST 237 Emergency Service Supervision (3 cr.)**

Teaches the history of modern management theories including scientific management and behavioral scientist approach. Introduces concepts of group dynamics leadership communication stress and time management and personnel evaluation techniques. Discusses the legal and ethical considerations of personnel management in the emergency service.  
Lecture 3 hours per week.

## **FST 240 Fire Administration (3 cr.)**

Introduces the student to the organization and management of a fire department and the relationship of government agencies to the fire service. Emphasizes fire service leadership from the perspective of the company officer. (Usually offered in the fall semester.)  
Lecture 3 hours per week.

## **FST 245 Fire and Risk Analysis (3 cr.)**

Presents a study of current urban fire problems with emphasis on solutions based upon current available technology. Includes master planning as well as methods of identifying analyzing and measuring accompanying risk and loss possibilities. (Usually offered in the spring semester.)  
Prerequisite: FST 240 or permission of program head.  
Lecture 3 hours per week.

## **FST 250 Fire Officer II (3 cr.)**

Presents an intermediate-level course to help individuals further develop the skills needed to supervise and direct personnel manage resources at the company level and is based on the current requirements of the NFPA 1021 Standards for Fire Officer Professional Qualifications. Prepares student for certification as Fire Officer II.  
Prerequisite: FST 140 or Certification as Fire Officer I.  
Lecture 3 hours per week.

## **FRENCH(FRE)**

### **FRE 101 Beginning French I (4 cr.)**

Introduces understanding speaking reading and writing skills and emphasizes basic French sentence structure. Incorporates exposure to the arts culture and literature of the areas of the world where French is spoken. Part I of II. May include one additional hour of oral practice per week.  
Lecture 4 hours per week.

### **FRE 102 Beginning French II (4 cr.)**

Introduces understanding speaking reading and writing skills and emphasizes basic French sentence structure. Incorporates exposure to the arts culture and literature of the areas of the world where French is spoken. Part II of II. May include one additional hour of oral practice per week.  
Prerequisite: FRE 101 or equivalent.  
Lecture 4 hours per week.

### **FRE 201 Intermediate French I (3 cr.)**

Continues to develop understanding speaking reading and writing skills. French is used in the classroom. Part I of II. May include one additional hour of oral practice per week.  
Prerequisite: FRE 102 or equivalent.  
Lecture 3 hours per week.

### **FRE 201 Intermediate French I (4 cr.)**

Continues to develop understanding speaking reading and writing skills. French is used in the classroom. Part I of II. May include one additional hour of oral practice per week.  
Prerequisite: FRE 102 or equivalent.  
Lecture 4 hours per week.

## **FRE 202 Intermediate French II (3 cr.)**

Continues to develop understanding speaking reading and writing skills. French is used in the classroom. Part II of II. May include one additional hour of oral practice per week. Prerequisite: FRE 201 or equivalent. Lecture 3 hours per week.

## **FRE 202 Intermediate French II (4 cr.)**

Continues to develop understanding speaking reading and writing skills. French is used in the classroom. Part II of II. May include one additional hour of oral practice per week. Prerequisite: FRE 201 or equivalent. Lecture 4 hours per week.

## **GEOGRAPHIC INFORMATION SYSTEMS(GIS)**

### **GIS 200 Geographical Information Systems I (3 cr.)**

Provides hands-on introduction to a dynamic desktop GIS (Geographic Information System). Introduces the components of a desktop GIS and their functionality. Emphasizes manipulation of data for the purpose of analysis presentation and decision-making. Prerequisite: ITE 115 or equivalent. Lecture 2 hours per week. Laboratory 2 hours per week. Total 4 hours per week.

### **GIS 201 Geographical Information Systems II (3 cr.)**

Provides a continuation of GIS 200 with emphasis on advanced topics in problem-solving decision-making modeling programming and data management. Covers map projections and data formats and methods for solving the problems they create. Prerequisite: GIS 200. Lecture 2 hours. Laboratory 2 hours. Total 4 hours per week.

## **GEOGRAPHY(GEO)**

### **GEO 200 Introduction to Physical Geography (3 cr.)**

Studies major elements of the natural environment including earth-sun relationship landforms weather and climate natural vegetation and soils. Introduces the student to types and uses of maps. Prerequisite: Placement in ENG 111 or placement in Co-requisites ENG 111 and EDE 11. Lecture 3 hours per week.

### **GEO 210 People and the Land: Introduction to Cultural Geography (3 cr.)**

Focuses on the relationship between culture and geography. Presents a survey of modern demographics landscape modification material and nonmaterial culture language race and ethnicity religion politics and economic activities. It introduces the student to types and uses of maps. Prerequisite: Placement in ENG 111 or placement in Co-requisites ENG 111 and EDE 11. Lecture 3 hours per week.

### **GEO 225 Economic Geography (3 cr.)**

Familiarizes the student with the various economic geographic political and demographic factors that affect international target markets and trade activity. Prerequisite: Placement in ENG 111 or placement in Co-requisites ENG 111 and EDE 11. Lecture 3 hours per week.

## **GEOLOGY(GOL)**

### **GOL 105 Physical Geology (4 cr.)**

Introduces the composition and structure of the earth and modifying agents and processes. Investigates the formation of minerals and rocks weathering erosion earthquakes and crystal deformation. This course completes a one-year laboratory science requirement when followed by GOL 106. Lecture 3 hours. Laboratory 3 hours. Total 6 hours per week.

### **GOL 106 Historical Geology (4 cr.)**

Traces the evolution of the earth and life through time. Presents scientific theories of the origin of the earth and life and interprets rock and fossil record. Prerequisite: GOL 105 or equivalent. Lecture 3 hours. Laboratory 3 hours. Total 6 hours per week.

## **GERMAN(GER)**

### **GER 101 Beginning German I (4 cr.)**

Introduces understanding speaking reading and writing skills and emphasizes basic German sentence structures. Incorporates exposure to the arts culture and literature of the areas of the world where German is spoken. Part I of II. May include one additional hour of oral practice per week. Lecture 4 hours per week.

### **GER 101 Beginning German I (5 cr.)**

Introduces understanding speaking reading and writing skills and emphasizes basic German sentence structures. Part I of II. May include one additional hour oral practice per week. Prerequisite: Functional fluency in English. Lecture 5 hours per week.

### **GER 102 Beginning German II (4 cr.)**

Introduces understanding speaking reading and writing skills and emphasizes basic German sentence structures. Incorporates exposure to the arts culture and literature of the areas of the world where German is spoken. Part II of II. May include one additional hour of oral practice per week. Prerequisite: Satisfactory completion of GER 101. Lecture 4 hours per week.

### **GER 102 Beginning German II (5 cr.)**

Introduces understanding speaking reading and writing skills and emphasizes basic German sentence structures. Part II of II. May include one additional hour oral practice per week. Prerequisite: Successful completion of GER 101 or equivalent. Lecture 5 hours per week.

### **GER 201 Intermediate German I (3 cr.)**

Continues to develop understanding speaking reading and writing skills. German is used in the classroom. May include one additional hour oral practice per week. Prerequisite: GER 102 or equivalent. Part I of II. Lecture 3 hours per week.

### **GER 202 Intermediate German II (3 cr.)**

Continues to develop understanding speaking reading and writing skills. German is used in the classroom. Part II of II. May include one additional hour oral practice per week. Prerequisite: GER 201 or equivalent. Lecture 3 hours per week.

**HEALTH CARE  
TECHNICIAN(HCT)**

**HCT 101 Health Care Technician I (Nurse Aide I) (3 cr.)**

Teaches basic care skills with emphasis on physical social and emotional needs of patients. Covers procedures communications and interpersonal relations; observation charting and reporting; care planning safety and infection control; anatomy and physiology nutrition and patient feeding; and ethics death and dying. Prepares multi-skilled health care workers to care for patients of various ages with special emphasis on geriatric nursing home health and long- and short- term care facilities.

Prerequisites: Competencies in reading and writing as demonstrated by placement in ENG 111 or placement in co-requisites ENG 111 and EDE 11; ability to meet physical expectations of patient care; mandatory criminal background check and drug test; current (through the end of class) proof of negative TB; physical ability to lift and move clients, hear audible alarms and sounds, auscultate certain physical parameters, such as blood pressure and breathing; and ability to interact effectively with clients/families and health care team members.

Lecture 3 hours per week.

**HCT 102 Health Care Technician II (Nurse Aide II) (4 cr.)**

Applies theory through laboratory experience for health care technicians to work in home health and long- and short-term facilities.

Prerequisites: Competencies in reading and writing as demonstrated by placement in ENG 111 or placement in co-requisites ENG 111 and EDE 11; ability to meet physical expectations of patient care; mandatory criminal background check and drug test; current (through the end of class) proof of negative TB; physical ability to lift and move clients, hear audible alarms and sounds, auscultate certain physical parameters, such as blood pressure and heart and lung sounds; and ability to interact effectively with clients/families and health care team members.

Lecture 1 hour.

Laboratory 6 hours.

Total 7 hours per week.

**HEALTH INFORMATION  
MANAGEMENT(HIM)**

**HIM 110 Introduction to Human Pathology (3 cr.)**

Introduces the basic concepts terminology etiology and characteristics of pathological processes.

Prerequisites: HLT 143 and BIO 145 or BIO 141 and BIO 142.

Lecture 3 hours per week.

**HIM 130 Healthcare Information Systems (3 cr.)**

Teaches basic concepts of microcomputer software (to include operating systems word processing spreadsheets and database applications). Focuses on microcomputer applications and information systems in the health care environment. Provides a working introduction to electronic health information systems for allied health teaching students how the adoption of electronic health records affects them as future health care professionals.

Prerequisite: ITE 115.

Lecture 3 hours per week.

**HIM 141 Fundamentals of Health Information Systems I (3 cr.)**

Focuses on health data collection storage retrieval and reporting systems with emphasis on the role of the computer in accomplishing these functions. Part I of II.

Prerequisite: Passing score on the computer competency exam, ITE 115, or permission of the instructor.

Lecture 3 hours per week.

**HIM 142 Fundamentals of Health Information Systems II (3 cr.)**

Continues focus of health data collection storage retrieval and reporting systems with emphasis on the role of the computer in accomplishing these functions. Part II of II.

Prerequisites: Passing score on the computer competency exam, ITE 115, or permission of the instructor.

Lecture 3 hours per week.

**HIM 151 Reimbursement Issues in Medical Practice Management (2 cr.)**

Introduces major reimbursement systems in the United States. Focuses on prospective payments systems managed care and documentation necessary for appropriate reimbursement. Emphasizes management of practice to avoid fraud.

Lecture 2 hours per week.

**HIM 220 Health Statistics (3 cr.)**

Introduces the student to basic statistical principles and calculations as applied in the health care environment procedures for collection and reporting vital statistics and basic quality control basics.

Prerequisites: Competency in Introductory Algebra MDE 010 as demonstrated through placement or by satisfactorily completing MDE 010.

Lecture 3 hours per week.

**HIM 226 Legal Aspects of Health Record Documentation (2 cr.)**

Presents the legal requirements associated with health record documentation. Emphasizes the policies and procedures concerning the protection of the confidentiality of patient's health records.

Lecture 2 hours per week.

**HIM 229 Performance Improvement in Health Care Settings (2 cr.)**

Focuses on concepts of facility-wide performance improvement resource management and risk management. Applies tools for data collection and analysis.

Lecture 1 hour.

Laboratory 2 hours.

Total 3 hours per week.

**HIM 230 Information Systems and Technology in Health Care (3 cr.)**

Explores computer technology and system application in health care. Introduces the information systems life cycle.

Prerequisites: HIM 142 and HIM 130.

Lecture 2 hours.

Laboratory 3 hours.

Total 5 hours per week.

**HIM 233 Electronic Health Records Management (3 cr.)**

Studies new trends in management and processing of health information with emphasis on the electronic health record (EHR). Covers the definition benefits standards functionality confidentiality and security and impact of the EHR in the health care environment.

Explores implementation of the EHR including infrastructure required project management techniques information technology systems workflow processes and redesign in various health care settings. Discusses legal issues created by implementation of the EHR.

Prerequisites: HIM 130 and HIM 230.

Lecture 3 hours per week.

**HIM 236 Coding and Reimbursement in Alternate Health Care Settings (5 cr.)**

Focuses on disease and procedure coding using International Classification Disease (ICD) and Current Procedural Terminology (CPT) in alternate health care settings such as behavioral health home health skilled nursing facilities long-term care hospitals (LTCH) rehab facilities and hospice.

Prerequisite: Admittance into the Advanced Medical Coder Career Studies Certificate.

Lecture 5 hours per week.

**HIM 249 Supervision and Management Practices (3 cr.)**

Introduces supervision and management principles with emphasis on the application of these principles in the health information setting.

Lecture 3 hours per week.

## **HIM 250 Health Classification Systems I ICD-9/10-CM (4 cr.)**

Focuses on the current classification systems used in the health care industry. Introduces the professional standards for coding and reporting of inpatient/outpatient diagnostic codes as well as inpatient procedures. Utilizes standards in identifying and accurately assigning codes to diseases and procedures as they relate to statistical research and health care financing. Prerequisites: HLT 143 and BIO 145 or BIO 141 and BIO 142. Lecture 4 hours per week.

## **HIM 251 Clinical Practice I (3 cr.)**

Prepares the Health Information Technology Student to perform all functions commonly allocated to health record services. Gives practice in various settings under the supervision of an appropriate clinical practice HIM or HIT supervisor. Part I of II. Laboratory 6 hours per week.

## **HIM 255 Health Data Classification Systems II: Current Procedural Terminology (3 cr.)**

Focuses on procedure classification using Current Procedural Terminology (CPT). This system is currently utilized for collecting health data for the purposes of statistical research and financial reporting. Prerequisites: BIO 145 (or BIO 141 and 142), HLT 143, or permission of the instructor. Lecture 3 hours per week.

## **HIM 257 Health Data Classifications Systems III (3 cr.)**

Integrates and applies knowledge with hands-on skill practice in coding. Reinforces medical terminology anatomy and coding guidelines for International Classification of Diseases (ICD) and Current Procedural Terminology (CPT). Introduces the student to the Healthcare Common Procedure Coding System (HCPCS) coding guidelines. Promotes critical thinking related to coding quality fraud and abuse. Prerequisites: BIO 145 or BIO 141 and 142, HLT 143, HIM 110, HIM 141, HIM 250, and HIM 255. Lecture 3 hours per week.

## **HIM 295 Topics in HIM: Health Data Classification Systems I: ICD-10-PCS (1 cr.)**

Focuses on the current classification systems used in the health care industry. Introduces the professional standards for coding and reporting of inpatient procedures on electronic claims transactions. Utilizes standards in identifying and accurately assigning codes to inpatient procedures as they relate to health care financing and/or statistical research. Prerequisites: HLT 143 and BIO 100 or BIO 141 and BIO 142. Lecture 1 hour per week.

## **HIM 299 Supervised Study: Performance Improvement in Health Care Settings (2 cr.)**

Focuses on concepts of facility-wide performance improvement resource management and risk management. Applies tools for data collection and analysis. Prerequisite: Admittance into the Advanced Medical Coder Career Studies Certificate. Lecture 1 hour. Laboratory 2 hours. Total 3 hours per week.

## **HEALTH SCIENCES AND SAFETY(HLTH)**

### **HLTH 420001 Medical Coding - Certified Professional Coder (Non-Credit)**

This program will introduce class participants to the basic principles of coding for outpatient and physician services. This course will prepare participants to sit for the AAPC formally American Academy of Professional Coders Certified Professional Coder (CPC) exam. Non-Credit

### **HLTH 430004 Pharmacy Technician Program (Non-Credit)**

This program will prepare participants to enter the pharmacy field and to pursue certification including the Pharmacy Technician Certification Boards PTCB exam. Technicians work under the supervision of a registered pharmacist in hospitals home infusion pharmacies community pharmacies and other healthcare settings. Non-Credit

### **HLTH 460003 Certified Nurse Aide (Non-Credit)**

This program will prepare the student for a career in the nursing field. Training will focus on the improvement and enhancement of quality of life for long-term care residents and introduce the growing need in long-term care. Students must have a high school diploma or GED and the ability to pass drug and criminal background screening. A TB test is also administered. Non-Credit

## **HEALTH(HLT)**

### **HLT 101 Introduction to the Role of Pharmacy Technician (1 cr.)**

Provides an overview of pharmacy practice drug classifications and generic substitutions and the role and responsibility of a pharmacy technician professional. Focuses on the essentials required for excelling in the pharmacy technician role. Lecture 1 hour per week.

### **HLT 105 Cardiopulmonary Resuscitation (1 cr.)**

Provides training in coordinated mouth-to-mouth artificial ventilation and chest compression choking life-threatening emergencies sudden illness and AED skills for adults children and infants. Equivalent to EMS 100. Lecture 1 hour per week.

### **HLT 106 First Aid and Safety (2 cr.)**

Focuses on the principles and techniques of safety and first aid. Lecture 2 hours per week.

### **HLT 110 Concepts of Personal and Community Health (3 cr.)**

Studies the concepts related to the maintenance of health safety and the prevention of illness at the personal and community level. Lecture 3 hours per week.

### **HLT 115 Introduction to Personal and Community Health (1 cr.)**

Introduces and focuses on the principles of personal and community health. Lecture 1 hour per week.

### **HLT 116 Introduction to Personal Wellness Concepts (3 cr.)**

Introduces students to the dimensions of wellness including the physical emotional environmental spiritual occupational and social components. Explores the relationship between personal health and physical fitness as they apply to individuals in today's society. Includes: nutrition weight control stress conditioning and drugs. Lecture 3 hours per week.

### **HLT 119 First Responder (3 cr.)**

Provides knowledge and proficiency in basic life support and in actions necessary to minimize patient discomfort and prevention of further complications. Meets requirements for Virginia certification as a first responder. Equivalent to EMS 101. It is also listed under the HLT prefix to allow EMSaapos;s business and industry personnel to enroll in a health class to apply toward a degree or certificate HLT requirements. Prerequisite: CPR certification at the health care provider level. Lecture 3 hours per week.

### **HLT 121 Introduction to Drug Use and Abuse (3 cr.)**

Explores the use and abuse of drugs in contemporary society with emphasis upon sociological physiological and psychological effects of drugs. Lecture 3 hours per week.

## **HLT 143 Medical Terminology I (3 cr.)**

Provides an understanding of medical abbreviations and terms. Includes the study of prefixes suffixes word stems and technical terms with emphasis on proper spelling pronunciation and usage. Emphasizes more complex skills and techniques in understanding medical terminology. Part I of II. Lecture 3 hours per week.

## **HLT 190 Coordinated Internship in Health Science (3 cr.)**

Supervises on-the-job training in selected business industrial or service firms coordinated by the college. Provides a health care work/volunteer experience for students pursuing the Health Science I Career Studies Certificate program and orientation to the workplace. Prerequisite: SDV 100 or SDV 101, HLT 105, ENG 111, and one BIO course. Laboratory 9 hours per week.

## **HLT 190 Coordinated Internship in Health Science (4 cr.)**

Supervises on-the-job training in selected business industrial or service firms coordinated by the college. Provides a health care work/volunteer experience for students pursuing the Health Science I Career Studies Certificate program and orientation to the workplace. Prerequisite: SDV 100 or SDV 101, HLT 105, ENG 111, and one BIO course. Laboratory 12 hours per week.

## **HLT 190 Coordinated Internship in Health Science (5 cr.)**

Supervises on-the-job training in selected business industrial or service firms coordinated by the college. Provides a health care work/volunteer experience for students pursuing the Health Science I Career Studies Certificate program and orientation to the workplace. Prerequisites: SDV 100 or SDV 101, HLT 105, ENG 111, and one BIO course. Laboratory 15 hours per week.

## **HLT 200 Human Sexuality (3 cr.)**

Provides a basic understanding of human sexuality. Includes anatomy physiology pregnancy family planning venereal diseases and sexual variations. Lecture 3 hours per week.

## **HLT 203 Men's Health (3 cr.)**

Provides an overview of the male anatomy and examines health status from birth to death from an interdisciplinary perspective. Topics include major chronic and infectious diseases; mental health andropause stress sleep aging exercise nutrition sexual health and grooming; and the impact of a male role model on health. Total 3 hours per week.

## **HLT 204 Women's Health (3 cr.)**

Explores current issues related to womenaapos; health and wellness with an emphasis upon prevention of disease and optimum well-being. Takes a multi-ethnic approach to exploring the most up-to-date findings diagnostic tools and treatments for breast cancer reproductive tract illness heart disease and other common diseases faced by women from puberty through menopause. Lecture 3 hours per week.

## **HLT 215 Personal Stress and Stress Management (3 cr.)**

Provides a basic understanding of stress and its physical psychological and social effects. Includes the relationships between stress and change self-evaluation sources of stress and current coping skills for handling stress. Lecture 3 hours per week.

## **HLT 226 AIDS Awareness (2 cr.)**

Provides basic understanding of Acquired Immune Deficiency Syndrome (AIDS) AIDS-Related Complex (ARC) and Human Immunodeficiency Virus (HIV) Infection. Includes information on the etiology of AIDS historical perspectives signs and symptoms HIV antibody testing safer sex guidelines AIDS in the workplace (including health care settings) psychosocial issues death and dying issues homophobia and HIV transmission and prevention. Lecture 2 hours per week.

## **HLT 230 Principles of Nutrition and Human Development (3 cr.)**

Teaches the relationship between nutrition and human development. Emphasizes nutrients balanced diet weight control and the nutritional needs of an individual. Lecture 3 hours per week.

## **HLT 250 General Pharmacology (3 cr.)**

Emphasizes general pharmacology for the health-related professions covering general principles of drug actions/reactions major drug classes specific agent within each class and routine mathematical calculations needed to determine desired dosages. Lecture 3 hours per week.

## **HLT 261 Basic Pharmacy I (3 cr.)**

Explores the basics of general pharmacy reading prescriptions symbols packages and pharmacy calculations. Teaches measuring compounds of drugs dosage forms drug laws and drug classifications. Part I of II. Lecture 3 hours per week.

## **HLT 262 Basic Pharmacy II (3 cr.)**

Explores the basics of general pharmacy reading prescriptions symbols packages and pharmacy calculations. Teaches measuring compounds of drugs dosage forms drug laws and drug classifications. Part II of II. Prerequisite: HLT 101, HLT 250 and HLT 261. Lecture 3 hours per week.

## **HLT 298 Seminar and Project in Health (Pharmacy Technician) (4 cr.)**

This course is designed to provide the student with an overall perspective of the pharmacy technician's role in practice through virtual simulation and field experience in retail and clinical pharmacies. Prerequisite: HLT 101, HLT 250 and HLT 261. Lecture 4 hours per week.

## **HLT 299 Supervised Study: Basic Pharmacy II (3 cr.)**

Explores the basics of general pharmacy reading prescriptions symbols packages and pharmacy calculations. Teaches measuring compounds of drugs dosage forms drug laws and drug classifications. Part II of II. Prerequisites: HLT 250 and HLT 261. Lecture 3 hours per week.

## **HLT 299 Supervised Study: Seminar and Project in Health (Pharmacy Technician) (4 cr.)**

This course is designed to provide the student with an overall perspective of the pharmacy technicianaapos; role in practice through virtual simulation and field experience in retail and clinical pharmacies. Prerequisite: HLT 261. Lecture 4 hours per week.

## **HEATING, VENTILATION, AND AIR CONDITIONING(HVAC)**

### **HVAC 510014 National Center for Construction Education & Research (NCCER) - HVAC Level 1 (Non-Credit)**

The National Center for Construction Education and Research (NCCER) is the credentialing body for the NCCER CORE Curriculum certification. This course is intended for students interested in entering the HVAC industry. There may be an additional cost for EPA 608 certification. Registration in NCCER CORE or previous NCCER CORE certification is required for enrollment in HVAC Level 1. Non-Credit

## **HISTORY(HIS)**

### **HIS 101 History of Western Civilization I (3 cr.)**

Examines the development of western civilization from ancient times to the mid-seventeenth century. Prerequisites: Placement in English 111 or placement in Co-requisites ENG 111 and EDE 11. Lecture 3 hours per week.

## **HIS 102 History of Western Civilization II (3 cr.)**

Examines the development of western civilization from ancient times to the present. The first semester ends with the seventeenth century and the second semester continues through modern times. History 101 and 102 need not be taken in sequence.  
Prerequisite: Placement in ENG 111 or placement in Co-requisites ENG 111 and EDE 11.  
Lecture 3 hours per week.

## **HIS 111 History of World Civilization I (3 cr.)**

Surveys Asian African Latin American and European civilizations from the ancient period to the present. History 111 and 112 need not be taken in sequence.  
Prerequisite: Placement in ENG 111 or placement in Co-requisites ENG 111 and EDE 11.  
Lecture 3 hours per week.

## **HIS 112 History of World Civilization II (3 cr.)**

Surveys Asian African Latin American and European civilizations from the ancient period to the present. History 111 and 112 need not be taken in sequence.  
Prerequisite: Placement in ENG 111 or placement in Co-requisites ENG 111 and EDE 11.  
Lecture 3 hours per week.

## **HIS 121 United States History I (3 cr.)**

Surveys the United States history from its beginning to the present. History 121 and 122 need not be taken in sequence.  
Prerequisite: Placement in ENG 111 or placement in Co-requisites ENG 111 and EDE 11.  
Lecture 3 hours per week.

## **HIS 122 United States History II (3 cr.)**

Surveys the United States history from its beginning to the present. History 121 and 122 need not be taken in sequence.  
Prerequisite: Placement in ENG 111 or placement in Co-requisites ENG 111 and EDE 11.  
Lecture 3 hours per week.

## **HIS 127 Women in American History (3 cr.)**

Studies the role of women and attitudes toward women in American society from colonial times to the present.  
Prerequisite: Placement in ENG 111 or placement in co-requisites ENG 111 and EDE 11.  
Lecture 3 hours per week.

## **HIS 141 African-American History I (3 cr.)**

Surveys the history of black Americans from their African origins to the present.  
Prerequisites: Placement in ENG 111 or placement in Co-requisites ENG 111 and EDE 11.  
Lecture 3 hours per week.

## **HIS 142 African-American History II (3 cr.)**

Surveys the history of black Americans from their African origins to the present.  
Prerequisites: Placement in ENG 111 or placement in Co-requisites ENG 111 and EDE 11.  
Lecture 3 hours per week.

## **HIS 203 History of African Civilization (3 cr.)**

Examines major social economic political and religious developments from earliest times to the present.  
Prerequisite: Placement in ENG 111 or placement in Co-requisites ENG 111 and EDE 11.  
Lecture 3 hours per week.

## **HIS 253 History of Asian Civilizations I (3 cr.)**

Surveys the civilizations of Asia (China Japan Korea India and Southeast Asia # Thailand Laos Cambodia and Vietnam) from prehistory to the sixteenth century. Part I of II.  
Prerequisite: Placement in ENG 111 or placement in co-requisites ENG 111 and EDE 11.  
Lecture 3 hours per week.

## **HIS 254 History of Asian Civilizations II (3 cr.)**

Surveys the civilizations of Asia (China Japan Korea India and Southeast Asia # Thailand Laos Cambodia and Vietnam) from the sixteenth century to the present. Part II of II.  
Prerequisite: Placement in ENG 111 or placement in co-requisites ENG 111 and EDE 11.  
Lecture 3 hours per week.

## **HIS 267 The Second World War (3 cr.)**

Examines causes and consequences of the Second World War. Includes the rise of totalitarianism American neutrality military developments the home fronts diplomacy and the decision to use the atomic bomb.  
Prerequisite: Placement in ENG 111 or placement in Co-requisites ENG 111 and EDE 11.  
Lecture 3 hours per week.

## **HIS 269 Civil War and Reconstruction (3 cr.)**

Studies factors that led to the division between the states. Examines the war the home fronts and the era of Reconstruction.  
Prerequisite: Placement in ENG 111 or Placement in Co-requisites ENG 111 or EDE 11.  
Lecture 3 hours per week.

## **HIS 281 History of Virginia I (3 cr.)**

Examines the cultural political and economic history of the Commonwealth from its beginning to the present. Part I of II. HIS 281 and 282 do not have to be taken in sequence.  
Prerequisite: Placement in ENG 111 or placement in co-requisites ENG 111 and EDE 11.  
Lecture 3 hours per week.

## **HIS 282 History of Virginia II (3 cr.)**

Examines the cultural political and economic history of the Commonwealth from its beginning to the present. Part II of II. HIS 281 and 282 do not have to be taken in sequence.  
Prerequisite: Placement in ENG 111 or placement in Co-requisites ENG 111 and ENF 3.  
Lecture 3 hours per week.

## **HORTICULTURE(HRT)**

### **HRT 106 Practical Horticulture (1 cr.)**

Provides practical experience in landscape construction equipment operations and maintenance.  
Laboratory 2 hours per week.

### **HRT 110 Principles of Horticulture (3 cr.)**

Introduces concepts of plant growth and development. Covers horticultural practices crops and environmental factors affecting plant growth.  
Lecture 3 hours per week.

### **HRT 115 Plant Propagation (3 cr.)**

Teaches principles and practices of plant propagation. Examines commercial and home practices. Provides experience in techniques using seed-spores cuttings grafting budding layering and division.  
Lecture 2 hours.  
Laboratory 2 hours.  
Total 4 hours per week.

### **HRT 119 Irrigation Systems for Turf and Ornamentals (3 cr.)**

Explains why when and how irrigation systems are used by the grounds management industry. Includes component selection system design installation operation and maintenance.  
Lecture 2 hours.  
Laboratory 2 hours.  
Total 4 hours per week.

### **HRT 120 History of Garden Design (3 cr.)**

Studies the development of gardens as they chronicle the development of civilization. Introduces the periods in both Europe and North America beginning with settlement on through industrial development land and space utilization to current environmental concerns. Explores physical and cultural influences on garden design and utilization.  
Lecture 3 hours per week.

### **HRT 121 Greenhouse Crop Production I (3 cr.)**

Examines commercial practices related to production of floriculture crops. Considers production requirements environmental control and management and cultural techniques.  
Lecture 2 hours.  
Laboratory 2 hours.  
Total 4 hours per week.

### **HRT 122 Greenhouse Crop Production II (3 cr.)**

Continues commercial practices related to production of floriculture crops. Considers production requirements environmental control and management and cultural techniques.  
Lecture 2 hours.  
Laboratory 2 hours.  
Total 4 hours per week.

## **HRT 125 Chemicals in Horticulture (3 cr.)**

Emphasizes basic chemical principles and their application to horticulture. Introduces principles of inorganic and organic chemicals. Studies chemical activities of insecticides fungicides herbicides fertilizers and growth regulators. Provides students an opportunity to test for their Commercial Pesticide Applicators License administered by VDACS at the end of the course.

Lecture 2 hours.

Laboratory 2 hours.

Total 4 hours per week.

## **HRT 126 Home Landscaping (3 cr.)**

Studies current approaches to improving home landscapes. Emphasizes planning proper implementation and landscape maintenance. Lecture 3 hours per week.

## **HRT 127 Horticultural Botany (3 cr.)**

Studies taxonomy anatomy morphology physiology and genetics of plants as applied to identification propagation and culture.

Lecture 2 hours.

Laboratory 2 hours.

Total 4 hours per week.

## **HRT 130 Introduction to Sustainable Farming (3 cr.)**

Familiarizes students through lecture and demonstration with small-scale food production by gardening. Covers the basics of composting and organic vegetable gardening using biointensive methods.

Lecture 3 hours per week.

## **HRT 134 Four Season Food Production (3 cr.)**

Familiarizes students with organic small-scale food production through lecture and demonstration. Includes seed saving cover crops and gardening planning.

Lecture 3 hours per week.

## **HRT 135 Training for Commercial Pesticide Application (3 cr.)**

Introduces students to the principles and practices for safe pesticide usage as required by law in the state of Virginia. Prepares students for the official tests administered by VDACS (Virginia Department of Agriculture and Consumer Services).

Lecture 3 hours per week.

## **HRT 150 Theory of Landscape Design (3 cr.)**

Presents the theoretical aspects of landscape planning and design. Uses theory to analyze and solve design problems.

Lecture 3 hours per week.

## **HRT 190 Coordinated Internship in Horticulture (1 cr.)**

Supervises on-the-job training in selected business industrial or service firms in the horticulture industry coordinated by the college.

Laboratory 5 hours per week.

## **HRT 195 Topics in Horticulture: Hydroponics (3 cr.)**

Introduces the student to the topic of water and nutrient relationships as they relate to soilless media for plant production. Examines plant/water relationships and optimum nutrition.

Lecture 3 hours per week.

## **HRT 201 Landscape Plants I (3 cr.)**

Studies landscape use of plants. Considers ornamental value growth habit identification and limitations. Part I of II.

Lecture 2 hours.

Laboratory 2 hours.

Total 4 hours per week.

## **HRT 202 Landscape Plants II (3 cr.)**

Studies landscape use of plants. Considers ornamental value growth habit identification and limitations. Part II of II.

Lecture 2 hours.

Laboratory 2 hours.

Total 4 hours per week.

## **HRT 205 Soils (3 cr.)**

Teaches theoretical and practical aspects of soils and other growing media. Examines media components chemical and physical properties and soil organisms. Discusses management and conservation.

Lecture 2 hours.

Laboratory 2 hours.

Total 4 hours per week.

## **HRT 226 Greenhouse Management (3 cr.)**

Discusses the theoretical and applied practices of managing a greenhouse facility. Emphasizes greenhouse construction and design environmental control energy conservation and related topics.

Lecture 2 hours.

Laboratory 2 hours.

Total 4 hours per week.

## **HRT 227 Professional Landscape Management (3 cr.)**

Focuses on basic practices and techniques involving landscape management. Includes development of a year-round management calendar and preparation of bid and contract proposals.

Lecture 2 hours.

Laboratory 2 hours.

Total 4 hours per week.

## **HRT 231 Planting Design I (3 cr.)**

Applies landscape theory and principles of drawing to the planning of residential and small-scale commercial landscape designs.

Lecture 2 hours.

Laboratory 2 hours.

Total 4 hours per week.

## **HRT 232 Planting Design II (3 cr.)**

Applies landscape theory and principles of drawing to the planning of large-scale commercial landscape designs.

Prerequisites: HRT 231 or equivalent.

Lecture 2 hours.

Laboratory 2 hours.

Total 4 hours per week.

## **HRT 235 Landscape Drawing (3 cr.)**

Teaches students the use of drafting equipment. Emphasizes drawing techniques and use of media. Includes hard line and free-style landscape drawing.

Lecture 2 hours.

Laboratory 2 hours.

Total 4 hours per week.

## **HRT 238 Growing for Market (3 cr.)**

Focuses on development of a marketing plan for sustainable farm items offered for sale to the public retail and wholesale. Includes hands-on experience in double-digging planting crop testing and utilization of compost.

Prerequisite: HRT 130 or permission of instructor.

Lecture 2 hours.

Laboratory 2 hours.

Total 4 hours per week.

## **HRT 239 Complete Diet Farming (3 cr.)**

Considers sustainable farming methods by which food can be grown for personal or family consumption emphasizing high nutritional yield in relatively small areas. Focuses on the development of a garden plan that includes vegetable and root crops and grains used for food and composting.

Prerequisite: HRT 130 or permission of instructor.

Lecture 3 hours per week.

## **HRT 249 Perennial Plants (3 cr.)**

Considers the perennial plants used in the landscape. Includes site selection and evaluation for perennial culture perennial plant selection perennial culture under various environmental conditions taxonomic identification and control of insects and diseases.

Lecture 2 hours.

Laboratory 2 hours.

Total 4 hours per week.

## **HRT 259 Arboriculture (3 cr.)**

Studies the techniques of tree care. Covers surgery pruning insect and disease recognition and control fertilization cabling and lightning rod installation.

Lecture 2 hours.

Laboratory 2 hours.

Total 4 hours per week.

## **HRT 260 Introduction to Floral Design (3 cr.)**

Teaches skills required for the composition of basic table arrangements. Includes the history of design styles identification of flowers and greens identification and use of equipment and conditioning and handling of flowers.

Lecture 2 hours.

Laboratory 2 hours.

Total 4 hours per week.

## **HRT 266 Advanced Floral Design (3 cr.)**

Teaches skills required for composition of traditional floral designs and contemporary floral designs. Includes wedding funeral and special occasion designs and the use of exotic florals to create arrangement styles such as Japanese European and Williamsburg.

Prerequisite: HRT 260.

Lecture 2 hours.

Laboratory 2 hours.

Total 4 hours per week.

## **HRT 268 Advanced Floral Design Applications (3 cr.)**

Teaches skills required for the composition of large floral arrangements. Includes wedding funeral and special occasion designs for the home as well as public areas. Includes use of dried and silk flowers for special occasions.

Prerequisite: HRT 260 - Introduction to Floral Design (or equivalent).

Lecture 2 hours.

Laboratory 2 hours.

Total 4 hours per week.

## **HRT 269 Professional Turf Care (3 cr.)**

Covers turf grass identification selection culture propagation and pest control. Surveys commercial turf care operations and use of common equipment.

Lecture 2 hours.

Laboratory 2 hours.

Total 4 hours per week.

## **HRT 275 Landscape Construction and Maintenance (3 cr.)**

Examines practical applications of commercial landscape construction techniques and materials used. Covers construction planting and maintenance.

Lecture 2 hours.

Laboratory 2 hours.

Total 4 hours per week.

## **HRT 285 Management of a Horticultural Business (3 cr.)**

Studies the business and selling practices which relate to wholesale and retail horticultural businesses including garden centers greenhouses nurseries and flower shops. Examines planning and layout suppliers merchandising maintenance and display of horticultural items. Accounting and bookkeeping requirements personnel management and hiring practices will also be examined.

Lecture 2 hours.

Laboratory 2 hours.

Total 4 hours per week.

## **HRT 290 Coordinated Internship in Horticulture (2 cr.)**

Provides students an opportunity for on-the-job training in selected business industrial or service firms coordinated by the college for a total of 160 contact hours regardless of the length of the term. Student commitment is 160 hours regardless of the semester enrolled.

Laboratory 10 hours per week (if a 16-week term).

## **HRT 295 Topics in Horticulture: Sports Turf Management (3 cr.)**

Addresses the scientific principles for the establishment and maintenance of intensely managed turf grass for golf courses and athletic fields. Topics include seeding sprigging sodding irrigation fertilization weed identification and control insect identification and control fungus identification and control drainage and mowing. Also covers critical tasks for constructing recreational turf grass facilities.

Lecture 2 hours.

Laboratory 2 hours.

Total 4 hours per week.

## **HRT 295 Topics in Horticulture: Sustainable Landscape Design (3 cr.)**

Will expose students to the concept of Sustainable Landscape Design as presented by the Sustainable Sites Initiative. The Sustainable Sites Initiative is a partnership with the American Society of Landscape Architecture (ASLA) the Lady Bird Johnson Wildflower Center and the United State Botanical Garden in conjunction with a diverse group of stakeholder organizations to establish and encourage sustainable practices in landscape design construction operations and maintenance. The Sustainable Sites Initiative is the peak national dialogue on sustainable site design issues. It provides a strong foundation for understanding the requirements as related to site design for LEED certification. Students will utilize the on-line publication Sustainable Sites Initiative and also become familiar with well-recognized significant examples of sustainable landscape design through visual case studies.

Lecture 3 hours.

Total 3 hours per week.

## **HOSPITALITY MANAGEMENT(HRI)**

### **HRI 106 Principles of Culinary Arts I-II (3 cr.)**

Introduces the fundamental principles of food preparation and basic culinary procedures. Stresses the use of proper culinary procedures combined with food science proper sanitation standards of quality for food items that are made and proper use and care of kitchen equipment. Part I of II.

Prerequisites: The Culinary Arts AAS degree requires that students have the following competencies: (1) Competency in Introductory Algebra MDE 010 as demonstrated through placement or by satisfactorily completing MDE 010, and (2) competencies in reading and writing as demonstrated by placement in ENG 111 or placement in co-requisites ENG 111 and ENF 3 or completion of a college-level composition course. Students needing to complete developmental studies courses in English or mathematics may take those courses concurrently with HRI courses, if approved by the program head.

Lecture 2 hours.

Laboratory 3 hours.

Total 5 hours per week.

### **HRI 115 Food Service Managers Sanitation Certification (1 cr.)**

Presents an accelerated survey of principles and applications of sanitary food service designed to promote the skills of managers in food service establishments licensed by the Commonwealth of Virginia. (Upon successful completion of the course a certificate of achievement is awarded by the Educational Foundation of the National Restaurant Association and the student's name is entered in the Foundation Registry.)

Lecture 1 hour per week.

### **HRI 119 Applied Nutrition for Food Service (2 cr.)**

Studies food composition nutrition science and application of nutrition principles by the food service professional. Provides the student with a basic understanding of human nutrition and application of nutrition in the service of commercially prepared meals. A laboratory co-requisite (HRI 122) may be required as identified by the college.

Lecture 2 hours per week.

### **HRI 122 Applied Nutrition for Food Service Laboratory (1 cr.)**

Provides students an opportunity to apply the concepts and develop the skill sets taught in HRI 119. Includes application of skill sets for understanding reviewing revising scaling and preparing existing recipes and the creation of new recipes with a focus on healthy cooking techniques alternative products and critical thinking.

Prerequisite: HRI 106 or equivalent.

Laboratory 5 hours per week.

## **HRI 128 Principles of Baking (3 cr.)**

Instructs the student in the preparation of breads pastries baked desserts candies frozen confections and sugar work. Applies scientific principles and techniques of baking. Promotes the knowledge/skills required to prepare baked items pastries and confections.  
Prerequisites: HRI 106 or approval by the program head.  
Lecture 2 hours.  
Laboratory 3 hours.  
Total 5 hours per week.

## **HRI 134 Food and Beverage Service Management (3 cr.)**

Provides a conceptual and technical framework for managing the service of meals in a variety of commercial settings. Studies the integration of production and service delivery guest contact dynamics reservations management and point-of-sale technology systems.  
Lecture 2 hours.  
Laboratory 3 hours.  
Total 5 hours per week.

## **HRI 136 Storeroom Operations and Inventory Management Laboratory (1 cr.)**

Explores through laboratory activities the flow of foods beverages and supplies in food service establishments including product identification purchasing receiving storage measuring data entry systems inventory and evaluation through discussion and demonstration.  
Laboratory 5 hours per week.

## **HRI 145 Garde Manger (3 cr.)**

Studies garde manger the art of decorative cold food preparation and presentation. Provides a detailed practical study of cold food preparation and artistic combination and display of cold foods.  
Prerequisite: HRI 218.  
Laboratory 3 hours.  
Total 5 hours per week.

## **HRI 154 Principles of Hospitality Management (3 cr.)**

Presents basic understanding of the hospitality industry by tracing the industry's growth and development reviewing the organization and management of lodging food and beverage operations and focusing on industry opportunities and future trends.  
Lecture 3 hours per week.

## **HRI 159 Introduction to Hospitality Industry Computer Systems (3 cr.)**

Familiarizes students with computerized information technology to manage information support decision-making and analysis improve processes increase productivity and enhance customer service in the hospitality industry.  
Lecture 2 hours.  
Laboratory 2 hours.  
Total 4 hours per week.

## **HRI 190 Coordinated Internship in Culinary Arts (3 cr.)**

Provides supervised on-the-job training in selected business industrial or service firms coordinated by the college.  
Prerequisite: Program head approval is required for enrollment in this course.  
Laboratory 15 hours per week.

## **HRI 190 Coordinated Internship in Culinary Arts (1 cr.)**

Provides supervised on-the-job training in selected business industrial or service firms coordinated by the college.  
Prerequisite: program head approval.  
Laboratory 5 hours per week.

## **HRI 190 Coordinated Internship in Culinary Management (3 cr.)**

Provides supervised on-the-job training in selected business industrial or service firms coordinated by the college.  
Prerequisite: Program head approval is required for enrollment in this course.  
Laboratory 15 hours per week.

## **HRI 190 Coordinated Internship in Culinary Management (1 cr.)**

Provides supervised on-the-job training in selected business industrial or service firms coordinated by the college.  
Prerequisite: program head approval.  
Laboratory 5 hours per week.

## **HRI 190 Coordinated Internship in Pastry Arts (3 cr.)**

Provides supervised on-the-job training in selected business industrial or service firms coordinated by the college.  
Prerequisite: Program head approval is required for enrollment in this course.  
Laboratory 15 hours per week.

## **HRI 190 Coordinated Internship in Pastry Arts (1 cr.)**

Provides supervised on-the-job training in selected business industrial or service firms coordinated by the college.  
Prerequisite: program head approval.  
Laboratory 5 hours per week.

## **HRI 199 Supervised Study: Principles of Hospitality Management (3 cr.)**

Presents basic understanding of the hospitality industry by tracing the industry's growth and development reviewing the organization and management of lodging food and beverage operations; and focusing on industry opportunities and future trends.  
Lecture 3 hours per week.

## **HRI 206 International Cuisine (3 cr.)**

Introduces the concepts of cultural differences and similarities and the preparation of the food specialties of the major geographical areas of the world. Focuses on emerging cuisines as they become popular.  
Prerequisites: HRI 145 and HRI 220.  
Lecture 2 hours.  
Laboratory 3 hours.  
Total 5 hours per week.

## **HRI 207 American Regional Cuisine (3 cr.)**

Studies the distinct regional cooking styles of America and its neighbors. Emphasizes the indigenous ingredients as well as the cultural aspect of each region's cooking style. Includes the preparation of the various regional foods.  
Prerequisites: HRI 145 and HRI 220.  
Lecture 2 hours.  
Laboratory 3 hours.  
Total 5 hours per week.

## **HRI 218 Fruit, Vegetable, and Starch Preparation (3 cr.)**

Instructs the student in the preparation of fruits vegetables grains cereals legumes and farinaceous products. Promotes the knowledge/skills necessary to prepare menu items from fruits vegetables and their byproducts and to select appropriate uses as meal components.  
Prerequisite: HRI 106.  
Lecture 2 hours.  
Laboratory 3 hours.  
Total 5 hours per week.

## **HRI 219 Stock, Soup, and Sauce Preparation (3 cr.)**

Instructs the student in the preparation of stocks soups and sauces. Promotes the knowledge/skills to prepare stocks soups and sauces and to select appropriate uses as meal components.  
Prerequisites: HRI 106.  
Lecture 2 hours.  
Laboratory 3 hours.  
Total 5 hours per week.

## **HRI 220 Meat, Seafood, and Poultry Preparation (3 cr.)**

Provides the study and preparation of meat poultry shellfish fish and game including alternative protein sources. Promotes the knowledge/skills required to select appropriate use of these foods as meal components. Students will produce various garnishes accompaniments sauces and accessories to produce a plated dish.  
Prerequisites: HRI 219.  
Lecture 2 hours.  
Laboratory 3 hours.  
Total 5 hours per week.

## **HRI 224 Recipe and Menu Management (3 cr.)**

Presents a comprehensive framework for creating and evaluating recipes and menus for commercial and non-commercial food service operations. Requires students to use microcomputer software to design recipes recipe files and menus. Teaches students menu engineering analysis and methods for optimizing menu contribution margin. Prerequisites: HRI 159 (or equivalent) and HRI 251. Lecture 3 hour per week.

## **HRI 226 Leadership and Kitchen Management (2 cr.)**

Presents advanced principles of the foodservice industry by exploring modern leadership techniques effective management routines characteristics of strong leadership employee selection and hiring performance reviews and career development. Lecture 2 hours per week.

## **HRI 235 Marketing of Hospitality Services (3 cr.)**

Studies principles and practices of marketing the services of the hotel and restaurant industry. Emphasizes the marketing concept with applications leading to customer satisfaction. Reviews methods of external and internal stimulation of sales. May include practical sales/marketing exercise and computer applications. Lecture 3 hours per week.

## **HRI 237 Current Issues and Environmental Responsibilities in the Hospitality Industry (1 cr.)**

Studies aspects of the evolving hospitality industry including the collective impact of environmental stewardship and sustainability local sourcing of products and ingredients greening of hospitality businesses cost-benefit analyses of sustainability decisions and ethical questions related to these topics. Environmental Sustainability Designation: Course content related to the study of sustainable development. Lecture 1 hour per week.

## **HRI 241 Supervision in the Hospitality Industry (3 cr.)**

Provides a comprehensive review of considerations for preparing students to become effective supervisors in restaurants and lodging operations. Lecture 3 hours per week.

## **HRI 242 Training and Development for the Hospitality Industry (3 cr.)**

Provides a thorough look at training by addressing how to assess and analyze the training needs of new and established hospitality operations; look upon training and development as an investment; use training tools and techniques; train with technology; measure and evaluate training; and use different training techniques when training employees supervisors and managers. Lecture 3 hours per week.

## **HRI 251 Food and Beverage Cost Control I (3 cr.)**

Presents methods of pre-cost and pre-control as applied to the menu purchasing receiving storing issuing production sales and service which result in achievement of an operation's profit potential. Emphasizes both manual and computerized approaches. Prerequisite: MTH 130. Lecture 3 hours per week.

## **HRI 255 Human Resources Management and Training for Hospitality and Tourism (3 cr.)**

Prepares the students for interviewing training and developing employees. Covers management skills (technical human and conceptual) and leadership. Covers the establishment and use of effective training and evaluative tools to improve productivity. Emphasizes staff and customer relations. Lecture 3 hours per week.

## **HRI 257 Catering Management (3 cr.)**

Studies special functions in the hospitality industry. Presents lecture and demonstration in banquet layout menus services sales and supervision. Lecture 3 hours per week.

## **HRI 270 Strategic Lodging Management (3 cr.)**

Presents lodging management principles focusing on strategic planning as the foundation for operational effectiveness. Synthesizes management practices which can be used by entry-level mid-level and executive management. Prerequisites: HRI 154 and ACC 117 or equivalent. Lecture 3 hours per week.

## **HRI 275 Hospitality Law (3 cr.)**

Studies legal principles governing hospitality operations. Includes applications of common law and statutory decisions discussion of legal theory and regulations governing management of hospitality enterprises. Lecture 3 hours per week.

## **HRI 281 Artisan Breads (3 cr.)**

Provides an integrated study of both classical and modern bread baking methods. Focuses on craft baking using simple ingredients to create superior products. Prerequisite: HRI 115. Lecture 2 hours. Laboratory 3 hours. Total 5 hours per week.

## **HRI 284 Specialty, Spa, and Plated Desserts (3 cr.)**

Provides an integrated study of specialty spa and plated desserts which possess enhanced value through artistic presentation. Prerequisite: HRI 128. Lecture 2 hours. Laboratory 3 hours. Total 5 hours per week.

## **HRI 285 Chocolate and Sugar Arts (3 cr.)**

Focuses on the study of chocolate and sugar as used by the pastry artist to create candies confections and showpieces. Prerequisite: HRI 280. Lecture 2 hours. Laboratory 3 hours. Total 5 hours per week.

## **HRI 286 Wedding and Specialty Cakes (3 cr.)**

Provides an integrated study of wedding and specialty cakes. Prerequisites: HRI 280 and HRI 285. Lecture 2 hours. Laboratory 3 hours. Total 5 hours per week.

## **HRI 287 Contemporary Culinary Artistry and Innovation (2 cr.)**

Studies market-driven culinary trends and contemporary culinary artistry. Covers contemporary nutrition concerns and special dietary needs; alternative business models; innovative plate presentation flavors textures and design elements; molecular gastronomy; and preparation of traditional and nontraditional foods for modern presentation. Lecture 1 hour. Laboratory 2 hours. Total 3 hours per week.

## **HRI 288 Health-conscious Baking (3 cr.)**

Provides students with an understanding of the ingredients and methods used in creating healthy and special needs breads pastries cookies and other desserts. Lecture 2 hours. Laboratory 3 hours. Total 5 hours per week.

## **HRI 290 Coordinated Internship in Culinary Arts (3 cr.)**

Provides supervised on-the-job training in selected business industrial or service firms coordinated by the college. Prerequisite: program head approval. Laboratory 15 hours per week.

## **HRI 290 Coordinated Internship in Culinary Management (3 cr.)**

Provides supervised on-the-job training in selected business industrial or service firms coordinated by the college.

Prerequisite: program head approval.

Laboratory 15 hours per week.

## **HRI 290 Coordinated Internship in Hospitality Management (3 cr.)**

Provides supervised on-the-job training in selected business industrial or service firms coordinated by the college.

Laboratory 15 hours per week.

## **HRI 290 Coordinated Internship in Pastry Arts (3 cr.)**

Provides supervised on-the-job training in selected business industrial or service firms coordinated by the college.

Prerequisite: program head approval.

Laboratory 15 hours per week.

## **HRI 298 Seminar and Project in Hospitality Management (3 cr.)**

Requires completion of a project or research report related to the student's occupational objectives and a study of approaches to the selection and pursuit of career opportunities in the field. Involves field research and observation independent research and development of a context for assimilating hospitality management principles.

Prerequisites: HRI 235 and HRI 255.

Lecture 3 hours per week.

## **HRI 299 Supervised Study: Capstone Study in Culinary Arts (3 cr.)**

Assigns problems for independent study incorporating previous instruction and supervised by the instructor. Provides the student and instructor an opportunity to work together to identify the critical areas of need in the student's repertoire.

An individualized plan will be developed to address the student's weaknesses and to lead progressively to a group demonstration of critical skills. Individual assessment constitutes the majority of this course. Lab lecture research and out-of-class projects will be utilized.

Prerequisites: HRI 206, HRI 207, HRI 251.

Laboratory 15 hours.

Total 15 hours per week.

## **HRI 299 Supervised Study: Capstone Study in Culinary Management (3 cr.)**

Assigns problems for independent study incorporating previous instruction and supervised by the instructor. Provides the student and instructor an opportunity to work together to identify the critical areas of need in the student's repertoire.

An individualized plan will be developed to address the student's weaknesses and to lead progressively to a group demonstration of critical skills. Individual assessment constitutes the majority of this course. Lab lecture research and out-of-class projects will be utilized.

Prerequisites: HRI 275, HRI 235, HRI 251.

Laboratory 15 hours.

Total 15 hours per week.

## **HRI 299 Supervised Study: Capstone Study in Pastry Arts (3 cr.)**

Assigns problems for independent study incorporating previous instruction and supervised by the instructor. Provides the student and instructor an opportunity to work together to identify the critical areas of need in the student's repertoire.

An individualized plan will be developed to address the student's weaknesses and to lead progressively to a group demonstration of critical skills. Individual assessment constitutes the majority of this course. Lab lecture research and out-of-class projects will be utilized.

Prerequisites: HRI 281, HRI 286, HRI 288, HRI 251.

Laboratory 15 hours.

Total 15 hours per week.

## **HRI 299 Supervised Study: Catering Management (3 cr.)**

Studies special functions in the hospitality industry. Presents lecture and demonstration in banquet layout menus services sales and supervision.

Lecture 3 hours per week.

## **HRI 299 Supervised Study: Supervision in the Hospitality Industry (3 cr.)**

Provides a comprehensive review of considerations for preparing students to become effective supervisors in restaurants and lodging operations.

Lecture 3 hours per week.

## **HUMAN SERVICES(HMS)**

### **HMS 100 Introduction to Human Services (3 cr.)**

Introduces human service agencies roles and careers. Presents an historical perspective of the field as it relates to human services today. Additional topics include values clarification and needs of target populations.

Lecture 3 hours per week.

### **HMS 121 Basic Counseling Skills I (3 cr.)**

Develops skills needed to function in a helping relationship. Emphasizes skills in attending listening and responding. Clarifies personal skill strengths deficits and goals for skill improvement.

Lecture 3 hours per week.

### **HMS 122 Basic Counseling Skills II (3 cr.)**

Expands the development of counseling skills needed to function effectively in a helping relationship. Emphasizes skills in responding personalizing summarizing and initiating. Clarifies personal skill strengths deficits and goals for skill improvement. Develops plans for achieving personal and program goals.

Prerequisite: HMS 121.

Lecture 3 hours per week.

### **HMS 141 Group Dynamics I (3 cr.)**

Examines the stages of group development group dynamics the role of the leader in a group and recognition of the various types of group processes. Discusses models of group dynamics that occur as a result of group membership dynamics.

Lecture 3 hours per week.

### **HMS 142 Group Dynamics II (3 cr.)**

Examines group dynamics group leadership group cohesion transference and group helping through experiential involvement in group facilitating and leadership. Increases group skills through active classroom participation in group experiences.

Prerequisite: HMS 141.

Lecture 3 hours per week.

### **HMS 220 Addiction and Prevention (3 cr.)**

Examines the impact of drugs and addiction on individuals and their families. Explores the myths about various drugs and their benefit or lack of benefit.

Lecture 3 hours per week.

### **HMS 225 Functional Family Intervention (3 cr.)**

Provides an understanding of functions and dysfunctions within the family. Emphasizes the development of effective skills through an interpersonal/interactional approach to family intervention.

Lecture 3 hours per week.

### **HMS 226 Helping Across Cultures (3 cr.)**

Provides an historical overview of selected cultural and racial groups. Promotes understanding of group differences and the impact on counseling services.

Lecture 3 hours per week.

### **HMS 227 The Helper as a Change Agent (3 cr.)**

Teaches the following skills for implementing alternative models of change and influence: action research problem solving consultation workshop development and outreach and advocacy for diverse client populations.

Lecture 3 hours per week.

## **HMS 236 Gerontology (3 cr.)**

Examines the process of aging and its implications in relation to health recreation education transportation meaningful work or activity and community resources. Emphasizes experiencing the aging process facilitating retirement and application of the helping relationship to work with older adults. Lecture 3 hours per week.

## **HMS 258 Case Management and Substance Abuse (3 cr.)**

Focuses on the process for interviewing substance abuse clients. Includes intake assessment handling denial and ending the interview. Teaches skills for writing short-term goals and treatment plans with emphasis on accountability. Examines various reporting devices. Lecture 3 hours per week.

## **HMS 260 Substance Abuse Counseling (3 cr.)**

Provides an understanding of the skills of guidance of clients and those associated with being an advocate. Examines the dynamics of the client/counselor relationship in developing treatment plans and empowerment skills. Lecture 3 hours per week.

## **HMS 266 Counseling Psychology (3 cr.)**

Studies major counseling theories their contributions and limitations and the application of each to a counseling interaction. Students develop their own personal counseling theory. Lecture 3 hours per week.

## **HMS 270 Treatment Systems (3 cr.)**

Examines the services and facilities established for the purpose of treating addictions. Focuses on treatment therapy models and ethical standards related to addiction-disease theory. Lecture 3 hours per week.

## **HMS 290 Coordinated Internship in Human Services (3 cr.)**

Supervises on-the-job training in selected business industrial or service firms coordinated by the college. Program approved internships in human service and substance abuse agencies required. Places students in selected career-related human service agencies. Provides students with an opportunity to learn to integrate practice with theory under the supervision of a qualified supervisor in their designated career field. Helps students gain an overview of their chosen service career field. Laboratory 15 hours per week.

## **HUMANITIES(HUM)**

### **HUM 100 Survey of the Humanities (3 cr.)**

Introduces the humanities through the art literature music and philosophy of various cultures and historical periods. Prerequisite: Placement in ENG 111 or in co-requisites ENG 111 and EDE 11. Lecture 3 hours per week.

### **HUM 260 Survey of Twentieth-Century Culture (3 cr.)**

Explores literature visual arts philosophy music and history of our time from an interdisciplinary perspective. Lecture 3 hours per week.

## **INFORMATION TECHNOLOGY DESIGN(ITD)**

### **ITD 110 Web Page Design I (3 cr.)**

Stresses a working knowledge of web site designs construction and management using HTML5 and Dreamweaver. Includes headings lists links images image maps tables forms and frames. Also includes templates Cascading Style Sheets (CSS) responsive web design and publishing to a web server. Prerequisite: ITE 115 or equivalent with emphasis on file and folder management. Lecture 3 hours per week.

### **ITD 112 Designing Web Page Graphics (3 cr.)**

Explores the creation of digital graphics for web design. Includes basic design elements such as color and layout utilizing a computer graphics program. Prerequisite: ITE 115 or equivalent. Lecture 3 hours per week.

### **ITD 130 Database Fundamentals (4 cr.)**

Introduces the student to Relational Database and Relational Database theory. Includes planning defining and using a database; table design linking and normalization; and types of databases database description and definition. Additional topics cover the use of Entity Relationship (ER) modeling in detail through many real-life examples and practical business problems and solutions. After several iterations the ER model captures the data requirements and business rules and forms a sound basis for the initial design of a relational database. The introduction to SQL allows for the implementation of a database design using SQL. Prerequisite: ITE 115 or school approval. Lecture 4 hours per week.

### **ITD 132 Structured Query Language (T-SQL) (3 cr.)**

Incorporates a working introduction to commands functions and operators used in SQL for extracting data from standard databases. Provides students with hands-on experience developing code functions triggers and stored procedures for Microsoft SQL Server. Prerequisite: ITD 130 or equivalent. Lecture 3 hours per week.

### **ITD 210 Web Page Design II (4 cr.)**

Incorporates advanced techniques in web site planning design usability accessibility advanced site management and maintenance utilizing web editor software. Prerequisite: ITD 110 or school approval. Lecture 4 hours per week.

### **ITD 212 Interactive Web Design (4 cr.)**

Provides techniques in interactive web design concepts for cross-platform and low-bandwidth through fast and concise open source applications. Emphasizes the importance of usability accessibility optimization and performance. Understand and implement skills to design web sites for wireless devices. JQuery and jQuery Mobile are used to make websites interactive by reacting to visitor actions use animations and effects build drop-down navigation menus pop-ups and automate slideshows and more to improve the user interface. Prerequisite: ITD 110 or equivalent. Lecture 4 hours per week.

### **ITD 298 Seminar and Project: Web Design Capstone (4 cr.)**

Provides students with hands-on experience developing exemplary websites created with Dreamweaver using advanced behaviors and techniques such as Asynchronous JavaScript and database connectivity using the Php language JQuery responsive web design and additional components that students will select. Prerequisite: ITD 210 and ITD212 or permission from the instructor. Lecture 4 hours per week.

## **INFORMATION TECHNOLOGY ESSENTIALS(ITE)**

### **ITE 115 Introduction to Computer Applications and Concepts (3 cr.)**

Covers computer concepts and internet skills and uses a software suite which includes word processing spreadsheet database and presentation software to demonstrate skills. Introduces information literacy knowledge and skills. Recommended prerequisite: keyboarding skills. Lecture 3 hours per week.

## **ITE 130 Introduction to Internet Services (3 cr.)**

Provides students with a working knowledge of Internet terminology and services including e-mail WWW browsing search engines ftp file compression and other services using a variety of software packages. Provides instruction for basic web page construction.

Prerequisite: Basic knowledge of computers and Windows.

Lecture 3 hours per week.

## **ITE 140 Spreadsheet Software (Excel) (3 cr.)**

Covers the use of spreadsheet software to create spreadsheets with formatted cells and cell ranges control pages multiple sheets charts and macros. Topics include type and edit text in a cell enter data on multiple worksheets work with formulas and functions create charts PivotTables and styles insert headers and footers and filter data. Covers MOS Excel objectives.

Prerequisite: ITE 115 or school approval.

Lecture 3 hours per week.

## **ITE 150 Desktop Database Software (Access) (3 cr.)**

Incorporates instruction in planning defining and using a database; performing queries; producing reports; working with multiple files; and concepts of database programming. Course topics include database concepts principles of table design and table relationships entering data creating and using forms using data from different sources filtering creating mailing labels. This course covers MOS Access certification objectives.

Prerequisite: ITE 115 or school approval.

Lecture 3 hours per week.

## **ITE 290 Coordinated Internship in Information Technology Essentials (3 cr.)**

Provides students supervised on-the-job training in Information Systems Technology.

Prerequisite: Permission of program head.

Laboratory 12 hours per week.

## **ITE 298 Seminar and Project: Computer Applications Capstone (4 cr.)**

Provides students with hands-on experience using the current version of Microsoft Office in order to integrate the software applications to produce realistic business projects.

Prerequisites: ITE 140, ITE 150, ITD 110, or school approval.

Lecture 4 hours per week.

## **INFORMATION TECHNOLOGY NETWORKING(ITN)**

### **ITN 101 Introduction to Network Concepts (3 cr.)**

Provides instruction in networking media physical and logical topologies common networking standards and popular networking protocols. Emphasizes the TCP/IP protocol suite and related IP addressing schemes including CIDR. Includes selected topics in network implementation support and LAN/WAN connectivity.

Lecture 3 hours per week.

### **ITN 106 Microcomputer Operating Systems (3 cr.)**

Teaches use of operating system utilities and multiple-level directory structures creation of batch files and configuration of microcomputer environments. May include a study of graphical user interfaces.

Lecture 3 hours per week.

### **ITN 107 Personal Computer Hardware and Troubleshooting (3 cr.)**

Includes specially designed instruction to give the student a basic knowledge of hardware and software configurations. Includes the installation of various peripheral devices as well as basic system hardware components.

Lecture 3 hours per week.

### **ITN 170 Linux System Administration (3 cr.)**

Focuses instruction on the installation configuration and administration of the Linux operating system and emphasizes the use of Linux as a network client and workstation.

Lecture 3 hours per week.

### **ITN 200 Administration of Network Resources (3 cr.)**

Focuses on the management of local area network servers. Teaches proper structuring of security systems. Explains print queues disk management and other local area network (LAN) issues. Presents concerns and issues for the purchase and installation of hardware and software upgrades. Can be taught using any network operating system or a range of operating systems as a delivery tool. Co-requisite ITN 101.

Lecture 3 hours per week.

### **ITN 254 Virtual Infrastructure: Installation and Configuration (4 cr.)**

Explores concepts and capabilities of virtual architecture with a focus on the installation configuration and management of a virtual infrastructure ESX Server and Virtual Center. Covers fundamentals of virtual network design and implementation fundamentals of storage area networks virtual switching virtual system management and engineering for high availability.

Prerequisite: ITN 171.

Lecture 3 hours.

Laboratory 2 hours.

Total 5 hours per week.

### **ITN 257 Cloud Computing: Infrastructure and Services (3 cr.)**

Focuses on cloud infrastructure deployment security models and the key considerations in migrating to cloud computing. Covers the technologies and processes required to build traditional virtualized and cloud data center environments including computation storage networking desktop and application virtualization business continuity security and management.

Prerequisite: ITN 101 or school approval.

Lecture 3 hours per week.

### **ITN 260 Network Security Basics (3 cr.)**

Provides instruction in the basics of network security in depth. Includes security objectives security architecture security models and security layers; risk management network security policy and security training. Includes the five security keys confidentiality integrity availability accountability and auditability.

Lecture 3 hours per week.

### **ITN 261 Network Attacks, Computer Crime, and Hacking (4 cr.)**

Encompasses in-depth exploration of various methods for attacking and defending a network. Explores network security concepts from the viewpoint of hackers and their attack methodologies. Includes topics about hackers attacks Intrusion Detection Systems (IDS) malicious code computer crime and industrial espionage.

Lecture 4 hours per week.

### **ITN 262 Network Communication, Security, and Authentication (4 cr.)**

Covers an in-depth exploration of various communication protocols with a concentration on TCP/IP. Explores communication protocols from the point of view of the hacker in order to highlight protocol weaknesses. Includes Internet architecture routing addressing topology fragmentation and protocol analysis and the use of various utilities to explore TCP/IP.

Lecture 4 hours per week.

## **ITN 263 Internet/Intranet Firewalls and e-Commerce Security (4 cr.)**

Gives an in-depth exploration of firewall Web security and e-commerce security. Explores firewall concepts types topology and the firewall's relationship to the TCP/IP protocol. Includes client/server architecture the Web server HTML and HTTP in relation to Web security and digital certification D.509 and public key infrastructure (PKI). Prerequisite: ITN 260 or school approval. Lecture 4 hours per week.

## **ITN 276 Computer Forensics I (3 cr.)**

Teaches computer forensic investigation techniques for collecting computer-related evidence at the physical layer from a variety of digital media (hard drives compact flash and PDAs) and performing analysis at the file system layer. Prerequisite: ITE 221, or ITN 106 and ITN 107. Lecture 3 hours per week.

## **ITN 298 Seminar and Project: Networking Capstone Course (4 cr.)**

Covers the use of advanced concepts and utilities with current network operating systems. Includes administrator duties such as server organization permissions and rights and client side issues such as configuration troubleshooting and installation of applications. Prerequisites: ITN 110 and ITN 111 or school approval. Lecture 4 hours per week.

## **INFORMATION TECHNOLOGY PROGRAMMING(ITP)**

### **ITP 100 Software Design (3 cr.)**

Introduces principles and practices of software development. Includes instruction in critical thinking problem solving skills and essential programming logic in structured and object-oriented design using contemporary tools. Lecture 3 hours per week.

### **ITP 120 Java Programming I (4 cr.)**

Teaches the fundamentals of object-oriented programming using Java. Emphasizes program construction algorithm development coding debugging and documentation of console and graphical user interface applications. Lecture 4 hours per week.

### **ITP 136 C# Programming I (4 cr.)**

Teaches the fundamentals of object-oriented programming and design using C#. Emphasizes program construction algorithm development coding debugging and documentation of applications within the .NET framework. Lecture 4 hours per week.

### **ITP 236 C# Programming II (4 cr.)**

Focuses instruction in advanced object-oriented techniques using C# for application development. Emphasizes database connectivity and back-end development using the .NET Framework and database processing using LINQ and the Entity Framework. Prerequisite: ITP 136 and ITP 130. Lecture 4 hours per week.

### **ITP 245 Developing User Interfaces (4 cr.)**

Provides instruction in the creation of computer application user interfaces that offer intuitive navigation and informative design for web mobile and desktop applications and other technologies. Lecture 4 hours per week.

### **ITP 251 Systems Analysis and Design (3 cr.)**

Focuses on application of information technologies (IT) to system life cycle methodology consisting of the systems planning analysis design implementation and support/security phases. Covers methodologies related to identification of information requirements; feasibility in the areas of economic technical and social requirements and related issues. Software applications may be used to enhance student skills. Prerequisite: ITE 115 or equivalent. Lecture 3 hours per week.

### **ITP 298 Seminar and Project in Information Technology Programming: Programming Capstone (4 cr.)**

Provides students with hands-on experience developing sophisticated web-based applications using ASP.NET and SQL Server including profiles personalization web parts themes multi-lingual and web services. Students will work in small teams to build a semester-long project. Prerequisites: ITP 136, ITP 236, ITP 245, ITP 251, ITD-130, ITD-132, or school approval. Lecture 4 hours per week.

## **INTERPRETATION(INT)**

### **INT 105 Interpreting Foundations I (English) (4 cr.)**

Develops fundamental skills of interpreting including cognitive processes and intralingual language development in English and ASL. Reviews Process Models of Interpreting and uses one to analyze interpretations. Develops feedback skills essential to the team interpreting process. Part I of II. Prerequisite: Placement in ENG 111. Lecture 4 hours per week.

### **INT 106 Interpreting Foundations II (ASL) (4 cr.)**

Develops fundamental skills of interpreting including cognitive processes and intralingual language development in English and ASL. Reviews Process Models of Interpreting and uses one to analyze interpretations. Develops feedback skills essential to the team interpreting process. Part II of II. Prerequisites: Placement in ENG 111 and completion of ASL 202. Lecture 4 hours per week.

### **INT 107 Translation Skills (4 cr.)**

Further develops fundamental skills needed for the task of interpreting Targets comprehending source language (either ASL or English) transferring content into memory store (breaking from original form) restructuring into target language maintaining message equivalence conveying implicit and inferred information and applying appropriate discourse structure. Reviews Process Model of interpreting and uses it to analyze translations. Further develops feedback skills essential to the team interpreting process. Prerequisites: INT 105 and INT 106. Lecture 4 hours per week.

### **INT 130 Interpreting: An Introduction to the Profession (3 cr.)**

Introduces basic principles and practices of interpreting focusing on the history of the profession logistics of interpreting situations regulatory and legislative issues resources and the Code of Ethics. Describes the state quality assurance screening and national certification exam systems including test procedures. Prerequisite: Placement in ENG 111. Lecture 3 hours per week.

### **INT 133 ASL-to-English Interpretation I (3 cr.)**

Provides students the opportunity to begin consecutively interpreting monologues from the source language (ASL) to the target language (English); watch process and analyze entire ASL monologues; choose appropriate English to match the message; and eventually interpret the monologue into English. Puts interpreting theory into practice in a lab environment. Develops team interpreting techniques and provides students with the opportunity to interact with consumers of ASL-English interpretation and conduct research in the field of interpretation. Prerequisite: INT 107. Lecture 2 hours. Laboratory 2 hours. Total 4 hours per week.

## **INT 134 English-to-ASL Interpretation I (3 cr.)**

Provides students the opportunity to begin consecutively interpreting monologues from the source language (English) to the target language (ASL); listen to process and analyze entire English monologues; and choose appropriate ASL to match the message. Puts interpreting theory into practice in a lab environment. Develops team interpreting techniques and provides students with the opportunity to interact with consumers of ASL-English interpretation and conduct research in the field of interpretation.

Prerequisite: INT 107.

Lecture 2 hours.

Laboratory 2 hours.

Total 4 hours per week.

## **INT 195 Topics in Interpreter Education: Introduction to Oral Transliteration I (1 cr.)**

Studies roles responsibilities and qualifications involved in working as an oral transliterator. Addresses specific linguistic and communication concerns typically occurring in the oral transliteration setting. May be repeated for credit.

Prerequisite: Placement in ENG 111.

Lecture 1 hour per week.

## **INT 233 ASL-to-English Interpretation II (3 cr.)**

Teaches students to perform simultaneous interpretations of monologues in the source language (ASL) to the target language (English) and process an incoming ASL monologue while simultaneously producing an appropriate interpretation in English. Provides students the opportunity to conduct research in the field of interpretation apply team interpreting techniques and interact with consumers of interpretation.

Prerequisites: INT 133 and INT 134.

Lecture 2 hours.

Laboratory 2 hours.

Total 4 hours per week.

## **INT 234 English-to-ASL Interpretation II (3 cr.)**

Teaches students to perform simultaneous interpretations of monologues in the source language (English) into the target language (ASL) and process an incoming English monologue while simultaneously producing an appropriate interpretation in ASL. Provides students the opportunity to conduct research in the field of interpretation apply team interpreting techniques and interact with consumers of interpretation.

Prerequisites: INT 133 and INT 134.

Lecture 2 hours.

Laboratory 2 hours.

Total 4 hours per week.

## **INT 237 Interpreting ASL in Safe Settings (3 cr.)**

Studies roles responsibilities and experiences involved in interpreting American Sign Language (ASL) in community and educational settings including ethical and business practices. Analyzes the specific linguistic needs of the clients managing the environment and resolving ethical concerns for interpreters.

Prerequisites: INT 233 and INT 234 or program head placement.

Lecture 3 hours per week.

## **INT 250 Dialogic Interpretation I (3 cr.)**

Provides students the opportunity to apply interpreting fundamentals interpret dialogs between spoken English and ASL users analyze interpretations by using a Process Model of Interpreting conduct research practice team interpreting skills in an interactive interpreting environment and prepare for the interactive nature of standard interpreting evaluations.

Prerequisites: INT 233 and INT 234.

Lecture 3 hours per week.

## **INT 280 Interpreter Assessment Preparation (3 cr.)**

Prepares student to sit for a specific interpreter assessment tool. Examines the contents of the various segments of the assessment tool. Provides an opportunity for the student to design and implement a specific individualized work plan based upon a diagnostic assessment of the student's interpretation product to improve all knowledge skill and ability elements in order to meet or exceed the competency set for the selected interpreter assessment tool.

Prerequisite: INT 130.

Lecture 3 hours per week.

## **INT 290 Coordinated Internship in Interpreter Education (3 cr.)**

Provides an internship under guidance of a professional interpreter as a means to transition from school to work. (Provides supervised on-the-job training in selected business industrial or service firms coordinated by the college.)

Prerequisites: INT 250 and successful completion of the written portion of an ASL-English interpreting assessment.

Laboratory 12 hours per week.

## **LEGAL ASSISTING (PARALEGAL STUDIES)(LGL)**

### **LGL 110 Introduction to Law and the Paralegal (3 cr.)**

Introduces various areas of law in which a paralegal may be employed. Includes study of the court system (Virginia and federal); a brief overview of criminal law torts family law evidence the U.C.C. contracts and ethics; the role of the paralegal; and other areas of interest.

Lecture 3 hours per week.

## **LGL 117 Family Law (3 cr.)**

Studies elements of a valid marriage grounds for divorce and annulment separation defenses custody support adoptions and applicable tax consequences. Includes property settlement agreements pre- and ante-nuptial agreements pleadings and rules of procedure. May include specific federal and Virginia consumer laws.

Lecture 3 hours per week.

## **LGL 125 Legal Research (3 cr.)**

Provides an understanding of various components of a law library and emphasizes research skills through the use of digests encyclopedias reporter systems codes citations ALR and other research tools. May include research through electronic databases overview of computer applications and writing projects.

Lecture 3 hours per week.

## **LGL 126 Legal Writing (3 cr.)**

Studies proper preparation of various legal documents including legal memoranda letters and pleadings. Involves practical applications. May include case and appellate briefs.

Prerequisites: ENG 111 or permission of instructor and LGL 125.

Lecture 3 hours per week.

## **LGL 200 Ethics for the Paralegal (1 cr.)**

Examines general principles of ethical conduct applicable to paralegals. Includes the application of rules of ethics to the practicing paralegal.

Lecture 1 hour per week.

## **LGL 210 Virginia and Federal Procedure (3 cr.)**

Examines the rules of procedure in the Virginia and federal court systems including the Federal Rules of Civil Procedure and the Rules of Practice and Procedure in the General District Court Juvenile and Domestic Relations District Court Circuit Court Court of Appeals and Supreme Court of Virginia.

Prerequisite: LGL 110.

Lecture 3 hours per week.

## **LGL 215 Torts (3 cr.)**

Studies fundamental principles of the law of torts and may include preparation and use of pleadings and other documents involved in the trial of a civil action. Emphasizes intentional torts negligence personal injury products liability and malpractice cases.

Lecture 3 hours per week.

## **LGL 216 Trial Preparation and Discovery Practice (3 cr.)**

Examines the trial process including the preparation of a trial notebook pretrial motions and orders. May include preparation of interrogatories depositions and other discovery tools used in assembling evidence in preparation for the trial or an administrative hearing.

Lecture 3 hours per week.

## **LGL 218 Criminal Law (3 cr.)**

Focuses on major crimes including their classification elements of proof intent conspiracy responsibility parties and defenses. Emphasizes Virginia law. May include general principles of applicable constitutional law and criminal procedure.

Prerequisite: Successful completion of English placement test or evidence of ENG 111 or its equivalent.

Lecture 3 hours per week.

## **LGL 220 Administrative Practice and Procedure (3 cr.)**

Surveys applicable administrative laws including the Privacy Act the Administrative Process Act and Freedom of Information Act. Studies practice and procedure involving the Department of Alcoholic Beverage Control State Corporation Commission Virginia Workersaapos; Compensation Commission Social Security Administration Virginia Employment Commission and other administrative agencies.

Lecture 3 hours per week.

## **LGL 221 E-Practice (3 cr.)**

Prepares students to electronically file (e-file) in federal court state court and appropriate administrative agencies. Provides the student with the proper information on electronic discovery (e-discovery) including how data are requested located and searched in the course of litigation. Focuses on the proper process required to be in conformance with the appropriate laws.

Prerequisites: LGL 210 and LGL 216.

Lecture 3 hours per week.

## **LGL 222 Information Technology for the Paralegal (3 cr.)**

Provides extensive instruction on technology in the law office including word processing tools spreadsheet programs database management systems office management programs case management programs electronic mail the Cloud litigation and trial software and the use of the Internet in the practice of law.

Prerequisite: ITE 115, LGL 125, or faculty approval.

Lecture 3 hours per week.

## **LGL 225 Estate Planning and Probate (3 cr.)**

Introduces various devices used to plan an estate including wills trusts joint ownership and insurance. Considers various plans in light of family situations and estate objectives. Focuses on practices involving administration of an estate including taxes and preparation of forms.

Lecture 3 hours per week.

## **LGL 226 Real Estate Abstracting (3 cr.)**

Reviews aspects of abstracting title to real estate recordation of land transactions liens grantor-grantee indices warranties covenants restrictions and easements.

Prerequisite: LGL 228 or permission of program head.

Lecture 3 hours per week.

## **LGL 228 Real Estate Settlement Practicum (3 cr.)**

Focuses on methods and practices in administrative area of real estate closings back title information preliminary report from attorneyaapos;s title notes lenderaapos;s requirements payoffs HUD-1 settlement statement real estate taxes interest escrow disbursement and release of liens of record.

Lecture 3 hours per week.

## **LGL 235 Legal Aspects of Business Organizations (3 cr.)**

Studies fundamental principles of agency law and the formation of business organizations.

Includes sole proprietorship partnerships corporations limited liability companies and other business entities. Reviews preparation of the documents necessary for the organization and operation of businesses.

Lecture 3 hours per week.

## **LGL 238 Bankruptcy (3 cr.)**

Provides a practical understanding of nonbankruptcy alternatives and the laws of bankruptcy including Chapters 7 11 12 and 13 of the Bankruptcy Code. Emphasizes the preparation of petitions schedules statements and other forms.

Lecture 3 hours per week.

## **LGL 290 Coordinated Internship in Legal Assisting (3 cr.)**

Provides the student supervised on-the-job training as a paralegal.

Prerequisite: Permission of the program head, which includes the successful completion of a comprehensive examination with a grade of 70 or better.

Laboratory 12 hours per week.

## **MANUFACTURING & INDUSTRIAL OCCUPATIONS(MANF)**

### **MANF 500009 Manufacturing Technician Level 1 Certification (Non-Credit)**

The Manufacturing Technician 1 (MT1) certification program was developed to meet the growing employment demands of the manufacturing industry. The MT1 program addresses the core industry-wide skills standards required for skilled production occupations in all sectors of manufacturing.

Non-Credit

### **MANF 500010 Certified Logistics Technician (CLT) (Non-Credit)**

The CLT (Certified Logistics Technician) program covers a wide range of skills necessary for success in the logistics industry. Through this program individuals will cover safety quality control supply chain management receiving storage communication and many other valuable skills.

Non-Credit

### **MANF 500013 Certified Logistics Associate (CLA) (Non-Credit)**

The CLA (Certified Logistics Associate) training prepares an individual for entry level logistics based positions. Upon completion of the CLA training individuals will sit for the CLA exam. The CLA program covers a wide range of skills necessary for success in the logistics industry..

Non-Credit

## **MARKETING(MKT)**

### **MKT 110 Principles of Selling (3 cr.)**

Presents a fundamental skills-based approach to the professional selling of products services and ideas and to relationship building.

Emphasizes learning effective interpersonal communication skills in all areas of the sales process through skill-building activities.

Examines entry-level sales careers in retailing wholesaling services and industrial selling.

Focuses on building a positive self-image following ethical behavior understanding buyer needs and appreciating the importance of a positive customer relationship strategy.

Concludes in a professional sales presentation to buyers ranging from individual consumers to corporations.

Lecture 3 hours per week.

### **MKT 120 Fundamentals of Fashion (3 cr.)**

Develops an understanding of the principles and procedures involved in the production distribution and consumption of fashion merchandise. Traces the history and development of fashion and how these changes affect the fashion merchandising world. Focuses on changing consumer characteristics which influence demand for fashion products and the effects that fashion marketing activities have on the economy.

Lecture 3 hours per week.

## **MKT 201 Introduction to Marketing (3 cr.)**

Introduces students to the discipline of marketing and the need to create customer value and customer relationships in the marketplace. Presents an overview of marketing principles concepts management strategies and tactics along with the analytical tools used by organizations in the creation of a marketing plan to promote ideas products and/or services to selected target groups. Also examines entrepreneurial global and e-marketing practices in today's business environment.  
Lecture 3 hours per week.

## **MKT 209 Sports, Entertainment, and Recreation Marketing (3 cr.)**

Builds on the principles of marketing to introduce the more specific importance and specialization of Sports Entertainment and Recreation (SER) marketing. Emphasizes the SER industries as they relate to economics business structure product development branding pricing strategies distribution strategies integrated communications ethics and research.  
Prerequisite: MKT 201.  
Lecture 3 hours per week.

## **MKT 210 Sales Management (3 cr.)**

Presents an in-depth examination of managing a sales force. Introduces methods of training compensating motivating and evaluating the sales force. Explores forecasting techniques and quotas.  
Lecture 3 hours per week.

## **MKT 215 Sales and Marketing Management (3 cr.)**

Emphasizes the relationship of professional sales skills and marketing management techniques. Demonstrates the use of the Internet to enhance marketing. Studies legal and ethical considerations.  
Lecture 3 hours per week.

## **MKT 216 Retail Organization and Management (3 cr.)**

Examines the organization of the retail establishment to accomplish its goals in an effective and efficient manner. Includes study of site location internal layout store operations and security. Examines the retailing mix the buying or procurement process pricing and selling. Studies retail advertising promotion and publicity as a coordinated effort to increase store traffic.  
Prerequisite: An understanding of basic marketing and business activities is desirable.  
Lecture 3 hours per week.

## **MKT 220 Principles of Advertising (3 cr.)**

Emphasizes the role of advertising in the marketing of goods services and ideas. Discusses the different uses of advertising; types of media; how advertising is created; agency functions; and legal social and economic aspects of the industry. Introduces advertising display copy and art work preparation printing and selection of media.  
Lecture 3 hours per week.

## **MKT 227 Merchandise Buying and Control (3 cr.)**

Studies the merchandising cycle. Explores techniques used in the development of buying resources merchandising plans model stock unit control and inventory systems. Highlights merchandise selection policy pricing strategies and inventory control methods.  
Lecture 3 hours per week.

## **MKT 228 Promotion (3 cr.)**

Presents an overview of integrated marketing communications through advertising public relations personal selling and sales promotion. Focuses on coordinating these activities into an effective campaign to promote sales for a particular product business institution or industry.  
Lecture 3 hours per week.

## **MKT 229 Marketing Research (3 cr.)**

Introduces the marketing research process to include methodology data collection sampling and analysis. Focuses on planning basic research studies and applying the findings to marketing decisions.  
Prerequisite: MKT 201.  
Lecture 3 hours per week.

## **MKT 238 Fashion Merchandising (3 cr.)**

Compares the major considerations involved in the buying and merchandising of fashion products. Emphasizes the dynamics of fashion and consumer buying patterns and sources of buying information. Discusses fashion buying and inventory control in the merchandising cycle plus techniques used to develop fashion buying plans model stocks unit control and inventory systems. Stresses selection policy and pricing for profit.  
Lecture 3 hours per week.

## **MKT 260 Customer Service Management (3 cr.)**

Examines the role of customer service in achieving a firm's long-term goals; discusses the basic principles of effective customer service; and explores the tasks and responsibilities of a customer service manager. Includes such topics as purpose of customer service; establishment of customer service goals and policies; recruitment selection and training of customer service employees; motivation techniques; empowering employees for better decision making; and evaluation of customer service employees and program.  
Lecture 3 hours per week.

## **MKT 271 Consumer Behavior (3 cr.)**

Examines the various influences affecting consumer-buying behavior before during and after product purchases. Describes personal societal cultural environmental group and economic determinants on consumer buying.  
Lecture 3 hours per week.

## **MKT 275 International Marketing (3 cr.)**

Examines the role of the multinational firm as well as the environments in which they operate. Covers such factors as exchange rates government foreign trade policy and social-cultural factors. Compares international and domestic marketing strategies.  
Lecture 3 hours per week.

## **MKT 281 Principles of Internet Marketing (3 cr.)**

Introduces students to Internet marketing. Discusses how to implement marketing programs strategically and tactically using online communications tools. Teaches e-marketing strategies.  
Lecture 3 hours per week.

## **MKT 282 Principles of eCommerce (3 cr.)**

Studies on-line business strategies and the hardware and software tools necessary for Internet commerce. Includes the identification of appropriate target segments the development of product opportunities pricing structures distribution channels and execution of marketing strategies.  
Lecture 3 hours per week.

## **MKT 283 Social, Ethical, and Legal Issues in eCommerce (3 cr.)**

Examines major issues of e-commerce which include privacy protection concerns about censorship protection of intellectual property and copyright issues fraud prevention along with the local national and international legal framework within which marketing strategies are executed.  
Lecture 3 hours per week.

## **MKT 284 Social Media Marketing (3 cr.)**

Surveys the use of social networks and online communities such as blogs wikis and virtual events that allow companies to expand their interaction with customers and develop relationships with collaborative communities. Emphasizes the ongoing transformation of the way companies adjust their marketing plans to improve interaction with customers online.  
Lecture 3 hours per week.

## **MKT 285 Current Issues in Marketing (3 cr.)**

Serves as a capstone course for marketing majors. Provides an integrated perspective of current issues and practices in marketing. Explores contemporary issues and practices in a highly participatory classroom environment.  
Lecture 3 hours per week.

## **MKT 290 Coordinated Internship in Marketing (3 cr.)**

Supervises on-the-job training in selected business industrial or service firms coordinated by the college. Provides students an opportunity to increase their knowledge of operating a retail business. Teaches the skills necessary for effective performance in supervisory and upper-level management positions in marketing occupations. Involves rotation among the various departments/functions within the retail training laboratory until the student is familiar with the operation. Combines a comprehensive introduction to store retailing with extensive on-the-job training assignments which provide the opportunity to apply the understanding of merchandising and management procedures. Prerequisite: Minimum of any 30 credits. Laboratory 15 hours per week.

## **MKT 298 Seminar and Project in Marketing (3 cr.)**

Requires completion of a project or research report related to the student's occupational objective and a study of approaches to the selection and pursuit of career opportunities in the field. Familiarizes the student with many career opportunities in the field through classroom instruction and field exercises. Prerequisite: Students should have completed most of the Retail Specialization before enrolling in this course. Lecture 3 hours per week.

## **MATH DIRECT ENROLLMENT(MDE)**

### **MDE 10 Introduction to Algebra (3 cr.)**

Covers topics in arithmetic through introduction to variables and equations. Prepares students for enrollment into MDE 60 MTH 101-133 or direct enrollment into MTH 154 or MTH 155 with co-requisite. Lecture 3 hours.

### **MDE 54 Learning Supports for Quantitative Reasoning (3 cr.)**

Provides support to ensure success for students co-enrolled in MTH 154 - Quantitative Reasoning. Course will review foundational topics through direct instruction guided practice and individualized support. Lecture 3 hours.

### **MDE 55 Learning Supports for Statistical Reasoning (3 cr.)**

Provides support to ensure success for students co-enrolled in MTH 155 - Statistical Reasoning. Course will review foundational topics through direct instruction guided practice and individualized support. Lecture 3 hours.

### **MDE 60 Intermediate Algebra (3 cr.)**

Covers topics in algebra. Prepares students for enrollment into MTH 161 with co-requisite. Lecture 3 hours.

### **MDE 61 Learning Supports for Pre-Calculus (3 cr.)**

Provides support to ensure success for students co-enrolled in Pre-Calculus (MTH 161). Course will review foundational topics through direct instruction guided practice and individualized support. Lecture 3 hours.

## **MATHEMATICS(MTH)**

### **MTH 111 Basic Technical Mathematics (3 cr.)**

Provides a foundation in mathematics with emphasis in arithmetic unit conversion basic algebra geometry and trigonometry. Replaces MTH 101 or 103 or 104 or 105 or 106. Prerequisites: Competency in Introductory Algebra MDE 010 as demonstrated through placement or by satisfactorily completing MDE 010. Lecture 3 hours per week.

### **MTH 130 Fundamentals of Reasoning (3 cr.)**

Presents elementary concepts of algebra linear graphing financial literacy descriptive statistics and measurement and geometry. Based on college programs being supported by this course colleges may opt to add additional topics such as logic or trigonometry. This course replaces MTH 120 or MTH 121 and is intended for occupational/technical programs. Prerequisites: Competency in Introductory Algebra MDE 010 as demonstrated through placement or by satisfactorily completing MDE 010. Lecture 3 hours per week.

### **MTH 131 Technical Mathematics (3 cr.)**

Presents algebra through unit conversion trigonometry vectors geometry and complex numbers. Replaces MTH 115 and MTH 116. Prerequisites: Competency in Introductory Algebra MDE 010 as demonstrated through placement or by satisfactorily completing MDE 010. Lecture 3 hours per week.

### **MTH 133 Mathematics for Health Professionals (3 cr.)**

Presents in context the arithmetic of fractions and decimals the metric system and dimensional analysis percents ratio and proportion linear equations topics in statistics topics in geometry logarithms and topics in health professions including dosages dilutions and IV flow rates. This course replaces MTH 126 and is intended for health professions programs. Prerequisites: Competency in Introductory Algebra MDE 010 as demonstrated through placement or by satisfactorily completing MDE 010. Lecture 3 hours per week.

### **MTH 154 Quantitative Reasoning (3 cr.)**

Presents topics in proportional reasoning modeling financial literacy and validity studies (logic and set theory). Focuses on the process of taking a real-world situation identifying the mathematical foundation needed to address the problem solving the problem and applying what is learned to the original situation. Replaces MTH 151 MTH 152 MTH 158 or MTH 170. Prerequisite: Completion of MDE 010 followed by co-enrollment in MDE 54 with MTH 154 or placement in MTH 154 or placement in co-requisites MTH 154 and MDE 54. Lecture 3 hours.

### **MTH 155 Statistical Reasoning (3 cr.)**

Presents elementary statistical methods and concepts including visual data presentation descriptive statistics probability estimation hypothesis testing correlation and linear regression. Emphasis is placed on the development of statistical thinking simulation and the use of statistical software. Replaces MTH 146 or MTH 157. Credit will not be awarded for both MTH 155 and MTH 245. Prerequisite: Completion of MDE 010 followed by co-enrollment in MDE 55 with MTH 155 or placement in MTH 155 or placement in co-requisites MTH 155 and MDE 55. Lecture 3 hours.

### **MTH 156 Elementary Geometry (3 cr.)**

Presents the fundamentals of plane and solid geometry and introduces non-Euclidean geometries and current topics. Prerequisite: Competency in Introductory Algebra MDE 010 as demonstrated through placement or by satisfactorily completing MDE 010. Lecture 3 hours per week.

## **MTH 161 Precalculus I (3 cr.)**

Presents topics in power polynomial rational exponential and logarithmic functions and systems of equations. Replaces MTH 163. Credit will not be awarded for both MTH 161 and 167 or equivalent.

Prerequisite: Completion of MDE 060 followed by co-enrollment in MDE 60 with MTH 161 or placement in MTH 161 or placement in co-requisites MTH 161 and MDE 61.  
Lecture 3 hours.

## **MTH 162 Precalculus II (3 cr.)**

Presents trigonometry trigonometric applications including Law of Sines and Cosines and an introduction to conics. Replaces MTH 164. Credit will not be awarded for both MTH 162 and 167 or equivalent.

Prerequisite: Placement in MTH 162 or completion of MTH 161 or equivalent with a grade of C or better.  
Lecture 3 hours.

## **MTH 167 Precalculus with Trigonometry (5 cr.)**

Presents topics in power polynomial rational exponential and logarithmic functions systems of equations trigonometry trigonometric applications including Law of Sines and Cosines and an introduction to conics. Replaces MTH 166 or MTH 168. Credit will not be awarded for both MTH 167 and 161/162 or equivalent.

Prerequisite: Placement in MTH 167.  
Lecture 5 hours per week.

## **MTH 199 Supervised Study - Heron's Formula (1 cr.)**

Assigns problems for independent study incorporating previous instruction and supervised by the instructor. Presents Heron's Formula.

Prerequisite: Completion of MTH 161.  
Lecture 1 hour per week.

## **MTH 245 Statistics I (3 cr.)**

Presents an overview of statistics including descriptive statistics elementary probability probability distributions estimation hypothesis testing correlation and linear regression. Credit will not be awarded for both MTH 155 - Statistical Reasoning and MTH 245 - Statistics I or equivalent.

Prerequisite: Completion of MTH 154 or MTH 161 or equivalent with a grade of C or better.  
Lecture 3 hours.

## **MTH 246 Statistics II (3 cr.)**

Continues the study of estimation and hypothesis testing with emphasis on advanced regression topics experimental design analysis of variance chi-square tests and non-parametric methods. Focuses on multivariate and nonparametric techniques useful to business science and social science majors. Replaces MTH 242.

Prerequisite: Completion of MTH 245 or equivalent with a grade of C or better.  
Lecture 3 hours per week.

## **MTH 261 Applied Calculus I (3 cr.)**

Introduces limits continuity differentiation and integration of algebraic exponential and logarithmic functions and techniques of integration with an emphasis on applications in business social sciences and life sciences. Replaces MTH 270 or MTH 271.

Prerequisite: Placement into MTH 261 or completion of MTH 161 or equivalent with a grade of C or better.  
Lecture 3 hours per week.

## **MTH 262 Applied Calculus II (3 cr.)**

Covers techniques of integration and an introduction to differential equations and multivariable calculus with an emphasis throughout on applications in business social sciences and life sciences. Replaces MTH 272.

Prerequisite: Completion of MTH 261 or equivalent with a grade of C or better.  
Lecture 3 hours per week.

## **MTH 263 Calculus I (4 cr.)**

Presents concepts of limits derivatives differentiation of various types of functions and use of differentiation rules application of differentiation antiderivatives and integrals. This course replaces MTH 173 or MTH 175 or MTH 273 and is the first course in a three-course sequence.

Prerequisite: Placement into MTH 263 or completion of MTH 167 or MTH 161/162 or equivalent with a grade of C or better.  
Lecture 4 hours per week.

## **MTH 264 Calculus II (4 cr.)**

Prepares students for further study in calculus with analytic geometry by providing them with the necessary competencies in finding limits differentiation and integration. Continues the study of calculus of algebraic and transcendental functions including rectangular polar and parametric graphing indefinite and definite integrals methods of integration and power series along with applications. Designed for mathematical physical and engineering science programs. This course replaces MTH 174 or MTH 176 or MTH 274 and is the second course in a three-course sequence.

Prerequisite: Placement in MTH 264 or completion of MTH 263 or equivalent with a grade of C or better.  
Lecture 4 hours per week.

## **MTH 265 Calculus III (4 cr.)**

Prepares students for further study in calculus. Focuses on extending the concepts of function limit continuity derivative integral and vector from the plane to the three dimensional space. Topics include vector functions multivariate functions partial derivatives multiple integrals and an introduction to vector calculus.

Designed for mathematical physical and engineering science programs. This course replaces MTH 277 or MTH 178 and is the third course in a three-course sequence.  
Prerequisite: Placement in MTH 265 or completion of MTH 264 or equivalent with a grade of C or better.  
Lecture 4 hours per week.

## **MTH 266 Linear Algebra (3 cr.)**

Covers matrices vector spaces determinants solutions of systems of linear equations basis and dimension eigenvalues and eigenvectors. Designed for mathematical physical and engineering science programs. This course replaces MTH 177 or MTH 275 or MTH 285.  
Prerequisite: Completion of MTH 263 or equivalent with a grade of B or better, or MTH 264 or equivalent with a grade of C or better.  
Lecture 3 hours per week.

## **MTH 267 Differential Equations (3 cr.)**

Introduces ordinary differential equations. Includes first order differential equations second and higher order ordinary differential equations with applications and numerical methods. Replaces MTH 279 or MTH 291.  
Prerequisite: Completion of MTH 264 with a grade of C or better.  
Lecture 3 hours per week.

## **MTH 288 Discrete Mathematics (3 cr.)**

Presents topics in sets counting graphs logic proofs functions relations mathematical induction Boolean Algebra and recurrence relations.

Prerequisites: MTH 161 or MTH 166 or MTH 167.  
Lecture 3 hours per week.

## **MECHANICAL ENGINEERING TECH(MEC)**

### **MEC 175 Fundamental Shop Procedures and Internal Combustion Engine (4 cr.)**

Introduces the student to the practical use and care of hand and power tools shop equipment and pullers precision measuring tools service manuals and parts catalogs and safety. Includes the introduction to the design of the internal combustion engine.

Lecture 3 hours.  
Laboratory 3 hours.  
Total 6 hours per week.

## MEDICAL LABORATORY(MDL)

### **MDL 100 Introduction to Medical Laboratory Technology (2 cr.)**

Introduces the basic principles techniques and vocabulary applicable to all phases of medical laboratory technology including design of the health care system ethics terminology and calculations.

Lecture 1 hour.

Laboratory 3 hours.

Total 4 hours per week.

### **MDL 105 Phlebotomy (3 cr.)**

Introduces basic medical terminology anatomy physiology components of health care delivery and clinical laboratory structure. Teaches techniques of specimen collection specimen handling and patient interactions.

Prerequisite: Satisfactory score on the reading placement test.

Lecture 2 hours.

Laboratory 3 hours.

Total 5 hours per week.

### **MDL 110 Urinalysis and Body Fluids (3 cr.)**

Studies the gross chemical and microscopic techniques used in the clinical laboratory.

Emphasizes the study of clinical specimens which include the urine feces cerebrospinal fluid blood and body exudates. Introduces specimen collection and preparation.

Lecture 2 hours.

Laboratory 3 hours.

Total 5 hours per week.

### **MDL 125 Clinical Hematology I (3 cr.)**

Teaches the cellular elements of blood including blood cell formation and routine hematological procedures.

Lecture 2 hours.

Laboratory 3 hours.

Total 5 hours per week.

### **MDL 190 Coordinated Practice in Phlebotomy (MLT) (2 cr.)**

Provides supervised on-the-job training in a designated specimen collection location. Includes skill development and evaluation of blood collection using venipuncture and capillary techniques specimen handling patient/staff interactions professional behavior and troubleshooting the collection process. Requires successful completion of 50 procedures for students to pass this course. Prerequisites: Successful completion of MDL 100 or MDL 105.

Laboratory 8 hours per week.

### **MDL 190 Coordinated Practice in Phlebotomy Training (4 cr.)**

Provides supervised training and practice in venipuncture for phlebotomy students at clinical sites coordinated by the college. Students will observe venipunctures perform some procedures with supervision and perform the remaining venipunctures on their own. A total of 100 venipunctures and 25 dermal punctures must be completed successfully to pass this clinical. Students may also be required to attend site-specific training related to bloodborne pathogens and HIPAA and participate in skills assessments by Reynolds faculty.

Prerequisite: MDL 105.

Laboratory 40 hours per week for three weeks.

### **MDL 210 Immunology and Serology (3 cr.)**

Teaches principles of basic immunology physiology of the immune system diseases involving the immune system and serologic procedures.

Lecture 2 hours.

Laboratory 3 hours.

Total 5 hours per week.

### **MDL 216 Blood Banking (3 cr.)**

Teaches fundamentals of blood grouping and typing compatibility testing antibody screening component preparation donor selection and transfusion reactions and investigation.

Lecture 2 hours.

Laboratory 3 hours.

Total 5 hours per week.

### **MDL 225 Clinical Hematology II (3 cr.)**

Teaches advanced study of blood to include coagulation abnormal blood formation and changes seen in various diseases.

Prerequisite: MDL 125.

Lecture 2 hours.

Laboratory 3 hours.

Total 5 hours per week.

### **MDL 251 Clinical Microbiology I (3 cr.)**

Teaches handling isolation and identification of pathogenic microorganisms. Emphasizes clinical techniques of bacteriology and mycology. Part I of II.

Lecture 2 hours.

Laboratory 4 hours.

Total 6 hours per week.

### **MDL 252 Clinical Microbiology II (3 cr.)**

Teaches handling isolation and identification of pathogenic microorganisms. Emphasizes clinical techniques of bacteriology mycology parasitology and virology. Part II of II.

Prerequisite: MDL 251 (or BIO 205).

Lecture 2 hours.

Laboratory 3 hours.

Total 5 hours per week.

### **MDL 261 Clinical Chemistry and Instrumentation I (4 cr.)**

Introduces methods of performing biochemical analysis of clinical specimens. Teaches instrumentation involved in a clinical chemistry laboratory quality control and the ability to recognize technical problems. Part I of II.

Lecture 3 hours.

Laboratory 3 hours.

Total 6 hours per week.

### **MDL 281 Clinical Correlations (1 cr.)**

Teaches students to apply knowledge gained in courses offered in the MDL curriculum using primarily a case history form of presentation. Emphasizes critical-thinking skills in the practice of laboratory medicine. To be taken in final semester while students are in clinical rotations.

Lecture 1 hour per week.

### **MDL 290 Coordinated Practice in Blood Bank/Transfusion Medicine (2 cr.)**

Provides supervised on-the-job training in a hospital blood bank. Includes skill development and evaluation of typing and cross-matching technique for transfusion analyzing data and formulating reports performing and analyzing quality control measures and troubleshooting test parameters.

Prerequisites: Successful completion of the first four semesters of the MDL curriculum and program permission to enroll in this course.

Laboratory 40 hours per week for three weeks.

### **MDL 290 Coordinated Practice in Clinical Chemistry (2 cr.)**

Provides supervised on-the-job training in a clinical chemistry laboratory. Includes skill development and evaluation of chemical analysis technique for blood and other body fluids analyzing data and formulating reports performing and analyzing quality control measures and troubleshooting test parameters.

Prerequisites: Successful completion of the first four semesters of the MDL curriculum and program permission to enroll in this course.

Laboratory 40 hours per week for three weeks.

### **MDL 290 Coordinated Practice in Hematology (2 cr.)**

Provides supervised on-the-job training in a clinical hematology laboratory. Includes skill development and evaluation of techniques for automated cell counting manual differential counting assessing blood cells in health and disease analyzing data and formulating reports performing and analyzing quality control measures and troubleshooting test parameters.

Prerequisites: Successful completion of the first four semesters of the MDL curriculum and program permission to enroll in this course.

Laboratory 40 hours per week for three weeks.

## **MDL 290 Coordinated Practice in Microbiology (2 cr.)**

Provides supervised on-the-job training in a clinical microbiology laboratory. Includes skill development and evaluation of culture and sensitivity technique for various patient specimens identification of numerous pathogens analyzing data and formulating reports performing and analyzing quality control measures and troubleshooting test parameters.

Prerequisites: Successful completion of the first four semesters of the MDL curriculum and program permission to enroll in this course. Laboratory 40 hours per week for three weeks.

## **MDL 290 Coordinated Practice in Urinalysis, Serology, and Coagulation (1 cr.)**

Supervises on-the-job training in conjunction with another rotation at the discretion of the clinical site. Includes skill development and evaluation of techniques performing urinalysis conducting serological assays conducting hemostasis studies analyzing data and formulating reports performing and analyzing quality control measures and troubleshooting test parameters.

Prerequisites: Successful completion of the first four semesters of the MDL curriculum and program permission to enroll in this course. Laboratory 40 hours per week for one week.

## **MENTAL HEALTH(MEN)**

### **MEN 101 Mental Health Skill Training I (3 cr.)**

Develops skills necessary to function as a mental health worker with emphasis on guided practice in counseling skills as well as improved self-awareness. Includes training in problem-solving goal-setting and implementation of appropriate strategies and evaluation techniques relating to interaction involving a variety of client needs. Part I of II. Lecture 3 hours per week.

### **MEN 102 Mental Health Skill Training II (3 cr.)**

Develops skills necessary to function as a mental health worker with emphasis on guided practice in counseling skills as well as improved self-awareness. Includes training in problem-solving goal-setting and implementation of appropriate strategies and evaluation techniques relating to interaction involving a variety of client needs. Part II of II. Prerequisite: MEN 101. Lecture 3 hours per week.

## **MUSIC(MUS)**

### **MUS 111 Music Theory I (4 cr.)**

Discusses elements of musical construction of scales intervals triads and chord progressions. Develops ability to sing at sight and write from dictation. Introduces the analysis of the Bach chorale style. Expands facility with harmonic dictation and enables the student to use these techniques at the keyboard. Part I of II. Lecture 3 hours.

Laboratory 2 hours.  
Total 5 hours per week.

### **MUS 112 Music Theory II (4 cr.)**

Discusses elements of musical construction of scales intervals triads and chord progressions. Develops ability to sing at sight and write from dictation. Introduces the analysis of the Bach chorale style. Expands facility with harmonic dictation and enables the student to use these techniques at the keyboard. Part II of II. Prerequisite: MUS 111.

Lecture 3 hours.  
Laboratory 2 hours.  
Total 5 hours per week.

### **MUS 121 Music in Society (3 cr.)**

Explores the language of music through an introduction to basic elements forms and styles across time. Acquaints students with composers aops; lives and influential creative individualities discovering representative works and milestones in western society. Develops techniques for listening analytically and critically. Reviews historical development and significance of art music within the context of evolving societal structures. Part I of II. Lecture 3 hours per week.

### **MUS 221 History of Music I (3 cr.)**

Presents the chronology of musical styles from antiquity to the present time. Relates the historical development of music to parallel movements in art drama and literature. Develops techniques for listening analytically and critically to music. Lecture 3 hours per week.

### **MUS 225 The History of Jazz (3 cr.)**

## **NATURAL SCIENCE(NAS)**

### **NAS 2 Foundations of Life Sciences (3 cr.)**

Presents elementary biological and chemical principles for allied health students whose high school preparation is deficient in the biological sciences. Lecture 3 hours per week.

## **NURSING - NSG(NSG)**

### **NSG 100 Introduction to Nursing Concepts (4 cr.)**

Introduces concepts of nursing practice and conceptual learning. Focuses on basic nursing concepts with an emphasis on safe nursing practice and the development of the nursing process. Provides supervised learning experiences in college nursing laboratories clinical/community settings and/or simulated environments.

Prerequisites: BIO 141 or BIO 231; ENG 111, PSY 230, SDV 100, CPR # American Heart Association Basic Life Support for Healthcare Providers. Lecture 3 hours.  
Laboratory 3 hours.  
Total 6 hours per week.

### **NSG 106 Competencies for Nursing Practice (2 cr.)**

Focuses on the application of concepts through clinical skill development. Emphasizes the use of clinical judgment in skill acquisition. Includes principles of safety evidence-based practice informatics and math computational skills. Prepares students to demonstrate competency in specific skills and drug dosage calculation including the integration of skills in the care of clients in simulated settings. Provides supervised learning experiences in college nursing laboratories clinical/community settings and/or simulated environments. Prerequisites: BIO 141 or BIO 231, ENG 111, PSY 230, SDV 100, CPR - American Heart Association Basic Life Support for Healthcare Providers. Lecture 1 hour.

Laboratory 3 hours.  
Total 4 hours per week.

### **NSG 115 Healthcare Concepts for Transition (5 cr.)**

Focuses on role transition from licensed practical nurse to registered professional nurse. Incorporates concepts of nursing practice and conceptual learning to promote health and wellness across the life span. Uses the nursing process to explore care delivery for selected diverse populations with common and predictable illness. Emphasizes the use of clinical judgement in skill acquisition.

Prerequisites: BIO 141 and BIO 142; ENG 111; PSY 230; SDV 100; acceptance to the LPN to AAS Nursing transition program. Lecture 3 hours.  
Laboratory 6 hours.  
Total 9 hours per week.

# REYNOLDS COMMUNITY COLLEGE

## **NSG 130 Professional Nursing Concepts (1 cr.)**

Introduces the role of the professional nurse and fundamental concepts in professional development. Focuses on professional identity legal/ethical issues and contemporary trends in professional nursing.

Prerequisites: BIO 141 or BIO 231; ENG 111, PSY 230, SDV 100, CPR # American Heart Association Basic Life Support for Healthcare Providers.

Lecture 1 hour per week.

## **NSG 152 Health Care Participant (3 cr.)**

Focuses on the health and wellness of diverse individuals families and the community throughout the lifespan. Covers concepts that focus on client attributes and preferences regarding healthcare. Emphasizes population-focused care. Provides supervised learning experiences in college nursing laboratories clinical/community settings and/or cooperating agencies and/or simulated environments.

Prerequisites: BIO 142 or BIO 232; NSG 100, NSG 106, NSG 130 and NSG 200.

Lecture 2 hours.

Laboratory 3 hours.

Total 5 hours per week.

## **NSG 170 Health/Illness Concepts (6 cr.)**

Focuses on the nursing care of individuals and/or families throughout the lifespan with an emphasis on health and illness concepts. Includes concepts of nursing care for the antepartum client and clients with common and predictable illnesses. Provides supervised learning experiences in college nursing laboratories clinical/community settings and/or simulated environments.

Prerequisites: BIO 142 or BIO 232; NSG 100, NSG 106, NSG 130, and NSG 200.

Lecture 4 hours.

Laboratory 6 hours.

Total 10 hours per week.

## **NSG 200 Health Promotion and Assessment (3 cr.)**

Introduces assessment and health promotion for the individual and family. Includes assessment of infants children adults geriatric clients and pregnant females. Emphasizes health history and the acquisition of physical assessment skills with underlying concepts of development communication and health promotion. Prepares students to demonstrate competency in the assessment of clients across the lifespan. Provides supervised learning experiences in college nursing laboratories clinical/community settings and/or simulated environments.

Prerequisites: BIO 141 or BIO 231; ENG 111, PSY 230, SDV 100.

Lecture 2 hours.

Laboratory 3 hours.

Total 5 hours per week.

## **NSG 210 Health Care Concepts I (5 cr.)**

Focuses on care of clients across the lifespan in multiple settings including concepts related to physiological health alterations and reproduction. Emphasizes the nursing process in the development of clinical judgment for clients with multiple needs. Provides supervised learning experiences in college nursing laboratories clinical/community settings and/or simulated environments. Part I of II.

Prerequisites: BIO 150 or BIO 205, NSG 152, and NSG 170.

Lecture 3 hours.

Laboratory 6 hours.

Total 9 hours per week.

## **NSG 211 Health Care Concepts II (5 cr.)**

Focuses on care of clients across the lifespan in multiple settings including concepts related to psychological and physiological health alterations. Emphasizes the nursing process in the development of clinical judgment for clients with multiple needs. Provides supervised learning experiences in college nursing laboratories clinical/community settings and/or simulated environments. Part II of II.

Prerequisites: BIO 150 or BIO 205, NSG 152, and NSG 170.

Lecture 3 hours.

Laboratory 6 hours.

Total 9 hours per week.

## **NSG 230 Advanced Professional Nursing Concepts (2 cr.)**

Develops the role of the professional nurse in the health care environment in preparation for practice as a registered nurse. Introduces leadership and management concepts and focuses on the integration of professional behaviors in a variety of health care settings.

Prerequisites: NSG 210 and NSG 211.

Lecture 2 hours.

Total 2 hours per week.

## **NSG 252 Complex Health Care Concepts (4 cr.)**

Focuses on nursing care of diverse individuals and families integrating complex health concepts. Emphasizes clinical judgment patient-centered care and collaboration.

Prerequisites: NSG 210 and NSG 211.

Lecture 4 hours per week.

## **NSG 270 Nursing Capstone (4 cr.)**

Provides students with the opportunity to comprehensively apply and integrate learned concepts from previous nursing courses into a capstone experience. Emphasizes the mastery of patient-centered care safety nursing judgment professional behaviors informatics quality improvement and collaboration in the achievement of optimal outcomes of care. Provides supervised learning experiences in faculty and/or preceptor-guided college nursing laboratories clinical/community settings and/or simulated environments.

Prerequisites: NSG 210 and NSG 211.

Laboratory 12 hours per week.

## **OPTICIANRY(OPT)**

### **OPT 105 Anatomy, Physiology, and Pathology of the Eye (3 cr.)**

Considers the fundamentals of various body systems and principles of human physiology; methods of drug delivery including the advantages and disadvantages of drops ointments and sustained release systems; systemic use of medications; basic characteristics of common external and internal diseases of the eye; and ocular emergencies.

Lecture 3 hours per week.

### **OPT 121 Optical Theory I (3 cr.)**

Introduces theory and application of ophthalmic lenses. Presents history basic manufacturing and quality standards of ophthalmic lenses propagation of light refraction and dioptric measurements true power surface power nominal lens formula. Explains lens makersaapos; equation boxing system spherical lens design fundamental aspects of cylindrical lenses spherocylinder lens design and flat and toric transposition.

Lecture 3 hours per week.

### **OPT 122 Optical Theory II (3 cr.)**

Explores the development of multifocal lenses application of multifocal lenses survey of current ophthalmic lens the properties of spherocylinder lenses and an in-depth analysis of the optics of ophthalmic prisms which includes prism notation vertical imbalance and anisometropia.

Prerequisite: OPT 121 or equivalent.

Lecture 3 hours per week.

### **OPT 150 Optical Laboratory Theory I (3 cr.)**

Introduces the student to the terminology instruments lens frames and materials used in the surfacing and finishing of optical prescription eyewear. Focuses on the lensometry and fabrication of single vision eyewear and presents personal and environmental safety issues.

Lecture 3 hours per week.

## **OPT 151 Optical Laboratory Theory II (3 cr.)**

Covers making eyeglasses with advanced prescriptions and frames. Includes verification and neutralization techniques for single vision lens and bifocals frame repair accomplishing prescribed prism by decentration verification and neutralization semi-rimless glasses and multifocal glasses.

Prerequisite: OPT 150 and OPT 152 or equivalent.

Lecture 3 hours per week.

## **OPT 152 Optical Laboratory Clinical I (3 cr.)**

Provides the clinical component of OPT 150. Provides students the opportunity to learn clinical skills in fundamental optical laboratory tasks at the entry level under the direction and supervision of a preceptor. Emphasizes accuracy and attaining skills that meet acceptable professional standards. Laboratory 6 hours per week.

## **OPT 153 Optical Laboratory Clinical II (3 cr.)**

Provides the clinical component of OPT 151. Presents students with an opportunity to learn clinical skills for optical laboratory tasks at the advanced level under the direction and supervision of a preceptor. Emphasizes accuracy and the attainment of skills that meet acceptable professional standards.

Prerequisites: OPT 150 and OPT 152 or equivalent.

Laboratory 6 hours per week.

## **OPT 154 Optical Business Management (3 cr.)**

Covers basic management and leadership skills necessary for a successful eye care office. Teaches the analysis creative thinking judgment planning strategy and implementation skills necessary for today's optical business challenges. Lecture 3 hours per week.

## **OPT 160 Optical Dispensing Theory I (3 cr.)**

Introduces the student to the skills necessary for becoming a dispensing optician. Includes the history of the profession patient/client measurements frame and lens materials frame and lens selection prescription analysis and adjustment techniques.

Prerequisite: OPT 121 or equivalent.

Lecture 3 hours per week.

## **OPT 165 Optical Dispensing Clinical I (2 cr.)**

Provides the student with an opportunity to develop the skills necessary for becoming a dispensing optician. Covers patient/client measurements frame and lens materials frame and lens selection prescription analysis and adjustment techniques. Serves as the clinical component of OPT 160.

Prerequisite: OPT 121 or equivalent.

Laboratory 4 hours per week.

## **OPT 260 Optical Dispensing Theory II (3 cr.)**

Focuses on the development and refinement of the skills necessary for student to become a licensed dispensing optician including patient/client measurements presbyopic options frame and lens materials absorptive lenses frame and lens selection safety and sports eyewear prescription analysis to include considerations for spectacle magnification and tilt low vision aids and adjustment techniques.

Prerequisites: OPT 160 and OPT 165 or equivalent.

Lecture 3 hours per week.

## **OPT 271 Optical Dispensing Clinical II (3 cr.)**

Focuses on the development and refinement of the skills necessary for students to become a licensed dispensing opticians including patient/client measurements frame and lens materials frame and lens selection prescription analysis and adjustment techniques. Serves as the clinical component of OPT 260.

Prerequisites: OPT 160 and OPT 165 or equivalent.

Laboratory 12 hours per week.

## **OPT 272 Optical Dispensing Clinical III (3 cr.)**

Focuses on the development and refinement of the skills necessary for students to become a licensed dispensing optician including patient/client measurements frame and lens materials frame and lens selection prescription analysis and adjustment techniques.

Prerequisite: OPT 271.

Laboratory 12 hours per week.

## **OPT 273 Contact Lens Theory I (3 cr.)**

Introduces basic concepts and techniques of contact lens fitting design materials and nomenclature. Covers contact lens insertion and removal techniques and basic slit lamp and keratometry skills.

Prerequisites: NAS 176 or OPT 105 or equivalent.

Lecture 3 hours per week.

## **OPT 274 Contact Lens Theory II (3 cr.)**

Explores soft spherical and gas permeable contact lens fitting philosophies tolerances and designs. Develops the student's patient evaluation skills patient training skills and skills for evaluating the fit and verification of contact lenses.

Prerequisite: OPT 273 or equivalent.

Lecture 3 hours per week.

## **OPT 280 Contact Lens Clinical (3 cr.)**

Promotes the development of clinical skills in fundamental contact lens tasks at the entry level under the direction and supervision of a preceptor. Emphasizes professional standards.

Prerequisite: OPT 274 or equivalent.

Laboratory 6 hours per week.

## **PHILOSOPHY(PHI)**

### **PHI 101 Introduction to Philosophy I (3 cr.)**

Introduces a broad spectrum of philosophical problems and perspectives with an emphasis on the systematic questioning of basic assumptions about meaning knowledge reality and values. Part I of II.

Prerequisite: Placement in ENG 111 or placement in co-requisites ENG 111 and EDE 11.

Lecture 3 hours per week.

### **PHI 111 Logic I (3 cr.)**

Introduces inductive and deductive reasoning with an emphasis on common errors and fallacies.

Prerequisites: Placement in ENG 111 or placement in co-requisites ENG 111 and EDE 11.

Lecture 3 hours per week.

### **PHI 220 Ethics (3 cr.)**

Provides a systematic study of representative ethical systems.

Prerequisite: Placement in ENG 111 or placement in co-requisites ENG 111 and EDE 11.

Lecture 3 hours per week.

### **PHI 225 Selected Problems in Applied Ethics (3 cr.)**

Analyzes and discusses significant contemporary ethical issues and problems existing throughout the various professions such as business medicine law education journalism and public affairs. May be repeated for credit.

Prerequisite: Placement in ENG 111 or placement in co-requisites ENG 111 and EDE 11.

Lecture 3 hours per week.

### **PHI 227 Bio-Medical Ethics (3 cr.)**

Examines the ethical implications of specific biomedical issues in the context of major ethical systems.

Prerequisite: Placement in ENG 111 or placement recommendation for Co-requisites ENG 111 and EDE 11.

Lecture 3 hours per week.

### **PHI 260 Studies in Eastern Thinking (3 cr.)**

Introduces an in-depth study of the East through a variety of approaches which include music literature drama and cinema. Places special emphasis on Chinese and Japanese philosophy and religion especially Buddhism.

Prerequisite: Must have tested into English 111 with no developmental co-requisites.

Lecture 3 hours per week.

## PHOTOGRAPHY(PHT)

### **PHT 164 Introduction to Digital Photography (3 cr.)**

Teaches the fundamentals of photography including camera function composition and image production as they apply to digital imagery.

Lecture 2 hours.

Laboratory 3 hours.

Total 5 hours per week.

### **PHT 264 Digital Photography II (3 cr.)**

Teaches theory and practice of digital photography including the Adobe Photoshop techniques needed for top quality inkjet prints. Emphasizes use of digital cameras in studio and on location. Teaches advanced techniques of image editing including photo restoration and multi-image compositing. Students work with existing images including family snapshots and antique photographs as well as photographs shot specifically for the course. In addition to prescribed assignments a personal project allows for exploration of creative ideas and topics of the student's choice. Provides training in digital image transmission from remote locations.

Prerequisites: Students taking this course should feel comfortable working at a computer, be familiar with negotiating program menus, and know how files are saved and stored. A camera with manually adjustable aperture and shutter is required.

Lecture 2 hours.

Laboratory 3 hours.

Total 5 hours per week.

## PHYSICAL EDUCATION & RECREATION(PED)

### **PED 109 Yoga (2 cr.)**

Focuses on the forms of yoga training emphasizing flexibility.

Lecture 1 hour.

Laboratory 2 hours.

Total 3 hours per week.

### **PED 109 Yoga I (1 cr.)**

Focuses on the forms of yoga training emphasizing flexibility. Part I of II.

Laboratory 2 hours per week.

### **PED 110 Zumba (1 cr.)**

Focuses on Latin rhythms dance moves and techniques in Zumba. Utilizes physical activity cardiovascular endurance balance coordination and flexibility as related to dance.

Laboratory 2 hours.

Total 2 hours per week.

### **PED 111 Weight Training I (2 cr.)**

Focuses on muscular strength and endurance training through individualized workout programs. Teaches appropriate use of weight training equipment. Part I of II.

Lecture 1 hour.

Laboratory 2 hours.

Total 3 hour per week.

### **PED 111 Weight Training I (1 cr.)**

Focuses on muscular strength and endurance training through individualized workout programs. Teaches appropriate use of weight training equipment. Part I of II.

Laboratory 2 hours per week.

### **PED 112 Weight Training II (2 cr.)**

Focuses on muscular strength and endurance training through individualized workout programs. Teaches appropriate use of weight training equipment. Part II of II.

Prerequisite: PED 111.

Lecture 1 hour.

Laboratory 2 hours.

Total 3 hours per week.

### **PED 112 Weight Training II (1 cr.)**

Focuses on muscular strength and endurance training through individualized workout programs. Teaches appropriate use of weight training equipment. Part II of II.

Prerequisite: PED 111.

Laboratory 2 hours per week.

### **PED 116 Lifetime Fitness and Wellness (2 cr.)**

Provides a study of fitness and wellness and their relationship to a healthy lifestyle. Defines fitness and wellness evaluates the student's level of fitness and wellness and motivates the student to incorporate physical fitness and wellness into daily living. A personal fitness/wellness plan is required for the 2-credit course.

Lecture 1 hour.

Laboratory 2 hours.

Total 3 hours per week.

### **PED 117 Fitness Walking (1 cr.)**

Teaches content and skills needed to design implement and evaluate an individualized program of walking based upon fitness level.

Laboratory 2 hours per week.

### **PED 120 Yoga II (2 cr.)**

Focuses on the forms of yoga training emphasizing flexibility breathing and meditation. Part II of II.

Prerequisite: PED 109.

Lecture 1 hour.

Laboratory 2 hours.

Total 3 hours per week.

### **PED 120 Yoga II (1 cr.)**

Focuses on the forms of yoga training emphasizing flexibility breathing and meditation. Part II of II.

Prerequisite: PED 109.

Laboratory 2 hours per week.

### **PED 135 Bowling I (1 cr.)**

Teaches basic bowling skills and techniques scoring rules etiquette and terminology. Part I of II.

Laboratory 2 hours per week.

### **PED 136 Bowling II (1 cr.)**

Teaches basic bowling skills and techniques scoring rules etiquette and terminology. Part II of II.

Prerequisite: PED 135.

Laboratory 2 hours per week.

### **PED 137 Martial Arts I (1 cr.)**

Emphasizes forms styles and techniques of body control physical and mental discipline and physical fitness. Presents a brief history of development of martial arts theory and practice. Part I of II.

Laboratory 2 hours per week.

### **PED 138 Martial Arts II (1 cr.)**

Emphasizes forms styles and techniques of body control physical and mental discipline and physical fitness. Presents a brief history of development of martial arts theory and practice. Part II of II.

Prerequisite: PED 137 or equivalent.

Laboratory 2 hours per week.

### **PED 170 Tai Chi I (2 cr.)**

Develops an understanding of the theories and practices of Tai Chi. Explores the energy of exercise that will tone muscles improve circulation and increase flexibility and balance. Discusses history and philosophy of exercise and relaxation techniques for stress reduction. Part I of II.

Lecture 1 hour.

Laboratory 2 hours.

Total 3 hours per week.

### **PED 195 Topics in Physical Education: Principles and Practices of Sport Management (3 cr.)**

Emphasizes basic management principles related to the sports management industry and provides an overview of career opportunities in the field. Introduces students to sports marketing sports law sports supervision sports media sports ethics recreational sports management and other related areas. Emphasizes the development and improvement of communication skills. An overview is provided with regard to career opportunities in this field. This course cannot be used as a personal wellness elective.

Lecture 3 hours per week.

### **PED 199 Supervised Study in Martial Arts I (1 cr.)**

Emphasizes forms styles and techniques of body control physical and mental discipline and physical fitness. Presents a brief history of development of martial arts theory and practice.

Laboratory 2 hours per week.

## **PED 295 Topics in Physical Education: Instructional Principles of Online Physical Education (3 cr.)**

Prepares instructors in the pedagogy instructional design and technology of teaching online physical education courses. Focuses on the strategies of collaborating and teaching online including planning management and evaluation of an online physical education program in a secondary school environment.

Prerequisite: This course is for students who are pursuing or hold current licensure as a K-12 teacher.

Lecture 3 hours per week.

## **PHYSICS(PHY)**

### **PHY 101 Introduction to Physics I (4 cr.)**

Surveys general principles of physics. Includes topics such as force and motion energy heat sound light electricity and magnetism and modern physics. Part I of II.

Prerequisite: high school mathematics, including algebra, trigonometry, and logarithms.

Lecture 3 hours.

Laboratory 3 hours.

Total 6 hours per week.

### **PHY 201 General College Physics I (4 cr.)**

Teaches fundamental principles of physics on an algebra/ geometry/trig math level. Covers mechanics fluids and thermodynamics. Students should consult the requirements of their individual program and transfer school to determine the correct course and the transferability of course to senior institution. Part I of II.

Prerequisite: MTH 167 or MTH 161 and 162.

Lecture 3 hours.

Laboratory 3 hours.

Total 6 hours per week.

### **PHY 202 General College Physics II (4 cr.)**

Teaches fundamental principles of physics on an algebra/geometry/trig math level. Covers wave phenomena optics electricity and magnetism an introduction to relativity nuclear physics and selected topics in modern physics. Students should consult the requirements of their individual program and transfer school to determine the correct course and the transferability of course to senior institution. Part II of II.

Prerequisite: PHY 201.

Lecture 3 hours.

Laboratory 3 hours.

Total 6 hours per week.

### **PHY 241 University Physics I (4 cr.)**

Teaches principles of classical and modern physics on calculus math level. Covers mechanics and heat. Students should consult the requirements of their individual program and transfer school to determine the correct course and the transferability of course to senior institution. Part I of II.

Prerequisite: MTH 263.

Lecture 3 hours.

Laboratory 3 hours.

Total 6 hours per week.

### **PHY 242 University Physics II (4 cr.)**

Teaches principles of classical and modern physics on calculus math level. Covers wave phenomena optics electricity and magnetism an introduction to relativity and nuclear physics. Students should consult the requirements of their individual program and transfer school to determine the correct course and the transferability of course to senior institution. Part II of II.

Prerequisites: PHY 241 and MTH 264 or school approval.

Lecture 3 hours.

Laboratory 3 hours.

Total 6 hours per week.

## **POLITICAL SCIENCE(PLS)**

### **PLS 135 U.S. Government and Politics (3 cr.)**

Teaches the political structure processes institutions and policymaking of the US national government. Focuses on the three branches of government their interrelationships and how they shape policy. Addresses federalism; civil liberties and civil rights; political socialization and participation; public opinion the media; interest groups; political parties; elections; and policymaking. The assignments in the course require college-level reading fluency and coherent communication through written reports. This is a Passport Transfer course.

Lecture 3 hours per week.

### **PLS 136 State and Local Government and Politics (3 cr.)**

Teaches structure powers and functions of state and local government in the United States as related to federalism; constitutionalism; elections; powers of legislative executive and judicial powers of state and local government; state-local-federal relations; fiscal matters; metropolitan issues; and policy issues like health education criminal justice and welfare. The assignments in the course require college-level reading fluency and coherent communication through written reports.

Lecture 3 hours per week.

## **PRACTICAL NURSING(PNE)**

### **PNE 143 Applied Nursing Skills (1 cr.)**

Applies principles and procedures essential to the basic nursing care of patients. Involves campus and/or clinical lab hours in a geriatric setting.

Prerequisites: Acceptance into the Practical Nursing Program, SDV 100 or SDV 101, ENG 111, PSY 230, BIO 141, and ITE 115.

Laboratory 3 hours. Contact 3 hours per week.

## **PRACTICAL NURSING(PNG)**

### **PNG 110 Patient-Centered Concepts (2 cr.)**

Provides an overview of the general concepts to implement patient-centered care at the beginning level. Introduces concepts of communication collaboration health care law ethics nursing process lifespan development culture safety coping stress mobility and lifelong learning with a specific focus on the role of the practical nurse.

Prerequisites: Acceptance into the Practical Nursing program. Completion of SDV 100 or 101, ENG 111, PSY 230, and BIO 141 with grades of C or above. Completion of all program-specific paperwork (e.g., background and drug screening, evidence of active American Heart Association BLS for Healthcare Professionals, Assumption of Risk form, health forms, proof of immunity, negative TB).

Lecture 2 hours per week.

### **PNG 115 Patient-Centered Concepts Clinical (2 cr.)**

Provides students an opportunity to implement classroom learning in a structured health care setting. Focuses on using the nursing process to plan and implement safe evidence-based patient-centered care.

Prerequisites: Acceptance into the Practical Nursing program; SDV 100 or 101, ENG 111, PSY 230, and BIO 141 with grades of C or above; completion of all program-specific paperwork (e.g., background and drug screening, evidence of active American Heart Association BLS for Healthcare Professionals, Assumption of Risk form, health forms, proof of immunity, negative TB).

Laboratory 6 hours per week.

## **PNG 120 Patient-Centered Care I (3 cr.)**

Provides an overview of the general concepts to implement with a more diverse patient-centered population with an increase in scope of care needs. Introduces concepts of anxiety nutrition elimination infection gas exchange pain sexuality and reproduction with specific focus on the role of the practical nurse. Provides an overview of the general concepts to implement with a more diverse patient-centered population with an increase in scope of care needs.

Prerequisites: PNG 110 and PNG 115.

Lecture 2 hours per week.

Laboratory 3 hours per week.

Total 5 hours per week.

## **PNG 125 Patient-Centered Care I Clinical (2 cr.)**

Provides students with the opportunity to implement classroom learning in a structured clinical setting that includes maternal-child health care and adult and geriatric populations. Includes care of the child-rearing family with an emphasis on health promotion and reduction of risk. Focuses on using the nursing process to plan and implement safe evidence-based patient-centered care.

Prerequisites: PNG 110 and PNG 115.

Laboratory 6 hours per week.

## **PNG 210 Patient-Centered Care II (4 cr.)**

Provides an overview of identified general concepts to implement patient-centered care. Introduces concepts of glucose regulation fluid and electrolyte balance perfusion sensory perception thermo-regulation tissue integrity and patient education. Expands knowledge of gas exchange and mobility. Focuses on the role of the practical nurse in health promotion and maintenance. Provides an opportunity for students in the lab to learn the skills needed to provide quality evidence-based care in the clinical setting.

Prerequisites: PNG 120, PNG 125, and BIO 142; evidence of current health and immunity status; negative TB results repeated annually; current certification of American Heart Association Basic Life Support for Healthcare Professionals; and current compliance with all program documentation requirements.

Lecture 3 hours per week.

Laboratory 3 hours per week.

Total 6 hours per week.

## **PNG 215 Patient-Centered Care II Clinical (2 cr.)**

Provides the student an opportunity to implement classroom learning in a structured rehabilitation or other in-patient setting. Incorporates technical skills learned for the care of complex patients. Focuses on using the nursing process to plan and implement safe evidence-based patient-centered care. Prerequisites: PNG 120 and PNG 125; maintenance of all program document expectations, inclusive of CPR, health, and background requirements.

Laboratory 6 hours per week.

## **PNG 220 Patient-Centered Care III (4 cr.)**

Provides an overview of the identified general concepts to implement patient-centered care. Introduces concepts of intracranial regulation clotting cellular regulation cognition mood and affect psychosis and care coordination. Expands knowledge of perfusion gas exchange pain and lifelong learning. Focuses on the role of the practical nurse in health promotion and maintenance.

Prerequisites: PNG 210 and PNG 215.

Lecture 4 hours per week.

## **PNG 225 Patient-Centered Care III Clinical (3 cr.)**

Provides students with the opportunity to implement classroom learning in structured health care settings. Focuses on using the nursing process to plan and implement safe evidence-based patient-centered care. Provides the student an opportunity to implement care coordination and manage resources to support patient care.

Prerequisites: PNG 210 and PNG 215.

Laboratory 9 hours per week.

## **PSYCHOLOGY(PSY)**

### **PSY 200 Principles of Psychology (3 cr.)**

Surveys the basic concepts of psychology. Covers the scientific study of behavior and mental processes research methods and measurement theoretical perspectives and application. Includes biological bases of behavior learning social interactions memory and personality; and other topics such as sensation perception consciousness thinking intelligence language motivation emotion health development psychological disorders and therapy.

Prerequisite: Placement in ENG 111 or placement in Co-requisites ENG 111 and EDE 11.

Lecture 3 hours per week.

## **PSY 215 Abnormal Psychology (3 cr.)**

Explores historical views and current perspectives of abnormal behavior. Emphasizes major diagnostic categories and criteria individual and social factors of maladaptive behavior and types of therapy. Includes methods of clinical assessment and research strategies.

Prerequisite: PSY 200, 201, or 202. Placement in ENG 111 or placement in co-requisites ENG 111 and EDE 11.

Lecture 3 hours per week.

## **PSY 230 Developmental Psychology (3 cr.)**

Studies the development of the individual from conception to death. Follows a life-span perspective on the development of the person's physical cognitive and psychosocial growth.

Prerequisite: Placement in ENG 111 or placement in Co-requisites ENG 111 and EDE 11.

Lecture 3 hours per week.

## **PSY 235 Child Psychology (3 cr.)**

Studies the development of the child from conception to adolescence. Investigates physical cognitive social and emotional factors involved in the child's growth.

Prerequisite: Placement in ENG 111 or placement in Co-requisites ENG 111 and EDE 11.

Lecture 3 hours per week.

## **REAL ESTATE(REA)**

### **REA 100 Principles of Real Estate (4 cr.)**

Examines practical applications of real estate principles. Includes a study of titles estates land descriptions contracts legal instruments and concepts real estate mathematics financing agency appraisal fair housing and management of real estate.

Lecture 4 hours per week.

## **RELIGION(REL)**

### **REL 231 Religions of the World I (3 cr.)**

Studies religions of the world with attention to origin history and doctrine. Part I of II.

Prerequisite: Placement in ENG 111 or placement in Co-requisites ENG 111 and EDE 11.

Lecture 3 hours per week.

### **REL 232 Religions of the World II (3 cr.)**

Studies religions of the world with attention to origin history and doctrine. Part II of II.

Prerequisite: Placement in ENG 111 or placement in Co-requisites ENG 111 and EDE 11.

Lecture 3 hours per week.

## **REL 233 Introduction to Islam (3 cr.)**

Studies Islam in its historical religious and political dimensions and assists in the understanding of its contemporary vitality and attraction as a faith a culture and a way of life. Prerequisite: Placement in ENG 111 or placement in Co-requisites ENG 111 and EDE 11. Lecture 3 hours per week.

## **REL 240 Religions in America (3 cr.)**

Surveys various manifestations of religion in the American experience. Emphasizes concepts problems and issues of religious pluralism and character of American religious life. Prerequisite: Placement in ENG 111 or placement in Co-requisites ENG 111 and EDE 11. Lecture 3 hours per week.

## **REL 255 Selected Problems and Issues in Religion: Women and the Bible (3 cr.)**

Introduces students to the portrayal of women in the Bible. Examines through selected Biblical texts the role and depiction of women within this text. Studies the impact of scriptural writing on the role of women in the Western world through the lens of feminist scholars. Students are asked to think critically about the texts and the issues raised by feminist perspectives and to analyze the impact of the Bible on women today and society as a whole. Prerequisites: Placement in ENG 111 or placement in Co-requisites ENG 111 and EDE 11. Lecture 3 hours per week.

## **RESPIRATORY THERAPY(RTH)**

### **RTH 102 Integrated Sciences for Respiratory Care II (3 cr.)**

Integrates the concepts of mathematics chemistry physics microbiology and computer technology as these sciences apply to the practices of respiratory care. Lecture 3 hours per week.

### **RTH 110 Fundamental Theory and Procedures for Respiratory Care (3 cr.)**

Focuses on the development of basic respiratory care skills necessary to enter the hospital environment. Prerequisite: Completion of the Health Science Career Studies Certificate Respiratory Therapy pathway and acceptance into pre-clinical courses. Lecture 2 hours. Laboratory 3 hours. Total 5 hours per week.

### **RTH 112 Pathology of the Cardiopulmonary System (3 cr.)**

Presents pathophysiology of medical and surgical diseases with emphasis upon diseases of the cardiopulmonary system. Prerequisite: Successful completion of all curriculum courses offered during the first semester of the AAS degree in Respiratory Therapy. Lecture 3 hours per week.

### **RTH 121 Cardiopulmonary Science I (3 cr.)**

Focuses on pathophysiology assessment treatment and evaluation of patients with cardiopulmonary disease. Explores cardiopulmonary and neuromuscular physiology and pathophysiology. Prerequisite: Completion of the Health Science Career Studies Certificate Respiratory Therapy pathway and acceptance into pre-clinical courses. Lecture 3 hours per week.

### **RTH 131 Respiratory Care Theory and Procedures I (4 cr.)**

Presents theory of equipment and procedures and related concepts used for patients requiring general acute and critical cardiopulmonary care. Prerequisites: Successful completion of all curriculum courses offered during the first semester of the AAS degree in Respiratory Therapy. Lecture 3 hours. Laboratory 3 hours. Total 6 hours per week.

### **RTH 132 Respiratory Care Theory and Procedures II (4 cr.)**

Presents theory of equipment and procedures and related concepts used for patients requiring general acute and critical cardiopulmonary care. Prerequisites: Successful completion of all curriculum courses offered during the first two semesters of the AAS degree in Respiratory Therapy. Lecture 3 hours. Laboratory 3 hours. Total 6 hours per week.

### **RTH 135 Diagnostic and Therapeutic Procedures I (2 cr.)**

Focuses on the purpose implementation and evaluation of equipment and procedures used in the diagnosis and therapeutic management of patients with cardiopulmonary disease. Explores baseline personal health as it relates to the development and recognition of respiratory diseases or disorders. Prerequisites: Completion of the Health Science Career Studies Certificate Respiratory Therapy pathway and acceptance into pre-clinical courses. Lecture 1 hour per week. Laboratory 3 hours per week. Total 4 hours per week.

### **RTH 145 Pharmacology for Respiratory Care I (1 cr.)**

Presents selection criteria for the use of and detailed information on pharmacologic agents used in pulmonary care. Prerequisite: Completion of the Health Science Career Studies Certificate Respiratory Therapy pathway and acceptance into pre-clinical courses. Lecture 1 hour per week.

### **RTH 190 Coordinated Practice in Respiratory Therapy NCC III (2 cr.)**

Provides supervised on-the-job training to enable students to work directly with patients to practice and refine skills learned in the previous semesters; classroom and laboratory classes. Prerequisites: Successful completion of all curriculum courses offered during the first two semesters of the AAS degree in Respiratory Therapy. Laboratory 10 hours per week.

### **RTH 190 Coordinated Practice in Respiratory Therapy: NCC I (2 cr.)**

Provides supervised on-the-job training to enable students to work directly with patients to practice and refine skills learned in the previous semesters; classroom and laboratory classes. Prerequisites: Successful completion of all curriculum courses offered during the first semester of the AAS degree in Respiratory Therapy. Laboratory 10 hours per week.

### **RTH 190 Coordinated Practice in Respiratory Therapy: NCC II (2 cr.)**

Provides supervised on-the-job training to enable students to work directly with patients to practice and refine skills learned in the previous semesters; classroom and laboratory classes. Prerequisites: Successful completion of all curriculum courses offered during the first semester of the AAS degree in Respiratory Therapy. Laboratory 10 hours per week.

### **RTH 215 Pulmonary Rehabilitation (1 cr.)**

Focuses on purpose and implementation of comprehensive cardiopulmonary rehabilitation program. Prerequisites: Successful completion of all curriculum courses offered during the first three semesters of the AAS degree in Respiratory Therapy. Lecture 1 hour per week.

### **RTH 222 Cardiopulmonary Science II (3 cr.)**

Focuses on assessment treatment and evaluation of patients with cardiopulmonary disease. Explores cardiopulmonary renal and neuromuscular physiology and pathophysiology. Prerequisites: Successful completion of all curriculum courses offered during the first two semesters of the AAS degree in Respiratory Therapy. Lecture 3 hours per week.

## **RTH 223 Cardiopulmonary Science III (2 cr.)**

Continues the exploration of topics discussed in RTH 121 and RTH 222.

Prerequisites: Successful completion of all curriculum courses offered during the first three semesters of the AAS degree in Respiratory Therapy.  
Lecture 2 hours per week.

## **RTH 226 Theory of Neonatal and Pediatric Respiratory Care (2 cr.)**

Focuses on cardiopulmonary physiology and pathology of the newborn and pediatric patient.

Prerequisite: Successful completion of all curriculum courses offered during the first three semesters of the AAS degree in Respiratory Therapy.  
Lecture 2 hours per week.

## **RTH 227 Integrated Respiratory Therapy Skills II (2 cr.)**

Presents intensive correlation of all major respiratory therapy subject areas reflecting the entry-level and advanced practitioner matrices. Emphasizes assessment implementation and modification of therapy to patient response.

Prerequisites: Successful completion of all curriculum courses offered during the first five semesters of the AAS degree in Respiratory Therapy.  
Lecture 2 hours per week.

## **RTH 236 Critical Care Monitoring (3 cr.)**

Focuses on techniques and theory necessary for the evaluation and treatment of the critical care patient especially arterial blood gases and hemodynamic measurements. Explores physiologic effects of advanced mechanical ventilation.

Prerequisites: Successful completion of all curriculum courses offered during the first four semesters of the AAS degree in Respiratory Therapy.  
Lecture 2 hours.  
Laboratory 3 hours.  
Total 5 hours per week.

## **RTH 290 Coordinated Practice in Respiratory Therapy: ACC/NPCC I (2 cr.)**

Provides supervised on-the-job training. Introduces the student to respiratory critical care home care and diagnostic pulmonary functions. Students rotate through several critical care units (adult pediatric and neonatal) and practice and are evaluated on entry-level critical care skills. Introduces students to adult and pediatric home care and helps them learn to perform diagnostic pulmonary functions.

Prerequisites: Successful completion of all curriculum courses offered during the first three semesters of the AAS degree in Respiratory Therapy.  
Laboratory 10 hours per week.

## **RTH 290 Coordinated Practice in Respiratory Therapy: ACC/NPCC II (2 cr.)**

Provides supervised on-the-job training. Introduces the student to respiratory critical care home care and diagnostic pulmonary functions. Students rotate through several critical care units (adult pediatric and neonatal) and practice and are evaluated on entry-level critical care skills. Introduces students to adult and pediatric home care and helps them learn to perform diagnostic pulmonary functions.

Prerequisites: Successful completion of all curriculum courses offered during the first three semesters of the AAS degree in Respiratory Therapy.  
Laboratory 10 hours per week.

## **RTH 290 Coordinated Practice in Respiratory Therapy: ACC/NPCC III (2 cr.)**

Provides supervised on-the-job training. Further develops critical respiratory care clinical skills and critical-thinking skills. Students rotate through several critical care units (adult pediatric and neonatal) and practice and are evaluated on advanced-level critical care skills. Students also develop skills in hemodynamic monitoring and polysomnography.

Prerequisites: Successful completion of all curriculum courses offered during the first four semesters of the AAS degree in Respiratory Therapy.  
Laboratory 10 hours per week.

## **RTH 290 Coordinated Practice in Respiratory Therapy: ACC/NPCC IV INTERNSHIP (2 cr.)**

Provides supervised on-the-job training. Further develops critical respiratory care clinical skills and critical-thinking skills. Students rotate through several critical care units (adult pediatric and neonatal) and practice and are evaluated on advanced-level critical care skills.

Prerequisites: Successful completion of all curriculum courses offered during the first five semesters of the AAS degree in Respiratory Therapy.  
Laboratory 10 hours per week.

## **RTH 290 Coordinated Practice in Respiratory Therapy: ACC/NPCC IV (2 cr.)**

## **RTH 295 Topics in Respiratory Therapy: Advanced Cardiac Life Support (1 cr.)**

Designed for health care professionals who are responsible for direct patient care. Lecture and hands-on training provide the delivery of life-saving techniques when faced with an emergency. Presents the recognition and management of life-threatening occurrences through airway stabilization rhythm recognition and pharmacologic therapy.

Prerequisites: Successful completion of all curriculum courses offered during the first three semesters of the AAS degree in Respiratory Therapy.  
Lecture 1 hour per week.

## **SAFETY(SAF)**

### **SAF 130 Industrial Safety - OSHA-10 (1 cr.)**

Presents an introduction to occupational health and safety and its application in the workplace. Emphasizes safety standards and the Occupational Safety and Health Act (OSHA) its rules and regulations (OSHA 10).  
Lecture 1 hour per week.

## **SOCIOLOGY(SOC)**

### **SOC 200 Principles of Sociology (3 cr.)**

Introduces fundamentals of social life. Presents significant research and theory in areas such as culture social structure socialization deviance social stratification and social institutions.

Prerequisite: Placement in ENG 111 or placement in Co-requisites ENG 111 and EDE 11.  
Lecture 3 hours per week.

### **SOC 211 Principles of Anthropology (3 cr.)**

Inquires into the origins development and diversification of human biology and human cultures. Includes fossil records physical origins of human development human population genetics linguistics culturesaapos; origins and variation and historical and contemporary analysis of human societies. Part I of II. This is a Passport Transfer course.  
Lecture 3 hours per week.

### **SOC 215 Sociology of the Family (3 cr.)**

Studies topics such as marriage and family in social and cultural context. Addresses the single scene dating and marriage styles child rearing husband and wife interaction single parent families and alternative lifestyles.

Prerequisite: Placement in ENG 111 or placement in Co-requisites ENG 111 and EDE 11.  
Lecture 3 hours per week.

### **SOC 268 Social Problems (3 cr.)**

Applies sociological concepts and methods to analysis of current social problems. Includes delinquency and crime mental illness drug addiction alcoholism sexual behavior population crisis race relations family and community disorganization poverty automation wars and disarmament.

Prerequisite: Placement in ENG 111 or placement in Co-requisites ENG 111 and EDE 11.  
Lecture 3 hours per week.

## **SPANISH(SPA)**

### **SPA 101 Beginning Spanish I (4 cr.)**

Introduces understanding speaking reading and writing skills and emphasizes basic Spanish sentence structure. Incorporates exposure to the arts culture and literature of the areas of the world where Spanish is spoken. Part I of II. May include an additional hour of oral drill and practice per week.  
Lecture 4 hours per week.

## **SPA 102 Beginning Spanish II (4 cr.)**

Introduces understanding speaking reading and writing skills and emphasizes basic Spanish sentence structure. Incorporates exposure to the arts culture and literature of the areas of the world where Spanish is spoken. Part II of II. May include an additional hour of oral drill and practice per week.

Prerequisite: SPA 101 or its equivalent.  
Lecture 4 hours per week.

## **SPA 107 Spanish Communication for the Hospitality Industry (1 cr.)**

Introduces students to spoken and printed Spanish commonly used and/or experienced in the hospitality industry including vocabulary colloquialisms and other concepts typical in the hospitality setting. May include one additional hour of oral practice per week.  
Lecture 1 hour per week.

## **SPA 195 Topics in Spanish: Spanish for Health Professionals (3 cr.)**

Introduces Spanish to those in the health sciences. Emphasizes oral communication and practical medical vocabulary. Presents realistic situations and the specialized vocabulary that health care professionals need to communicate with Hispanic patients in the course of their daily work. Provides students with numerous opportunities to apply in a wide variety of practical contexts the grammatical structures introduced in the corresponding lessons through personalized questions grammar exercises dialogue competition role plays and real activities. May include oral drill and practice.  
Lecture 3 hours per week.

## **SPA 201 Intermediate Spanish (3 cr.)**

Continues to develop understanding speaking reading and writing skills. Part I of II. May include an additional hour of oral drill and practice per week.

Prerequisite: SPA 102 or equivalent.  
Lecture 3 hours per week.

## **SPA 201 Intermediate Spanish (4 cr.)**

Continues to develop understanding speaking reading and writing skills. Part I of II. May include an additional hour of oral drill and practice per week.

Prerequisite: SPA 102 or equivalent.  
Lecture 4 hours per week.

## **SPA 202 Intermediate Spanish (3 cr.)**

Continues to develop understanding speaking reading and writing skills. Part II of II. May include an additional hour of oral drill and practice per week.

Prerequisite: SPA 201 or equivalent.  
Lecture 3 hours per week.

## **SPA 202 Intermediate Spanish (4 cr.)**

Continues to develop understanding speaking reading and writing skills. Part II of II. May include an additional hour of oral drill and practice per week.

Prerequisite: SPA 201 or equivalent.  
Lecture 4 hours per week.

## **STUDENT DEVELOPMENT(SDV)**

### **SDV 100 College Success Skills (1 cr.)**

Assists students in transition to college. Provides overviews of college policies procedures and curricular offerings. Encourages contacts with other students and staff. Assists students toward college success through information regarding effective study habits career and academic planning and other college resources available to students. Strongly recommended for beginning students. Required for graduation.  
Lecture 1 hour per week.

### **SDV 101 Orientation to American Sign Language and Interpreter Education (2 cr.)**

Introduces students to the skills which are necessary to achieve their academic goals to services offered at the college and to American Sign Language and interpreter education. Covers topics such as the following: services at the college the library; counseling and advising; listening test taking and study skills; learning styles; career and personal development; and topical areas which are applicable to American Sign Language and interpreter education. Explores the existence of the Deaf people who as a community share history literature customs and culture.  
Lecture 3 hours per week.

### **SDV 101 Orientation to College Mathematics (2 cr.)**

Introduces students to the skills which are necessary to achieve their academic goals to services offered at the college and to the mastery skills needed for precalculus (MTH 167). Covers topics such as services at the college including the library; counseling and advising; listening test taking and study skills; and topical areas applicable to precalculus. Topics in mathematics may include but are not limited to factoring polynomials arithmetic operations on polynomials synthetic and long division of polynomials using the rules of exponents to simplify algebraic expressions and graphing calculator usage. Emphasizes study skills and strategies specific to students in math courses. Meets SDV requirements for graduation.  
Prerequisites: A placement recommendation for MTH 167 and completion of Algebra I, Algebra II, and Geometry or equivalent.  
Lecture 2 hours per week.

### **SDV 101 Orientation to Culinary and Pastry Arts (2 cr.)**

Assists students in transition to college and the culinary and pastry arts programs. Provides overviews of college policies procedures and curricular offerings. Encourages contacts with other students and staff. Assists students toward college success through information regarding effective study habits career and academic planning and other college resources available to students. Assists students with learning basic culinary and pastry arts concepts introductory skillsets and current trends. Students needing to complete developmental studies courses in English or mathematics may take those courses concurrently with SDV 101 if approved by the program head.  
Lecture 2 hours per week.

### **SDV 101 Orientation to Culinary and Pastry Arts (1 cr.)**

Assists students in transition to college and the culinary and pastry arts programs. Provides overviews of college policies procedures and curricular offerings. Encourages contacts with other students and staff. Assists students toward college success through information on effective study habits career and academic planning and other college resources available to students. Assists students with learning basic culinary and pastry arts concepts introductory skillsets and current trends. Students needing to complete developmental studies courses in English or mathematics may take those courses concurrently with SDV 101 if approved by the program head.  
Lecture 1 hour per week.

### **SDV 101 Orientation to Health Science (1 cr.)**

Introduces students to the skills that are necessary to achieve their academic goals to services offered at the college and to the health science program. Covers topics such as services at the college including the library; counseling and advising; listening test taking and study skills; and career opportunities in the health science field. Emphasizes study skills and strategies specific to students in health science. Introduces students to the programs and career opportunities available in the health science field. Meets SDV requirements for graduation.  
Lecture 1 hour per week.

### **SDV 101 Orientation to STEM Disciplines (1 cr.)**

Introduces students to the skills which are necessary to achieve their academic goals to services offered at the college and to STEM disciplines (science technology/computer science engineering and mathematics). Covers topics such as the following: services and resources at the college; the library; counseling and advising; listening test taking and study skills; learning styles; career and personal development; and topical areas which are applicable to the STEM disciplines.  
Lecture 1 hour per week.

## **SDV 101 Orientation to Teacher Preparation (1 cr.)**

Introduces students to the skills which are necessary to achieve their academic goals to services offered at the college and to teacher preparation. Covers topics such as the following: services and resources at the college; the library; counseling and advising; listening test taking and study skills; learning styles; career and personal development; and topical areas which are applicable to teacher preparation. Provides students an opportunity to conduct classroom observations. Lecture 2 hours per week.

## **SDV 109 Student Leadership Development (1 cr.)**

Introduces students to leadership theories and skills. Develops students' personal leadership styles. Assists students to promote leadership skills in others. Examines the outlook skills and behavior essential to successful leadership. Lecture 1 hour per week.

## **TRANSPORTATION(TRNS)**

### **TRNS 570010 VDOT: Roadway Construction and Drainage for Inspectors (Non-Credit)**

The Virginia Department of Transportation (VDOT) construction inspectors ensure the safe and sound construction of the Commonwealth's roadways. Those completing this program will have verified highly desirable and proficient skills as construction inspectors and will be ready to transition into vital roles at VDOT. Trainees participate in the program as full-time employees with a competitive benefits package. Non-Credit

### **TRNS 650002 Truck Driver Training (CDL) (Non-Credit)**

CCWA offers a quality 20-day Class A training program working with an industry leader in CDL training. This program assists graduates with job placement. Classes are offered Monday through Friday from 8am until 5pm for four weeks. Part-time classes are also available and run Saturday and Sunday from 8am until 5pm for ten weekends. Non-Credit

## **WELDING(WEL)**

### **WEL 120 Introduction to Welding (2 cr.)**

Introduces history of welding processes. Covers types of equipment and assembly of units. Stresses welding procedures such as fusion non-fusion and cutting oxyacetylene. Introduces arc welding and plasma arc cutting. Emphasizes procedures in the use of tools and equipment. Lecture 1 hour. Laboratory 3 hours. Total 4 hours per week.

### **WEL 124 Shielded Metal Arc Welding (Advanced) (3 cr.)**

Continues instruction on operation of AC and DC power sources welding polarities heats and electrodes for use in joining various metal alloys by the arc welding process. Deals with running beads butt and fillet welds in all positions. Emphasizes safety procedures. Prerequisite: WEL 120 or instructor's approval. Lecture 2 hours. Laboratory 3 hours. Total 5 hours per week.

### **WEL 126 Pipe Welding I (3 cr.)**

Teaches metal arc welding processes including the welding of pressure piping in the horizontal vertical and horizontal-fixed positions in accordance with Section IX of the ASME Code. Lecture 2 hours. Laboratory 3 hours. Total 5 hours per week.

### **WEL 141 Welder Qualification Tests I (3 cr.)**

Studies techniques and practices of testing welded joints through destructive and nondestructive testing. Lecture 2 hours. Laboratory 3 hours. Total 5 hours per week.

### **WEL 145 Welding Metallurgy (3 cr.)**

Studies steel classifications heat-treatment procedures and properties of ferrous and non-ferrous metals. Discusses techniques and practices of testing welded joints and destructive/nondestructive visual magnetic and fluorescent testing. Lecture 3 hours per week. Laboratory 1 hour per week. Total 4 hours per week.

### **WEL 150 Welding Drawing and Interpretation (2 cr.)**

Teaches fundamentals required for successful drafting as applied to the welding industry. Includes blueprint reading geometric principles of drafting and freehand sketching basic principles of orthographic projection preparation of drawings and interpretation of symbols. Lecture 2 hours per week.

### **WEL 153 Layout and Fitting for Welders (3 cr.)**

Covers the application of formulas and calculations to the proper layout and fitting of metals in welding projects. Emphasizes the use of jigs fixtures and hand tools in metal fabrication and assembly along with fabrication and safety procedures for hands-on and workplace projects. Lecture 2 hours. Laboratory 3 hours. Total 5 hours per week.

### **WEL 155 Ornamental Welding (2 cr.)**

Introduces students to basic equipment safety and processes useful in the fabrication of welded ornamental objects. Lecture 1 hour. Laboratory 3 hours. Total 4 hours per week.

### **WEL 160 Gas Metal Arc Welding (MIG and FCAW) (3 cr.)**

Introduces semi-automatic welding processes with emphasis on practical application. Includes the study of filler wires fluxes and gases. Introduces practical operations in the use of gas metal arc welding and equipment. Studies equipment operation setup safety and practice of semi-automatic welding processes. Lecture 2 hours. Laboratory 3 hours. Total 5 hours per week.

### **WEL 164 Gas Tungsten Arc Welding (GTAW), Tungsten Inert Gas (TIG) (3 cr.)**

Introduces practical operations in the use of tungsten arc welding and equipment. Studies equipment operation setup safety and practice of Gas Tungsten Arc Welding (GTAW) Tungsten Inert Gas (TIG). Lecture 2 hours. Laboratory 3 hours. Total 5 hours per week.

## VIRGINIA COMMUNITY COLLEGE SYSTEM

**Glenn DuBois**, Chancellor

## STATE BOARD FOR COMMUNITY COLLEGES

**Susan Tinsley Gooden**, Chair

**Edward Dalrymple, Jr.**, Vice Chair

**Glenn DuBois**, Secretary

**Nathaniel Bishop**

**Adnan Bokhari**

**David E. Broder**

**Darren Conner**

**Douglas M. Garcia**

**Peggy Layne**

**RJ Narang**

**Richard Reynolds**

**Eleanor Saslaw**

**Joseph Smiddy, M.D.**

**Senator Walter Stosch**

**Don "Robin" Sullenberger**

**Terri Thompson**

## REYNOLDS COMMUNITY COLLEGE 2020-2021 COLLEGE BOARD

**Fred Babik**, Chair

**Kathy Graziano**, Vice Chair

**Dr. Sally K. Boese**

**Stephanie Chalkley**

**Dr. Surya P. Dhakar**

**Dr. Kenneth Warren Foster**

**Dr. Stephen A. Geyer**

**John A. Manzari, M.D.**

**Joshua Mathews-Ailsworth**

**Owen M. Matthews**

**Shawn M. Nicholson**

**CAPT Richard C. Rush, USN (Ret)**

**Monica L. Smith-Callahan**

**Mary L. Studevart**

**Dr. Paula P. Pando**, President, Ex Officio

**Gerald E. Kilgore**, College Board Member Emeritus

**Mark A. Creery**, College Board Member Emeritus

## COLLEGE ADMINISTRATION President's Executive Cabinet

**Paula P. Pando**, President

**Berry, Risha R.**, Vice President of Organizational Development and Human Resources/Chief Diversity Officer

**Amelia M. Bradshaw**, Vice President of Finance and Administration and Chief Financial Officer

**Darrin G. Campen**, Vice President of Academic Affairs/Chief Academic Officer  
**M. Elizabeth Creamer**, Vice President of Workforce Development

**Elizabeth S. Littlefield**, Vice President of Institutional Advancement and Strategic Partnerships

**Terricita E. Sass**, Vice President of Enrollment Management and Student Success

**Ann M. Bushey**, Recording Secretary and Executive Assistant to the President

## President's Extended Executive Cabinet

**Paula P. Pando**, President

**Berry, Risha R.**, Vice President of Organizational Development and Human Resources/Chief Diversity Officer

**Amelia M. Bradshaw**, Vice President of Finance and Administration and Chief Financial Officer

**Darrin G. Campen**, Vice President of Academic Affairs/Chief Academic Officer

**M. Elizabeth Creamer**, Vice President of Workforce Development

**Lori Dwyer**, Associate Vice President of Academic Affairs

**Elizabeth S. Littlefield**, Vice President of Institutional Advancement and Strategic Partnerships

**Timothy W. Merrill**, Associate Vice President of Strategic Planning, Institutional Effectiveness, and Strategic Planning

**Terricita E. Sass**, Vice President of Enrollment Management and Student Success

**Joseph J. Schilling**, Director of Communications and Special Assistant to the President

**Ann M. Bushey**, Recording Secretary and Executive Assistant to the President

## REYNOLDS COMMUNITY COLLEGE

**Paula P. Pando**, President

## Vice President of Workforce Development

## Community College Workforce Alliance

**Cynthia D. Barnes**, Assistant Coordinator/Lead Instructor, CareerStart Programs

**Caleb D. LaMont**, Assistant Coordinator/Instructor for Technical Programs

**Joyce H. Lapsley**, Coordinator, Workforce Solutions

**Edward J. McGarry IV**, Coordinator, Trades and Construction

**Natalie A. Meredith**, Assistant Vice President, Contract Training and Open Enrollment

**Stephanie M. Moore**, Assistant Coordinator, EducateVA/ Career Switcher Program

**Kimberly M. Ogden**, Director, EducateVA/ Career Switcher Program

**Bruce F. Peterson**, Assistant Coordinator/Instructor for Technical Programs - CCWA

**Nina A. Sims**, Director, Marketing and Public Relations

**Wesley A. Smith**, Assistant Vice President of Workforce Credentials and Sector Strategies

**Amy N. Taloma**, Coordinator, Healthcare Programs

**Mary Jo Washko**, Director, CareerStart Programs

## Vice President of Academic Affairs/Chief Academic Officer

**Mazhar K. Anik**, Associate Dean, School of Science, Technology, Engineering and Mathematics Trades.

**Cecil J. Bracken**, Coordinator, Instructional Design and Learning Management System Administration

**Timothy J. Bronstetter**, Associate Dean, School of Humanities and Social Sciences

**Raymond A. Burton**, Dean, School of Science, Technology, Engineering, and Mathematics

**Lori J. Dwyer**, Associate Vice President, Academic Affairs

**Kristina F. Green**, Associate Dean, School of Health Professions

**Rogger N. James**, Coordinator, Emergency Medical Services Programs

**Joy C. Kolovich**, Coordinator, Nursing Programs

**Patricia P. Lawson**, Dean, School of Health Professions

**Danielle R. Leek**, Dean, Online Learning

**Pamela J. Pinkleton**, Assistant Coordinator, Nursing Retention Specialist

**Maria T. Poindexter**, Coordinator, Professional Development

**Wayne A. Riddle**, Coordinator, Dual Enrollment

**Randall J. Romich**, Coordinator, Assessment

**Bruce A. Sofinski**, Dean, School of Humanities and Social Sciences  
**TBD**, Dean School of Business and Industrial Trades

#### **Vice President of Enrollment Management and Student Success**

**Nancy E. Bailey**, Counselor, Student Accommodations and P.A.V.E.  
**Bernadette P. Battle**, Associate Dean, Advising  
**Robin C. Beale**, Counselor, Career and Engagement Services  
**Andra S. Bennett**, Counselor, Student Accommodations and Interpreting Services  
**Heather Blicher**, Coordinator, Library Services  
**Wendy M. Bolt**, Dean of Students/Title IX Officer  
**Elmer O. Campos**, Assistant Director, Admissions  
**Sherika S. Charity**, Director, Financial Aid  
**Kristine C. Dahm**, Counselor, Transfer and Engagement Services  
**Katelyn N. Eden**, Counselor, First-Year Initiatives  
**Justin M. Ellis**, Counselor, Student Life  
**Kristen A. Holt**, Counselor, Student Support Services  
**Loftan S. Hooker**, Coordinator, Library Services  
**Jonathan Lee**, Librarian, Academic Support  
**Karen M. Pettis-Walden**, Director, Admissions  
**James A. Quinn**, Assistant Director, Financial Aid  
**Lynn H. Riggs**, Reference/Information Literacy Librarian  
**Angela P. Ross**, College Registrar  
**Sarah K. Shutt**, Counselor, Retention Services  
**Curt L. Smith**, Director, Student Affairs Operations  
**Timara D.J. Tyler**, Counselor, Behavioral Intervention  
**David W. Weaver**, Electronic/Web Services Librarian  
**Mary D. Woetzel**, Reference Librarian  
**Hong Wu**, Director, Library, Information Services, and Academic Support

#### **Institutional Research**

#### **Vice President of Finance and Administration**

#### **Finance and Administration**

**Meir A. Amar**, Chief Technology Officer  
**Carla A. Green**, Accounting Manager

**Victoria Riecke**, Budget Manager  
**Michael S. Verdu**, Director, Facilities Management and Planning

#### **Vice President of Institutional Advancement and Strategic Planning**

#### **Institutional Advancement**

**Timothy Merrill**, Associate Vice President, Strategic Planning and Institutional Effectiveness  
**Marianne S. McGhee**, Director, Development  
**Joseph J. Schilling**, Director, Communications and Special Assistant to the President  
**Kelly A. Smith**, Director, Marketing

#### **FACULTY 2021-2022**

**Abuzayda, Ihab A.**; Associate Professor, Information Systems Technology; B.S., Manchester College; M.S., East Tennessee State University  
**Adams, Janet L.**; Professor, Program Head, Biology; B.A., Virginia Wesleyan College; Ph.D., Virginia Commonwealth University  
**Andrews, Londo P.**; Associate Professor, Information Systems Technology; B.I.S., Virginia State University; M.S.I.S., University of Phoenix  
**Anik, Mazhar K.**; Instructor, Associate Dean, School of Science, Technology, Engineering, and Mathematics; B.S., Bowling Green State University; M.B.A., Bowling Green State University  
**Austin, Nakia C.**; C.R.T., R.R.T., R.C.P.; Professor, Program Head, Respiratory Therapy; A.A.S., Reynolds Community College; B.S., Old Dominion University; M. Ed., University of Phoenix  
**Bailey, Nancy E.**; Instructor, Counselor, Student Accommodations and P.A.V.E.; B.A., University of Virginia; M.S., University at Buffalo-The State University of New York  
**Barnes, Cynthia D.**; Assistant Professor, Assistant Coordinator/Lead Instructor for Middle College Programs; B.A., University of Hartford; M.S., Virginia Polytechnic Institute and State University  
**Bass III, Aubrey S.**; Assistant Professor, Program Head, Architectural and Engineering Technologies; B.S., University of Virginia; M.B.A., University of Virginia

**Battle, Bernadette P.**; Instructor, Associate Dean of Advising Services; B.S., Virginia State University; M.Ed., Virginia State University

**Beale, Robin C.**; Assistant Professor, Counselor, Career, Employment and Transfer Services; B.A., Hampton University; M.A., Virginia Commonwealth University

**Beamer, Michael S.**; Assistant Professor, English as a Second Language Instructor; B.A., James Madison University; M.A., University of Hawaii

**Bennett, Andra S.**; Assistant Professor, Counselor, Student Accommodations and Interpreter Services; B.S., Wingate University; M.A., University of North Carolina at Charlotte; M.P.A., University of North Carolina at Pembroke

**Bensen, Elizabeth**; Professor, English; B.S., Southern Illinois University; M.A., Southern Illinois University; Ph.D., Old Dominion University

**Berry, Risha R.**; Professor, Vice President, Organizational Development and Human Resources/Chief Diversity Officer; B.I.S., Virginia Commonwealth University; M.I.S., Virginia State University; Ph.D., Virginia Commonwealth University

**Betz, Sheila R.**; Associate Professor, Program Head, Accounting; B.S., Indiana University; M.S., Indiana University

**Blicher, Heather M.**; Assistant Professor, Coordinator, Library Services; B.A., Virginia Wesleyan College; M.L.I.S., Florida State University

**Bolt, Wendy M.**; Professor, Dean of Students and Title IX Officer; B.A., Radford University; M.A., Radford University; Ed.D., University of Kentucky

**Booker, Jewell D.**; Instructor, Mathematics Instructor; B.S., Virginia Polytechnic Institute and State University; M.S., Virginia State University

**Bracken, Cecil J.**; Associate Professor, Coordinator; Instructional Design and Learning Management System Administration; B.S., Baker College; M.A., Virginia Polytechnic Institute and State University

# REYNOLDS COMMUNITY COLLEGE

**Cherian, Benny M.;** Associate Professor, Respiratory Therapy; A.A.S., Reynolds Community College; B.S., Old Dominion University; M.H.A./Ed., University of Phoenix

**Clay, Sylvia M.;** Instructor, Program Head, Engineering; B.S., Virginia Commonwealth University; M.S., Virginia Commonwealth University

**Cobbs, C. Douglas;** Instructor, Business Administration; B.A., Bluefield State College; J.D., North Carolina Central University

**Comfort, Barbara B.;** Associate Professor, Program Head, Information Technology; B.S., Virginia Commonwealth University; M.S., Virginia Polytechnic Institute and State University

**Creamer, Mary E.;** Instructor, Vice President, Workforce Development; B.A., Christopher Newport University; M.A. Old Dominion University

**Crouch, Alan K.;** Professor, A.A.S., New River Community College; B.S., Virginia Polytechnic Institute and State University; M.S., Florida Institute of Technology; Ed.D., Walden University

**D'Andrea, Gayle A.;** Professor, Sociology; B.S., East Texas State University; M.S., East Texas State University; Ph.D., University of Virginia

**Dahm, Kristine C.;** Professor, Counselor, Transfer and Engagement Services ; B.A., Bowling Green State University; M.A., Bowling Green State University; Ph.D., University of Virginia

**Davis, Beverly B.;** Associate Professor, Marketing; B.S., Virginia Union University; M.Ed., Virginia Commonwealth University

**de Mayo, Thomas B.;** Professor, History; B.A., Guilford College; M.A., Northwestern University; Ph.D., University of Arizona

**Dunn, Brian A.;** Associate Professor, Biology; B.S., Loyola University; M.S., Virginia Commonwealth University

**Dust, Robert J.;** Associate Professor, Information Systems Technology Telecommunications; B.S., Mississippi State University; M.B.A., The College of William and Mary

**Dwyer, Lori J.;** Professor, Associate Vice President Academic Affairs; B.A., University of Wisconsin-LaCrosse; M.S., University of Wisconsin-LaCrosse; Ph.D., Old Dominion University

**Eden, Katelyn N.;** Instructor, Counselor, First-Year Initiatives; B.S., Radford University; M.S., Old Dominion University

**Ellis, Justin M.;** Assistant Professor, Counselor for Student Life; B.S., Old Dominion University; M.S., DeVry University; M.S., Concordia University

**Exline, Leah R.;** Instructor, Program Head, Opticianry; A.A.S., J. Sargeant Reynolds Community College

**Fulakis, Christos F.;** Assistant Professor, Mathematics; B.S., Virginia Polytechnic Institute and State University; M.S., Virginia Polytechnic Institute and State University; M.S., Old Dominion University

**Gerber, Rochelle N.;** Assistant Professor, Emergency Medical Services Instructor/Clinical Coordinator; B.S., Colorado State University; M.S., Mary Baldwin University

**Gray, Wendy H.;** Associate Professor, English; B.A., Ohio State University; M.B.A., Ohio State University; M.A., Longwood University

**Green, Kristina F.;** Instructor, Associate Dean, School of Health Professions; A.A.S., Reynolds Community College; B.S., Virginia Commonwealth University; M.S., Old Dominion University

**Grove, Karen A.;** Professor, Program Head, Nursing; B.A., University of Virginia; M.Ed., University of Virginia; B.S.N., University of Virginia

**Hasley, Kimberly I.;** Instructor, Mathematics; B.S., Virginia Commonwealth University; M.T., Virginia Commonwealth University

**Hitchcock, Jennifer M.;** Assistant Professor, English; B.A., Virginia Polytechnic Institute and State University; M.A., Virginia Polytechnic Institute and State University

**Holman, Christopher W.;** Instructor, Biology; B.S., Radford University; M.S., Illinois Institute of Technology

**Holt, Kristen A.;** Instructor, Counselor, Student Support Services; B.S., James Madison University; M.A., James Madison University; Ed.S., James Madison University

**Hooker, Loftan S.;** Assistant Professor, Coordinator, Library Services; B.A., Ithaca College; M.L.S., State University of New York At Buffalo

**Horelick, Samuel V.;** Assistant Professor, Mathematics; B.A., Florida Atlantic University; B.A., Florida Atlantic University; M.S., Nova Southeastern University

**Humphrey, Carrie N. H.;** Instructor, Program Head, American Sign Language and Interpreter Education; A.S., Reynolds Community College; B.S., Virginia Commonwealth University, M.A., Western Oregon University

**James, Phyllis B.;** Assistant Professor, Health Information Management; B.S., City College of New York; M.B.A., St. John's University; M.H.A., Virginia Commonwealth University

**James, Rogger N.;** Assistant Professor, Coordinator, Emergency Medical Services Program; A.S., Richard Bland College of William and Mary; B.S., Virginia Commonwealth University; M.B.A., Averett University

**Jarrell, April D.;** Assistant Professor, Nursing; A.S., Bluefield State College; B.S., Liberty University; M.S., Western Governor's University

**Jasiczek, Rachel M.;** Associate Professor, English; B.A., Virginia Polytechnic Institute and State University; M.A., Virginia Polytechnic Institute and State University; Ph.D., New Mexico State University

**Jessie, Sarah E.;** Associate Professor, Program Head, Administration of Justice; B.S., Virginia Polytechnic Institute and State University; M.S., Virginia Commonwealth University

**Johnson, Lori D.;** Associate Professor, Student Development; B.S., James Madison University; M.Ed., Virginia Commonwealth University

**Jones, Alicia B.;** Assistant Professor, Respiratory Therapy; A.A.S., Reynolds Community College; B.S., Old Dominion University; M.S.H.A., Virginia Commonwealth University

**Jones-Mitchell, Tia A.;** Assistant Professor, Nursing; B.S., Virginia Commonwealth University; M.S., Virginia Commonwealth University

**Kolovich, Joy C.;** Instructor, Coordinator, Nursing Programs; A.S., Shenandoah University; B.S.N., Old Dominion University; M.S.N., Old Dominion University

**Kuykendall, Morgan G.;** Assistant Professor, Nursing; A.A.S., John Tyler Community College; B.S., Bon Secours Memorial School of Nursing

**LaMont, Caleb D.;** Instructor, Assistant Coordinator/Instructor for VDOT Certification Programs; B.S.Ed., Indiana University of Pennsylvania; B.S., Juniata College

**Lamb, Pamela J.;** Assistant Professor, Mathematics; B.S., Virginia Commonwealth University; M.S., Virginia Commonwealth University

**Lapsley, Joyce H.;** Assistant Professor, Coordinator, Workforce Solutions; B.S., Indiana University; M.Ed., Virginia Commonwealth University

**Larue, Mary K.;** Assistant Professor, Program Head, Teacher Preparation and Early Childhood Education; B.S., University of Southwestern Louisiana; M.Ed., Virginia Commonwealth University

**Layou, Karen M.;** Professor, Geology; B.S., The Pennsylvania State University; M.S., University of Cincinnati; Ph.D., University of Georgia

**Lawson, Patricia P.;** Professor, Dean, School of Health Professions; B.S., Virginia Commonwealth University; M.S., University of Phoenix; Ph.D., Nova Southeastern University

**Lee, Jonathan A.;** Instructor, Academic Support Librarian; B.A., Virginia Commonwealth University; M.L.I.S., Wayne State University

**Leek, Danielle R.;** Professor, Dean, Online Learning; B.S., Eastern Michigan University; M.A., University of Iowa; M.B.A., Grand Valley State University; Ph.D., University of Iowa

**Levy, Donna K.;** Associate Professor, English; B.A., University of Richmond; M.A., Virginia Commonwealth University

**Lira, Jason C.;** Instructor, English; B.A., James Madison University; M.A., James Madison University

**Littlefield, Elizabeth S.;** Associate Professor, Vice President, Institutional Advancement and Strategic Planning; B.A., The College of William and Mary; M.Ed., University of Virginia

**Luchsinger III, Louis P.;** Instructor, Program Head, Automotive Technology; A.A.S., Thomas Edison State College; B.S., Thomas Edison State College

**Luthar, Sunita;** Assistant Professor, Mathematics; A.A.S., Southside Virginia Community College; B.S., Virginia State University; M.S., Virginia State University

**Lytton, Barbara T.;** Associate Professor, English; B.A., Michigan Technological University; M.A., Old Dominion University

**McGarry IV, Edward J.;** Instructor, Coordinator, Trades and Construction; B.S., Virginia Polytechnic Institute and State University

**McGhee, Marianne S.;** Assistant Professor, Director, Development; B.S., Virginia Commonwealth University; M.L.A., University of Richmond

**McIntyre, Kimberly A.;** Associate Professor, Program Head, Nursing; B.S.N., Chicago State University; M.S.N., University of Phoenix

**Melberg, Donna G.;** Assistant Professor, Program Head, Medical Laboratory Technology; B.S., Concordia College; M.S., Bemidji State University

**Meredith, Natalie A.;** Assistant Professor, Assistant Vice President, Contract Training and Open Enrollment; A.A.S., Ricks College; B.B.A., Averett University; M.B.A., Averett University

# REYNOLDS COMMUNITY COLLEGE

---

**Merrill III, Timothy W.;** Professor, Associate Vice President of Institutional Effectiveness and Strategic Planning; B.A., Miami University; M.A., The George Washington University; Ph.D., University of Virginia

**Miller, Jesse;** Associate Professor, Program Head, Culinary Arts; A.S., Johnson and Wales University; B.S., Johnson and Wales University; M.Ed., Liberty University

**Minoza, Jr., David, M.;** Associate Professor, Program Head, Dental Assisting; D.D.M., Ateneo De Davao University

**Moore, Stephanie M.;** Assistant Professor, Assistant Coordinator/Instructor, EducateVA; B.A., University of Virginia; M.T., University of Virginia

**Mott, Jr., William H.;** Associate Professor, Biology/Natural Science; B.A., Indiana University; M.S., Chicago State University; J.D., University of Toledo College of Law

**Mullins, James A.;** Professor, Visual Arts; B.S., Tennessee Technological University; M.F.A., Savannah College of Art and Design

**Neal, Karen C.;** Assistant Professor, Biology; B.S., Virginia Commonwealth University; M.S., Virginia Commonwealth University

**Smith, Kelly A.**; Assistant Professor, Director, Marketing; B.A., Marist College; M.B.A., University of Mary Washington

**Smith, Wesley A.**; Instructor, Assistant Vice President of Workforce Credentials and Sector Strategies; A.S., Reynolds Community College; B.S., University of Richmond; M.B.A., Virginia Polytechnic Institute and State University

**Sofinski, Bruce A.**; Professor, Dean, School of Humanities and Social Sciences; B.A., University of South Florida; M.A., Gallaudet University; Ph.D., University of Virginia

**Sowulewski, Stephen P.**; Professor, Program Head, Health and Physical Education; A.S., Delta College; B.S., Lake Superior State University; M.A., Central Michigan University; Ph.D., Virginia Commonwealth University

**Stern, David B.**; Associate Professor, Communications; Program Head, Liberal Arts; B.A.; Rider University; M.A., West Chester University of Pennsylvania; M.A., Duquesne University

**Stone, Lisa T.**; Associate Professor, Nursing; A.A.S., Marymount University; B.S., Marymount University; B.S.N., Old Dominion University; M.S.N., Old Dominion University

**Sullivan, Ann M.**; Professor, Program Head, Chemistry; B.S., Virginia Polytechnic Institute and State University; Ph.D., Virginia Commonwealth University

**Swadgelo, Kathryn A.**; Associate Professor, Program Head, Mathematics; B.S., The College of William and Mary; M.S., Virginia Commonwealth University

**Taloma, Amy N.**; Assistant Professor, Coordinator, Healthcare Programs; B.A., Lynchburg College; M.Ed., Virginia Commonwealth University

**Thomas, Catherine M.**; Professor, Program Head, Information Systems Technology; B.S., Virginia Commonwealth University; M.B.A., Virginia Commonwealth University

**Thomas, Christopher C.**; Professor, Program Head, Social Sciences; B.A., Arizona State University; M.A., Texas A&M University; Ph.D., Texas A&M University

**Thornton, Brenda S.**; Instructor, American Sign Language and Interpreter Education; A.A., Gallaudet University; B.A., Virginia Commonwealth University; M.A., Gallaudet University

**Tyler, Timara D.J.**; Instructor, Counselor, Behavioral Intervention; B.A., University of Virginia; M.S.Ed., Old Dominion University

**Upadhyaya, Shalini M.**; Associate Professor, Program Head, Science Education; B.S., Agra University; M.S., Agra University

**Vaughan, Michael A.**; Assistant Professor, Program Head, Welding; C.S.C., John Tyler Community College

**Vines, Otelia S.**; Professor, Biology; B.S., Morgan State University; M.S., Virginia State University; D.P.M., Temple University School

# REYNOLDS COMMUNITY COLLEGE

**Washko, Mary Jo;** Assistant Professor, Director, CareerStart Programs; B.A., University of Richmond; M.S., Virginia Commonwealth University

**Watkin, Martha A.;** Assistant Professor, English As A Second Language; B.A., Duke University; M.F.A., Virginia Commonwealth University

**Watson, Joshua N.;** Instructor, English; Program Head, English; B.A., Virginia Commonwealth University; M.A., Virginia Commonwealth University

**Watters, Sheila D.;** Associate Professor, Program Head, Business Administration/Economics; B.A., The College of William and Mary; M.B.A., Ohio State University

**Weaver II, David W.;** Instructor, Librarian, Electronic Web Services; B.S., James Madison University; M.A., University of South Florida

**Weaver, Scott W.;** Associate Professor, English; B.A., DePauw University; M.F.A., George Mason University

**Webb, Clifton E.;** Assistant Professor, Mathematics; B.S., Virginia Commonwealth University; M.S., Virginia Commonwealth University

**White, Sheryl S.;** Associate Professor, Early Childhood Education; B.S., Hampton Institute; M.Ed., Virginia State University

**Woetzel, Mary D.;** Instructor, Reference Librarian; B.A., William Patterson College; M.L.I.S., University of North Carolina

**Wofle, James D.;** Professor, Program Head, Mathematics; B.S., The Pennsylvania State University; M.Ed., The Pennsylvania State University; Ph.D., Old Dominion University

**Wright, Lawrence N.;** Professor, Biology; B.A., Virginia Wesleyan College; M.S., Virginia Commonwealth University; Ph.D., Medical College of Virginia/Virginia Commonwealth University

**Wu, Hong;** Associate Professor, Director, Library, Information Services, and Academic Support; B.A., Foreign Affairs College, China; M.L.S., Northern Illinois University; M.Ed.,

## FACULTY EMERITUS

### President Emeritus

**Gary L. Rhodes, Ed.D.**

**S. A. Burnette, Ph.D.**  
(Deceased)

### Professor Emeritus

**John N. Ambrose**  
**Barry J. Bomboy**  
**Earle D. Bottom**  
**Diane F. Brasington**  
**Susan H. Brewer**  
**Morris E. Carson, Ph.D.**  
**Stephen T. (Ty) Corbin, Ph.D.**  
**Nancy L. Daniel**  
**Cynthia D. De Riemer, Ph.D.**  
**Barbara Glenn, Ph.D.**  
**M. L. Grayson Foy, Ph.D.**  
**Joanna D. Hanks, Ed.D.**  
**Patricia H. Johnson**  
**Linda T. Lawrence**  
**Martha K. Leighty**  
**James H. Martin III, Ph.D.**  
**Deborah E. Mathews**  
**Roland E. Moore, Ed.D.**  
**Jean B. Moseley**  
**Ann M. Niculescu**  
**L. Thomas Overby, Ph.D.**  
**Carol D. B. Rodi**  
**Frances B. Stanley**  
**Barbara L. Stewart**  
**Thomas A. Varner**  
**David H. Walz**  
**Susan S. Wood, Ed.D.**  
**Julia P. Woodbury**  
**William W. Ziegler**  
**Lillian Amburgey (Deceased)**  
**Joseph A. Appiah, D.A. (Posthumously)**  
**George H. Flowers, III (Deceased)**  
**Robert T. Greene, Ph.D. (Posthumously)**  
**Robert T. Heinz, Ph.D. (Posthumously)**  
**Josephine C. Holcomb, Ph.D. (Deceased)**  
**Abdul J. Miah, Ph.D. (Deceased)**  
**Fred L. McConnell, Ph.D. (Posthumously)**  
**Rand V. Pittman (Posthumously)**  
**Hugh M. Rooney, Ed.S. (Deceased)**  
**Jo Ann E. Sherron, Ed.D. (Deceased)**  
**Fred C. Ulmer, Ed.D. (Deceased)**

## SENIOR ADJUNCT FACULTY

*The following persons have served as adjunct faculty continuously for the past five years and are listed here in recognition of their contributions to the college.*

**Abrego, Juvenal E.;** Spanish; B.A., University of Panama, Cochin, India; M.A., Longwood University

**Adeyemi, Sele;** Social Science; B.A., University of The Virgin Islands; M.A., The University of Iowa

**Aldajaei, Jamal T.;** Chemistry; Ph.D., Virginia Commonwealth University

**Alexander, Patricia S.;** Mathematics; B.S., Virginia Union University; M.Ed., Virginia State University; Ed.D., Nova University

**Allen, Martina D.;** Human Services/Student Development; B.S., Old Dominion University; M.A., Liberty University

**Amayo, Tabitha D.;** English; B.A.Ed., Egerton University, Kenya; M.A., Virginia Commonwealth University

**Amoroso, John J.;** History; B.A., Susquehanna University; M.A. Wayland Baptist University

**Anderson, Gloria J.;** Nursing; B.S.N., University of Phoenix; M.S.N. & M.H.A., University of Phoenix

**Anderson, Timothy J.;** Business/Economics; B.A., Concord University; M.B.A., Liberty University; M.S., The University of Alabama

**Anthony, Travis L.;** Biology; B.S., University of Maryland; M.S., Missouri State University

**Banerjee, Tanushree;** Chemistry; M.S., Virginia Commonwealth University

**Barnes, Thomas F.;** Culinary Arts/Program for Adult Vocational Education (P.A.V.E.); A.S., The Culinary Institute of America

**Barrett, Crystal E.;** Medical Laboratory Technology; A.A.S., Reynolds Community College; B.S., Virginia Commonwealth University

**Basso, Vonda M.;** Administration of Justice; B.S., Towson University; J.D., University of Maryland Baltimore

**Baugh, Beverly C.;** Student Development; B.A., Virginia State University; M.Ed., Virginia State University

**Berry, Paige E.;** American Sign Language and Interpretation; B.S., Virginia Commonwealth University; M.S., Virginia Commonwealth University

**Bibby, Janece C.;** Mathematics; B.S., A&T State University; M.A., Morgan State University

**Boarman, April A.;** Communication Studies and Theatre; B.A., The University of Southern Mississippi; M.S., The University of Southern Mississippi

**Boone, Chimene T.;** Student Development; B.A., State University of New York College at New Paltz; M.A., State University of New York at Stony Brook

**Branch, Latoya Z.;** Psychology; B.S., Howard University; M.S., University of Michigan

**Bridgeforth, Dionne T.;** Nursing; B.S., Virginia Commonwealth University; M.S.N., Wilmington University

**Brimm, Karen E.;** Interpretation; A.A.S., Reynolds Community College

**Brousseau, Cheryl D.;** Health and Physical Education; A.A., Brandywine Junior College; B.S., Miami University

**Brown, Aleathea S.;** Respiratory Therapy; A.A., University of Phoenix; A.A.S, J. Sargeant Reynolds Community College

**Brunson, Kennard M.;** Chemistry; B.S., Virginia Commonwealth University; M.S., Virginia Commonwealth University; Ph.D., Virginia Commonwealth University

**Buchanan, Michael W.;** Mathematics; B.S., Randolph Macon College; M.Ed., Virginia Commonwealth University

**Buckles, Charles H.;** Medical Laboratory; A.A.S., J. Sargeant Reynolds Community College

**Butler, Etta V.;** Community and Social Services; A.A.S., Reynolds Community College; B.A., Virginia Union University; M.S.W., Virginia Commonwealth University

**Cardwell, George M.;** Computer Science; B.A., University of Miami; M.A., University of Miami

**Carey, Stephen V.;** Philosophy; B.S., Kent State University; M.S., Duquesne University; M.S., University of Pittsburgh; Ph.D., Duquesne University

**Carlton, Casey L.;** Psychology; B.A., James Madison University; M.A., James Madison University

**Carruthers, Andrew G.;** Respiratory Therapy; A.A.S., Westchester Community College; B.S., Ithaca College

**Carter, Dawn S.;** Biology; B.A., University of Virginia; Ph.D., Virginia Commonwealth University

**Carter, Valerie D.;** Sociology; B.A., Adelphi University; M.Div., Virginia Union University; M.S., Virginia Commonwealth University

**Chambliss, Andrea A.;** Nursing; A.A.S., Reynolds Community College; B.S., Virginia Commonwealth University; M.S., Old Dominion University

**Chestnut, Shavonte D.;** Certified Nursing Aide; Certificate, MedSpa Careers Institute

**Christopher, Raymond K.;** Accounting; B.S., Virginia Commonwealth; M.A., Virginia Commonwealth University

**Clark, Carol J.;** Early Childhood; B.S., University of Maryland; M.A., Concordia University

**Clark, Virginia B.;** English As A Second Language; B.L.S, University of Mary Washington; B.A., University of Mary Washington; M.Ed., University of Mary Washington

**Cole, Donald J.;** Geography; B.A., University At Buffalo; B.S., University At Buffalo; M.A., University At Buffalo

**Conner, Candyce D. V.;** Psychology; B.S., Virginia State University; M.S., Virginia State University

**Cornelius, James D.;** Human Services; B.S., Empire State College; M.S.W., State University of New York At Stony Brook

**Cossaboon, Kathleen L.;** Hospitality Management; A.A.S., Kaplan University; B.S., Kaplan University

**Craddock, Tyler H.;** History; B.A., Virginia Polytechnic Institute and State University; M.A., Virginia Polytechnic Institute and State University

**Creel, Jennie L.;** English; B.S., Virginia Commonwealth University; M.Ed., Virginia Commonwealth University

**Custalow-Pearsall, Tonya D.;** Interpreter Education; B.A.F., Virginia Commonwealth University; M.A., Gallaudet University

**Daniel, Stephanie R.;** Early Childhood Education/Student Development/P.A.V.E; A.A.S., Reynolds Community College; B.I.S., Virginia Commonwealth University; M.S., Strayer University

**Daniels, Scott E.;** Philosophy; B.S., The Nebraska Wesleyan University; M.Div., Trinity Evangelical Divinity School; M.A., Trinity Evangelical Divinity School; Ph.D., The University of Tennessee, Knoxville

**Davis, Phyllis J.;** English; A.A., A.S., Reynolds Community College; B.A., University of Richmond, M.A., Virginia Commonwealth University

**Day, Marilyn R.;** Student Development/Developmental English; B.S., Virginia Commonwealth University; M.Ed., Virginia Commonwealth University

**Deloatch, Derrick D.;** Pharmacy Technician; Certificate, Virginia Commonwealth University; B.S., Virginia Commonwealth University; M.S., Virginia Commonwealth University

**Derkits, Jennifer H.;** Biology; B.S., Longwood University; M.S., Virginia Commonwealth University

**Dickerson, John W.;** Information Systems; B.S., Virginia Commonwealth University

**Dills, Steven S.;** Biology; A.B., Hope College; M.A., Western Michigan University; Ph.D., North Carolina State University

**Doddy, Sami C.;** Anatomy and Physiology; B.S., Virginia Commonwealth University; M.S., Virginia Commonwealth University

**Duah-Williams, Lucy;** Chemistry; B.S., University of Cape Coast; Ph.D., Virginia Commonwealth University

**DuLaney, Jeanne L.;** Spanish; B.A., University of Virginia; M.A., California State University

**Duncan, Spencer B.;** History; B.A., Brigham Young University; M.S., The University of Chicago

**Durrett, Lisa E.;** Psychology; B.S., Radford University; M.S., Virginia State University

**El-Ayoubi, Lemir Z.;** Medical Laboratory Technology; B.S., Old Dominion University

**Elshazley, Ezzat S. T.;** Engineering; B.S., Benha Higher Institute of Technology; Ph.D., Virginia Commonwealth University

**Epstein, David S.;** Biology/Natural Science; B.A., Adelphi University; M.A., Adelphi University; Ph.D., St. John's University

# REYNOLDS COMMUNITY COLLEGE

---

**Evans, Natasha I.;** Psychology; B.A., Virginia Polytechnic Institute and State University; M.S., Capella University
